

SENATE PASSES SALARY MEASURE AND ANTI-PASS BILL WILL BECOME LAW

The House Has a Warm Fight Over the Latter.

Hicks Attempts to Pass It Under Suspension of Rules.

Bill for County Division Safely Passes the House.

(From a Staff Correspondent.)

St. Paul, April 16.—(Special to The Herald.)—In a warm fight this morning, the house defeated an attempt by Representative Hicks of Minnesota to have the anti-pass bill put through, under suspension of the rules, and having done that, those that opposed it turned around and had the bill made a special order for this afternoon, when it will most assuredly pass, with but few negative votes. It is not effective until Jan. 1, 1908, and must go to the senate for passage before it can go to the governor for his signature.

In the meantime the senate took up the bill increasing the legislative compensation to \$500 a year, instead of \$400 every two years, and passed it by suspending the rules.

Representative Hicks made a vigorous fight to have the anti-pass bill put through under suspension of the rules, and his motion to that end lacked only one vote of success, receiving 74, when it needed 80, with 39 against. As a starter, he demanded a call of the house, and insisted that it be a real one, and that every member within reach be put on record. During the call he said he was informed that an officer of the house was asking members to duck the vote.

Representative Stokes wanted to know the name of the officer. "You'll get that when you get me" (Continued on page 5, fourth column.)

ROOSEVELT AND DIAZ

Offer to Prevent Hostile Demonstrations on Salvadorean Border.

San Salvador, April 15, Monday.—President Roosevelt has cabled President Figueroa that in accordance with statements made by President Zelaya of Nicaragua, and accepting his assurance that the war has ended, he offers, with President Diaz of Mexico, to arrange matters so that there will be no hostile agitation on the frontier between the forces of Salvador and Guatemala. President Roosevelt also says that these forces must be retired as soon as he can.

President Diaz, acting with the consent of President Figueroa, are able to give some assurances to President Zelaya of Nicaragua and President Cabrera of Guatemala. President Figueroa is disposed to personally attend a conference at Amapala, which he has been invited by President Zelaya. In order to arrange a firm basis for insuring permanent tranquility, President Roosevelt has placed the cruiser Chicago at the disposal of President Zelaya and Figueroa to make the trip to Amapala.

DECISION AGAINST THE ALTON ROAD CONFIRMED.

Chicago, April 16.—The United States court of appeals today affirmed the conviction, in the district court, of the Chicago & Alton railroad, and John M. Easton and Fred A. Wann, former officials of the line, for granting rebates.

The company and the two officials were found guilty last year, and an aggregate fine of \$40,000 was imposed by the court. The railroad was fined \$20,000, and the two officers \$10,000 each.

HAS APOPLECTIC STROKE AND CUTS HER THROAT.

Chicago, April 16.—Mrs. Sarah Albaugh, a widow, 73 years of age, living at 472 West Madison street, was found dead on the floor of her bedroom today with her throat cut. She was stricken with apoplexy while standing near the window, and fell head first through the glass, severing the jugular vein.

STORM CONTINUES AT ASHLAND, WIS.

Milwaukee, April 16.—An Evening Wisconsin special from Ashland, Wis. says: The blizzard still continues and the snow is delaying trains. Ashland is experiencing February weather and almost continuous snow the past week.

COUNSEL IN DOUBT

Conflicting Rumors as to Thaw's Future Advisors.

Question of Bail Will be Taken Up Wednesday.

New York, April 16.—Harry K. Thaw finds himself today in a rather unsettled state, legally speaking, judging from present circumstances. There is considerable speculation as to who his counsel will be at his next trial, and almost as much as to whether tentative plans to have him released on bail will be successful. It is considered significant that Daniel O'Reilly of his counsel, in having the clerk of the criminal branch of the supreme court look up in the court safe all the exhibits produced at the trial, took a step which would naturally be the part of the attorney of record. This followed a consultation between O'Reilly and the prisoner, and it is said to have been done with the prisoner's written authorization. It is also deemed significant that of all Thaw's counsel only Messrs. O'Reilly and A. Russell Peabody have visited him in the Tombs lately. Notwithstanding this and Mr. O'Reilly (Continued on page 5, third column.)

OKLAHOMA CONVENTION

Reconvenes for Purpose of Signing New State Constitution.

Guthrie, Okla., April 16.—The constitutional convention which adjourned a month ago after drafting a constitution for the proposed new state of Oklahoma, reconvened here today to finish its work by signing the engrossed document.

During the intermission it has been discovered that the convention's power is limited and the recent decision of Judge Burford of the Oklahoma supreme court, sustaining the election board's authority will force the convention to either draft an entirely new election ordinance or to ignore the order of the court.

President Murray and some of the other leading delegates will, it is said, advise the convention to disobey the injunction. It is expected that several new propositions will be submitted by delegates. It is impossible to say how long the convention will remain in session. After the constitution has been signed, it will be ready for submission to the people at the special election on Aug. 6, next.

St. Paul, April 16.—(Special to The Herald.)—While en route to Mountain Lake, Minn., to her old home with the intention of spending her last days there Mrs. Mary Teuzen of Beechlake, N. D., died suddenly in the waiting room of the Union depot at 9 o'clock this morning. Mrs. Teuzen was 80 years of age and she knew she had not much longer to live. She expressed a desire to be taken to Mountain Lake, Minn., and a son and a granddaughter volunteered to take her.

They reached St. Paul this morning at 8 o'clock and wheeled the old lady to the waiting room to await the going out of the train.

While waiting Mrs. Teuzen gave a gasp and fell back dead.

RUEF TRIAL GOES OVER TO WEDNESDAY.

San Francisco, April 16.—The trial of Abraham Ruef has been postponed until tomorrow morning when the men summoned as jurors appear in court for examination.

This afternoon the grand jury will continue its investigation of the Pacific States and Home Telephone companies cases and possibly the indictments which have been amended during the past three weeks will be voted upon.

Several new witnesses will also be called in the slot machine investigation.

The board of supervisors yesterday overruled Mayor Schmitz's veto of the resolution removing George B. Keane from his position as clerk of the board.

TAKEN ILL ON TRAIN. Chicago, April 16.—Charles Walden Plyoa of Leroy, Mich., became ill on a passenger train as it was entering this city today and died a short time afterwards in a hospital.

MRS. DONALD McLEAN, President of the Daughters of the American Revolution, Now in Session.

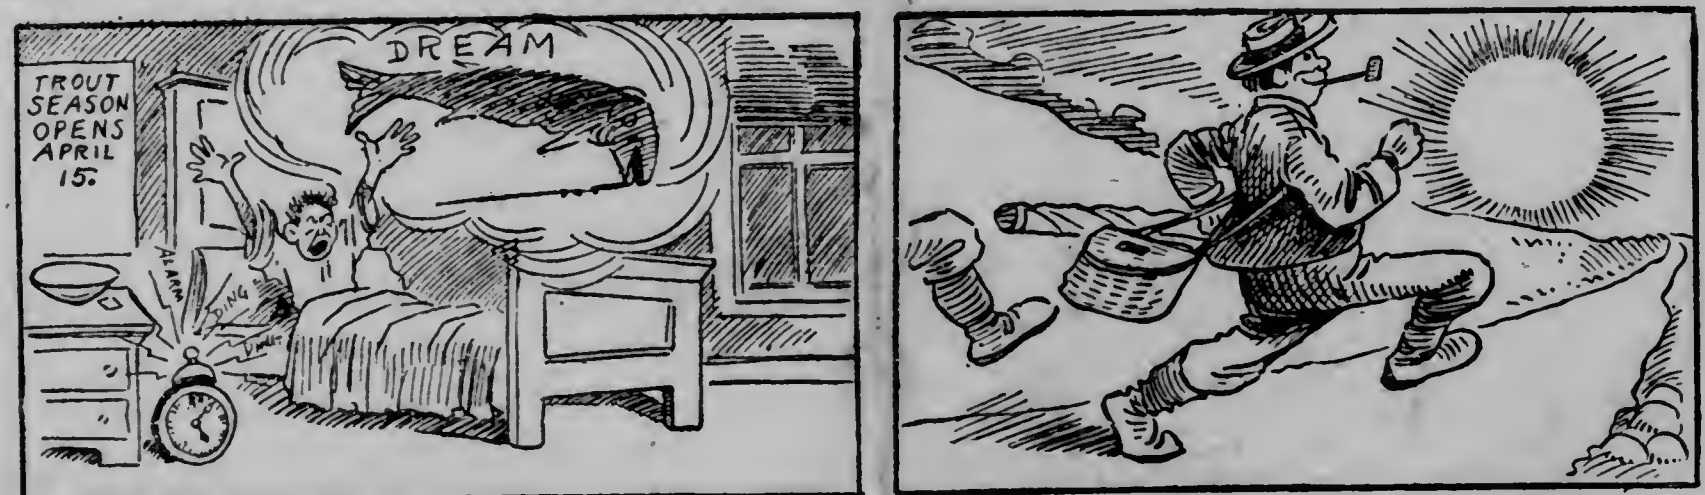

DAUGHTERS IN SESSION

Scions of American Revolution Map Out a Busy Day.

President McLean and Others Make Their Annual Reports.

Washington, April 16.—The continental congress of the Daughters of the American Revolution have mapped out for themselves a busy session for today. The first business on the program was the announcement by the president general, Mrs. Donald McLean of the committee on the recommendations of national officers. Then followed the reports of the national officers, including those of Mrs. McLean, as chairman of the national board of management; Mrs. Charlotte E. Main, the vice president general in charge of organization chapters; Mrs. Teunis H. Hamlin, the chaplain general; Miss Elizabeth P. Pierce, the recording general; Miss Virginia Miller, the corresponding secretary general; Mrs. J. S. (Continued on page 5, fourth column.)

PRESIDENT IGNORES THE REQUEST OF THE CHICAGO FEDERATION OF LABOR

GEORGE M. SHIPLEY, Appointed Chief of Police of Chicago, by Mayor Busse.

VIGOROUS PROTEST

By Philadelphia Board of Trade Against Hostile Legislation

Against Railroads, Which is Seriously Affecting the Country.

Philadelphia, April 16.—The board of trade of Philadelphia has placed itself on record as opposed to legislation inimical to railroads. The board, at its meeting yesterday, unanimously adopted a report to this effect, presented by the committee on inland transportation. The report in part says that "it is to be regretted that the criticism of the railroads and the large amount of suggested legislation, much of it hostile, should have produced the alarm among investors which is seriously curtailing the ability of the railroads to make absolutely necessary improvements. At no time in the history of the country has there been such requirement for an immediate and large increase of our transportation facilities. This is emphasized by the demands of merchants for relief from the freight congestion crippling the industries of all sections."

"While the questionable financial methods of some railroad managers have invoked merited criticism, yet there is no justification for a continuing policy prompting antagonism merely for retaliation, either by the government or the people, as the universal railway system of the country must now be regarded as the great public carrier, and absolutely necessary for the general business prosperity. While there were, and perhaps still are, many matters in corporate life, and in what are popularly termed 'trusts' that have cried for government action, it must be remembered that without corporations and kindred combinations of capital it is impossible for most of the business of the country."

RELIEF PLANS ARE ADMIRABLE

No Leakage in Famine Funds for the Starving Chinese.

Shanghai, April 16.—Investigation shows that the plans of the famine relief committee are admirable. There has been no leakage of the funds administered by foreigners. A house to house inspection has resulted in 80,000 families, totalling 500,000 famine sufferers, being enrolled by the committee, which is attempting to provide food for them, until the harvest. Additions to the list of families will be made only when the funds available justify it. Three kinds of relief tickets are issued: First, free food tickets, which are not issued unless the family has absolutely no money, food or pawnable articles, and its members too weak to work; second, where they are physically able, each member of a family is given work, to pay for food; third, the Chinese government is paying for some families 1 1/2 cents per day. Tickets are given to these families entitling them to the hatch roofs and timbers of houses are sold and families, because they had a table left, had been refused relief and, utterly discouraged, they have committed suicide.

TRIED SUICIDE. Adrian, Minn., April 16.—Joseph O'Hearn of Ellsworth attempted suicide by cutting his throat with a razor, but will recover. He had been drinking heavily.

Asking Him to Verify Reported Statement Concerning Miners

In Which He Said They Were "Undesirable Citizens."

Special Messenger Will Now be Sent to White House.

Chicago, April 16.—One week having passed since the Chicago Federation of Labor sent its telegram to President Roosevelt and no answer having been received, the officials will, at their meeting tomorrow, send a special messenger from Chicago to the White House to ask the nation's chief executive to verify the language credited to him in referring to Meyer and Haywood as "undesirable citizens."

During the past week, several sessions of the executive board have held the hope that an answer would be received from Washington and the necessity of taking further action in the matter would be averted.

Meyer and Haywood, to whom reference is made in the communication, are awaiting trial in Idaho, charged with the murder of Former Governor Steunenberg, and the trial is set for May 9.

BAD BLAZE IN BOSTON

Flames Break Out in Big Warehouse on Water Front.

Boston, April 16.—A fire of threatening proportions broke out on Central wharf shortly before 10:30 o'clock in one of the largest warehouses. A report that a large quantity of oil was stored there caused considerable excitement, and three alarms were sounded in quick succession.

The warehouse is a large stone structure standing on the junction of Central wharf and Atlantic avenue. The flames are said to have started after an explosion on the premises on the Eastern Oil company. It is reported that two men, Charles Murray and Michael Leary, are missing.

Among the occupants of the building besides the Eastern Oil company are Emery & Bemis, leaf tobacco; Borne & Scrymgeour, oil refiners and the Commonwealth Oil company.

Following the explosion, flames burst from the windows. Several drays containing cotton were set on fire. They were dragged out into Atlantic avenue and burned. Several persons who were burned by the sudden outbreak of flames were treated at the relief hospital.

At 11 o'clock it was believed that the flames were confined to the warehouse which was practically burned out. Word was sent to the humane society that fifteen horses were so badly burned that they must be killed.

Estimates of the loss aggregated about \$100,000. Both of the men reported missing were afterwards accounted for.

PREMIERS GIVEN FREEDOM OF CITY

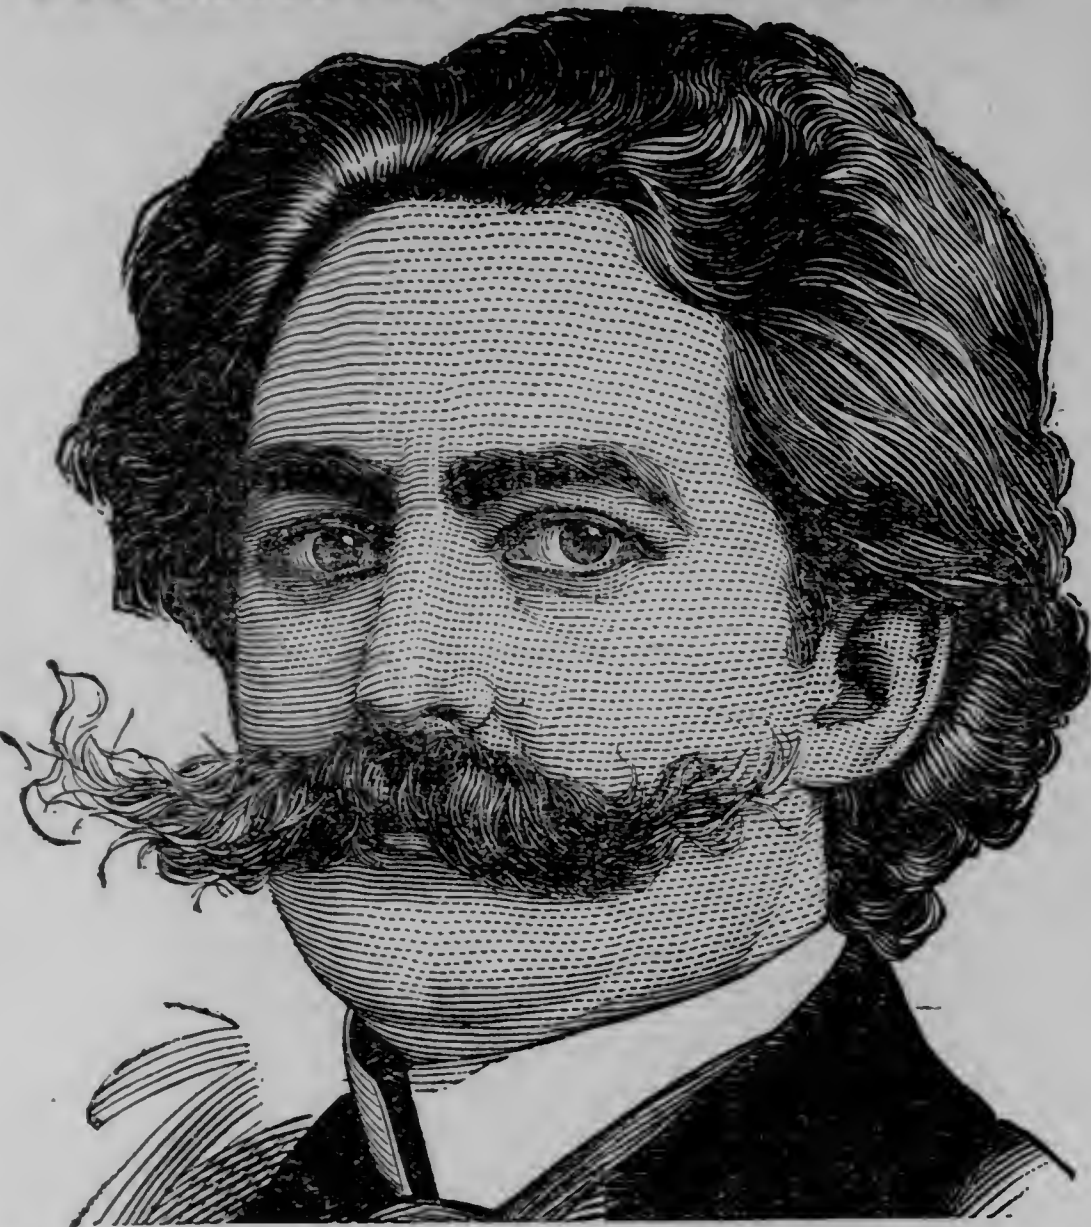

Presented With Letters-Patent Inclosed in Gold Casket.

London, April 16.—The colonial premiers were presented with the freedom of the city at the Guild hall this morning and subsequently were entertained at lunch by the lord mayor and the corporation. Each of the visitors received letters-patent as a freeman, enclosed in a gold casket. The premiers drove in procession to the Guild hall, Gen. Botha, the Transvaal premier, as "The Benjamin of the House of Representatives," Sir Wilfrid Laurier, the Canadian prime minister, and bringing up the rear. The decorations of the streets through which the procession passed were not pretentious, but the visitors received a hearty welcome from large crowds of people.

The luncheon at the Guild hall was a brilliant function. It was attended by the archbishop of Canterbury, Premier Campbell-Bannerman and other cabinet ministers; Field Marshal Lord Roberts, who joked with Gen. Botha about their experiences on the Veldt; many peers and members of the house of commons, and military and naval men in uniform. The most elaborate costumes of the Boer flag captured by the city special volunteers at Jacobsdal, which usually ornaments the banquet hall, was removed on this occasion so as not to offend Gen. Botha and his party.

CUBAN MINISTER TO THE U. S. Recommends Pe-ru-na.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban theater, Matanzas, Cuba, he said: "I have seen many audiences under the spell of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Martí. In an address to The Peruna Drug Mfg. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

CATARH OF STOMACH.—Mr. J. W. Pritchard, Columbia City, Ind., writes: "I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. But, thanks to your Peruna, I am now completely cured, and can eat anything I want without any of the distressing symptoms."

HAPPENINGS IN THE DAKOTAS

Contents of Immigrant Wagon Burned and Two Persons Injured.

NORTH DAKOTA. Steele.—While driving with his wife and two children and a load of household goods to his claim, Joseph Fargue was severely burned, his wife also badly injured and all of his goods destroyed. The day was cold and a high north wind was blowing, and in order to keep the children warm, Fargue had the stove lighted. A bad place in the road overthrew the wagon. The oil caught fire and the clothing of Mrs. Fargue and that of her 2-month-old baby were ignited. In endeavoring to save his wife and child from burning to death Fargue tore off his blazing clothing with his naked hands. Fargue's wife was severely burned, but the babe escaped without injury. As did the other child in the wagon.

Grand Forks.—Editors W. J. Anderson and H. B. Storer of the Pierce County Tribune, published at Rugby, were held to the district court on a charge of criminal libel preferred by Mayor Andy Jones. The arrests are the result of an article published last week in which the Tribune stated that the reason Rugby was not lighted at night was because Manager Tompkins would not furnish the first National bank, of which Mayor Jones is president, with electricity for charge. It was further stated that Manager Tompkins was authority for the statement.

Mayville.—Prof. Arland D. Weeks of the Valley City Normal faculty is likely to be elected to the head of the Mayville Normal for the new head of the latter institution.

Williston.—Forty women, backed by a few men, chartered Postmaster De Hoff and his partner, Dan McClellan, at Hoffington, and demanded that they be given liquor or they would tear down their place of business. Hoff wanted to defend his business, but McClellan counseled surrender, and liquor sale has ceased. They operated a general store and pool hall.

Fargo.—There will be a more general observance of the Sunday laws in this city than in any other. The custom of some of the grocers and clothing dealers to keep their stores open Sunday morning is to be stopped, and others, of keeping their stores open Sunday morning is to be stopped.

WEST DULUTH BIG BOOST IN PRICES

West Duluth Land Company Makes 33 Per Cent Raise.

Other Real Estate in West Duluth Also Higher.

Notification was received in West Duluth this morning by real estate agents that all land owned by the West Duluth Land company has been advanced in price 33 per cent or approximately that amount.

This advance in price has been under consideration by the company some time as the land has been held at a low figure for a long time and the general appreciation in the values in West Duluth has been such that it was thought best to raise the price. One of the circumstances which decided the company to make the raise was of course the prospect of the steel plant being established here during the next two years.

The West Duluth Land company owns about 500 lots and the inquiries for them during the last few weeks have been very brisk. The land owned by this company is not alone in the increase in the value of real estate in West Duluth, however, and there is a genuine boom on in all parts of the district. Lots on Central avenue and other main streets are commanding prices such as they never have before for many years.

Ex-Alderman Swenson recently received an offer for his land at Spirit Lake at the rate of \$750 an acre. This property was not valued at more than \$200 an acre. Most of the land owners in West Duluth are of the opinion that the time has come when they, however, and although there are many inquiries there have not been a great many transfers.

IMPORTANT MEETING.

County Board of A. O. H. Will Assemble at Gilley's Hall.

After the regular meeting of Division No. 4, A. O. H., is concluded this evening at Gilley's hall, there will be a meeting of the county board of the order of St. Louis county, and some important business will be transacted. The county board is made up of representatives of all the lodges of the order in the county.

The meeting of the board this evening will be the first one which has been held since the election of officers was held in December and will be an important one. County President Fred L. Ryan will be present at the meeting and will preside.

At the regular meeting of Division No. 4, the final report of the committee on the proposed new hall at the Great Eastern hall Thursday and Friday of this week will be made. It will be illustrated by the presentation of a paper on "Six Great Cities of the World." Local talent will also assist and the committee having charge of the affair will report this evening.

The local division of the order is rapidly increasing its membership since the contest was inaugurated some time ago.

Joint Meeting.
An interesting joint meeting of the West Duluth council, No. 4, Modern Woodmen of America and the Benevolent Order of Elks, will be held at Gilley's hall this evening. The business session will be held at 8 o'clock and the entertainment will be given by the Elks.

Mr. Jacoby has left the city. Mr. Beck was formerly chief messenger and this position has been filled by the election of J. Hamilton. After the business of the meeting was concluded an informal program was given followed by a dance. Refreshments were served.

Creditors Meet.
No action was taken at the meeting of the creditors of the defunct Merchants bank of West Duluth, yesterday afternoon, at 2 o'clock, when a number of those interested, it is expected that a dividend of about 10 per cent will be paid on the bank liabilities from the recent sale, making a total so far of 40 per cent. The estate of Hans J. Beck, Sr., it is believed, will be settled at 100 cents on the dollar. There will be another meeting of the creditors next Monday.

West Duluth Briefs.

Hodenpyl-Walbridge Co. Wires Acceptance at Original Figures.

Hillside and Lakeside Extension Will Be Begun Very Soon.

After a month of uncertainty word was received by City Treasurer Hodenpyl-Walbridge company of New York, that they would accept the \$345,000 of Duluth municipal bonds which they contracted to take several months ago.

This means that the long delayed hillside water and gas, and the Lakeside gas extensions will be a fact in the very near future.

It was thought that everything was fixed up in first rate shape in regard to the bonds at the first sale when the city had agreed to pay the Hodenpyl-Walbridge company a commission for the sale of the bonds to themselves, thus avoiding the provision of the ordinance which forbids the sale of municipal bonds below par. A slump in the money market made it necessary for the city to agree for the contracting company to slip out of the deal and they did so on the ground that the city had no right to pay commission for the sale of its bonds.

Since the city officials have been working hard to get a curative bill through the legislature setting aside the provision of the charter referred to in relation to this special bond issue and to permit them to be sold below par, this bill went through the legislature last week and as soon as it was passed the Hodenpyl-Walbridge people stated that they would be glad to accept the bonds at the original figures.

The first installment of \$46,000 was shipped to them today and the money is expected to be in the city treasury before the end of the month.

The second installment of \$46,000 will be taken before May 15, the third installment of equal amount to be taken on or before July 15, and the last \$100,000 will be delivered to the company and the money turned over to the treasurer Aug. 15.

The United States East Iron Pipe & Foundry company has contracted to furnish the pipe for the extensions, and was required to deliver it to their position of the contract. The contract calls for 2,400 tons of pipe to be delivered by summer, 12,000 before July 1, 6,000 before Aug. 1, and the remaining 6,000 before Oct. 1. This will be about as fast as it can be put in the ground.

The stock in store at the Head of the Lakes at the opening of navigation will be somewhat smaller than a year ago, and the receipts during the spring months are likely to be much heavier than last year.

INVENTS SAFETY MATCH.
Former Duluth Man is Responsible for Unique Firestick.

A. J. Bell, formerly superintendent of the Union Match company here and now manager of the Superior Match company of Detroit, has invented a new safety match, which bids fair to become popular with smokers and all who use matches. The match is designed to overcome the disadvantages of both the present parlor matches and safety matches. The parlor match is regarded by many as dangerous on account of its being so easily ignited by friction. The safety match in use at present will ignite only on being scratched on a patch on the box. It is thus necessary to carry a box of the matches in order to use them.

Mr. Bell's invention, which he is to call the Bellwood match, is thought to have all the advantages of safety matches, while the tail is dipped in amorphous phosphorus, the substance used on the scratching surfaces on boxing of safety matches. Thus, the user of the new match can carry them about without danger of their igniting by friction, and one match can be scratched on another. The person having only one match can break it and light it in the same manner. Mr. Bell has applied for patents and will put the match on the market as soon as the machinery can be prepared for manufacturing it.

Hodenpyl-Walbridge Co. Wires Acceptance at Original Figures.

Hillside and Lakeside Extension Will Be Begun Very Soon.

After a month of uncertainty word was received by City Treasurer Hodenpyl-Walbridge company of New York, that they would accept the \$345,000 of Duluth municipal bonds which they contracted to take several months ago.

This means that the long delayed hillside water and gas, and the Lakeside gas extensions will be a fact in the very near future.

It was thought that everything was fixed up in first rate shape in regard to the bonds at the first sale when the city had agreed to pay the Hodenpyl-Walbridge company a commission for the sale of the bonds to themselves, thus avoiding the provision of the ordinance which forbids the sale of municipal bonds below par. A slump in the money market made it necessary for the city to agree for the contracting company to slip out of the deal and they did so on the ground that the city had no right to pay commission for the sale of its bonds.

Since the city officials have been working hard to get a curative bill through the legislature setting aside the provision of the charter referred to in relation to this special bond issue and to permit them to be sold below par, this bill went through the legislature last week and as soon as it was passed the Hodenpyl-Walbridge people stated that they would be glad to accept the bonds at the original figures.

The first installment of \$46,000 was shipped to them today and the money is expected to be in the city treasury before the end of the month.

The second installment of \$46,000 will be taken before May 15, the third installment of equal amount to be taken on or before July 15, and the last \$100,000 will be delivered to the company and the money turned over to the treasurer Aug. 15.

The United States East Iron Pipe & Foundry company has contracted to furnish the pipe for the extensions, and was required to deliver it to their position of the contract. The contract calls for 2,400 tons of pipe to be delivered by summer, 12,000 before July 1, 6,000 before Aug. 1, and the remaining 6,000 before Oct. 1. This will be about as fast as it can be put in the ground.

The stock in store at the Head of the Lakes at the opening of navigation will be somewhat smaller than a year ago, and the receipts during the spring months are likely to be much heavier than last year.

"The grain rate to Buffalo is still quoted at 2 cents, and there is some little demand for tonnage at that figure."

A marvelous preparation containing the constituent elements of life, Holister's Rocky Mountain Tea, cures when all else has failed. 25 cents. Tea or Tablets. Ask your druggist.

INVENTS SAFETY MATCH.
Former Duluth Man is Responsible for Unique Firestick.

A. J. Bell, formerly superintendent of the Union Match company here and now manager of the Superior Match company of Detroit, has invented a new safety match, which bids fair to become popular with smokers and all who use matches. The match is designed to overcome the disadvantages of both the present parlor matches and safety matches. The parlor match is regarded by many as dangerous on account of its being so easily ignited by friction. The safety match in use at present will ignite only on being scratched on a patch on the box. It is thus necessary to carry a box of the matches in order to use them.

Mr. Bell's invention, which he is to call the Bellwood match, is thought to have all the advantages of safety matches, while the tail is dipped in amorphous phosphorus, the substance used on the scratching surfaces on boxing of safety matches. Thus, the user of the new match can carry them about without danger of their igniting by friction, and one match can be scratched on another. The person having only one match can break it and light it in the same manner. Mr. Bell has applied for patents and will put the match on the market as soon as the machinery can be prepared for manufacturing it.

EJECT WOMAN FROM TRAIN.

Mrs. Addie Long, D. A. R. Delegate, Creates Disturbance Over Stateroom.

Clifton Forge, Va., April 15.—Mrs. Addie Long of Indianapolis, Ind., a member of the Daughters of the American Revolution, was forcibly ejected from a Chesapeake & Ohio passenger train Sunday morning for creating a disturbance.

The conductor of the train says the woman raised a row because a stateroom had not been reserved for her.

She continued her tirade until 3 a. m., preventing the rest of the passengers getting any rest. At this point the conductor lost all forbearance and told Mrs. Long that she would have to discontinue the disturbance or be put off. The woman then lost all control of herself. The conductor, on the arrival of the train at this point called for assistance and forcibly put her off the train. She was turned over to a policeman who took her to the lockup in a patrol wagon.

MANGLED BY TRAIN.

Alden, Minn., April 16.—The train

crew on the eastbound freight was dragged about one mile east of here by a man lying near the track, who gave his name as Carl Russo. He was picked up and it was found that both legs were so mangled at the knees that it was necessary to amputate them.

TOOK FIVE SHOCKS TO KILL SEXTON.

Auburn, N. Y., April 16.—Edward Sexton, who was convicted at Canandaigua three years ago for murder of Thomas Mahoney, was electrocuted

at Auburn prison today. Five distinct convulsions were necessary before he was declared dead. Sexton went to the chair composedly. Five other men in the condemned row bade Sexton farewell last night. Included in the number was Chester Gillette, the murderer of Grace Brown, and Carlo Chiaro of Ithaca, who is to die in the chair during the week of May 20.

MIRROR MAKERS MEET.

Pittsburg, April 16.—Plate mirror manufacturers from New York, Chicago, Brooklyn, Philadelphia, Milwaukee, Shelbyville, Indiana, Erie,

Fa., and many other cities of the country, are meeting here today for the purpose of forming a national association.

HEARST SEEKS PRESIDENCY.

Bid for Nomination in Jefferson Day Speech, Politicians Think.

New York, April 16.—That William Hearst has decided to be a candidate for president was generally recognized by the politicians when they read his speech delivered at the Jefferson din-

ner. The impression is that Hearst will attempt to get the delegates to the Democratic national convention from New York, New Jersey, Illinois, Ohio, and other big states, and then attempt to starve the convention by his show of strength in the National Independence league. That Hearst regards Bryan as his real opponent for the nomination, and that he will not show any special recognition of the Nebraskan, is made clear by Hearst's departure yesterday for the Southwest, with Mr. Bryan in the city.

PERCY JANIS DISAPPEARS.

New York, April 16.—A wireless message has just been received by way of Halifax stating that Percy Janis, brother of Elsie Janis, the young star of “The Vanderbilt Cup” disappeared from the steamer Minneapolis at sea yesterday. It is believed that he either fell or jumped overboard. He was 22 years old and was on his way to London where he was to take part in the London production of “Mrs. Wiggs of the Cabbage Patch.”

SNOW IN KANSAS.

Stilina, Kas., April 16.—A light snow fell here this morning, accompanied by a cold, raw wind.

WIFE IS FREED FROM CREATURE

Bandmaster Declares Her Soul Did Not Respond to His.

New York, April 16.—Mrs. Anna Creature has at last secured freedom from the Italian bandmaster. She won out in her suit for divorce, alleging that her bandmaster husband has been too friendly with Joanna Barilli, the singer.

Two years ago Mrs. Creature filed suit in Philadelphia against the woman for damages for alienation of her husband's affections. Mrs. Barilli obtained a divorce from her husband in Philadelphia in 1904 on the ground of desertion and non-support.

In her complaint Mrs. Creature said she married Creature in Barietto, Italy, in 1888, and had come to this country six years ago. Shortly after their arrival Creature, it was alleged, deserted his wife, taking his son with him. Creature did not defend the action. Speaking of his wife, he said:

"She was incapable of understanding me or my art. Her soul did not respond to my soul. She cares not for music; I live in it and by it. You see it was all impossible."

WOMAN SAVED STRING FOR THIRTY-TWO YEARS.

Reading, Pa., April 16.—For thirty-two years Mrs. Sarah Herb of this

place has been saving the strings that have come into her home tied around store goods and winding them into a ball. The ball at present measures forty-five inches in circumference, and weighs ten pounds.

The string, if unwound, would stretch from Reading to Boyertown, a distance of eighteen miles. The solidity of the ball shows with what care the woman wrapped it. It is hard as a rock and feels like a bag of lead after being held for five minutes.

The Herb family was always small, otherwise the ball might have weighed fifty pounds or more by this time. A ball-fashioning machine could not have made the ball rounder than Mrs. Herb has done.

DEPRAVITY IN COLLEGES.

Chancellor Day Says That the Students' Morals Are Neglected.

New York, April 16.—Chancellor James Roscoe Day of Syracuse university, attacked the general run of college presidents in an address before the Episcopal church for what he styled their failure to assume responsibility for the moral welfare as well as the scholastic progress of the student.

"I need mention no names," said Chancellor Day, "but we all know of the depraved conditions and scenes of debauchery in many of our universities. While the heads of the colleges seem zealous in guiding the student along the lines of study, few there are who place morals first, I venture to say that if the college presidents would unite along the common lines of thought and action, this dissipation among the students could be wiped out in thirty days."

The Cough Cure His Great-Grandmother Used

Cure your children's coughs with the oldest and best-known cough remedy in the world—the same one their great-grandmothers used and had faith in.

DR. D. JAYNE'S EXPECTORANT

is the same today as when it was first prescribed by Dr. Jayne 77 years ago. This remedy has relieved and cured coughs so successfully for generations that it is today the standard cough cure in thousands of homes all over the world.

Don't neglect your children's coughs—don't neglect your own cough. The system is quickly weakened by a constant irritating cough, and laid open to pneumonia and other pulmonary diseases. The best time to cure a cough is right now, and the best remedy is Jayne's Expectorant.

Three sized bottles, \$1.00, 50c., 25c.

Jayne's Tonic Vermifuge is a safe cure for worms, a splendid children's remedy, and a tonic for the whole family. Jayne's Sensitive Pills is an effective liver regulator. A laxative, purgative, cathartic and stomach tonic.

SOLOMON A BLACK MAN

Negro Preacher Goes After Pitchfork Tillman With a Hammer.

Says Hamites Gathered the First Wood of Civilization.

Seattle, Wash., April 16.—Elder J. M. Webb, a negro, who created something of a sensation in a lecture here Christmas day of 1903, in which he set out to prove that Jesus Christ, the Savior of the world, was a negro, has again come out in defense of the black race and its place in history.

His latest effort, in a lecture here, was to prove that the colored man is brought forth by Senator Tillman's charge, made in his many speeches, that the race has never accomplished anything in history.

"History," says Elder Webb, "shows that my race gathered the first wood of civilization, and also struck the first match of knowledge, and kept it burning for over 2,000 years."

To the black race he ascribes the laying of the foundation of the ancient world in the vicinity of Egypt, "the land of Ham." To the inspiration of the achievements of the children of Ham he attributes what was accomplished by the seven pharaohs. For the black race he claims Solomon, whose name is the synonym for the maximum of human wisdom. "We find in the Songs of Solomon, 1, 5 and 6," says Elder Webb, "that Solomon confessed himself that he was black, and also that his daughters of Jerusalem not to look upon him, because he was black, which is to say: Do not be amazed at my black skin."

In support of this point, after quoting scripture to prove that a strain of black ran all through the line of the Israelites, from Abraham and his wife Hagar, the Egyptian, to the time of Jesus, he points out that Bathsheba, whom David married after the killing in battle of her husband, Uriah the Hittite, was a black woman, and that, therefore, her son, Solomon, the builder of the temple and the sage of all times, was half black, half white, and, therefore, more than half black.

Elder Webb carried his genealogical tracing down to the time of Jesus, quoting Isaiah II, 2-3, as saying: "Yes, his features and form were not pretty, and also: When he comes to Jesus, he points out that Bathsheba, whom David married after the killing in battle of her husband, Uriah the Hittite, was a black woman, and that, therefore, her son, Solomon, the builder of the temple and the sage of all times, was half black, half white, and, therefore, more than half black."

"As I have searched the history of all of the important races, I still have in memory what they have done during their time on the stage of action. So in defense of my race, the black people, concerning Senator D. R. Tillman's remarks that the black man has never done anything in history. Mr. Tillman is history blind, as well as I am."

"Phut and Cush remained with our father, Ham, in Africa and became the first son of Ham, and Nimrod, the fourth son of Ham, and Nimrod, the mighty hunter before the Lord, as biblical history quotes him, located in the land of Shinar, which is the lower course of the Euphrates. He founded the Babylonian kingdom and he was also the founder of the great ancient city of Nineveh. These black kingdoms were never conquered or invaded by any nation or human power until God himself conquered them. Biblical history shows how God conquered the black Egyptian and Babylonian kingdoms and also for what purpose he did it."

So this little sketch of ancient history of the black race (my people) shows that Senator B. R. Tillman was history blind when he stated in his speech at Chicago that the negro never did anything in history."

MARLBOROUGH IN POOR HEALTH

Matrimonial Troubles of the Duke Have Affected Him.

London, April 16.—Considerable alarm is felt over the condition of the duke of Marlborough. He is under the watchful care of doctors, who are afraid that there is a recurrence of the heart trouble which so seriously affected him two or three years ago.

The duke has brooded deeply over his matrimonial troubles and has been under treatment for several weeks, with trained nurses in daily attendance. The physicians have forbidden the duke's attendance at any public function, and consequently did not attend the African society's dinner, over which he should have presided. Sir Henry Johnson, the premier of Social, announced the duke was suffering from grip, but later in the night the guests learned the facts.

THREE DIMES ARE FOUND IN ALTERNATE EGGS.

Great Barrington, Mass., April 16.—Depositing a dime in every other egg they laid, Lincoln J. Higgins and established a record of 30 cents per night.

The pullets have been known as wonders to poultry fanciers of the Berkshire, but it was in the treatment of a hen with a mint attachment. Yesterday afternoon Mr. Higgins secured six eggs which his wife wished to use in cooking a dish for supper. The first egg cracked revealed a silver dime, and with a shriek Mrs. Higgins called the attention of her husband and a neighbor to the fact. A second was cracked, but was empty. SENATE PASSES SALARY MEASURE AND ANTI-PASS BILL WILL BECOME LAW

The House Has a Warm Fight Over the Latter.

Hicks Attempts to Pass It Under Suspension of Rules.

Bill for County Division Safely Passes the House.

(From a Staff Correspondent.)

St. Paul, April 16.—(Special to The Herald.)—In a warm fight this morning, the house defeated an attempt by Representative Hicks of Minnesota to have the anti-pass bill put through under suspension of the rules, and having done that, those that opposed it turned around and had the bill made a special order for this afternoon, when it will most assuredly pass, with but few negative votes. It is not effective until Jan. 1, 1908, and must go to the senate for passage before it can go to the governor for his signature.

In the meantime the senate took up the bill increasing the legislative compensation to \$500 a year, instead of \$400 every two years, and passed it by suspending the rules.

Representative Hicks made a vigorous fight to have the anti-pass bill put through under suspension of the rules, and his motion to that end lacked only one vote of success, receiving 18, when it needed 20, against. As a starter, he demanded a call of the house, and insisted that it be a real one, and that every member within reach be put on record. During the call he said he was informed that an officer of the house was asking members to duck the vote.

Representative Stokes wanted to know the name of the officer who said "You'll get that when you get me."

ROOSEVELT AND DIAZ

Offer to Prevent Hostile Demonstrations on Salvadoran Border.

San Salvador, April 15, Monday.—President Roosevelt has cabled President Figueroa that in accordance with statements made by President Zelaya of Nicaragua, and accepting his assurance that the war has ended, he offers, with President Diaz of Mexico, to arrange matters so that there will be no hostile agitation on the frontier between the forces of Salvador and Guatemala. President Roosevelt also says that these forces must be retired as soon as he and President Diaz, acting with the consent of President Figueroa, are able to give some assurance to President Zelaya of Nicaragua and President Cabrera of Guatemala. President Figueroa is disposed to personally attend a conference at Amapala, to which he has been invited by President Zelaya, in order to arrange a firm basis for insuring permanent tranquility. President Roosevelt has placed the cruiser Chicago at the disposal of Presidents Zelaya and Figueroa to make the trip to Amapala.

COUNSEL IN DOUBT

Conflicting Rumors as to Thaw's Future Advisors.

Question of Bail Will be Taken Up Wednesday.

New York, April 16.—Harry K. Thaw finds himself today in a rather unsettled state, legally speaking, judging from present circumstances. There is considerable speculation as to who his counsel will be at his next trial, and almost as much as to whether tentative plans to have him released on bail will be successful. It is considered significant that Daniel O'Reilly of his counsel, in having the clerk of the criminal branch of the supreme court lock up in the court safe all the exhibits produced at the trial, took a step which would naturally be the part of the attorney of record. This followed a consultation between O'Reilly and the prisoner, and it is said to have been done with the prisoner's written authorization. It is also deemed significant that of all Thaw's counsel only Messrs. O'Reilly and A. Russell Peabody have visited him in the Tombs lately. Notwithstanding this and Mr. O'Reilly's order of the court.

OKLAHOMA CONVENTION

Reconvenes for Purpose of Signing New State Constitution.

Guthrie, Okla., April 16.—The constitutional convention which adjourned a month ago after drafting a constitution for the proposed new state of Oklahoma, reconvened here today to finish its work by signing the engrossed document.

During the intermission it has been discovered that the convention's power is limited and the recent decision of Judge Burford of the Oklahoma supreme court, curtailing the election board's authority will force the convention to either draft an entirely new election ordinance or to ignore the order of the court.

President Murray and some of the other leading delegates will, it is said, advise the convention to disavow the injunction.

It is expected that several new propositions will be submitted by delegates. It is impossible to say how long the convention will remain in session. After the constitution has been signed, it will be ready for submission to the people at the special election on Aug. 6, next.

Scions of American Revolution Map Out a Busy Day.

President McLean and Others Make Their Annual Reports.

Washington, April 16.—The continental congress of the Daughters of the American Revolution have mapped out for themselves a busy session for today. The first business on the program was the announcement by the president general, Mrs. Donald McLean, of the committees on the board's authority of national officers, then followed the reports of the national officers, including those of Mrs. McLean, as chairman of the national board of management; Mrs. Charlotte E. Main, the vice president general in charge of organization; Mrs. Virginia Miller, the corresponding secretary general; Mrs. J. S. (Continued on page 5, fourth column.)

Time Fully Occupied From Early Forenoon to Midnight.

Prominent Women Principal Speakers in the Forenoon.

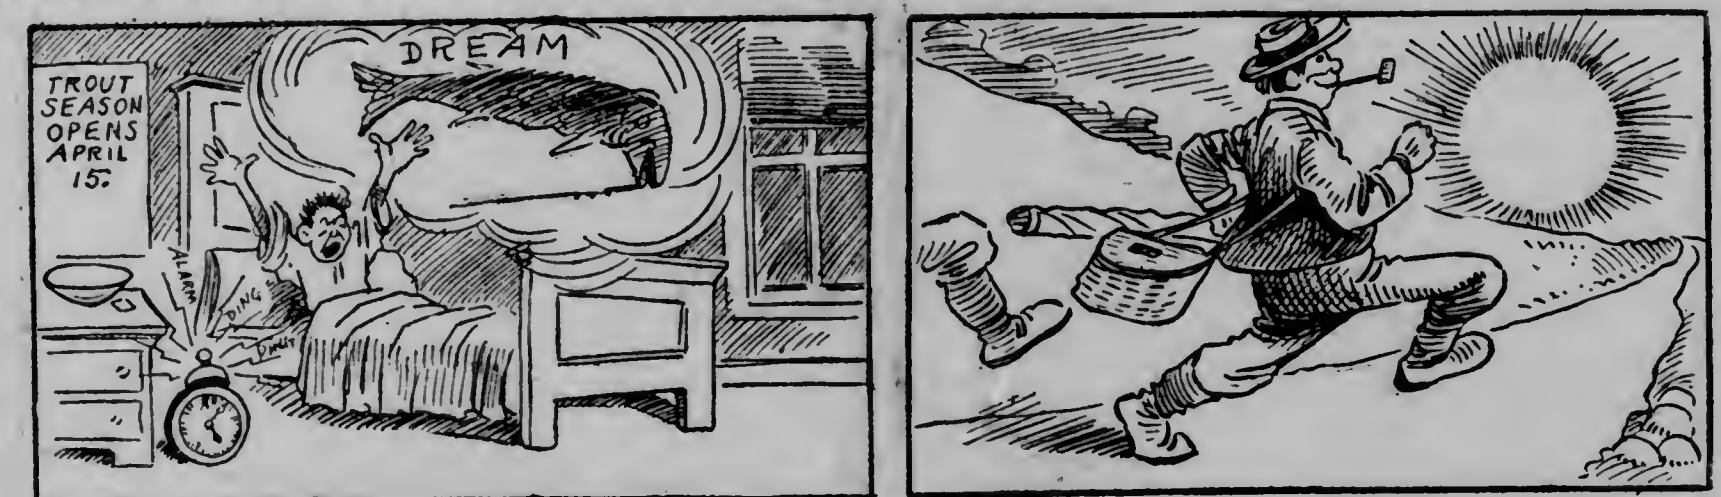

New York, April 16.—The advocates of peace who have come here from all sections of the United States and from many foreign countries to participate in the national peace congress today found a hard and long program before them. Five different meetings which promised to fill in practically every hour from early forenoon until near midnight had been arranged for today. The first of these was the forenoon meeting at Carnegie hall, where the topic was "The relation of women to the peace movement. Among the speakers at this meeting were Mrs. Mary E. Woolley, president of the Mount Holyoke college for women, who spoke on the "Educational Aspects of the Peace Propaganda"; Mrs. Ellen (Continued on page 5, third column.)

TEN AMBUSHED AND FIRED ON

One Foreigner Killed and Another Fatally Wounded.

Wheeling, W. Va., April 16.—While a party of ten Hungarians employed at the Red Bird mine three miles north of here on the Ohio side were walking along a lonely road near the village of Ryland early today, they were fired upon by ambushers. John Wyszynski was shot dead and Sam Wyszynski was fatally wounded. The others fled and secured help. When a posse reached the scene, the assailants were gone. There is no strike at Red Bird, it is said, but there is a strong prejudice among Americans against all foreigners in the neighborhood and it is believed that race trouble caused the shooting.

PRESIDENT IGNORES THE REQUEST OF THE CHICAGO FEDERATION OF LABOR

GEORGE M. SHIPLEY, Appointed Chief of Police of Chicago by Mayor Busse.

VIGOROUS PROTEST

By Philadelphia Board of Trade Against Hostile Legislation

Against Railroads, Which is Seriously Affecting the Country.

Philadelphia, April 16.—The board of trade of Philadelphia has placed itself on record as opposed to legislation inimical to railroads. The board, at its meeting yesterday, unanimously adopted a report to this effect, presented by the committee on inland transportation. The report in part says that "it is to be regretted that the criticism of the railroads and the large amount of suggested and enacted legislation, much of it hostile, should have produced the alarm among investors which is seriously curtailing the activity of the railroads to make absolutely necessary improvements. At no time in the history of the country has there been such requirement for immediate and large increase of our transportation facilities. This is emphasized by the demands of the railroads for relief from the freight congestion crippling the industries of all sections.

While the questionable financial methods of some railroad managers have invoked merited criticism, yet there is no justification for a continuing policy prompting antagonism merely for retaliation, either by the government or the people, as the universal railway system of the country must now be regarded as the great public carrier, and absolutely necessary for the general business prosperity. While there were, and perhaps still are, many matters in corporate life, and in what are popularly termed "trusts," that have cried aloud for a remedy, it must be remembered that without corporations and kindred combinations of capital it is impossible to conduct most of the business of the country.

RELIEF PLANS ARE ADMIRABLE

No Leakage in Famine Funds for the Starving Chinese.

Shanghai, April 16.—Investigation shows that the plans of the famine relief committee are admirable. There has been no leakage of the funds administered by foreigners. A house to house inspection has resulted in 90,000 families, totalling 500,000 famine sufferers, being enrolled by the committee, which is attempting to provide food for them, until the harvest. Additions to the list of families will be made only when the funds available justify it. Three kinds of relief tickets are issued: First free food tickets, which are not issued unless the family has absolutely no money, food or pawnable articles, and its members too weak to work; second, where they are physically able, each member of a family is given work, to pay for food; third, the Chinese government is paying for some families 1 1/2 cents per day. Tickets are given to these families entitling them to purchase famine supplies at cost. Four is furnished to ticket holders at the relief subcenters at stated times. Often the thatch roofs and timbers of houses are sold and families, because they had a table left, had been refused relief and, utterly discouraged, they have committed suicide.

TRIED SUICIDE. Adrian, Mich., April 16.—Joseph O'Hearn of Billworth attempted suicide by cutting his throat with a razor, but will recover. He had been drinking heavily.

Asking Him to Verify Reported Statement Concerning Miners

In Which He Said They Were "Undesirable Citizens."

Special Messenger Will Now be Sent to White House.

Chicago, April 16.—One week having passed since the Chicago Federation of Labor sent its telegram to President Roosevelt and no answer having been received, the officials will, at their meeting tomorrow, send a special messenger from Chicago to the White House to ask the nation's chief executive to verify the language credited to him in referring to Moyer and Haywood as "undesirable citizens."

During the past week, several sessions of the executive board have held the hope that an answer would be received from Washington and the necessity of taking further action in the matter would be averted.

Moyer and Haywood, to whom reference is made in the communication, are awaiting trial in Idaho, charged with the murder of Former Governor Stuenkel, and the trial is set for May 5.

BAD BLAZE IN BOSTON

Flames Break Out in Big Warehouse on Water Front.

Boston, April 16.—A fire of threatening proportions broke out on Central wharf shortly before 10:30 o'clock in one of the largest warehouses. A report that a large quantity of oil was stored there caused considerable excitement, and three alarms were sounded in quick succession.

The warehouse is a large stone structure standing on the junction of Central wharf and Atlantic avenue. The flames are said to have started after an explosion on the premises, the Eastern Oil company. It is reported that two men, Charles Murray and Michael Leary, are missing.

Among the occupants of the building besides the Eastern Oil company are Emery & Bernis, leaf tobacco; Borne & Scrymgeour, oil refiners and the Commonwealth Oil company.

Following the explosion, flames burst from the windows. Several drays containing cotton were set on fire. They were dragged out into Atlantic avenue abazee. Several persons who were burned by the sudden outbreak of flames were treated at the relief hospital.

At 11 o'clock it was believed that the flames were confined to the warehouse which was practically burned out. Word was sent to the humane society that fifteen horses were so badly burned that they must be killed.

Estimates of the loss aggregated about \$100,000. Both of the men reported missing were afterwards accounted for.

PREMIERS GIVEN FREEDOM OF CITY

Presented With Letters-Patent Inclosed in Gold Casket.

London, April 16.—The colonial premiers were presented with the freedom of the city at the Guild hall this morning and subsequently were entertained at lunch by the lord mayor and the corporation. Each of the visitors received letters-patent as a freeman, enclosed in a gold casket. The premiers drove in procession to the Guild hall, Gen. Botha, the Transvaal premier as "The Benjamin of the Brotherhood" riding with Sir Wilfrid Laurier, the Canadian prime minister, and bringing up the rear. The decorations of the streets through which the procession passed were not pretentious, but the visitors received a hearty welcome from large crowds of people.

The luncheon at the Guild hall was a brilliant function. It was attended by the archbishop of Canterbury, Premier Campbell-Bannerman and other cabinet ministers; Field Marshal Lord Roberts, who joked with Gen. Botha about their experiences on the Veldt; many peers and members of the house of commons, and military and naval men in uniform sparkling with decorations, while the women present were dressed in the most elaborate costumes. The Boer flag captured by the city special volunteers at Jacobsdale, which usually ornaments the banquet hall, was removed on this occasion so as not to offend Gen. Botha and his party.

Judges.**

Col. John S. Mosby of Virginia, who was a special agent in the land office, appointed by President McKinley during Mr. Hermann's administration, and who is now an assistant attorney in the department of justice, forwarded to the writer the letters written to him by Mr. Hermann, in 1892, commending his efforts in the investigation of the two frauds in Nebraska. These letters were not press copied, and were in fact in the form of this letter. Hermann's private correspondence did not go into the destroyed letters box.

Mr. Hermann was placed under cross-examination by the prosecution, and he was asked if he had seen a certain telegram sent from Jones of Portland, Ore., in 1901, was not.

The understand informal proclamation made before the president.

Mr. Hermann said that this telegram was in cipher, or was a tip.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Martí." In a letter to The Peru-na Drug Mfg. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

CATARRH OF STOMACH.—Mr. J. W. Pritchard, Columbia City, Ind., writes: "I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. But, thanks to your Peruna, I am now completely cured, and can eat anything I want without any of the distressing symptoms."

Contents of Immigrant Wagon Burned and Two Persons Injured.

NORTH DAKOTA. Steele.—While driving with his wife and two children and a load of household utensils to his claim, Joseph Steele was severely burned, his wife also badly injured and all of his goods destroyed. The day was cold and a high north wind was blowing, and in order to keep the children warm an oil stove was lighted. A bad place in the road overturned the stove. The oil caught fire and the clothing of Mrs. Steele and that of her 2-month-old baby were ignited. In endeavoring to save his wife and child from burning, Steele lost his life. WEST DULUTH BIG BOOST IN PRICES

West Duluth Land Company Makes 33 Per Cent Raise.

Other Real Estate in West Duluth Also Higher.

Notification was received in West Duluth this morning by real estate agents that all land owned by the West Duluth Land company has been advanced in price 33 per cent or approximately that amount.

This advance in price has been under consideration by the company for some time as the land has been held at a low figure for a long time and the general appreciation in the values in West Duluth has been such that it was thought best to raise the price. One of the circumstances which decided the company to make the raise was the fact that the prospect of the steel plant being established here during the next two years.

The West Duluth Land company owns about 500 lots and the inquiries for them during the last few weeks have been very brisk. The land owned by this company is not alone in the increase in the value of real estate in West Duluth, however, and there is a genuine boom on in all parts of the district. Lots on Central avenue and other main streets are commanding prices such as they never have before for many years.

Ex-Alderman Swenson recently received an offer for his land at Spirit Lake at the rate of \$750 an acre. A year ago this property was valued at more than \$200 an acre. Most of the land owners in West Duluth appear to be waiting for still better offers, however, and although there are many inquiries there have not been a great many transacts.

IMPORTANT MEETING.

County Board of A. O. U. W. Will Assemble at Gilley's Hall.

After the regular meeting of Division No. 4, A. O. U. W., is concluded this evening at Gilley's hall, there will be a meeting of the county board of the order of St. Louis county, and some important business will be transacted. The county board is made up of representatives of all the lodges of the order in the county. It is expected that the meeting of the board this evening will be the first one which has been held since the lodge at Spirit Lake was organized in December and will be an important one. County President Fred L. Ryan will be present at the meeting and will preside.

At the regular meeting of Division No. 4, the final arrangements for the lecture and entertainment to be held at the Great Eastern hall Thursday and Friday of this week will be made. It is expected that the lecture on "America," and on "Six Great Cities of the World." Local talent will also assist in the entertainment. The charge of the affair will report this evening.

The local division of the order is rapidly increasing its membership since the contest was inaugurated some time ago.

Joint Meeting.

An interesting joint meeting of the West Duluth council, No. 4, Modern Samaritans and the Benedictine degree was held last evening at Wade's hall. During the business session Joseph Beck was elected as vice grand master. M. Jacoby was elected as grand master. Jacoby has left the city. Mr. Beck was formerly chief messenger at the election of R. J. Hamilton. After the business of the meeting was concluded, an informal program was given followed by a dance. Refreshments were served.

Creditors Meet.

No action was taken at the meeting of the creditors of the defunct Merchants bank of West Duluth, yesterday morning, owing to the absence of a number of those interested. It is expected that a dividend of about 10 per cent will be paid on the claims of the creditors at a recent sale, making a total of 40 per cent. The estate of Hansen E. Smith will, it is believed, be settled at 100 cents on the dollar. There will be another meeting of the creditors next Monday.

RECEIPTS ARE QUITE HEAVY

Grain is Now Coming Forward Freely From West.

"There is not likely to be any let-up in receipts at the Duluth elevators until the new crop begins to come in," says a prominent grain dealer here today.

"The heavy snow storms last winter cut us out of about two million bushels of grain in the West, and there was practically no grain coming in. The result is that there is still plenty of grain in the West, which is just beginning to move forward freely now."

Receipts here at the Head of the Lakes are running very heavy, and we will probably continue to get grain from now right up to the time the new crop begins to come in. I do not expect to see much let-up this year.

The stock in store at the Head of the Lakes at the opening of navigation will be somewhat smaller than a year ago, but that will not cut much in the receipts during the spring months are likely to be much heavier than a year ago.

The grain rate to Buffalo is still quoted at 2 cents, and there is some little demand for tonnage at that figure.

INVENTS SAFETY MATCH.

Former Duluth Man is Responsible for Unique Firelock.

A. J. Bell, formerly superintendent of the Union Match company here and now manager of the Superior Match company of Detroit, has invented a new safety match, which bids fair to become popular with smokers and all who use matches. The match is designed to overcome the disadvantages of both the present parlor matches and safety matches. The parlor match is regarded by many as dangerous on account of its being so easily ignited by friction. The safety match in use at present will ignite only on being scratched on a patch on the box. It is thus necessary to carry a box of the matches in order to use them.

Mr. Bell's invention, which he is to call the Bellwood match, is thought to have all the advantages of both varieties of matches now in use, with out their disadvantages. The tips are made the same as the ordinary safety matches, while the tail is dipped in an amorphous phosphorus, the substance used on the scratching surfaces on boxing of safety matches. Thus, the user of the new match can carry them loose, without danger of their lighting by friction, and one match can be scratched on another. The person having only one match can break it and light it in the same manner. Mr. Bell has applied for patents and will put the match on the market as soon as the machinery can be prepared for manufacturing it.

Hodenpyl-Walbridge Co. Wires Acceptance at Original Figures.

Hillside and Lakeside Extension Will Be Begun Very Soon.

After a month of uncertainty word was received by City Treasurer Voss from the Hodenpyl-Walbridge company of New York, that they would accept the \$250,000 of Duluth municipal bonds which they contracted to take several months ago. This means that the long delayed hillside water and gas, and the Lakeside gas extension will be a fact in the very near future.

It was thought that everything was fixed up in first rate shape in regard to the bonds at the first sale when the city had agreed to pay the Hodenpyl-Walbridge company \$1,000 commission for the sale of the bonds to themselves, thus avoiding the provision of the ordinance which forbids the sale of municipal bonds below par. A situation in the money market made it temporarily very desirable for the company to slip out of the deal and they did so on the ground that the city had not paid the commission for the sale of its bonds.

Since the intimation was received the city officials have been working hard to get a curative bill through the legislature setting aside the provision of the ordinance which forbids the sale of municipal bonds below par. This bill was introduced last week and as soon as it is passed it will be sent to the governor. The Hodenpyl-Walbridge people what action had been taken, and that they would take the bonds at the original figure, with a \$1,000 discount from par.

The first installment of \$40,000 was shipped to them last week. The rest is expected to be in the city treasury before the end of the week. The next installment will be taken before May 15, the third installment of equal amount is to be on or before July 15, and the last \$100,000 will be delivered to the company and the funds turned over to the treasurer April 15.

The United States Cast Iron Pipe & Foundry Co. has contracted to furnish the pipe for the extensions, and was notified today by Manager Calkins of the city and light department that the bonds had been taken and that they were to be turned over to their portion of the contract. The contract calls for 2,000 tons of pipe to be delivered by August 1, and the remaining 6,000 tons by July 15. This will be about as fast as it can be put in the ground.

The first half of the amount contracted for, it is expected that as soon as navigation opens up and boats can get through from the lower lake ports, shipments will arrive and that the excavation can be begun. A portion of the first shipment, considerably less than 500 tons, will be used on minor extensions arranged for last year. The rest of the material will be used on account of the shortage of the material on hand.

There appears to be nothing new which could block the early completion of both the hillside and Lakeside gas extensions.

LATE DOINGS IN UPPER MICHIGAN

Tragic Death of Mail Carrier Bielenberg at Marquette.

Marquette.—Saturating his clothes with kerosene and lighting them, Maximilian Bielenberg, a mail carrier, aged 50 years, was so badly burned at his home, corner of Park and High streets, at 10:30 Saturday morning that he died at St. Luke's hospital on Sunday.

Mr. Bielenberg was alone in the lower part of the house at the time. His wife had left but a few moments before to go to a nearby telephone to summon a physician to treat her husband who had injured foot, which had been occasioning him great pain. His daughter, Irma, who was in the upper part of the house, was playing out with several other little comrades. Suddenly Mr. Bielenberg, enveloped in a sheet of flames, rushed from the building and began rolling in the snow. The children aided in extinguishing him.

The screams of the burning man and the shrieks of the children soon drew a number of the neighbors to the scene. The driver of a wagon, who happened to be passing, volunteered to remove him to the hospital, and the trip was quickly made. Dr. Younkeus was summoned, but did more than to administer an anesthetic, as the man was beyond the aid of medical skills. He died about an hour later.

Mr. Bielenberg was employed to last June one of the most trusted employees of the Marquette postoffice. He became a carrier in the spring of 1895, and during a period of service covering eleven years made a record of which any man might be proud. In June last, the large toe of Mr. Bielenberg's left foot became sore and he was compelled to give up his route. At the time he believed that his indisposition was only temporary, but the injury grew worse, and after several months of suffering he was finally taken to a Milwaukee hospital where the lower part of his foot was entirely removed.

Surviving Mr. Bielenberg are a wife, two daughters and two sons. Among the 122 candidates for degrees at Lehigh university this spring is John Herbert Farrell of Marquette, who will present a thesis on "The Geology of the Chestnut Ridge District, Near Easton, Pa."

The steamer Flant, well known in these waters, for she was operated out of Marquette a few seasons ago, was purchased from Capt. Charles Ripley of the Soo by Capt. Benjamin Lewis and others associated with him, and will be put on the Soo and Grand Marais run as soon as navigation opens. The Flant will be put on the line between these two points, and it is expected that the Flant will get the business formerly handled by the line.

Mayer Robertson last night presented the following appointment to the council. Controller, Franklin E. Bay; city attorney, George P. Brown; market keeper, Timothy Hurley; health officer, Dr. Vadnaia.

SKUNKS FARMERS' FRIENDS.

Shunned Animal Found to be Worst Foe of Grasshopper.

Washington, April 16.—Skunks are the farmers' friends, according to the biological survey of the department of agriculture, and deserve to be cultivated rather than destroyed.

The experts of this bureau have found that the skunk, shunned and avoided as it is, is the greatest grasshopper exterminator known. It takes rank with the red-headed woodpecker, the barnyard fowls and meadowlarks, in the past the skunk has been an animal regarded as worthy of the price of its pelt or its fat. Now the biological survey insists that when a farm's field is overrun with grasshoppers, all that is necessary for the farmer to do is to gather a working force of skunks and turn them loose in the infected area. The skunks will do the rest.

FIRE WRECKS NEW YORK ROLLER RINK.

New York, April 16.—Fire wrecked the roof garden and skating rink, on the top of the New York theater, early today, and it is believed that much damage was done to the Criterion theater by water, which was poured on the roof garden blaze. It was after a fight of two hours that the fire was controlled, the firemen being driven back time and time again by the heavy snow.

The damage to the New York theater is placed at \$5,000, but the total damage, including that caused by water, is expected to considerably exceed that amount.

"THE COLLEGE WIDOW"

Proves to be as Popular as Ever in Duluth.

That the "College Widow" has not lost, but rather gained in popularity with Duluth theatergoers, was demonstrated last evening by the large audience that listened to the excellent production of George Ade's clever comedy at the Lyceum last evening. Clean, jolly and brimming over with fun, with a nice blending of the sentimental and the farce, the "College Widow" is pretty apt to be a favorite with Duluthers for some time to come.

The play was well staged and directed credit on the part of the stage director for Henry W. Savage, who is this season the general manager for the entertainment of American theatergoers.

As Jane Witherspoon, the college widow, Miss Irma La Plante was winning and bewitching. Halsted Thompson as Billy Bolton, the railroad worker, on account of the college widow, discovered his father's commands, and Belmont Bakeland, as Jack Larrabee, the coach, were all that could be desired. Frederick Stanton, in the role of "Silent" Murphy, the big awkward center, and Russell M. Simpson, as "Bald" Hicks, the green country boy, who blossomed out as a full-fledged "sportsman" were telling features in the comedy made, the busy under graduate, Miss Pearl Abbott, as the Bessie Tanner, the college girl, made a hit, as did Miss Mini Perry in the very laughable character of Flora T. Witherspoon.

The professional college chaperone was ably presented by Miss Florence Ayer in the role of Mrs. DuZelle. Joseph Redman played with dignity the part of Peter T. Witherspoon, President of Atwater college, and Frank LaRue, as Hiram Bolton, the railroad president and boyhood friend of the college president, fully brought out the contrast of character.

The football game was well handled, and the company, as a whole, was fully up to the high standard set in previous years.

NEW BILL AT BIJOU.

Well Balanced Program of Vaudeville Offered This Week.

Handing and Ah Sid have one of the cleverest vaudeville troupes that have been seen at the Bijou in many weeks. It is called "Fun in a Chinese Laundry" and is a combination of acrobatics, farce, and burlesque. The act comes near the close of the show and the two performers give a burlesque imitation of the other acts which have gone before. It is clever and very funny.

Les Donovans, billed as French flexible marvels, live up to the name. Their act is not entirely a new one, but the feats are accomplished so easily and gracefully, that they can hardly be called contortionists. The name flexible marvels suits them better.

Charles Orrin Cowles and Dorothy Alden have a bright and sparkling little skit, called "A One Horse Town" which has to do with a lunch counter in the railroad station of a "big town." The pair show more ability in character delineation than the ordinary vaudeville team.

Miss Olive is a very strenuous and energetic young juggler, and her act is a whirlwind performance from start to finish.

Isadore Silver stars off "When Bob White Sings in the Meadow," and the moving pictures have some good comedy films, including one known as "His Mother-in-law's Visit."

The bill is well worth seeing.

THE VIRGINIAN.
The sweet and now famous story of the love of a very superior cowboy for a pretty Vermont school teacher will again be seen in this city this week. The "Virginian" will be offered at the vaudeville theater. The dramatization faithfully follows the book, and the episode of the "scrubbed" hunter, the pot hen that tried to hatch out four sweet potatoes, the camp at Horse Thief Point, the packing of the cattle thieves and the tragic ending of Trampas, are all introduced with telling effect in this very popular play of the plains. DESTROYED BY QUAKE

The City of Chilpancingo, Mexico, Completely Wiped Out.

Chilapa, to the North-east, Also Devastated by Earthquake.

Chilpancingo, Mex., April 16.—This city has been completely destroyed by one of the most furious earthquakes that has ever visited this section. The known dead number eleven and the badly injured twenty-seven. Among the dead is the wife of Postal Inspector Leopoldo Lopez Quera, and the child, Jose Aleman, the postmaster of the city. Jose Lopez Martinez, manager of the federal telegraph office, was struck on the head by a block of stone and badly injured. The utmost panic prevails everywhere, and people are fleeing to the open country.

The earth continues to rock. Words are completing the work of destruction of the first earthquake.

The telegraph operators have installed temporary quarters in an open square, and are working with great care for some time. Word has reached here that the town of Chilapa, forty-two kilometers to the northeast, has also been completely destroyed. As yet no details have been received.

This city is the capital of the state of Guerrero, and only a few years ago was visited by an earthquake, which killed and wounded many of its inhabitants and destroyed a large part of the town. The population of the city of Chilapa is 15,000, and that of Chilpancingo is 25,000. The city is the home of the bishop of the Catholic church. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

Midway between the cities of Chilpancingo and Chilapa is located the city of Tixtla. According to the movements of the earthquake, Tixtla would be in its direct line, and if the city has escaped it has been only by a miracle.

The following message was sent to the federal telegraph office in Mexico City from Chilpancingo:

"Our boys are working in a public garden. A terrible panic prevails, as the earthquake continues to tremble at regular intervals. Send us tents that we may establish an office out in the country."

All communication with the west coast has been cut off since the movement of the first shock, and it is not known to what extent that region suffered.

Both the volcanoes of Colima and Jorullo are in this region, and the people fear that the recent eruption of the earth may cause these mountains to become more active, and to destroy much property and many lives. The inhabitants of this region are noted for their hardy warlike spirit, and for their stolid and conservative nature.

The earthquake seems to have completely unmoved them, as they have up to date lost all discretion.

COUNSEL IN DOUBT

(Continued from page 1.)

practically acting as spokesman for Thaw, it is reported that Mrs. William Thaw, having his feet burned to the bone, and that she is in a very bad way. The matter of bail for Thaw is being held in abeyance by Mr. O'Reilly. He is waiting until District Attorney Jerome returns from Lakeville, Conn., tomorrow. They are to talk the subject over, but the district attorney has already said that he will oppose any effort looking to bail for Thaw. It is probable that, failing of Justice Fitzgerald's consent to release Thaw on bail, the defense will apply to some other supreme court justice in this state.

It is stated that after District Attorney Jerome returns tomorrow and the question of bail is discussed, the entire Thaw case will be thrown into the hands of Mrs. Evelyn Nesbit Thaw, who will leave New York. The contents of the Thaw case will be given to William Thaw and his wife will go to Washington, D. C., and the district attorney will make a tour of the South. Evelyn Nesbit Thaw will continue to live at the Lorraine.

New York, April 16.—"If another trial is held it has been agreed that the same line of defense as that used in the first trial will be followed. Evelyn Thaw will tell her story again, but her testimony will be greatly strengthened by documentary evidence that was not used before."

This is the statement credited to Lawyer Daniel O'Reilly of Harry K. Thaw's counsel. It has been reported that O'Reilly would be the chief of the defense when the trial is called again, but this report has not been confirmed, and it was even stated semi-officially that none of the lawyers who officiated at the last trial had been discredited with Thaw. On the other hand, it was said that several of them had been paid the stipulated fees, and, while there would be a formal announcement of their dismissal by Thaw, they would not reappear in the case.

As to O'Reilly's reference to documentary evidence, it was said tonight that he referred to letters written to Evelyn Nesbit by Stanford White.

ITALIANS TERRORIZED.

Stabbing Affair at Kenosha Causes Talk of "Black Hand."

Kenosha, Wis., April 16.—Terror rules among the Italians of Kenosha on account of the report that a society, similar to the "Black Hand," is at work in the city. Joe Buttone, 18 years of age, is the latest alleged victim of the society. He was stabbed, it is feared, fatally, in an Italian saloon Sunday. He was given no warning, the assailant coming up on him from behind and lunging a knife into his neck.

In the afternoon there were two meetings, one at the Hotel Astor when commercial aspects of the peace movement were discussed and a Young People's meeting at Carnegie hall. Secretary of Committee and Labor Strauss was the speaker at the Hotel Astor meeting, and addresses also were delivered by Baron d'Estournelles de Constant, head of the international conciliation committee; Nahum J. Bachelder, formerly governor of New Hampshire; James W. Van Cleave, president of the National Association of Manufacturers; and others.

William T. Stead, the London editor, Baron d'Estournelles de Constant, Dr. Nabor C. Schaffer, Pennsylvania superintendent of public instruction, and Henry Bullis, Turner of the Massachusetts board of education, were among the speakers at the Young People's meeting.

The two sessions this evening will be the university meeting at Carnegie hall and a meeting at Cooper union to discuss the question of organized labor in relation to the peace movement. Representatives of Cambridge and labor men will address the respective meetings. Among the speakers at the university meeting will be Dr. John R. Ely, head of Jesus College and pro-vice chancellor of the university of Oxford, England, who will take for his subject "The Realization of the University to International Good Will." President Charles W. Eliot of Harvard, Dr. E. B. Robery, master of Gonville and Caius college and vice chancellor of the university of Cambridge, England, and Edwin D. Mead, director of other south historical work, Boston, James Duncan of Massachusetts, first vice president of the American Federation of Labor, will preside at the labor meeting.

The telegraph operators have installed temporary quarters in an open square, and are working with great care for some time. Word has reached here that the town of Chilapa, forty-two kilometers to the northeast, has also been completely destroyed. As yet no details have been received.

This city is the capital of the state of Guerrero, and only a few years ago was visited by an earthquake, which killed and wounded many of its inhabitants and destroyed a large part of the town. The population of the city of Chilapa is 15,000, and that of Chilpancingo is 25,000. The city is the home of the bishop of the Catholic church. No word has been received from the bishop's palace, and it is not known at this time whether or not he was a victim of the shock.

DAUGHTERS IN SESSION

(Continued from page 1.)

Jameson, the registrar general, and David Hicks, the treasurer, are general, and the report of the committee, consisting of the historian general, Mrs. Lillian Lockwood, and the assistant historian general, Mrs. Mary S. Lockwood, and the librarian general, Miss Aline, were read.

The morning session was concluded with the reports of the editor, Mrs. Elery M. Price Avery, the business manager, Miss Lillian Lockwood, and the magazine committee, and Mrs. Robert E. Park.

SENATE PASSES SALARY MEASURE AND ANTI-PASS BILL WILL BECOME LAW

(Continued from page 1.)

before a committee and not before," said Judge Hicks.

Representative Lennan said he did not care whether the bill passed or not, but he was not going to let one man run the house, and he thought it was time that such presumption should be checked.

Representative Hicks said that such remarks came with 11 grand men, and that he had carried the bill in his pocket for three months. Mr. Lennan denied the charge.

Judge Hicks said that Minnesota expected every man to do his duty, and that every member there had been elected to do his duty. He said that the bill hit at the root of one of the greatest evils in the country, bribery.

Representative Lennan said he would vote for the bill when the senate passed it, but he did not believe in throwing away masses upon the senate. He said that he would vote for the bill when the senate passed it, but he did not believe in throwing away masses upon the senate.

Later Representative Cass moved that the bill be advanced to the head of the calendar, and Representative Lennan then made a special order for this afternoon, which motion prevailed without objection.

SURVEY A PUZZLE.

Otter Tail County Work is Bothering the Natives.

Fergus Falls, Minn., April 16.—Surveyors are again at work on the railroad survey that was made across the town of Faddock, Gorman, Corlies, Hobart, Butler and Candor last fall, and the inhabitants are at a loss to know what their activity means.

The surveying parties came in from the East last fall, and as they cut a path several feet wide through the brush and timber it looked as if the company employing them must mean business. At that time it was supposed that they were employed by the Soo railway, and that they were running a line to Duluth, the survey connecting with the line at Aitkin in Canada township, but when the Soo began building its Duluth line from Brocton, it was supposed that the survey here would be abandoned.

The return of the surveyors indicates that such is not the case and everyone is speculating as to what line they represent. One report is that the work is being done by the Duluth, South Shore & Atlantic, and that it will run a line from Duluth to Fargo, as the survey points in that direction, but the surveyors say nothing and continue their work.

PENNSYLVANIA TO CONTEST.

It is reported that the Pennsylvania road will contest the 2-cent passenger rate law in Pennsylvania.

The law is claimed, will make a difference of at least \$260,000 in the annual revenue of the road.

JOHN FINNEGAN PASSES AWAY

One of Oldest Conductors on Duluth & Iron Range Road.

Two Harbors, Minn., April 16.—(Special to The Herald.)—John Finnegan, one of the oldest conductors on the Duluth & Iron Range, and an employee of company K, Ninth New York Volunteer cavalry, died here Saturday night and was buried today. He went to Fort Abernethy, Minn., for medical treatment, and died there.

Word has been received here that the postoffice at Mission, ten miles from here, burned Sunday, all the records and mail being destroyed. A stock of goods owned by A. F. Lavey, the postmaster, was also destroyed, together with the residence of his son-in-law, which stood near.

RAILROADS

KICK ON THE INSPECTION

Claimed Safety Appliance Law is Enforced Too Rigidly.

Railroads Will Protest to Interstate Commerce Commission.

Western railroads are said to be getting ready to complain to the interstate commerce commission of the rigor with which the safety appliance law is enforced. It is insisted by the railroad operating officials that the inspectors employed by the commission, all of whom are laymen, are doing all they can, do not use proper intelligence or judgment in their work.

The result is, the railroad men declare, that thousands of freight cars are constantly and needlessly out of service. The railroads maintain that they are in favor of all reasonable laws regarding safety in operation and that they do not want to throw any difficulties in the way of seeing that the laws are observed.

It is reported, however, that when the inspectors find unimportant defects in a car, which do not interfere with their timely operation and which might just as well be left for repair when the car is not needed, they arbitrarily compel the railroads to take it out of service.

The inspectors, on the other hand, are really in a dangerous condition, for they are needed all the time, and the roads do not want to take them out of service until they absolutely have to. The railroad officials claim the shippers are crippled as well as the railroads. The equipment of all roads, it is argued, is rapidly conforming to the requirements of the law and the enforcement of purely technical provisions with the roads are doing all they can to remedy the car shortage evil, is ill-timed.

It is pointed out also that the enforcement of the law should not be placed under the control of the labor unions. When there is hostile feeling between the unions, or any of them, and any particular railroad, it is claimed the inspectors are too strongly tempted to show the number of cars which are continually out of use owing to the alleged arbitrary rulings of the inspectors regarding the enforcement of the law.

WORLD'S CONGRESS

For Peace Suggested by Walker, Who Offers to Pay First Expenses.

New York, April 16.—Announcement is made today that John B. Walker has sent a peace congress a communication, in which he suggests a world's peace congress, and offers to defray the preliminary expenses out of his own fortune.

It is stated that Mr. Walker will push his plan to the end, regardless of the determination of the body now meeting in this city. In brief, Mr. Walker's plan provides for a congress composed of the ablest thinkers of all countries, selected for their similarity of purpose of broad comprehension of the problems of nations. The conclusions reached by such a body of men, Mr. Walker believes, would appeal to both rulers and people with a force that would in the long run prove irresistible.

At Brainerd, But Larger Part of Machinery Had Been Removed.

Brainerd, Minn., April 16.—(Special to The Herald.)—The sawmill formerly owned by the Brainerd Lumber company was destroyed by fire Sunday night. The larger part of the machinery had been removed and there was no watchman at the plant. It is said to have belonged to the Sievin-Mathieu Lumber company at the time it was destroyed. There are various estimates as to the loss. The building was probably worth \$50 to \$75,000, and the machinery therein was old and of doubtful value. It could not be replaced with new for less than \$100,000, however.

Anthony Nolan, a veteran of company K, Ninth New York Volunteer cavalry, died here Saturday night and was buried today. He went to Fort Abernethy, Minn., for medical treatment, and died there.

MOST BEAUTIFUL GIRL TO MARRY

Chicago Broker Wins Miss Marjorie Burns at Santa Barbara.

Chicago, April 15.—Chicago's most beautiful girl and richest heiress is to wed. Report of the engagement of Miss Marjorie Burns to James Moore McKay came from Santa Barbara, Cal., where both are sojourning.

The prospective marriage of this handsome young woman, who possesses wealth, beauty and culture to an extraordinary degree, supplies a climax to a romance of unusual proportions. Rumors of her engagements and stories of admirers by the score have supplied gossip for society circles for several years. Her whole life has been filled with thrilling events.

Mr. McKay, who is to become the husband of Miss Burns, is a Chicago broker and a member of a wealthy and distinguished family. He is 35 years of age.

Miss Burns, already a completely favorite in Chicago, leaped into fame which spread across the country through her selection by Sir Philip Burn-Jones, the famous English artist, as the most beautiful woman in America.

HE YELLS AND CURSES WHEN HE IS DREAMING.

Atlanta, Ga., April 15.—Because he talked too loud and blasphemously in his sleep, Buck Irbly, a telephone lineman who lives at 107 Madison street, was fined \$10 by Recorder Broyles.

The case was a very novel and unique one. Buck Irbly had been arrested at the instigation of his neighbors, who reported to the police that he could not sleep at night because Irbly kept up such loud cursing. They thought he was cursing his wife, and some of them testified that Buck's mother-in-law had said as much, but this was denied by Buck, his wife and his mother-in-law.

Anyway, Buck was hauled before the recorder. The neighbors swore about the way he cursed at night.

The wife vehemently denied that her husband had ever abused her. She said that often they thought very playful, and she would cut him with a little switch all in fun.

"It's up to you to tell me all about this trouble," said the recorder to the defendant.

"I am not guilty of abusing or cursing my wife, Irbly," replied Irbly.

"Well, what about the cursing your neighbors swear they hear every night?" the recorder inquired.

"I can explain that all right," stated Irbly. "I am a lineman, judge, and work all day writing wires for the telephone company. We linemen have to call out to each other from long distances, and we yell as loud as we can. We also have a habit of using cuss words when giving orders. I yell and cuss at my fellow workmen all day. Now, I drink a little too much sometimes, and when I go

People Who Drink Moose Brand Beer

Who are the people who drink Moose Beer? They are the merchants, mechanics, bankers, clerks, lawyers, doctors and toilers of Duluth, people in fact, from every walk in life.

These men drink Moose Beer because they enjoy it and because they have found that it thoroughly agrees with them. They drink it winter and summer because it is as satisfying a beverage at one season of the year as another.

As a class the men who drink Moose Beer are opposed to intemperance in any form. They find in this beer a mild, healthful drink, containing just enough of stimulation to satisfy the demands of a strenuous people, but not sufficient to create intoxication, unless used in unreasonable quantities.

PAYS OFF MORTGAGE

Lakeside Presbyterian Church Society Has Parsonage Paid for.

Building Fund Is Growing and Society is Prosperous.

The members of the Lakeside Presbyterian church society are well pleased over the fact that the society has just wiped out the mortgage that has been hanging over the parsonage on Cambridge street for some time past. At Easter time this year there still remained a balance of \$50 due on the mortgage. That amount has been raised since Easter Sunday and the parsonage now stands free of all incumbrances.

Announcement of the cancellation of the mortgage was made to the society by the trustees, at the annual meeting of the church, which has just been held. At the same meeting it was announced that the fund for the new church building is now approximately \$700. It is steadily growing and the society has great hope that the time will soon arrive when it can begin actual building operations.

The reports from the various auxiliary societies of the church showed it to be in a prosperous condition.

Frank Crosswell was elected chairman of the society for the coming year. William A. Hickok, clerk and Charles S. Prosser, treasurer. Benjamin E. Wells was elected trustee for the term.

The church meeting was held immediately after the society meeting, and W. E. Wells was re-elected an elder.

Rev. H. B. Sutherland is entering on the fourth year of a very successful pastorate of the church.

HOUSE NOT CLAMORING

(Continued from page 1)

That event the house membership will fall over itself to get on in favor of the bill. But if there is any way to prevent its being voted upon, the house is going to prevent it. That much is as clear as it possibly could be.

If the senate will push through the bill increasing the salaries of members of the house, and in the center stand Mr. White, '07, G. M. Gilmore, '08, L. K. Lund, '09, and R. C. Brown, '10.

Mr. White stepped forward and said: "We, the presidents of the four undergraduate classes at Harvard university, have come here tonight on behalf of the entire undergraduate body to express our sincere regret both to Mr. Harry Woodruff and his company, and to the audience of Monday night, for the demonstration on the part of some Harvard men during the performance."

He felt sure that there will not be any further such demonstrations during the engagement, and if there should be I am sure that they will not come from Harvard men.

Detachment of policemen were on hand at the theater, but their services were unnecessary. Many Harvard students were in the audience, but they all applauded the piece heartily.

A Woman Tells How to Relieve Rheumatic Pains.

I have been a great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried and can tell you how wonderfully it has worked. I can state as a single case that I am cured. Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

HUGE FEAST AT WEDDING.

200 Cakes, 500 Pounds of Meat, 16 Kegs of Beer.

Enlay City, Mich., April 15.—A large "German wedding" was celebrated last week at the home of William Werth, south of here, where the daughter was married to Herbert Schumann of this place. Over 200 guests were present and a great feast, which included 100 layer cakes, 100 other cakes, 15 pies, 200 pounds of meat, 500 pounds of beer, 16 kegs of beer and many other things. A special building was erected for dancing.

Delegate Conventions.

The Wells bill, which is practically a duplicate of the Dunn bill which the senate passed last week, governing the election of delegates to county conventions to select delegates to the state convention that nominate state officers, was recommended for passage by the house in committee of the whole yesterday afternoon. It provides for delegate elections, at which the primary election system is to be used. The bill is a compromise between the convention system and the extension of the primary election system to state officers, with a strong leaning to the convention system, which is not materially disturbed.

The house advanced to the calendar the Sargent bill, reducing the rate of interest on loans made by the state to school districts from 4 to 3 per cent.

The house approved for passage, advancing it to the calendar, the Thayer-Case-Libby automobile bill, a very drastic system of regulations intended to prevent automobiles causing accidents to persons or property.

Under a bill which the house advanced to the calendar yesterday afternoon, owners of not more than three cows, who sell milk, will not have to take out daymen's licenses. Under the old law anybody selling milk from more than one cow had to take out a license, and the house took up yesterday afternoon a senate bill increasing the number of cows allowed to be sold without a license. The bill was recommended for passage by the house in committee of the whole.

The senate yesterday afternoon passed the Thorpe bill providing for a state board of immigration and supplying it with \$25,000 as a working fund. A similar bill has been recommended for passage by the house, and is now on

the calendar with good prospect for passage.

The house advanced to the calendar the bill by Harrison White prohibiting certain classes of advertisements alleged to be indecent, and providing that all reading notices intended as advertisements shall be labeled as such. It was amended, however, so that instead of requiring newspapers and advertisers to take up valuable space by amblazoning reading notices as advertisements in large type, they may be designated as such by the word "advert" at the foot. The bill is entitled "an act to suppress fraudulent and indecent advertisements" and Representative Tighe asked the author what great moral result would follow the provision that reading notices must be labeled as advertisements. The author was unable to state.

Representative Case of Cloquet had his bill prohibiting the marriage of first cousins advanced to the calendar in the house yesterday afternoon. At present the law prohibits the marriage of first cousins, though it prohibits the marriage of persons more closely related. That amount has been raised since Easter Sunday and the parsonage now stands free of all incumbrances.

Enlarging Capitol Grounds.

The senate yesterday afternoon passed the senate bill providing for the enlargement of the capitol grounds. The appropriation of \$50,000 proposed in the bill was cut out, however, and the fund of the money is left with the finance committee, if the bill goes through.

The senate yesterday afternoon passed the Sargent bill amending the constitution to provide an educational qualification for county superintendents of schools. Senator Sargent's bill providing for the session of the legislature in pamphlet form, instead of through the newspapers, was also killed by the senate.

The house in committee of the whole killed two bills of Representative E. L. Leamon, which the house advanced to the calendar yesterday afternoon. One provided that instead of having the sheriff convey insane patients to the asylums, the asylums should send nurses to bring them to the hospitals. The other provided that each county should pay \$75 a year toward the cost of keeping each patient in the asylum. Both bills were killed by a large vote.

Under a bill by Representative John G. Leamon, which the house advanced to the calendar yesterday afternoon, every passenger elevator in the state must be equipped, if the bill becomes a law, with an automatic device for shutting the elevator doors as soon as the elevator starts moving.

The house advanced to the calendar the following bills:

By Representative Bicknell—Providing for the removal of all obstructions from the river and harbor at Duluth from any lake into the outlet thereof.

By Representative Tighe—Providing for the consolidation of land and right-of-way for waterworks purposes by cities and villages. Private ownership of waterworks shall not prevent this right, but cities and villages do not.

By Representative W. I. Nolan—Allowing communities to adopt ordinances punishing people for making false reports of crime to police officers.

By Representative W. I. Nolan—Authorizing communities to regulate the holding of meetings upon the streets.

Passed by the Senate.

The senate yesterday afternoon

By Senator Stephens—Providing that for the purpose of calculating interest, 360 days shall constitute a year.

By Senator Stephens—Relating to the garnishment of banks and to negotiable instruments of bank or made payable at a bank.

By Senator Hardy—Making the Minnesota National Guard organization conform to the Dick law.

By Senator Durmont—To prevent deception in the sale of paint.

By Senator Gunderson—Authorizing the board of control to maintain a plant at the Stillwater penitentiary for the manufacture of barbed wire, woven wire and wire nails.

By Senator Clague—Establishing a state board of visitors for public institutions.

By Senator Hall—Creating the state board of examiners for chiropractic and to legalize chiropractic and other "natural" methods of healing the sick.

The senate yesterday afternoon passed the new game and fish code, drafted by the house, with the addition of an amendment providing that hunters shall not be required to take out licenses for hunting their own counties.

One original house bill required that every hunter, resident or non-resident, must pay a fee for hunting in the state.

Governor Burke Talks.

Governor John Burke, last of North Dakota visited the legislature yesterday afternoon, and passed a pleasant quarter of an hour in each of the two houses.

He was called upon for a speech in each house, of course, and showed himself a master hand at saying pleasant things.

For instance, in the house he said that he was somewhat surprised by the splendor and magnificence of the new capitol, but upon looking over the splendor of the surroundings, and that the capitol was too good for the legislators.

"I am glad indeed to hear," he said, "that you are working in harmony with your democratic governor for the good of the state. I am glad to know that the subject of partisan politics, or the question of what political party members may belong to, does not come up at all; that you are all working together for the good of the state. It makes little difference what party is in power so long as you get legislation in the interests of the people, and so long as that legislation is enforced with equality, and so long as nobody has any advantage under the law. The great mass of the people are in favor of these lines."

Governor Burke had a very flattering reception in both houses, and his remarks were liberally applauded.

The tax commission bill, which was to have been taken up by the house as a special order yesterday afternoon, was continued to this afternoon at his station, into which the money was to be put.

"I was instructed to deliver all such money to the inspector," said he, "and I did so. They all contained money, a liquor to miners or industrial drunkards. Now, in the case of an habitual drunkard, relatives are supposed to give warning to saloonkeepers to refuse to sell to them."

Governor Johnson made his first veto of the session yesterday afternoon on the bill permitting the publication of false statements in the public papers. He did this on the ground that the theory of publishing these statements is to acquaint the public with the condition of insurance companies, and that to publish them in papers circulating only among insurance people is not in line with that idea.

STILLMAN H. BINGHAM.

A MAN LOSES HIS LEGS BY CHEWING MIRRORS.

New York, April 15.—After having swallowed swords, tacks, needles, six penny nails, broken bottles and pieces of looking glass, year after year, to the astonishment of his audience here and abroad, Albertus Pierce, the "Human Enigma," went to Bellevue in his cowboy rig to be treated for a pain in his leg.

"My stomach's all right," he said to Dr. Smith, "but my leg bothers me." The surgeon looked at some in his leg, was saying, due, probably to the poison in the mercury on the backs of the mirrors he had swallowed from time to time, which had settled in his joints.

Pierce said he was half Mexican, half Indian, and had been swallowing all kinds of weird things since he was a child in Puebla, Mex. Once when he was in Johns Hopkins hospital, Baltimore, he said the doctors X-rayed him and found needles, nails and other pieces of hardware scattered all through his body. A number of tacks had lodged in his stomach lining, and there were removed.

After several months all the junk was got out of him and he resumed his career. In Baden-Baden, Herr Dr. Pflieger threw up both hands and yelled when he looked through the "Human Enigma" at the X-ray machine. He asked Pierce to send his body for the hospital museum after his death.

"How could I?" said Pierce yesterday. "He was daffy."

The Bellevue slaps say Pierce's bones will likely all decay, or at best he is good for seven months in his cot.

THOUSANDS OF DOLLARS

Contributed by Chicago's Police Department to Campaign Fund.

Always the Custom, No Matter What Party Was in Power.

Chicago, April 16.—Chicago's police department contributed thousands of dollars to the Democratic campaign fund in the recent mayoralty campaign, and have contributed in a like manner, to whichever party was in power as long as the older officers on the force can remember, according to revelations made yesterday before the civil service commission by police officials. Among the officers who offered this testimony to the inquisitorial body were Inspectors Revere and Kelly; Capt. McWeeney and Lieut. Jenkins. Capt. McWeeney, who several days ago refused to talk on the subject, confessed freely that he had aided in the collection of large amounts of money to be used in the recent city election campaign.

According to the civil service commission, every man who engaged in the collection of the fund, even to the patrolmen who contributed, is made liable to indictment by the grand jury under the provisions of the civil service act. One of the sections in the act provides that any person disregarding any of the provisions of the law shall be fined not less than \$1,000 and may be imprisoned in the county jail for a term not to exceed six months. The commission has signified its intention to sift the matter to the bottom, but it is said will not prosecute the under officials who, it is asserted, merely carried out the commands of Chief of Police Collins.

Capt. McWeeney said that when he was commanded to subscribe to the fund, he was provided with a blank envelope, as there were men at his station, into which the money was to be put.

"I was instructed to deliver all such money to the inspector," said he, "and I did so. They all contained money, a liquor to miners or industrial drunkards. Now, in the case of an habitual drunkard, relatives are supposed to give warning to saloonkeepers to refuse to sell to them."

On hearing from the commission that their subordinate Jenkins and McWeeney had told complete stories of the assessment for the recent election Revere said that in all he collected about \$7,000 from the officers and men under him, while Kelly admitted having obtained \$2,000 from those under his charge. Both said that no lists had been kept of those who did not subscribe and that no special favors were given those who contributed to the fund. The two inspectors testified as did Jenkins and McWeeney, that it had been the custom, no matter what party was in power, to levy assessments upon the police stations. The assessments were often made in full elections when the sick man or woman takes the first dose of Hostetter's Stomach Bitters, and if given a fair chance will ultimately make them well again. Start at once. You'll find it excellent in cases of flatulency, cramps, sour stomachs, dyspepsia, indigestion, constipation, female ill or liver troubles. We guarantee it pure.

GHOSTS IN LOG CABIN.

Dayton, Ohio, April 15.—Rural residents near Weyersburg are puzzled over the mysterious rappings which are heard nightly in the log house occupied by Silas Hare and family. From the entire countryside people have gathered at night, hoping to fathom the mystery and believing that the sounds were made by human hands; but as they recur regularly every night under any and all conditions many have come to the conclusion that the house is haunted.

A current story that years ago a family named Donnelly lived in the place, but that they were driven out by the people who are now dwelling in that new world which he discovered, and to whom he gave the great watch word, "On, and on."

Penny Postage.

A bill was recently introduced to permit packages to be sent through the mails as first class matter up to four pounds, and the postage to be two cents for the first ounce and one cent extra for each additional ounce. This is the first step toward penny postage which must ultimately come. The first step toward good health is made when the sick man or woman takes the first dose of Hostetter's Stomach Bitters, and if given a fair chance will ultimately make them well again. Start at once. You'll find it excellent in cases of flatulency, cramps, sour stomachs, dyspepsia, indigestion, constipation, female ill or liver troubles. We guarantee it pure.

Both the inspectors testified that the money had been given to E. H. Roach, former commissioner of public works.

DINING CAR SERVICE

ON THE BURLINGTON

Is conducted on the popular and economical pay-only-for-what-you-order plan, the dollar-a-meal plan still in vogue on some western roads having been discarded by the Burlington some years ago.

Waiters who really "know how" serve your food neatly, quickly and with all those little extras that lend zest to the appetite, on tables decorated with cut flowers from our own greenhouses. You are invited to test Burlington dining car service next time you travel from Minneapolis to St. Paul to Chicago. Three trains every day leave Minneapolis 7:30 a.m., 7:50 p.m., 9:50 p.m. and St. Paul 8:20 a.m., 8:40 p.m. and 10:30 p.m.

Let me tell you all about our splendid service and quote your rates for your trip.

EJECT WOMAN FROM TRAIN.

Mrs. Addie Long, D. A. R. Delegate, Creates Disturbance Over Stateroom. Clifton Forge, Va., April 16.—Mrs. Addie Long of Indianapolis, Ind., a member of the Daughters of the American Revolution, was forcibly ejected from a Chesapeake & Ohio passenger train Sunday morning for creating a disturbance.

The conductor of the train says the woman raised a row because a stateroom had not been reserved for her.

She continued her tirade until 3 a. m., preventing the rest of the passengers getting any rest.

At this point the conductor lost all forbearance and told Mrs. Long that she would have to discontinue the disturbance or be put off. The woman then lost all control of herself. The conductor, on the arrival of the train at this point called for assistance and forcibly put her off the train. She was turned over to a policeman who took her to the lockup in a patrol wagon.

MANGLED BY TRAIN.

Alden, Minn., April 16.—The train

crew on the eastbound freight was flagged about one mile east of here by a man lying near the track, who gave his name as Carl Russo. He was picked up and it was found that both legs were so mangled at the knees that it was necessary to amputate them.

TOOK FIVE SHOCKS TO KILL SEXTON.

Auburn, N. Y., April 16.—Edward Sexton, who was convicted at Canandaigua three years ago for murder of Thomas Mahony, was electrocuted

at Auburn prison today. Five distinct convulsions were necessary before he was declared dead.

Sexton went to the chair composedly. Five other men in the condemned row bade Sexton farewell last night. Included in the number was Chester Gillette, the murderer of Grace Brown, and Carlo Chiaro of Ithaca who is to die in the chair during the week of May 20.

MIRROR MAKERS MEET.

Pittsburg, April 16.—Plate mirror manufacturers from New York, Chicago, Brooklyn, Philadelphia, Milwaukee, Shelbyville, Indiana, Erie,

Pa. and many other cities of the country, are meeting here today for the purpose of forming a national association.

HEARST SEEKS PRESIDENCY.

Bid for Nomination in Jefferson Day Speech, Politicians Think.

New York, April 16.—That William Hearst has decided to be a candidate for president was generally recognized by the politicians when they read his speech delivered at the Jefferson din-

ner. The impression is that Hearst will attempt to get the delegates to the Democratic national convention from New York, New Jersey, Illinois, Ohio, and other big states, and then attempt to stampede the convention by his show of strength in the National Independence league.

That Hearst regards Bryan as his real opponent for the nomination, and that he will not show any special recognition of the Nebraskan, is made clear by Hearst's departure yesterday for the Southwest, with Mr. Bryan in the city.

PERCY JANIS DISAPPEARS.

New York, April 16.—A wireless message has just been received by way of Halifax stating that Percy Janis, brother of Elsie Janis, the young star of “The Vanderbilt Cup” disappeared from the steamer Minneapolis at sea yesterday. It is believed that he either fell or jumped overboard. He was 22 years old and was on his way to London where he was to take a part in the London production of “Mrs. Wiggs of the Cabbage Patch.”

SNOW IN KANSAS.

Stilma, Kas., April 16.—A light snow fell here this morning, accompanied by a cold, raw wind.

CONCERNING WOMEN

With the coming of the spring season there is a matter that should receive feminine attention. Housecleaning and new clothes for sunny days are thoughts that are truly and greatly feminine, and they are thoughts that have demanded and commanded woman's attention from time immemorial, but it has not occurred, apparently, to anybody to suggest that woman give her attention to rainy day attire. With the dismal gloom of the spring days to come in mind it is a matter that may well receive attention.

A rainy day in itself is not an unkind blessing, but a rainy day in connection with the unlimited number of bedraggled females that one perceives must meet during the day is a thing which no plan of creation ever had in mind when it provided a rainy season. By all the laws of art and beauty every woman allowed on the street on a rainy day should have a fresh complexion and naturally curly hair, high boots and a very short skirt. She should also have a buoyant spirit and a laugh ready to bubble over at any time. There should be no sign of anybody mentioning the weather except to say "Isn't this a nice warm rain, or a nice clear atmosphere, these lovely wet days, or something equally pleasant."

One awakes upon a rainy day and rises without much thought of the weather. Preparations for the faring forth go on until it comes time to put on clean neck linen. You glance out the window. It is gray. "I guess I won't bother putting on a clean one today and I suppose that old skirt will do." The skirt goes on with the un-fresh neck thing together with an old pair of shoes and without gloves. Thus arrayed in the habiliments of poverty and age, one goes upon the day's work well prepared to make any of the things that come out of the sky. The preparation is but half done, however. You walk along in the rain pattering down around in a friendly and enticing, warm and enthusiastic, suggestive and helpful manner, and you kind of begin to yourself in spite of the solid gloves and the sagging skirt when suddenly ahead of you notice a pair of down heels and a skirt that matches your own in age and appearance. You catch up with the owner of the monstrous things and she says, "Isn't this perfectly awful. Such weather I never saw. There is absolutely no use curling your hair a day like this, and I didn't, that's all."

"Your hair would never prove an alibi," you tartly respond as you look at the straight and unbecoming and dun colored weeds which obtrude and make an unbecoming halo about her face.

Thus is the day of blueness and disgust well started and it ends, as a general thing, as it begins. The power of suggestion would work in this connection as in no other. Attired in a trim skirt, a becoming hat, well fitting boots, and neat gloves, and determined optimism, six months of Duluth April could not phase one.

This lack of rainy day attire is not confined to one class or the class who can afford but one set of outing clothes. Women who can and should afford better things, seem never to provide for a rainy day and if they knew the joy that one appreciates, they would devote their efforts to this needed reform.

G. A. R. Entertainment.

What Retail Markets Offer.

Seeds, 5 and 10 cents a package. Pie plant, 8 cents a lb. Cocoanuts, 8 and 10 cents each. Dates, 10 cents a lb. Ox tails, 2 for 15 cents. Cow's tongue, 15 cents a lb.

To have passed the age when the poking a seed into the ground, and digging it up each day for a week, to see how much it has grown, has ceased to be one of the keen pleasures of spring, is one of the hard episodes of age and experience—whatever that is. The cases of seeds that are to be found these days in the market are just exactly like the cases of seeds which have been in the market every year since the time one was sent scurrying down for something forgotten in the order book that contains the seeds is ideally separated into little cupboards, and

each one contains a different kind of seed. How many summers pass over one's head before one learns not to buy several packages of seeds simply because they are put up attractively in white envelopes, with life-like pictures on the outside, and what the seeds within will develop into. The directions sound so beautifully simple, any little plot of ground will do, even if they don't grow very many vegetables, it is such fun to watch the gradual development. Not only cost a few cents, and even if you don't plant a single vegetable, it will be worth while, and thus you cogitate until the musty may insects upon the outside of the box with "Something for you this morning" and you sadly make reply: "Yes, but I don't have a plot of ground, and a nickel's worth of lettuce."

A HORSE CHESTNUT

By Garret Knowlton.

(Copyright, 1907, by Joseph B. Bowles.)

The door of the Dennyman's house opened, and Miss Selina, sitting at her sewing in the window of the cottage opposite pushed back her spectacles and leaned forward to look across the street. Faintly at nine o'clock, Mr. and Mrs. Dennyman came out on the porch together, he coated and hatless, ready to start on his daily trip down-town, she with her white head unprotected from the sun or wind, to see him off. In pleasant weather they stood there for a little before he went away, sometimes speaking, oftener not. Speech was hardly necessary between the two, who had lived side by side for 60 years. When the honeysuckle was in blossom, she milled a spray and put it in his button-hole. She picked a thread from his sleeve or brushed his coat-collar as he lingered, and when he went, plodding slowly and painfully down the street, she watched his white head until it was lost in the distance.

And every morning of the year Miss Selina looked over and observed this little episode with as tender an interest as if the faithful old couple were a pair of young lovers. Some times she felt the tears in her eyes as she watched. Miss Selina's own hair was white, and there was a rumor that she had once expected to be married.

"My soul," cried Miss Selina, staring "He's coming out alone! He's-Josey, he's going down the street, and no sign of her anywhere! What can the matter be?"

Josey, the small assistant, ran to the window in much excitement.

"So he is!—And oh, Miss Selina! I never thought to tell you, but—I do wonder if it could be that! Sarah Bean was over here yesterday and said that when she was washing the dishes she heard Miss Dennyman talking to him and just giving it to him because he was carrying 'round a potato—a potato, Miss Selina—to cure him of his gout. Did you ever hear of such a thing? She found it in his pocket and she was just scandalized," Sarah says—declared it."

was all foolishness and superstition and wickedness, and she didn't see how a Christian man could do such a thing, and she wouldn't have anybody know it for the world she'd be so mortified, and he said he didn't care—he kinder thought it was helping him, and he was going to keep on carrying it, and—oh, Miss Selina, do you suppose it could be that?" Josey's blue eyes were as saucy as ever.

"Don't know!" sighed Miss Selina. "But I thank the Lord," she added, piously, "that I'm not one to be curious about my neighbors' affairs! Never Josey, never pry into what—Can you see whether the second-story front windows are open child? If they are shut, maybe she's sick."

"No," said Josey, peering. "They're open, and the pillows are airing on a chair."

"Then she's well, and it ain't that. I do wonder whether—Josey, if you've heard that she's been a-carrying that red ready for you to sew. And you needn't look out of the window any more."

"No," said Josey, meekly.

The day was fresh and cool. A spray of belated blossom shone white on the honeysuckle vine across the street. Miss Selina, looking up from her sewing from time to time, watched it waver and toss in the wind.

"How it must hurt!" she said irrelevantly, to herself, a sudden dimness gathering behind her spectacles. "How it must hurt! Sixty years, and then—a potato."

After dinner she put on a pair of congress gaiters instead of her soft old slippers, tied a worsted cloth over her head, and pattered gently across the street to Mrs. Dennyman's door.

"That recipe you were asking for," she explained, when the old lady opened the door, "I came across it today, and I thought I'd bring it right over."

She stepped into the little sun-parlor and sat down, but Miss Selina did not stay very long. She thought Mrs. Dennyman seemed a trifle absent-minded. They talked about apple-jelly and the prospect of a mild winter and the price of coal, and then she said goodbye, and pattered gently home again and sat down to her sewing with a tranquil, though somewhat expectant, look.

She had not been seated many minutes before the doorbell rang, with a tinkle which made her jump.

"Sit still, Josey," she said indulgently. "I'll go."

"Why, Miss Dennyman!" she cried, a

minute later, opening the door to let the old lady in. "I didn't expect you'd turn my cat loose!"

Mrs. Dennyman did not smile in answer. She stood, trembling, on the braided doormat, with her shawl over her head, like a little brown leaf, blown in by the wind.

"This is this year!" she asked with an effort, holding out a small dark object on the palm of her hand.

"Mine!" said Miss Selina, peering at it through her spectacles with mild curiosity. "Why, why, yes," she said. "It's my horse-chestnut! Where did you find it? I must have pulled it out with my pocket handkerchief when I was over to your house. Now the idea of my putting you to all that don't mislay anything, either!"

"Your—horse-chestnut?" said Mrs. Dennyman, incredulously struggling with a certain pathetic eagerness in her worn face.

"Yes," Miss Selina, assented, cheerfully. "I carry it in my pocket, you know, for the rheumatism. They say it's good. I do know there's any harm in it, but it don't do any harm, and I kinder fancy I do feel better."

"You don't think," Mrs. Dennyman, tried to control the almost solemn agitation of her voice—it don't seem to you it's foolish, or wicked, or any—"

"Wicked? Well, now!" laughed Miss Selina. "I should think not. I guess much as he did folks. As for its being foolish, I don't know—nor I don't care. It's more the belief in things than the things themselves that does you good, hal the time, even the doctors would say as much, I believe. And if I think my horse-chestnut helps me, well, I ain't ashamed of it, anyway. If it don't do me any good, it won't do anybody else any harm, and I believe in humor! Your fancies a little once in a while, don't you?"

The old lady's face had relaxed until her lips quivered gently. She looked hard at Miss Selina, who returned her gaze with the most smiling good

humor.

"You're a good woman, Miss Selina," she said at length, with a soft sigh of spent resolution. "I guess you know what's right. And—I'm glad I found your horse-chestnut! I hope your rheumatism'll be better soon. Good-bye."

Miss Selina put the horse-chestnut back in her pocket when her visitor had gone.

"I may as well get the good out of it, if there is any," she observed to herself. "And practice up to my preaching. A horse-chestnut ain't much to look at, but it's been so small don't stand in the way of it's being a peace-maker, as far as I can see, and 'blessed are,' so it had ought to do me all the more good. I do feel better since I had it, and that's a fact. So it can stay there now for a spell."

At 2 o'clock the next morning Mr. and Mrs. Dennyman came out on the porch together. It was a mild, bright day, and they stood looking out at the sunshine and the yellow leaves that floated softly down through the still air. Mrs. Dennyman broke the spray of money-suckle that bloomed just above her head, and put it in her husband's coat, her old fingers fumbling uncertainly for the buttonhole. When he turned away and went down the street she watched him until his white head was out of sight. Then she went in and shut the door.

Miss Selina leaned back and took up her sewing.

"You see," she observed, gently, but impressively, to Josey, whose inquisitive eyes were fastened upon the window, "you see there is nothing wrong over there, after all. Never, Josey, never be curious about your neighbors' concerns. You mind your own business, and let them mind theirs—that's the best way, always."

"Yes'm," said Josey.

And the admonition lay no more lightly in the untroubled shallows of her young conscience than did the horse-chestnut in the peaceful depths of Miss Selina's pocket.

Recipes for Breakfast Cakes and Delicious Jellies for Dessert.

By EMMA PADDOCK TELFORD.

Griddle Cakes.

Dear Mrs. Telford: Will you please

give me a recipe for making the batter for griddle cakes of buckwheat, wheat and corn, such as are served in our

best restaurants? MRS. F. B. H.

Buckwheat Cakes.

Buy the best brand of pure buckwheat, and direct from the mill if possible. To four cups of the buckwheat flour add one cup of corn meal or Graham flour and a tablespoonful salt. Mix one cup of milk with three cups of hot water and let it stand until the mixture is lukewarm. Add the liquid slowly to the dry ingredients in order to prevent lumping and beat until very smooth. Dissolve one yeast cake in a little lukewarm water, add to the batter and again beat vigorously for ten minutes at least. The best thing to set the batter in is a regular earthen buckwheat jar with a tin capped spout. Set this in a warm place over night, covering with a bread blanket. If the kitchen is cold in the morning, if the batter is too thick, add

A little warm water or milk. If it has risen too much and there is the least sour odor noticeable, dissolve a half teaspoonful soda in a little milk or water and beat in. Stir the batter down as soon as possible and let it rise again before baking the cakes. A round griddle is the best shape, and polished iron that cleans easily is preferable to soapstone. Grease lightly, no more. The best greaser is beef suet tried out and applied with a swab, or a bit of fat pork impaled on the points of a fork. Bake the cakes small and in perfect circles, and as fast as baked pile symmetrically on a small hot plate.

Hashed Brown Potatoes.

Will you please print me a recipe for making hashed brown potatoes?

E. L. B.

Hashed brown potatoes may be made from the raw or cooked vegetables, as preferred. For the raw potatoes, peel, allowing one for each member of the family, then soak in cold water for fifteen minutes. Drain and wipe dry, then chop. Put into a frying pan two tablespoonfuls bacon fat or butter for each cup of potatoes. Add the potatoes, sprinkle with salt and paprika, add a tablespoonful vinegar cover and set on the back of the stove, cooking gently until tender. Then draw forward, brown, fold like an omelet and slip off on to a heated dish.

To utilize cooked potatoes, chop two good sized cold boiled potatoes rather fine, and season with salt and pepper. Put in a perfectly clean frying pan, and when hot put in the potatoes, smoothing and pressing them down. Push back over a moderate fire and let them cook without stirring for eight or ten minutes, then slip a limber bladed knife under and fold over like an omelet. Cook about three minutes longer. Slip on to a hot dish and serve.

Green Sauterne Jelly.

Soak four tablespoonfuls of granulated gelatine in a cup of cold water for half an hour. Pour over the softened gelatine three cups of boiling water an stir until completely dissolved. Add three cups sauterne, eight tablespoonfuls of lemon juice two cups of granulated sugar. Color with leaf green or spinach juice, strain and pour into shallow pans to chill and harden.

When ready to serve cut into inch cubes. This may be served in cups made by hollowing out green apples, in glass sherbet cups or little paper cases in appropriate shape.

For the Punch Bowl.

For the big punch bowl, which should occupy a prominent position in a corner, placarded as Barney castle, try the following drink, which may bear some resemblance to "Crusken Laven" without its incendiary ingredients. Put in an agate saucepan four cupfuls sugar and two cups water. Roll ten minutes, then add three cupfuls green tea, four cupfuls strawberry syrup, the juice of ten oranges, eight lemons and two grated pineapples. Let stand half an hour, then add lead water to make three gallons of liquid. Add two cupfuls Maraschino cherries and two quarts Apollinaris and serve in a punch bowl with a large piece of ice.

VOLIVA DEFIES HIS FOES.

Self-Appointed Leader Denounces His Enemies in Powerful Sermon.

Chicago, April 16.—Wither Glenn Voliva, who deposed and excommunicated John Alexander Dowrie as leader in his own church, invaded the camps of the Zionists in Chicago and Sunday night preached a sermon at Central tabernacle, Sixteenth street and Michigan avenue.

"My enemies in Zion think my days are numbered and that something terrible is about to happen to me," he told his hearers. "But don't you lose any sleep about that. No man covets enemies, but every man who does his duty, even in politics, makes enemies. If I have my way I will be in Zion City for many years to come. I will rid that city of some of its objectionable features, if it costs me my life. Don't believe anything about me that you have read in the newspapers. They may be dead or buried. I have no time to spend with them."

The Easter bride of this year is, indeed, fortunate, for never has Dame Fashion been so generous in her approval of modes for bridal wear. And in materials as well as styles one is allowed a surprising amount of freedom. Everything, from the most inexpensive tawny organdies, nets and similar weaves to the most exquisite and almost priceless laces is considered good style. It simply depends upon one's purse, how costly this dress of all dresses is to be. But whatever the gown be, a costly lace robe, a beautiful costume of lansdowne, which will afterwards serve as a dinner frock, or a dainty inexpensive net costume, its make and mould must be of the simplest, as befits the occasion.

A pretty use of materials is found in

this illustration. White lansdowne takes the form of band insertions in the skirt of Chantilly flouncings. Valenciennes edging and flut net. The draped bodice and skirt are built in one, joined by the tight fitting and fully boned silk. A tight lining sets snugly to the figure and is an absolutely essential part of the draped waist. Without it no bodice could be made a success.

RECONCILED AT DYING SON'S BED

Will Ask Divorce From
Second Husband to Re-
marry First.

THAN, N. Y., April 15.—Over the bedside of their dying son, who lay at the point of death from injuries received in an attempt to commit suicide, James Howe and Mrs. Mary Mack, the wife who divorced him, have been reconciled. Mrs. Mack can obtain the divorce from her present husband, from whom she is now separated, the couple will re-marry.

Howe and Mrs. Mack were married about fifteen years ago. Clarence, the boy who attempted suicide last Monday, is their first child. They have a second son, who is now a year old. Mrs. Mack was divorced from Howe because of his infidelity. She then married Mr. Mack, but after a short time she found that she was not happy with him. She then returned to her first husband, and they have now been reconciled.

SUICIDE AT HIBBING.

John Hill, Engineer at Power Plant, Cuts
His Throat.

Hibbing, Minn., April 15.—John Hill, the engineer at the Hibbing waterworks and power plant, killed himself on Sunday night. Last summer Hill had a bad attack of typhoid fever, and after his recovery he returned to work. His fellow-employees noticed a great change in him. He was morose and at times talked to himself. However, he did his work as well as usual, and did not seem to be in ill health. On Sunday he remained in his room all day, and when his wife and young daughter looked in he was apparently sitting reading his Bible, so they did not disturb him. Towards evening his eldest daughter, who was in the next room, heard a heavy fall, and going to see what was the matter, found her father on the floor with his head nearly severed from his body. A razor was found nearby. Hill leaves a wife and four young daughters.

LICENSE IS REVOKED

Moses Cook Rebuked by
Council for Auction
Methods.

An Ordinance Permitting
Grocers to Sell Bottled
Liquors, Introduced.

In spite of the fact that the case against Moses B. Cook, the West Superior street pawn broker, has not yet been disposed of, and that his writ of habeas corpus is still hanging fire in the district court, the city council at its meeting last evening, upon a motion by Alderman Moore, revoked the license granted to Mr. Cook to auction goods at his establishment at 402 West Superior street by a nine to six vote.

The technical charge upon which the license was revoked was his recent conviction in the municipal court of selling jewelry at auction contrary to the ordinance relating to auction sales, but the cause of the revocation was the testimony of J. E. Vincent, one of the men who claimed to have been

the upper works of the structure for the safety of the men who must attend to the bridge. The design of the structure was designed by the engineer were too high and the council turned them down.

THE AWARD IS AFFIRMED

Stevenson Mining Com-
pany Must Pay \$6,500
to Brakeman.

According to a mandate received yesterday from the United States supreme court by the clerk of the United States circuit court, the award of \$6,500 which was granted to Elmer A. Kibbe in his action for damages against the Stevenson Mining Company, Jan. 5, 1906, by the circuit court, was sustained, and it is now up to the company to pay up.

Mr. Baldwin, Mr. Cook's attorney, made a vigorous plea against paying a large sum of money to a man who had sold the company for a new license, and the council voted to revoke the license.

Alderman Wilson pointed out that he had admitted violating the ordinance and the revocation of his license, which runs but two weeks longer any way, would be a very slight punishment.

SPORTING NEWS OF THE DAY

GANS-LEWIS ATHLETICS
ON JULY 4 BOOMING

Lightweight Fight is Class Spirit Strong at
Now More Than a High School—Athletes
Possibility. Enthusiastic.

Forfeits Are Posted and Field Day Will be
Nelson is Out Held May 18 if
of it. Possible.

It now looks as though the fight between Gans and Lewis for the lightweight championship of the world will be pulled off despite the fact that the signing of articles last week was treated as a joke among the fight fans throughout the country. July 4 has been set as the date for the go, and it is now up to the managers of both men to induce some club to put up purse suitable to them. Ten thousand dollars in certified checks have been deposited in Chicago binding Gans and Lewis to battle. Should either man accept a fight offer within the next 100 days he will forfeit his \$5,000. But Nelson is let out, for Gans waived all right to meet him. Bids for the match are slow in coming in. Tex Rickard is in the wilds of Ely, and evidently has heard nothing of the match.

One consideration which may step in and put the match to the bad is Lewis' inability to make the weight. 133 pounds. E. W. Dickerson, Lewis' manager, has been roasted to a turn for signing articles at that weight, and he has been busy since trying to explain that Harry will get down to 133 pounds. Here is a portion of a letter he wrote to a friend:

"I know that some of the sporting writers throughout the country think that I asked foolishly for \$5,000 to much to Gans when I agreed to 133 pounds at the ringside. But you know I differ with them or I would not have accepted that weight. I think that Harry can beat Gans at almost any weight, and the very fact that we have \$5,000 deposited with the Chicago American speaks as to my sincerity in the matter."

"Now, then, when the weight question, I am going on record as saying that it is easier to make weight in Nevada than anywhere else, and that Harry will have no more trouble in making 133 pounds in Denver. At least Harry is a lightweight, and simply because he weighed up with Sullivan and Smith does not contradict this fact. Lewis was forced to build up to the weight and he carried about five or six pounds that were of no account to him whatever. At 133 you will find him good and strong and able to fight his life."

"Kid Lavigne will train Harry for the bout, and we will play a lot of towns on our way out. Lavigne will act as Lewis' sparring partner. Lavigne thinks that Harry will land the boom, as Gans has been going a merry clip since he has been in, and sooner or later some of these fellows are going to get him. And why not Harry? He's a character. We are so sure of his winning that we are going to bet our money in big stacks, and you know what that means when Mr. McLeanbach gets to going."

"As to the hitting ability of the men, I will grant the Gans is there with 'Betsy,' but don't forget that Lewis has a wallop hung to his shoulder that will pay day to come around with great regularity. I honestly think that Harry can hit harder than any of the lightweight brigade, and that when he and Gans exchange wallops there will be a fellow named Harry Lewis on his feet after the smoke of the combatant has cleared."

"Everything is now up to the different clubs for the match. We have on file a bid from Mike Riley for \$30,000, but I learn that Riley has severed his connection with the club in Tonopah, and I don't know whether that bid still holds good."

GOTCH LIKES TURKS.
Says Giants of the Race Are Hard to Throw.

Frank Gotch, the champion catch-as-catch-can wrestler, has a high opinion of the big Turks as exponents of the grappling game. Gotch was asked recently whom he considered the greatest wrestler.

"Undoubtedly the giant Turks are the best," Gotch answered; "men like Yousef, Nourahou and others of their size. No white man can hope to cope with these 400-pound hulks, unless he can get back of them and work on their feet. I've been looking for some one to show me how to get back of them. Don't let anybody tell you any white man ever beat Nourahou, for he didn't."

"In America we have a gallant array of wrestlers—Whistler, Joe Acton, Strangler Lewis, Tom Jenkins, Farmer Burns, Dan McLeod, Charley Olson. There's a splendid seven, and then today we have Freddy Beell, a man only a notch above a middle-weight, and yet one of the greatest on the mat. It is something to hold a championship title in the face of such competition as exists in the country of the Stars and Stripes today, and I hope I am not egotistical when I say I am proud to have won my right to defend the American championship."

Mike Schreck's victory over John Wille at Tonopah last night will please the friends of the Cincinnati German. Schreck had something in him, which should make him more than a third rater, and his victory over Wille will convince them that the big fellow is in for a period of mingling with the top notches. Of course, the fact that the victory over Wille doesn't count for anything, as the Chicago man is only a second or third rater at best, but the fight shows that Mike has a knockout enclosed in his mitt. According to the reports of the fight, Mike should have put it over long before the nineteenth round, but that's neither here nor there. He did it in the end.

Now the question is 'What's before Schreck?' There has never been a fighter of promise who has been more unfortunate in attempts to arrange matches than this same Mike. Time and again, Tommy Burns, Jack O'Brien and others who claim to be in the front rank, have sidestepped the fight, but Mike has not had an opportunity of showing what is in him. Had he lost to Wille last night, it would have been back to Portkown for him and a return to the more genteel walks of life. But now, there will be no excuse for Burns, O'Brien et al, sidestepping. They must fight Schreck or call down upon themselves the wrath of the men who keep the sport alive.

The one man who has had faith in Schreck's ability is James J. Corbett, and his coaching undoubtedly has something to do with Mike's victory. Corbett is a man who knows what he is doing, and he should be able to polish off the rough edges. Mike has the wallop, but he is a little slow, and if he can acquire some of Corbett's grace and dexterity in the ring, the present day near champions will be looking to their laurels and fight to defend them.

SPORTING BREVITIES

"Honey" Melody (Mike Twinn) Sullivan will weigh about 145 pounds on the day of their coming battle at Los Angeles April 25. This removes the welterweight championship feature of the fight, but assures the public that both men will be strong and at their best, capable of putting up a fast, aggressive contest.

Mike Donlin, the New York National league outfielder, has signed a contract to play with Jimmy Callahan's Logan Stars in Chicago. Donlin will draw a salary of \$1,500 for the season, more than any other semi-professional ball player in Chicago is drawing.

It is reported that Jake Stahl, the famous Washington manager, will go to Cincinnati. Hanlon is said to have made an offer for him and it will probably be accepted. Under ordinary circumstances, it would be necessary to secure a waiver from all American league clubs before Stahl would be free to make predictions and if there is any impression prevalent that he is already claiming the rag, he wants to dispel it. Wise Kid.

Houghton, at least, hasn't any intention of claiming the pennant at the early date. In a letter to The Herald, Kilday says it is still too early to make predictions and if there is any impression prevalent that he is already claiming the rag, he wants to dispel it. Wise Kid.

The battle of the toe holds, which has become famous since Beell's assertion that Gotch must remove his shoes the next time they meet on the mat. The plan to have a race for the lighter crews, however, will remove this doubtful and there will be just as much of a demand for light men as there is for the heavier candidates. The only question left unsettled is whether the limit will be fixed at 140 or 145 pounds.

Meanwhile the training of the candidates for the crews is well advanced and progressing nicely. The men are showing greatly improved form on the rowing machine, and all are evidently determined to stay with the game. The beginning of work in the shells depends entirely upon the weather. Just as soon as the harbor is free from ice and the weather shows some signs of moderating, the men will transfer their training quarters to the clubhouse.

On the face of things it appears that if Ben Tremble is hankering for another match, he would do well to take on John Wille, after John gets over the effects of last night's slugfest. They appear to measure up pretty well, and what a slugfest it would be.

There is now but a short time before baseball, tennis, golf and many other outdoor sports will take the place of basketball and kindred winter games. The baseball club and Y. M. C. A. appear to have the call on the last games of the season, and after the series which began tonight, they will undoubtedly be willing to lay the ball away for a few months and turn their attention to other things.

EVEN FOR LIGHT MEN

Regatta Will Include Race for 140-Pound Crews.

Oarsmen Anxiously Waiting for Ice to Leave Harbor.

An event for four-oared crews averaging under 140 pounds will probably be a feature at the regatta at White Bear Lake this summer. This will give the lighter men an opportunity to compete at the regatta on an equal footing, and no little interest is being taken in this feature. Hitherto the light men have been heavily handicapped, and a man weighing under 150 pounds has found it a very difficult matter to make a crew in competition with men weighing 160 to 180 pounds. This year the conditions would have been aggravated owing to the fact that there are so many husky candidates for the junior crews. The plan to have a race for the lighter crews, however, will remove this doubtful and there will be just as much of a demand for light men as there is for the heavier candidates. The only question left unsettled is whether the limit will be fixed at 140 or 145 pounds.

ground that it will detract from the value of adjacent property. The case—junction proceedings against Anson—was on trial in Judge Honore's court.

Mr. Mann's charge was made in a reply to a question asked him by counsel for Capt. Anson. The attorney asked him:

"Didn't you ask Capt. Anson if he was going to give you a season pass to his baseball park?"

"Yes, I did," Mr. Mann replied, "and he told me 'Yes, if you help to elect Busse.'"

"Cap" Anson was seated in the courtroom at the time and heard the reply. He looked pained.

KICKED TO DEATH.
Lunatics Killed Giant, Who Said He Was "Son of God."

Philadelphia, April 15.—Thaddeus Johnson, a negro who on Easter Sunday created a panic in city hall plaza by declaring himself to be the Saviour, and who was six feet three inches in height and powerful, is dead at the Philadelphia hospital. It is said twenty-two other lunatics kicked and beat him to death.

When declared insane, Johnson was removed to the acute ward. Other patients seemed to bear him ill-will. He was unruly, shouting and singing continually.

While all were being given an airing in the closed yard Monday, Johnson strode back and forth, shouting he was the Son of God, and uttering shocking blasphemies. The others made a rush for him and clawed, struck, and kicked him.

The powerful negro swung his mighty arms, knocking them off like flies. But the twenty-two overcame him. Then they jumped upon the prostrate giant with their heavy shoes, breaking in his ribs and crushing his abdomen. Coroner's Detective Paul said that the man was horribly mangled.

ANSON KNIFED DUNNE.
Charge of Political Treason Against Chicago's Baseball Idol.

Chicago, April 16.—"Cap" Anson father of baseball, uncle of billiards, first cousin of bowling, distant relative of trapezoidal and known far and wide as a "square sport," stands accused of betraying his political friend and bedfellow, Mayor Edward F. Dunne.

In open court the sworn charge was made that the "cap," who was swept into office as city clerk on the ticket that was headed by Mayor Dunne two years ago, threw his influence to Fred A. Busse, and that he offered a season ticket to his new baseball park on condition that the recipient "would help elect Busse mayor."

The charges caused a stir among Democratic politicians, who wagged their heads wisely, and recalled that Mr. Busse once was a ball player himself and that he always has been known as a "fan."

"Cap" himself tried very hard to be silent on the subject, but finally lost his temper and blurted:

"There ain't nothing to it; I toted fair with the mayor."

The man who made the charge that the captain inserted a knife between Mayor Dunne's ribs is J. J. Mann, secretary of the Washington Park Improvement association, who is fighting "Uncle Anse's" new ball park on the

Elwood, Ind., April 15.—A woman in West Elwood, just over the line in Tipton county, attended revival services today. Immediately after the service, she began returning soap, flour, tea, coffee, etc., which she had "borrowed" and never before repaid, or else had given short measure. This was followed by sending two 10-cent silver pieces to James Rollins, local agent of the Indiana Union Traction line, saying she had stolen rides on the local street cars and to for which she was asking forgiveness, adding that her conscience was bothering her. The two dimes have been placed to the credit of the conscience fund.

ANTI-PASS BILL LIKELY TO BE MUCH AMENDED BY MEMBERS OF THE SENATE

Mainly on Time for Measure to Become Effective.

Bill is Advanced to the Head of General Orders.

Bill Appropriating \$200,000 for Roads Signed by Governor.

(From a Staff Correspondent.)

St. Paul, April 17.—(Special to The Herald.)—The anti-pass bill made further progress this morning when the senate advanced it to the head of general orders without sending it to a committee, as the usual course is with bills received by one body from another. This will give the senate a chance to consider the bill tomorrow, and to offer amendments. There will undoubtedly be numerous amendments offered especially as to the time when the bill becomes effective.

Governor Johnson this morning signed the bill which appropriates \$200,000 annually for the next two years to be used in road building.

In order to prevent the omnibus appropriation bill from impeding action at the end of the session, the senate this morning adopted Senator Durmont's resolution providing for a committee of five to report to the next session on the advisability of adopting a rule providing that the finance committee shall early in the session report the amount of money available and the probable necessary appropriations and that the omnibus bill be reported back not later than the sixtieth day. Senators Durmont, Seward, Smith.

COVERT RAP AT THE PRESIDENT

Congressman Hammond Speaks on "The Sovereign State."

Chicago, April 17.—A plea for the perpetuation of state rights was made last night by Congressman Winfield S. Hammond of Minnesota in a talk at the twelfth annual banquet of the Holland society of Chicago.

Mr. Hammond took a covert rap at President Roosevelt by declaring that "in view of recent events it is believed that the legislative department of the federal government has become well nigh impotent."

The speaker's subject was "The Sovereign State."

"It is a thing loved in us to have the government as close to us as possible," he said.

When it comes to regulating insurance and child labor, why should we run to Washington the minute anything is wrong? We are becoming a little too paternalistic."

GERMANS EXCITED

Over the Coming Visit of King Edward to Italy's Ruler.

Think Object is to Isolate Germany and Win Italy.

Berlin, April 17.—King Edward's approaching meeting with King Victor Emmanuel, at Gastei, is attracting much attention in the German press, which comments on the event as being an effort to isolate Germany and win Italy away from the Triple Alliance. An article in the Cologne Gazette, in this sense, is being widely discussed because it is believed to have been inspired from Berlin. The writer says public opinion in Germany sees in King Edward's course an attempt to disturb the European equilibrium, which is calculated to awaken misgivings regarding his disarmament proposal, and finally warns Great Britain that "war with Germany would be dangerous for any opponent or any coalition of opponents."

This sharp language is interpreted by the Tagliche Rundschau as meaning that the German government has grown weary of the "English game of hide and seek, and the comedy of peace and disarmament."

At the foreign office, when attention

STANDARD OIL IS HIT

Passage of Bill Aimed at Methods of Stifling Competition.

Anti-Pass Bill Goes Through House With Amendments.

(From a Staff Correspondent.)

St. Paul, April 17.—(Special to The Herald.)—The Standard Oil octopus received a hard rap in the house yesterday afternoon, the railroad pass bill received one that it will have plenty of time to get used to before it takes effect, and the tax-dodger came near getting one too, all that prevented it being postponed of action.

When the tax commission bill, which is now in excellent shape and will undoubtedly be passed when it is taken up again by the house Thursday afternoon.

The Standard Oil company received its jolt through the passage of a senate bill aimed at its peculiar methods of stifling competition. The bill was introduced in the senate by Senator Hinton, and when it reached the house yesterday the rules were suspended so far as to pass it.

The motion to substitute, which was made by Representative Ruckelshaus, then passed, and it was declared lost on a rising vote. Representative Ruckelshaus then demanded a roll call upon the motion, and before the roll was called demanded a call of the house. It was necessary to get eighty votes to accomplish the demand.

THE GRAND JURY AGAIN ADJOURNS

Will Meet Saturday to Investigate the Slot Machine Graft.

San Francisco, April 17.—The grand jury has adjourned to meet next Saturday afternoon at 2 o'clock. The line of investigation now taken up, bears on the slot machine graft of two years ago. This is nearing an end and it is believed it may result in a number of indictments against several city officials. Among the witnesses are a number of ex-police commissioners, members of the police board of 1903.

When the Ruck trial was resumed in Judge Dunne's court this morning, there were present forty-one out of the forty-five citizens summoned as trial jurors. These men were subpoenaed yesterday by Elisor Bigley.

It is hoped that the jury will be formed to try the case by the end of the month and that the trial itself will be concluded in two weeks thereafter. The days of the so-called city commissary department appear to be numbered. "The city attorney" has handed down an opinion that the department is illegal and in addition, the evidence already secured is sufficient to recommend its abolition. This means that the purchase of supplies for hospitals and other branches of the municipal service will revert to the old channels and remove from the control of any political combinations.

MURDERERS RECEIVE FIFTEEN DOLLARS.

Warsaw, Russian Poland, April 17.—It was announced today that in the course of police investigations into the recent murder of a physician here, by a hired terrorist, it was established that \$15 each is the price paid by the terrorists of Warsaw for murders.

PRESIDENT PROPOSES TO INVESTIGATE RAILROAD QUESTIONS FOR HIMSELF

Will Decide as to Breaking Up of Harriman Combinations.

Intends to Read Testimony Taken by Commerce Commission.

Will Then Learn the Law From Attorney General.

(From a Staff Correspondent.)

Chicago, April 17.—A dispatch to the Tribune from Washington says: President Roosevelt proposes to take into his own hands the determination as to whether an attempt shall be made to break up the Harriman railroad combination and has come to the conclusion that it is his duty to study the case from beginning to end.

The president has been placed in a position of antagonism to Mr. Harriman and on that account he is particularly desirous that no steps should be taken by any department of the government in such way as to leave the impression that it was the result of personal hostility on the part of the president himself.

To satisfy himself as to the exact situation the president proposes to read all the testimony taken by the interstate commerce commission on this subject. Then he will have a conference with Attorney General Bonaparte and will ask the head of the department of justice to apply to the facts the president submits to him the general law in the case, and particularly that laid down by the United States supreme court in the Northern Securities case.

All this will take time and it will involve an immense amount of personal labor on the part of President Roosevelt. He may have to give up a good deal of his vacation time to the work, but it will be done sooner or later, and when his decision is made he will be satisfied with it, because it will be the result of personal, painstaking investigation, and not the conclusion of a subordinate arrived at through partial or hurried scrutiny.

This decision by President Roosevelt to turn himself with the details of an exhaustive inquiry into a subject so vast that it is scarcely understood, even by members of the interstate commerce commission itself, it will, it is believed, satisfy both the people and the railroads.

This decision by President Roosevelt to turn himself with the details of an exhaustive inquiry into a subject so vast that it is scarcely understood, even by members of the interstate commerce commission itself, it will, it is believed, satisfy both the people and the railroads.

Believes It His Duty to Study the Case Thoroughly.

He May Lose Part of His Vacation by So Doing.

Believes Details of Question Are Not Thoroughly Understood.

(From a Staff Correspondent.)

Chicago, April 17.—A dispatch to the Tribune from Washington says: President Roosevelt proposes to take into his own hands the determination as to whether an attempt shall be made to break up the Harriman railroad combination and has come to the conclusion that it is his duty to study the case from beginning to end.

The president has been placed in a position of antagonism to Mr. Harriman and on that account he is particularly desirous that no steps should be taken by any department of the government in such way as to leave the impression that it was the result of personal hostility on the part of the president himself.

To satisfy himself as to the exact situation the president proposes to read all the testimony taken by the interstate commerce commission on this subject. Then he will have a conference with Attorney General Bonaparte and will ask the head of the department of justice to apply to the facts the president submits to him the general law in the case, and particularly that laid down by the United States supreme court in the Northern Securities case.

All this will take time and it will involve an immense amount of personal labor on the part of President Roosevelt. He may have to give up a good deal of his vacation time to the work, but it will be done sooner or later, and when his decision is made he will be satisfied with it, because it will be the result of personal, painstaking investigation, and not the conclusion of a subordinate arrived at through partial or hurried scrutiny.

ROBBER WHO HELD UP A ST. PAUL EXPRESS CLERK IS QUICKLY ARRESTED

J. PIERPONT MORGAN, Well Known Financier, Who Passed His Seventieth Birthday Wednesday, and Who Will Retire From Active Business on His Return From His Present Trip Abroad.

St. Paul, April 17.—(Special to The Herald.)—The police have arrested John Gunderson, on the charge of having held up Fred Zimmerman, the clerk in the Northern Express company's office last night and robbed the office safe of a package containing \$25,000. The police say Gunderson has not confessed.

They would not say whether the money had been secured or not, but they said they had the right man.

The police found Gunderson in bed at his home shortly after 4 o'clock this morning, having been notified by telephone by a brother of Gunderson that John was at home. When Gunderson was taken to the police station he appeared to be under the influence of liquor and said he knew nothing about the robbery. When the police offered to let him go without prosecution if he would tell where he had hidden the money Gunderson said he could not remember what he had done with it. Gunderson claimed he had been drinking and did not remember what had happened during the night.

Gunderson had been employed by the Northern Express company and was recently discharged. He is said to have been familiar with the details of the office and knew that a package containing the \$25,000 was going to Duluth on the night train for the Cloquet Lumber company, last night.

Zimmerman, the clerk in charge of the office says Gunderson came to the office about 9 o'clock, and as he had been employed there he thought nothing of his hanging around. Gunderson appeared to have been drinking and was in a very jovial mood. He remained there until 11 o'clock, when Zimmerman and a porter had left and then Gunderson gave the porter some money and told him to get a bottle of whisky, as he was going away on a trip, and wanted to take it with him. As soon as the porter had disappeared, Gunderson covered Zimmerman with a revolver and commanded him to open the safe and hand out the package. Zimmerman

CONFERENCE IN PROGRESS

Washington, April 17.—Representatives of the governments of Nicaragua and Salvador are now believed to be in conference at Amapala, Tigre Island, Honduras, or on board an American gunboat in Posseca bay, Honduras. The navy department's report of the movements of the vessels gives the gunboat Boston as having sailed yesterday from Corinto, Nicaragua, and the gunboat Chicago from Amapala, Salvador, for Amapala. The mission of the American vessels to Nicaragua and Salvadoran ports was to convey representatives of the two governments to Amapala for a conference looking to a settlement of the difficulty between Nicaragua and Honduras and Salvador. The vessels were due to arrive early today.

City Wins Damage Case.
A verdict in favor of the City of Duluth was returned by the jury in the personal injury suit instituted by Dr. S. Conner for \$2,000 damages. Dr. Conner claimed that he sustained \$2,000 in damages caused by driving in a hole at Third street and Twenty-ninth avenue, resulting in the death of a horse owned by the city.

Stole Wheat From Cars.
Willie O'Neil pleaded guilty in municipal court yesterday afternoon to stealing two bushels of wheat from a Northern Pacific car standing in the yards here and was given an order of thirty days in jail. The warrant was sworn out by J. C. Hudson, special agent for the railway company.

Rioters Sentenced.
Oscar Antilla and Isaac Itala, two of the four Finnish arrested Monday afternoon for fighting in lower Lake avenue were found guilty of disturbing the peace in municipal court yesterday afternoon and sentenced to fifteen days in the county jail at labor, with a fine alternative. According to the evidence, the trouble arose over a keg of beer. A number of outsiders seemed to think it was up to the purchasers of the beer to treat which the latter, seated, thus precipitating the scrap in which hammers, knives, beer glasses and other available weapons played prominent parts.

Belongs 50,000 Young Trout.
John Greene, deputy game warden has arrived from Glenwood, Minnesota, from the state hatchery there with the first installment of trout fry to help in the work of stocking the north shore streams in the neighborhood of Duluth. Mr. Greene brought up forty cans of the young fish, estimated to contain between 40,000 and 50,000. This is but a small portion of the total which will be placed during the spring.

Cochrane Exonerated.
William D. Cochrane, the second engineer of the steamer Lambert, who was charged with assault by Owen Hunt of the Duluth Coal company, was found not guilty by the jury yesterday afternoon. Cochrane made no attempt to deny that the conflict had occurred and admitted that Hunt had the worst of it, but the evidence tended to show that the complaining witness had in reality brought the fight upon himself and that Cochrane was acting in self defense.

To Clear Title.
Perry D. Jones has begun an action against Daniel Rogers to clear title to an undivided quarter interest in lot 1, 3-22, and the northeast quarter of the northeast quarter of section 19, and the east half of the northeast quarter of section 33, 60-22, Itasca county.

Court Denies Request.
Judge Dillabill has denied petition of the Oliver Iron Mining company, the defendant in an action brought against it by Samuel D. Porter and others, to make certain portions of the complaint more certain and specific.

Gramas Found Insane.
John Gramas of Superior, who was picked up while lying on the railroad tracks near the city, was examined as to his sanity, before the probate court, yesterday afternoon, and an order was made committing him to the state asylum. Information of insanity has been filed against John Gramas, who has been in the state only six months and who, it is found insane, must be deported.

Horse Shot by Police.
"Black Diamond," a handsome Kentucky bred driving horse, belonging to

the Lundberg Piano company, broke its leg while standing in its stall at theivery stable, and was shot by the police to put it out of its misery. The horse was a thoroughbred and valued by its owners at \$200. How the accident happened is unknown.

Escaped Injury in Wreck.
Mrs. A. M. Reed of this city has received word from Mr. Reed, who was in the Great Northern wreck at Bartlett, N. D., Monday evening, stating that he escaped bodily injury, but that scenes attending the wreck, Mr. Reed was in the sleeper at the time the train was derailed. He says that the gas tanks on the train exploded right after the accident and that the flames very quickly spread over the cars, the scene being one that beggars description.

DENIAL IN GENERAL CLAIMS AN INJUSTICE

Of All Allegations Made
by Defendants in
Eddy Case.

Concord, N. H., April 17.—A general denial of all the allegations of the complaints in the suits for an account of the property of Mrs. Mary Baker G. Eddy, filed March 1, was the legal answer made today by the defendants named in the original action.

The specifications in the original bill are that Mrs. Eddy is and for a long time has been incompetent to do business or to understand transactions conducted in her name; that the defendants named in the bill have possessed themselves of the person and property of Mrs. Eddy and have carried on her business;

J. S. Lane's Editorial

It is a great satisfaction to me to see the way the men of Duluth are getting wise to the fact that for \$30, \$35 or \$40 I make suits to order in every way the equal of what other tailors charge \$40, \$45 and \$50 for.

The past week I've made lots of new friends, notably among the class that have been buying hand-me-downs.

Why any man will buy a ready-made "guess-fit" that after a couple of weeks' wear looks like a "has-been," is beyond my comprehension. Such clothes are dear at any old price.

The suits I make are made to wear, made to fit and made to keep their shape, and with every order I give my warrant of absolute "Satisfaction or No Pay."

Won't you let me make your spring suit for you? Yours truly,

J. S. LANE.

that on account of Mrs. Eddy's infirmities, these persons are bound to give account of all transactions undertaken in her name and that they have wrongfully converted property to their own use.

To these representatives the defendants filed specific and detailed denial, declaring also that they have no knowledge of many of the allegations, and complainants demanding that the complainants furnish proof thereof. They also declare that they have reason to believe that the bill of the complaint was not brought by the plaintiffs in good faith, but that the so-called "next friends" have been joined to loan their names at the instigation and at the expense of certain evil minded persons who are furnishing money for the prosecution of the bill of complaint for their own evil purposes and to advocate their own selfish interests.

CLAIMS AN INJUSTICE

Moses Cook May Take
Case to Supreme
Court.

Moses Cook, the Superior street merchant, who has argued prominently in business dealings, has always been ready to give redress to anyone, who had a grievance against him. "When I secured the license and opened that auction, I did not do so with the intention of cheating anybody," any person, who purchased an article at auction and was dissatisfied, I don't see how an auction could be more fairly conducted.

Then came our "innocent farmer," who, if he is a farmer, would need to be one if he wanted to turn his talents in other directions. He had me arrested for misrepresentation in selling a watch and chain to him for \$4.25, as soon as possible.

It conducted that auction as fairly as any auction was ever conducted. I had a warrant sworn out for me and I was arrested. If he were a man of reliable employes, upon whom I could depend, I gave orders that no goods should be misrepresented. The auctioneer, acting under my orders, told just what every article was and those

attending the auction could bid on their own option. In an auction a person must take certain chances. He will, at times, get a big bargain, and he will, at times, get a big loss.

After being arrested for misrepresentation, they arrested me again on the charge of violating the city ordinance relative to selling jewelry at auction. I did not know that an ordinance existed, and had I known I would certainly never have offered jewelry for sale at auction. I took out the license to auction jewelry, although the license didn't

specify what I might sell under it. The city attorney, himself, admitted to me that he didn't know the ordinance existed until he ran across it recently. It was passed about two years ago, and nobody was ever convicted of it before.

The municipal court convicted me under the ordinance, and I might easily have paid \$34 and some cents and let the matter drop. But I didn't propose to do so. I was fighting for my rights as a citizen of Duluth. I believe that ordinance is unconstitutional. They can regulate the sale of jewelry at auction, the same as any other matter, but they cannot prohibit it, as long as no misrepresentation is made. And I was not misrepresenting. I don't see why a man should be prohibited from selling jewelry at auction any more than any other article of trade. I took the matter to the district court, and there I was turned down again. Now, I am figuring on taking it to the supreme court. I might pay the cost of the case, but I believe that, in justice to myself and to others, I should fight the thing out. It is my duty to prove that I am right, and to put myself in a right light before the public.

J. M. Gidding & Co.

patron in all that time. It is hard to please everybody, regardless of what their own option. In an auction a person must take certain chances. He will, at times, get a big bargain, and he will, at times, get a big loss.

After being arrested for misrepresentation, they arrested me again on the charge of violating the city ordinance relative to selling jewelry at auction. I did not know that an ordinance existed, and had I known I would certainly never have offered jewelry for sale at auction. I took out the license to auction jewelry, although the license didn't

specify what I might sell under it. The city attorney, himself, admitted to me that he didn't know the ordinance existed until he ran across it recently. It was passed about two years ago, and nobody was ever convicted of it before.

The municipal court convicted me under the ordinance, and I might easily have paid \$34 and some cents and let the matter drop. But I didn't propose to do so. I was fighting for my rights as a citizen of Duluth. I believe that ordinance is unconstitutional. They can regulate the sale of jewelry at auction, the same as any other matter, but they cannot prohibit it, as long as no misrepresentation is made. And I was not misrepresenting. I don't see why a man should be prohibited from selling jewelry at auction any more than any other article of trade. I took the matter to the district court, and there I was turned down again. Now, I am figuring on taking it to the supreme court. I might pay the cost of the case, but I believe that, in justice to myself and to others, I should fight the thing out. It is my duty to prove that I am right, and to put myself in a right light before the public.

"The Virginian" made many new friends at the Lyceum last evening, and delighted some old ones.

The theater was crowded to the doors, and between 100 and 200 people stood at the rear of the parquet and close circles throughout the performance, being unable to get seats.

It is the same delightful and fascinating play, and with one or two exceptions, the same very capable company that was here on the first engagement.

Those who have not seen Dustin Farnum in the title role of this stirring Western play, are to be envied, for they have a rare treat in store for them.

The book opened and the Virginian stepped out. It is the way Owen Wister, the author, described Mr. Farnum's interpretation. It is, in fact, hard to realize that the play was not seen by Mr. Wister before he wrote the book.

His description of the nameless hero of his stirring Western romance is simply a pen picture of Dustin Farnum, with his broad, slouching shoulders, his awkward gracefulness, and his air of a subtle strength.

His hearers do not have to draw upon their imaginations and endow this hero with the qualities he is supposed to possess. He simply is the Virginian, and that sums up all that can be said of him.

Frank Campeau is still working opposite Mr. Farnum in the role of Trampas. Without detracting from Mr. Farnum's work, too much credit cannot be given him. He has created a Trampas which must stand as a type of the gambler and "bad man" of the West.

Guides Post has been lost to the company, as he is now starting in "The Hell to the Hoarrah." His place is taken by Bonnet Musson, who makes a very worthy successor in the part of Steve.

The cowboys and ranch owners furnish the comedy relief in a very effective manner. Frank Vail's "Honey Wiggin" and Harry Holliday's "Uncle Hovey" are especially good.

Critics of Owen Wister's novel have always found fault with his portrayal of women, and has been mercilessly harpooned by the pen wielders since the book first appeared.

As compared with the novel, the Virginian, she probably is a rather lively character, but Miss Mabel Wright, a dainty and pretty young woman, made whatever there was to be made of the part. The company is especially fortunate in the women who are playing the minor roles.

Helen Whitman and Mrs. Henry and Eleanor Whitman as Mrs. Howie would strengthen almost any cast.

Two more performances will be given in Duluth, one this afternoon and one this evening.

"TOOK NO CHANCES"

That popular favorite in the German dialect line, Al. H. Wilson is winning new laurels in his new character of "a young Switzer." Sidney Ellis' new play of picturesque Switzerland "Metz in the Alps." He is imitable as a teller of dark stories, and among his collection perhaps the following is the best: "One day a farmer while in the Alps, he had a dog rush out and begin to bark furiously at a darky from a neighboring farm. The colored man at once took to his heels, although he had come to the barn on a matter of importance. Some time later he returned, and making sure that no dog was about, entered the barn."

"Why were you so frightened, Sam?" asked the farmer. "Dan couldn't have harmed you. Remember the old saying 'Barking dogs never bite.'"

"Dat's all right, sah," responded the darky with much gravity. "You know dat an' I know dat; but when do either of us know when a barking dog is agoin' to stop barkin'?"

AT THE BROADWAY.

Harding and Al Sid, who have a turn known as "Fun in a Chinese Laundry," have been before the public for many years, but their act is still one of the best of its kind in vaudeville.

AT THE METROPOLITAN.

Cornalia and Eddie, eccentricities, have a lively turn in the olio of the Twentieth Century Maids at the Metropolitan, called "Toss 'Em and Miss 'Em." The Maids will give a matinee

for ladies at the Met tomorrow afternoon.

ROBBER WHO HELD UP A ST. PAUL EXPRESS CLERK IS QUICKLY ARRESTED

(Continued from page 1.)

said that he saw that Gunderson was in earnest and complied with his request. Gunderson then backed out of the office and commanded Zimmerman to stand with his face to the wall for ten minutes on pain of death.

Zimmerman says that as soon as he was sure Gunderson had departed he notified the police. The entire detective force was put on his trail, but none supposed he would go home and it was not until his brother telephoned that John was in bed at home that the police were able to locate him.

St. Paul, April 17.—One of the boldest and most successful robberies which has been perpetrated in this city for many years occurred last night when a clerk in the union depot office of the Northern Express company was held up at the point of a pistol, compelled to open the safe and take therefrom a package containing \$25,000 in currency, with which the robber made his escape.

About 10:30 o'clock a young man, who is believed to have been a pal of the robber, called at the express office and by some pretext managed to get one of the clerks out of the office for a short time. Fred Zimmerman, the other clerk, soon found himself confronted by a masked robber who pointed a pistol at his head.

"Hands up, or I'll blow a hole in you," commanded the bandit, and Zimmerman quickly complied. The robber then searched the clerk and took from him a revolver which he had in one of his pockets. He then commanded Zimmerman to open the safe. The clerk was badly frightened and obeyed the order without hesitation. The bandit seemed to know what he was after, for he told Zimmerman to hand out the package of currency which was in a coat pocket. He then backed out of the office, first commanding Zimmerman to turn his face to the wall and remain in that position for ten minutes under pain of death. A couple of minutes after the robber disappeared down the tracks the second clerk returned, and discovering the robbery, gave the alarm.

Zimmerman says that he believes that he can identify the robber who secured the money, but as yet neither of the bandits have been arrested.

The money was consigned to the Cluett Lumber company at Clouett, and was sent by one of the St. Paul banks.

GERMANS EXCITED

(Continued from page 1.)

was called to the Cologne Gazette this morning. It was stated that it is only the opinion of the paper; that the German government was in no way responsible for officials who have taken steps to prevent their publication if they had known in advance that the foreign office does not see any reason for disquiet in connection with the meeting of the League of Nations at Geneva.

The Italian knows that her independence is better guarded by being a member of the triple alliance than if she is thrown wholly upon Anglo-French support. Great Britain's predominant position in the western part of the Mediterranean is fully recognized by Germany, which has no interests there.

Paris, April 17.—The announcement of the withdrawal of Italy's compromise proposition in the matter of a discussion of the limitation of armaments at The Hague peace conference, owing to Austria's and Germany's decided attitude in opposition to it, was made public here today. It does not greatly affect France's position relative to the limitation of armaments. Authoritative circles declare that France, as a matter of principle, regards favorably all efforts to advance the idea, but is of the opinion that its discussion at the approaching peace conference is not likely to assume concrete shape.

Paris, April 17.—The forthcoming meeting of King Edward and King Victor Emmanuel, at Gaeta, is viewed with the utmost satisfaction in government circles here, where the royal conference is considered as not likely to strengthen the cordial relations existing between Italy and Great Britain, but as binding closer the ties between those two countries and France, and as exerting a good effect on the European situation.

ANTI-PASS BILL

(Continued from page 1.)

Peterson and Schaller were appointed to take this up.

On motion of Senator Cooke, the senate refused to confirm the appointment of John Keating as boiler inspector in Senator Cooke's district.

Senator Peterson tried to have the vote by which the house bill pensioning citizen-soldiers who participated in the Indian wars of 1862 was passed, reconsidered, but failed. He stated that it would cost \$144,000 a year.

The senate had a fierce debate on whether Senator Hackney should be allowed to withdraw the resolution paying him \$1,000 for contest expenses in the Butler-Hackney contest. Senator Wilson thought it should not be allowed, but Senator Laxbourn said it should, and expressed surprise that men as well fixed as Hackney and Butler should have put in any bills at all. The matter was referred back to committee, to be straightened out.

The senate tax committee recommended for indefinite postponement the C. B. Miller bill, increasing railroad gross earnings tax to 5 per cent, and requiring railroads to pay local assessments. The committee was nearly unanimous, and the report was accepted by the senate because it is so late in the session that the senate objects to having a prolonged fight on such a measure, as it would prevent consideration of a large number of bills that are pressing for action.

The house made the primary election bills a special order for tomorrow afternoon.

Capt. Randall's dog bill passed last night when the house was in a humorous mood, was reconsidered on motion of Swan Nelson of Minneapolis.

Hennepin county members advanced to the calendar the bill providing a tax levy of \$20,000 a year for four years, for the use of that state university.

Representative Hugo secured the passage under the suspension of the rules of his bill allowing the grand commandery of Knights Templars to incorporate.

Representative Dalsell tried to have

WEST DULUTH MARRIED AT HIGH NOON

Popular West Duluth
School Teacher Weds
Farmington Man.

Ceremony Takes Place
at Home of Mr. and
Mrs. Ward.

A charming wedding was that which took place at high noon today at the home of Mr. and Mrs. Edwin Ward, 8603 West Sixth street, when their daughter, Miss Anna Ward, was united to William J. Lieb of Farmington, Minn. The ceremony was performed by Rev. R. A. Saunderson of Anoka, who formerly resided in West Duluth.

Only the immediate relatives of the contracting parties and a few friends attended the wedding, which was quiet and informal, the bride being unattended. A wedding lunch was served immediately after the ceremony was performed, and the young couple left on the afternoon train for Farmington, where they will make their home for the present.

The bride is one of Duluth's popular school teachers, having first taught at the school at West Duluth and later at the Bryant school. At one time she taught for a year in the Minneapolis public schools, and then again returned to Duluth. She graduated from the Duluth Central high school, and afterwards from the St. Cloud normal school. Mr. Lieb was formerly a resident of Owatonna, but is now an operator at Farmington.

Among the out-of-town guests who were present at the ceremony were Mrs. J. T. Howe and Miss Eva Lieb of Owatonna.

MEETING OF A. O. H.

Committees in Charge of Entertainment,
Give Favorable Reports.

A regular meeting of Division No. 4, A. O. H., was held last evening, and important business was transacted. The meeting was well attended by the members, who showed considerable interest in the proceedings. The reports of the committees in charge of the entertainment and the lecture, which will be given Thursday and Friday evenings, at Great Eastern hall, reported at the meeting.

Prof. Turner of Boston has been engaged to lecture, and he will bring a collection of views for each lecture. He will lecture on "America" the first night, and on "Six Great Cities" the second night. The meeting of the county board of the A. O. H. was not held last evening at the conclusion of the meeting, owing to the absence of Fred L. Ryan, county president. The meeting will be held at the next session.

Will Give Lecture.

"America" and "Six Great Cities" will be the subjects of illustrated lectures to be given Thursday and Friday afternoons and evenings of Gilley's hall under the auspices of the A. O. H. Prof. Robert Turner of Boston, who will deliver the lectures, comes highly recommended by the press of the East. He has 200 beautiful views of America which will be the subject of the first entertainment. Hundreds of splendid views will also be shown in the lectures Friday afternoon and evening upon the subject of "Six Great Cities." The entertainment will include several numbers by local talent among whom will be Miss Edith Cashin, Miss Edith, and Alma Brotherton, Leslie Whalen, Ray W. Abbott, Frank King and Harvey Hall and Miss Helen Barley.

The lectures will be given under the auspices of Division No. 4, A. O. H., and the committees having the affair in charge have worked hard to make it a success and give the public a first class entertainment, one which will be instructive and entertaining. That the lectures will be a success financially there is no doubt, as a large number of tickets have already been sold for both evenings.

Young Girls' Guild.

Rev. Roderick J. Mooney of the Holy Apostles Episcopal church is organizing a guild of young girls, and the initial meeting will be held at the church next Saturday afternoon at 2 o'clock. Girls from about 12 to 16 years of age will make up the membership.

STRENGTH

Without Overloading the Stomach.

The business man, especially, needs food in the morning that will not over-load the stomach, but give mental vigor for the day.

Much depends on the start a man gets each day, as to how he may expect to accomplish the work on hand. He can't be alert, with a heavy, fried-meat-and-potatoes breakfast, requiring a lot of vital energy in digesting it. A Calif. business man tried to find some food combination that would not overload the stomach in the morning, but that would produce energy.

He writes: "For years I was unable to find a breakfast food that had nutrition enough to sustain a business man without overloading his stomach, causing indigestion and kindred ailments. 'Being a very busy man, and a very nervous man, I decided to give up breakfast altogether. But luckily I was induced to try Grape-Nuts."

"Since that morning I have been a new man; can work without tiring, my head is clear and my nerves strong and quiet."

"I find four teaspoonsful of Grape-Nuts with one of sugar and a small quantity of cold milk, make a delicious morning meal, which invigorates me for the day's business." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

More New Tailored Suits Are Here!

Some charming new Suits have come—smart as a whip—cleverly fashioned in every detail of cut and tailoring. Splendid suits for general wear—economical in price—but serviceable.

Take for instance, these \$13.50 Suits—There are smart Blouse Etons and fitted jacket suits of fancy worsted materials in many dainty models.

Jackets are braid and strap trimmed, some fancy vested, and skirts are full and pleated.

They court comparison with any others' at \$20.

Our \$18.50 Suits include the "chic" three-button cutaways in fine Panamas; pony suits in fine Panamas; and many styles in Etons in Panamas and fancy materials. Panamas are of excellent quality—in blue, black and brown, and the fancy materials include striped, checked and plaid effects. Tailoring and finish of high character in every detail. We want you to compare them with any \$22.50 to \$27.50 shown elsewhere in Duluth. Our price is.....**\$18.50**

New Broadcloth Jackets Are In!

Tuesday's express brought you about 50 of the latest creations in broadcloth tight-fitted coats. Some of them show exclusive new ideas in the strappings, braid trimmings, etc.—some plain tailored. All are silk and satin lined. You can't find a duplicate of their style and value elsewhere for so little—\$10, \$12.50 and \$14.50.

The Value of a Cravenette Coat

Can be appreciated this cold, late spring. If you have none, a very little sum will enable you to provide yourself with adequate protection from cold rain and wind.

\$9.98, \$12.50 and up—Choice of plain tailored box coats, belted and housed styles, with three-quarter or full lengths—with self or velvet collars or collarless styles; Oxfords, tans, olives. Rubberized Silk Coats for Outing or Touring—Rain-proofed silks and satins in beautiful plaids, checks, etc., charming long, loose and belted coats—\$15 to \$45 each.

Special Value : Regulation Uniforms

Their practical value cannot be overestimated; equally good for nurse uniforms or regulation house dresses; made in one-piece style of fine blue and white striped goods, plain tailored and with bias strappings. Full and generous in design and cut—exceedingly good values at.....**\$1.98**

A Myriad of White Waists at a Saving Price

That's expressive of this assortment of beautiful styles in white waists at \$1.98. Laces and batistes, with three-quarter or full sleeves, button front or back—great variety of lace yokes, embroidered panel or allover fronts, lace edgings and insertions in exquisite designs. We're positive you have seen no such assortment nor such beauty and worth in 1907 white waists for, each.....**\$1.98**

Mill End Remnants of Regular 12 1/2c Dress Gingham at 8c Yd.

At the Bargain Counter, Thursday—Quite the best part of the news is that they're brand new styles and patterns. Here are the facts:

We made a spot cash offer for this lot of 3,000 yards—and got it—at about 2-3 regular value.

They're all mill-end remnants, so we just turn the entire purchase right onto the bargain counter Thursday—for you—at the same rate.

If you bought them off the piece the price would be 12 1/2c a yard—so you may judge this is a bargain.

Many of them are in the much-wanted tans, champagnes, and linen colors—a goodly quantity of "nurse stripes"—and many other styles—all standard quality.

All lengths up to 15 yards in a piece—as much as you want—Thursday—bargain counter.....**8c**

Little Folks' Bonnets and Caps

Early spring demands something "special" in children's headwear. It's too late for winter headcoverings—too early to buy summery things. Here's news of the "happy medium"—just right for immediate wearing—and for weeks and weeks ahead. Seems as if these caps must have been designed for Duluth's April, May and June:

Children's Tams

HAS CONTROL OF TUNGSTEN STOCK

Geoffrey Company of
This City Has Exclusive
Sale of It.

The Geoffrey company of this city has just concluded extended negotiations through which there is placed in its hands the exclusive sale of the entire tungsten stock issues of the Pittsburg Gold & Tungsten Mining company of Montana. At the same time practically the entire individual stock holdings of owners and promoters have been (pooled) pending the development of the company's valuable properties.

The Pittsburg Gold & Tungsten Mining company is capitalized at \$1,000,000, the par value of the shares being \$1 each. The stock and non-assessable. Of the capital stock 520,000 shares, only 100,000 have been retained in the treasury of the company for development purposes and 10,000 shares of this treasury stock are now offered for subscription at 25 cents per share.

Under contract arrangement with the Geoffrey company the next issue of 10,000 shares cannot be offered at less than 50 cents per share and the third 10,000 shares at no less than par.

It is expected that "Pittsburg" stock will have reached a market value of par or more long before the time for the third offer will have arrived and that it will easily pay handsome dividends on such par value after the first year.

The Pittsburg Gold & Tungsten Mining company is the absolute owner of seven promising gold and tungsten claims at Jardine in Bear gulch, Park county, Montana. They aggregate about 140 acres and lie adjacent to the claims and property of the older and producing mine of the district, the so-called "Kimberly-Montana." From this adjoining property over \$1,000,000 of free gold has been taken and, with a simple, inexpensive and more or less experimental plant, it readily averages half the daily output in tungsten concentrates of all other United States "tungsten" dumps.

The same rich vein matter of the old, or company, has been traced through the claims of the "Pittsburg" and shafts have been sunk and a tunnel driven to verify the favorable surface indications. No finer specimens of scheelite have been found in the district than those taken from the "Pittsburg" dump.

The magnitude and extent of the scheelite deposits of the Jardine district almost baffles description. They are destined to rattle the dry bones of the skeptical industrial world and are no uncertain way. It is no far guess to predict that within three years the Jardine district will equal the combined tungsten production of the entire world outside.

At \$1,000 a ton for tungsten concentrates, approximately the present figure, the return to operating companies must be enormous. At one-half ton the figure the income will still be princely and the way will have been opened to

the extended use of tungsten in the rail and structural steel industry; for steel with a tungsten alloy is both hard and tough, resists heat, and expansion and contraction, does not corrode and, moreover, is the most and most useful product the world has ever seen.

Important negotiations are pending for the sale to outside parties of a controlling interest in the "Pittsburg" company and include the unsold treasury stock. Until such negotiations reach a favorable conclusion, however, the sale of the treasury stock to general investors will continue and subscriptions thereto will be taken as heretofore at the office of the Geoffrey company, 16 Phoenix block, Duluth. Zenith phone 611.

THE DIETZ CASE STIRS THE WISCONSIN SOLONS.

Madison, Wis., April 17.—Somewhat of a sensation was caused yesterday by the introduction by Mr. Weber in the assembly of a joint resolution providing for a legislative committee to investigate the merits of the controversy between John Dietz, the so-called outlaw of Cameron dam and the Mississippi River & Locking company, and report to the legislature in order that bloodshed may be averted and the good name of the state be preserved.

The resolution was sent to the judiciary committee. Dietz was recently indicted by the grand jury of Sawyer county again, and the governor may be asked for military to arrest him.

For Consumptives.

A specialist of a noted eastern clinic gives the following as the best known formula for consumption: Mix two ounces of glycerine with eight ounces of good whisky and add one-half ounce of Concentrated oil of pine. Take a teaspoonful every four hours. Care should be taken to get the real Concentrated oil of pine, which comes only in one-half ounce vials sealed in round air tight cases. The ingredients can be procured from any drug store. The above formula will also cure bad coughs and colds very quickly.

MISS BUTCHART TELLS STORY OF THE SHOOTING

Claims Argyle Pointed Revolver Directly at His Wife.

Witness Said He Tried to Kill Her in Struggle.

Interest in the second trial of Fred M. Argyle, accused of attempting to kill his wife, Little Argyle, was centered yesterday afternoon in the testimony of Miss Butchart, whom the defendant is accused of shooting in the head and who, on account of her wound, was unable to appear at the first trial. Miss Butchart was shot in the left temple on the evening of March 5 last, the bullet entering back of the eye and destroying the sight. She was taken to the hospital, where the injured eye was removed, since which operation she has been recovering. A red mark on

The Supreme Test — Every GORDON HAT must give absolute satisfaction to the man who wears it

lost consciousness and came to in her own home.

Under cross-examination by Mr. Cullin, Miss Butchart denied that she heard any of the conversation between the Argyles until after they had crossed the railroad tracks. She admitted that she did not like Argyle and had no thought of injuring him to support. Miss Butchart denied that she wanted to separate Mr. and Mrs. Argyle, and claimed that the only reason she did not appear at the first trial was because she was too ill.

The witness claimed that there was an ugly expression on Argyle's face, but denied that she had ever told anybody that she hated him.

Asked if she harbored any hard feeling toward Argyle, Miss Butchart said it was natural that she should feel bitter toward

the person who had caused her so much suffering. She declared, however, that such feeling would not influence her to swear falsely.

The witness did not remember taking hold of, or tearing a button from Argyle's coat, although she admitted she might have done so. She claimed that she and Mrs. Argyle had been friends for a long time, but denied that Mrs. Argyle had confided her money to her. Her testimony beyond the mention of the fact that some trouble existed.

Letters Are Introduced.

County Attorney Norton introduced in evidence the letters found on Argyle at the police station, one addressed to the corner and the other to Jacob Johnson.

R. F. Harwood testified that he saw Argyle shoot at his wife as she lay on the walk in front of the Butchart house, and that the revolver was only about a foot from her body when Argyle fired. His testimony was, in substance, practically the same as at the first trial.

Lewis E. Parker, a boarder at the Butchart home, testified that on the evening of the shooting he had gone to the drug store to get some spectacles and had left there earlier in the afternoon. He said he was on the track when the shooting began and heard the first ball sing past his head. The witness claimed he yelled "murder."

John Butchart, father of Miss Beulah Butchart, gave about the same testimony that he did at the previous trial. He claimed to have come out of his house in time to see Argyle shoot at his wife and run down the street.

Mrs. Argyle was called yesterday morning and who finished her testimony early in the afternoon, admitted under cross-examination that she intends to get a divorce and knows that if her husband is convicted she will have little trouble in getting a decree.

term of life, he will have approximated, in payments and interest, the amount of his insurance. The tables are long on the side of the insurance company.

It is expected that the interest in this question will cause an unusual amount of interest in the meeting of the congress this year, and those here who have been in correspondence with the heads of the National congress say that a record breaking attendance from the various societies is expected.

WANTS BIG DAMAGES.

Important Personal Injury Suit to be Tried at Walker.

Bemidji, Minn., April 17.—(Special to The Herald.)—Judge Marshall A. Spooner left yesterday for Walker, where he will preside over the spring term of district court for Cass county.

There is one important case, that of James Kennedy vs. the J. Neils Lumber company. Kennedy was employed at the sawmill in Cass Lake a year ago, and, while at work near one of the saws, he became entangled in the machinery and was frightfully cut and lacerated by the teeth of the saw. Both of his arms were cut off, his face was slashed and his entire body was jammed and crushed. It seems almost a miracle that he was not killed outright, but he escaped from the accident with his life, and afterwards displayed remarkable vitality in surviving operations necessary to put his limbs in condition.

Science is now suing the Neils company for \$50,000 damages, and it is said that the company agreed to give him \$10,000 cash and \$2 per day during the remainder of his life, but he refused the offer.

TREATY SIGNED.

Panama, April 17.—An extradition treaty between Great Britain and the republic of Panama has been signed here.

WARM FIGHT EXPECTED

When National Fraternal Congress Meets in Duluth in August.

Question of Minimum Insurance Rate May Cause Lively Discussion.

There is likely to be a warm debate when the National Fraternal congress, including about sixty of the leading fraternal societies of America, meets here next August. Those who are on the inside of the affairs of the congress predict that there will be one of the hottest fights in the history of fraternalism when the much discussed question of a minimum insurance rate, as indicated by the National Fraternal congress insurance tables, comes up for discussion.

An attempt will be made by several of the leading societies in the congress to pass a measure requiring all of the sixty societies in the congress to agree to live up to the requirements of the tables as to the minimum rates which shall be charged for insurance to their members. These tables have already been adopted and have been rigorously lived up to by a great many of the orders, but there are a few of the organizations in which the insurance rate is far below the minimum prescribed by the table.

Naturally there will be a howl from the members of the societies now charging low rates, at the adoption of the tables, and they will fight the movement as strongly as possible. If the other faction wins out however, the low rate societies as the advocates of the universal minimum rate would make its adoption compulsory upon all members of the national organization.

It is claimed that the minimum rates as fixed by the tables are as low as can well be charged to insure the financial success of the orders. Under them it is estimated that if a member of an organization lives the average

RICHEST GIRLS IN AMERICA.

Bridesmaids at Marriage of C. D. Barnes and Miss Katharine Barney.

New York, April 17.—Courtlandt Dixon Barnes, son of Mr. and Mrs. Henry Burr Barnes, grandson of the late A. S. Barnes, nephew of the late Alfred C. Barnes, Richard S. Barnes, and Mrs. Emilie Barnes Turner, cousin of Mrs. Truman H. Newberry of Washington, D. C., and namesake of Courtlandt P. Dixon, was a bridegroom last week in Manhattan. His bride was the noted Manhattan "society" girl, Miss Katharine Barney, favorite niece of the late William C. Whitney and daughter of Mr. and Mrs. Charles T. Barney.

One of the circumstances that made this wedding particularly notable was the fact that Miss Barney's quartette of bridesmaids numbered four of the richest girls in America. Never before it is said, has so much wealth been represented in a wedding party. These four girls were Miss Cornelia Harriman, Miss Dorothy Whitney, Miss Anita Peabody, and Miss Jean Reid.

The ceremony was at the handsome home of the Barneses, an elaborate wedding breakfast following the noonday ceremony. Mr. and Mrs. Henry Burr Barnes have long resided in Manhattan, making their home at 11 West Forty-ninth street.

VIRGINIA COUNCIL

To Take Up \$3,000 City Bonds, Leaving \$8,000 Outstanding.

Virginia, Minn., April 17.—The city council met in regular session last night and voted to take up \$3,000 in city bonds. This will leave the city with a standing indebtedness of but \$8,000, which is very satisfactory. The bonds for the remaining \$8,000 mature next year and they will be taken up as soon as possible.

Bids for the construction of a new steel bridge across the Narrows, to connect Virginia and Silver Lake, were opened, but no contract was let. The Hennepin Bridge company, which was a bidder, will contract to complete the structure in ninety days and the council wishes to hear from the lowest bidder before awarding the contract. The bids were as follows: Continental Bridge Co., \$3,294; Joliet Bridge & Iron Co., \$3,572; H. P. DR. CHAPMAN WILL SPEAK

Former Associate of Benjamin Fay Mills Coming to City.

Will Hold Meeting at First M. E. Church Sunday Evening.

More than ordinary interest attaches to the announcement that Dr. P. W. Chapman will be in the city next Sunday and will hold a meeting at the First M. E. church in the evening. Dr. Chapman was formerly an associate of Benjamin Fay Mills, who has been in Duluth for the last week or ten days delivering lectures and holding mass meetings. Dr. Chapman was before Mr. Mills left the orthodox creed, and became identified with the "Fellowship movement," of which he is an exponent. Dr. Chapman and Mr. Mills were very closely associated in evangelistic work and each is very familiar with the ideas of the other.

The lecture by Mr. Mills have created no little discussion, favorable and otherwise, and the message which Dr. Chapman will have to deliver will therefore be of more than passing interest. It is quite possible that he will advance arguments to refute the doctrines of his former associate.

The evangelistic idea seems to have taken a firm hold on Duluth. Rev. E. B. Bainbridge Ellis has just finished a successful series of meetings at Grace M. E. church, and W. A. Dunnitt is just beginning a series of meetings at the Baptist church.

LOSES WIFE AND THREE CHILDREN

Wholesale Abduction Causes a Sensation in Oakland Chinatown.

Oakland, Cal., April 17.—Great excitement was caused in the Chinese quarter by the discovery that the pretty wife and three children of Da Yon Ching, a prominent merchant, well known in San Francisco and this city, and a leading member of the Six Companies, have been kidnapped during his temporary absence, presumably by highbinders of a rival tong.

As a consequence of the sensational abduction of Ching's family it is feared that there will be another outbreak and a bitter tong war inaugurated. It is alleged the women and the children were drugged, secretly removed from their home, and taken to some hiding place by highbinders. The wife is about 40 years of age, and the oldest child is a girl of marriageable age, the others, a boy and a girl, being 6 and 3, respectively.

Ching's place of business is at 811 Franklin street, and when he discovered his loss, Chinatown was soon seething with excitement and rumors. He has been uttered by friends of the merchant and the members of this tong, who have been looking for him through Chinatown for the last few days. Although the purpose of the kidnapping has not yet been disclosed, it is surmised that the motive was revenge on the part of business rivals of Ching.

THIRTY-EIGHT IN DEATH LIST

Caused by the Earthquake in Various Parts of Mexico.

Mexico City, April 17.—According to the latest available information from various points in Southern Mexico, which are as yet meager, the death list will aggregate thirty-eight persons, and the list of injured will total ninety-three, although when complete reports are received, it is expected that both the list of dead and wounded will be greatly augmented.

Chilpancingo, with incomplete reports, shows twelve persons dead and twenty wounded.

Chilapa reports fourteen dead and thirty-nine wounded.

Tixtla reports twelve dead and twenty-four wounded.

Owing to the remoteness of many small towns in the affected region, it will be some days before complete reports of the disaster can be received.

THIRD DEGREE ASSAULT.

Woodman Amputates Opponent's Finger in Row and is Fined.

Using a swinging door to amputate an opponent's finger constitutes third degree assault, according to a decision in the municipal court, yesterday afternoon, when Anton Johnson, a husky lumberjack, was found guilty on this charge and given an alternative of \$10 and costs or spending ten days in the county jail at hard labor.

Johnson got into an altercation with Albert Johnson in a saloon at 609 West Superior street. Anton had ordered the drinks for every one in the saloon, but he expected Albert, as being too full already, not to drink any more. This angered the latter, and he began abusing Anton in strong language. Anton made a move for him and for every rough-house door, but when he reached it, placed his hands against the sides of the

opening and resisted Anton's attempts to get him out. Tiring of struggling with the man, Anton finally stepped back and slammed the door shut, cutting off Albert's little finger, where it rested between the door and the jamb.

BRIEF TELEGRAMS.

Almost all to drivers in Northern Wisconsin are idle on account of the cold weather, which is forming new ice on the streams. Large crews were sent to tributaries of the Chippewa river last week, and worked a few days, but were soon compelled to quit.

While his wife held in her hands a pistol, pointed in his face, Dr. R. B. Patterson struck her over the head with a chair in their home at Liberty N. C. Tuesday, and five minutes later Mrs. Patterson died from the effects of the blow. The relations of the couple have been unpleasant.

Having received word that the illness of her son-in-law, Joseph Chamberlain, continues serious, Mrs. V. C. Endicott, widow of the former secretary of war, accompanied by her son, William C. Endicott, and his wife, sailed from Boston for Liverpool, Tuesday, on the steamer Saxepool. The party is hurrying to Mr. Chamberlain's bedside.

Governor Buchtel yesterday addressed a communication to the governors of all the states containing public lands, asking them to join him in calling a convention, to meet in Denver, June 15, 1908, and so this year, to discuss the whole question of public land laws. The letter suggests that a general policy should be agreed upon to be advocated at Washington.

TWO ITALIANS DEAD AS RESULT OF A DUEL.

New York, April 17.—After a quarrel over a girl to whom both were paying attention, two Italians fought a duel with revolvers, in Ozone Park, L. I., as a result of which one of them, Vincenzo Cica, was instantly killed. Vincenzo Cica, the other duelist, was found hiding in a closet in the home of his victim. He was taken to the police station in the closet door, Cica shot and killed himself. The two men had been close friends until they disagreed about the young woman.

COREY TO WED MABELLE GILMAN FIRST OF MAY.

New York, April 17.—The Herald says: William Ellis Corey, president of the United States Steel corporation, and Mabelle Gilman will be married in this city May 1. Their present plans are not changed. They will leave for Europe soon after the ceremony and will be absent on a honeymoon trip abroad, returning to New York about August 1.

The announcement was made yesterday by Maj. James O. Harley, a cousin of Miss Gilman. Mr. Corey cannot be found to confirm or deny the story.

TRAIN WRECKED AT ALTURA, MINN.

Winona, Minn., April 17.—While running about fifty miles an hour, the Great Western train No. 205, was wrecked near Altura, Minn., near here yesterday afternoon. The two rear coaches of the train plunged down a steep embankment. As is reported, three persons were seriously injured. A traveling man named Peterson of Minneapolis, will probably die. He was taken to the St. Charles hospital where he is still unconscious. A broken flange is said to have been responsible for the accident.

OPPOSED TO PLAN.

Havana, April 17.—Opinion here is opposed to the plan of the American general staff to establish a Cuban regular army of 12,000 men to replace the rural guard. It is stated that it would be difficult to recruit that number of men.

Best Tonic For Old Age.

MR. JOSEPH FIELD, 77 YEARS OLD.

Duffy's Pure Malt Whiskey

instills with new strength a weak heart and makes its action healthy and regular. It rebuilds an impaired digestive system, enabling it to absorb the nourishment contained in the food you eat. Its results are free from that depressing effect caused by poisoning the blood with many medicines. It is a tonic and invigorant for old and young, and its medicinal properties make it invaluable to feeble men, nervous women and ailing children. Duffy's Pure Malt Whiskey has stood severe tests by skilled chemists for fifty years, and is guaranteed to be absolutely pure. Our guarantee is on every bottle.

CAUTION. When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold only in sealed bottles—never in bulk. Look for the trade-mark, the "Old Clock" on the label, and make sure the seal over the cork is unbroken. Price \$1. Illustrated medical booklet and doctor's advice free. To the Editor of The Herald: Since your account in yesterday's paper of the arrest of a West end young man for disorderly conduct in the Majestic, and also your statement that arrests have been numerous in that theater, a good many people have got the impression that it is a safe place to take their wives and children to. If you will look up your records you will find that they were mistaken in regard to the many arrests that have taken place. In fact only once before, when we first opened, were we compelled to have any arrests.

Now, of course, there is a rough element everywhere who make their chief enjoyment causing trouble for other people, but we are determined to have a quiet and comfortable house. We have a rest a couple of bums every night. We cater particularly to ladies and children, and will not stand for any rough-house tactics. RIDICULOUSLY INADEQUATE

Are Majority of Searchlights for Coast Defenses.

Washington, April 17.—A statement from the commander of the artillery district of Boston that night exercises in connection with the approaching joint drills of the Massachusetts and the regular coast artillery men, next July, will be impossible for lack of searchlights, has caused some thing of a sensation in military circles. It appears that the success of the defensive work of the great fortifications in Boston harbor is entirely dependent upon the operation of three searchlights, two being twenty-four inches and one 36-inch light. These lights are declared by artillery men at the war department to be ridiculously inadequate, in view of the fact that the present standard coast defense searchlight is sixty inches in diameter.

The state of affairs at Boston is said to be that which exists at the principal defenses of the Atlantic coast. There are very few 60-inch searchlights in position, and none of the defenses is sufficiently equipped to resist night attack.

Gen. Murphy, chief of artillery, estimates that at the present rate of equipment more than seventeen years must elapse before all our coast defenses can be supplied with enough of the 60-inch lights to comply with the demands of modern military and naval defense. The fact bears testimony that nearly \$4,000,000 would be required to purchase the needed number of searchlights, but congress appropriated only \$125,000 for one year's supply of the lights. Up to date the balance needed to buy searchlights is \$3,431,000. The appropriation for the next calendar year is but \$200,000. Even if congress had favored Gen. Murphy's urgent plea for money, it would take some time to procure the big lights. They are not kept in stock by dealers, owing to their great size, and many months must be consumed in making the big lenses which project the great beam from these lights twenty miles out to sea. The effect of the communication from the Boston commandant will probably be to cause the war department to make further urgent representations to congress at the next session.

NERVOUS BRIDEGROOMS.
Los Angeles Times: "Bridgrooms are sometimes nervous; brides never," said "A young butcher, during his wedding ceremony, got horribly tangled up with an uninitiated client. He found himself, in his nervousness, with the cigar in his left hand when the solemn rite began. To put the ring on the bride's finger he hurriedly transferred the cigar to his right hand. When the bride came into the play, in his confusion he stuck the cigar in the bride's mouth. He looked at her helplessly when he next had to speak. I took the cigar from his pale face and put it in his pocket for him."

"One young man was so nervous when I married him that, instead of saying: 'I take thee, Mary, to be my lawful wedded wife,' he said, loud enough to be heard all over the church: 'I, Mary, take thee, John, to be my lawful wedded wife.'"

FORGOT TO SWEAR JURY

**Case in Municipal Court
Had to be Tried
Twice.**

After a jury had been called, passed upon, and accepted by those concerned, a case had been tried, and the jury had returned a verdict, under the court's instruction, for the plaintiff in the action, the plaintiff's attorney suddenly remembered that the jury had not been sworn in before the evidence was taken, raised the point, and Judge Cutting ordered the whole procedure repeated in order to make the judgment hold.

The case was that of the Oak Hall Clothing company against R. Bagley for \$30 for an overcoat bought of them some time ago, and upon which not a cent had been paid, according to the statements of Albert Abrahams, president of the company.

BREAK IN THE TRIAL

**Juror in Argyle Case
Receives News Relative
is Dying.**

**Court Adjourns Until
2 O'Clock in the
Afternoon.**

Nothing particularly new was brought out in the testimony for the state in the trial of the Argyle case this morning. Several of the witnesses at the previous trial testified, and their testimony was, in the main, along the same lines as that already outlined in Argyle's first trial.

The morning session came to a sudden close shortly after 11 o'clock by reason of a message to Juror John D. Morgan that his mother-in-law at Green Bay, Wis., was dying, and that Mrs. Morgan desired to go there immediately. The court directed an adjournment until 2 o'clock to permit of Mr. Morgan's making the necessary arrangements for his wife's departure for Green Bay.

Mrs. Butchart on Stand.
Mrs. Lula Butchart, the mother of Miss Bessie Butchart, testified that she was in the kitchen when she heard the first shots fired and that, calling the rest of the family, she rushed out on the porch in time to see Fred Argyle run past his wife and fire three shots at her as she lay on the snowbank beside the walk. Mrs. Butchart said that Lewis Parker was running on the walk at the side of the walk with his hands over his head and screaming. She was positive that she saw three distinct flashes of the revolver and saw the smoke, also that she saw Argyle well enough to identify him.

Under cross-examination the witness could not tell whether it was too dark at the time to see the smoke or too light to see the flash from the revolver, she was sure that she saw both.
Mrs. Butchart admitted that she knew the Argyles had separated, but claimed that she did not know anything about the details of their troubles. She said she had told Argyle over the telephone that he would be welcome to come to the house and that on one occasion when he went out to Lester Park to see his wife she, Mrs. Butchart, invited him into the house. The witness claimed that on the occasion mentioned, Argyle said he intended to see his wife for a few minutes, and settle matters, if he had to lay off work all the rest of the winter, that "she had done him dirt, and he intended to show her a few things."

Sergeant Gillon was recalled to testify concerning the examination of Argyle at police headquarters, as were Detective Frank Schulte and Chief Troyer.

On his cross-examination by Mr. Cullin, Detective Schulte admitted that

Argyle told the officers he intended showing to his wife the letter taken from his person. The witness said Argyle was questioned very closely concerning his feeling toward Miss Butchart and gave only one reason for his hostility toward her. He also testified that the hostile feeling seemed to be of long standing and that he, Schulte, reached the conclusion, from Argyle's own statements, that the feeling against Miss Butchart was without reasonable foundation.

Detective Schulte said that Argyle made the statement that the shooting of Miss Butchart was an accident and that he did not intend to kill his wife, but simply frightened her so that she would go back and live with him.

Cross-examined further by Mr. Cullin, the witness admitted that he had a memorandum in his pocket concerning what took place at police headquarters and which he, Schulte, wrote out yesterday and read over before he went on the witness stand. Mr. Schulte explained that he always makes such a memorandum concerning the cases with which he has anything to do, sometimes writing it out at the time and sometimes a few days afterward, simply to keep certain points well in mind.

Chief Troyer on Stand.

Chief Troyer of the police department was called as a witness for the state. Mr. Troyer was one of the state's witnesses in rebuttal in the previous trial and Mr. Cullin objected to his testimony on the ground that Argyle, during his examination at headquarters, was without a legal representative, surrounded by officers and was, in fact, in duress. The objection was overruled.

In a general way Chief Troyer's testimony was that Argyle made the statement he had been having trouble with his wife, such as married people sometimes have; that his wife had left him and gone to Lester Park to live with the Butchart family. He said he went out to Lester Park the evening of the shooting for the purpose of inducing his wife to go back and live with him, but she refused. He said that while he was talking to his wife, Miss Butchart came along and the two women started down the avenue

toward Butchart's when he pulled his revolver and fired straight ahead into the air; that Miss Butchart, who was between himself and Mrs. Argyle, turned and grappled with him and got her head in front of the revolver as the second shot was fired. He said he continued running after his wife and firing until all six shots had been fired, when he ran down London road and boarded a street car at the end of the line, taking the front seat. Argyle said that on the way down town the people about him were talking about the shooting affray and that at Second avenue east two officers got on the car and searched it, but did not recognize him. He said he asked the motorman to let him off through the front vestibule of the car at Third avenue west, as he, Argyle, did not wish to be recognized by any of the people who were in the car. He claimed that he walked home, entered the house, locked the doors and sat there until morning, keeping quiet and seeing the officers about the house.

It was expected that Mr. Cullin would cross-examine Chief Troyer at the opening of the afternoon session. The morning session was marked by the presence of quite a number of women spectators, who seemed to have a curiosity to see Mrs. Argyle or Miss Butchart, neither of whom were called to the stand.

One child was burned to death and two others were rescued with difficulty from a fire which destroyed the house on the farm of Paul Herlinger, a farmer living twelve miles south of Dodge. The parents were at the barn when flames were seen issuing from the roof of their dwelling. The father was compelled to hold the mother, who made hysterical efforts to rush into the burning dwelling to rescue her child or perish with it. That his bull pup, Paddy, be taken care of for the remainder of his life and the charges paid out of the proceeds of his estate, is one of the provisions of the will of William W. Fremont, whose estate is now in the hands of Public Administrator A. W. Gray of Kenmare for settlement.

Oakes—Mr. Hampton, agent for the National Grange, who has spent several months in Germany and other countries of Europe, has advised Congressman Marshall that he is on the way home with some lamps and stoves for the burning of denatured alcohol, which he hopes to distribute in the United States through agents. One of the greatest drawbacks against denatured alcohol has been the lack of such appliances, and Congressman Marshall believes this shipment will have much to do with bringing the alcohol into use.

Sioux Falls—Municipal elections were held throughout South Dakota yesterday, the prevailing issue being liquor license. Returns indicate little change in the present standing of the prohibition and saloon forces. In Sioux Falls the principal issue was on the granting of a thirty-year franchise for the construction and operation of a street railway system, which was ratified by a vote of 5 to 1. License carried by a large majority.

Former Senator R. F. Pettigrew declares that Mrs. Nellie Brown of Aurora, Ill., who is claiming he is her son and was kidnapped when a boy, must be crazy. He never heard of her. The senator's mother, Mrs. Andrew Pettigrew, was Miss Sautelle of Sudlow, Mo., who died at her son's home in Sioux Falls in 1888 and is buried beside her husband, Mr. Pettigrew's father, in Evansville, Rock county, Wis.

SPORTING NEWS OF THE DAY

BURNS IN
LIMELIGHT

Three Matches Are in
Sight for the
Canadian.

He Will Probably Meet
O'Brien, Schreck and
Squires.

Tommy Burns, Noah Brusso that was, occupies the center of the pugilistic stage at present. Every fighter seems to think that he must put Burns off, if he wants to make claim for heavy weight championship honors, for Tommy himself, by his defeat of Marvin Hart, secured a doubtful claim to the championship. If Jim Jeffries should return to the ring, Burns would be no more champion than Jack O'Brien, Mike Schreck, Jack Sullivan, Jack Johnson, Bill Squires and many other pushers of the pugilistic world.

But despite the fact that he is only a near-champion at best, Tommy has kept busy taking care of the many challenges which come his way. He is matched to fight Jack O'Brien at Los Angeles May 15, although it is doubtful if the match will materialize on account of O'Brien's break with Tom McCarney. A match between Bill Squires and Tommy Burns is also being arranged for Decoration day, May 28. In addition to these two prospective money makers for the Canadian, Mike Schreck is now on his trail. Tommy has managed the slightest Mike for a long time. Once, three or four years ago, when Tommy was fighting around Detroit, under his own name of Noah Brusso, Schreck outpointed him in ten rounds. Schreck believes he can turn the trick again, for both have improved since their former match. Schreck has been for some months trying to arrange a match with Burns, but the Canadian has avoided the meeting. Schreck's victory over Willie Elmes the German a claim for a fight and Burns will have to get in the ring sooner or later.

And if Burns and Schreck get together, look out for one of the best heavy weight fights in recent years. There is nothing like Mike is a knocker out one of the best in the business. During his first fight with Mike in 1904 and 1905, he sent seventeen men into the land of nod. In 1906 he fought a draw with Jack Twinn Sullivan, and twice outpointed Hugo Kelly. There were no knockouts in that year, but in 1908, there were two, in 1904 six, and in the following year two more, the victories being George Dawkins, Dave Barry. Strangely to say, these two fights occurred in the final minute of the twentieth round of the fight with Mike, and Burns will have to get in the ring sooner or later.

Jimmy O'Brien is coming on putting a halt to from twenty-five to forty-five rounds on the Squires-Burns fight which he proposes to put off on the night of May 20, at Colma. Burns has already accepted the terms offered by O'Brien and it is now up to Squires. Apparently the Australian couldn't do better. There is little chance of Burns' getting in this month, unless he wants to take on a match, which will not him little money and it is believed that he will accept the match for Decoration day.

In the event that the Burns-O'Brien fight does not take place at Los Angeles on May 3, according to schedule, Squires may get a chance to see him at Los Angeles; but it is not probable that Tom McCarney will fight him, as he has already agreed to fight the best of the afternoon of a holiday offers the best inducements.

O'Brien is coming on putting a halt to from twenty-five to forty-five rounds on the Squires-Burns fight which he proposes to put off on the night of May 20, at Colma. Burns has already accepted the terms offered by O'Brien and it is now up to Squires. Apparently the Australian couldn't do better. There is little chance of Burns' getting in this month, unless he wants to take on a match, which will not him little money and it is believed that he will accept the match for Decoration day.

Jack Palmer's defeat by Jack Twinn Sullivan last night has caused a sensation in the pugilistic world. It is believed that he may have had to fight leading American heavyweights, but he has not yet been in the ring. He must now go ahead and establish an American reputation before he will be in the line for matches with the numerous claimants for heavy weight honors. With this in mind, he has been matched with Squire Burke, the man to fight from six to twenty rounds before the club offered the best of the match. It is probable the match will take place at Philadelphia or Baltimore.

**GUN CLUB FOR
CROOKSTON**

Open Shoot Will be
Held During Coming
Summer.

Crookston, Minn., April 17.—(Special to The Herald).—The coming year promises to witness the most active and successful season in the history of the Crookston Gun club. The games have started work earlier than usual this spring, and the call for the annual meeting has been made for next Saturday evening.

The club has never had a clubhouse, but this season a fine one will be erected on a fine ten-acre plot of ground, which has been leased north of Crookston, Minn., facing north. The latest model traps will be installed as soon as the reorganization is effected and the ground fitted up in first-class manner in every way.

In addition to the regular shoots, a big interstate shoot is being planned for July. The details of this meet will be arranged by the election of officers at the meeting next Saturday evening. It is planned to have the biggest meet ever held in the Red River valley, with cash prizes that will attract the best trap shooters in all the Northwestern states.

I have been somewhat costive, but don't regret it. They act mildly and regulate the bowels perfectly. Mrs. E. Krause, 303 Walnut avenue, Alameda, Cal.

DULUTH IN
NEW LEAGUE

International Hockey Circuit Will Probably be
Reorganized.

Western Teams in Proposed New Hockey
Organization.

Houghton, Mich., April 17.—(Special to The Herald).—From the present outlook Duluth is to have a team in the Northwestern Hockey league next winter, or if not then, the year after at the very latest. The Northwestern is to be the rejuvenated international, from the dope now being handed out, although the officials of the league here will say nothing about the matter. The story is that Pittsburgh will leave the present international, and that the present lackey of the Calumet team are also likely to drop out, as the fans in the Copper country metropolis do not support the team.

The two Soos Canadian and American, Houghton, Red Jacket, Chicago, St. Paul, Duluth, Winnipeg and Kenora, and possibly Columbus, will make up the new league, although the last named team may go into the Eastern with Pittsburgh, the Montreal Wanderers, the Ottawas and others. This plan was previously mapped out at the opening of the season just closed.

Vanderbilt, who is far from the center of the town. In this event it is likely that the Calumet team will be moved to Red Jacket, where it is expected that a big rink, on the plan of the Amphidrome and Palestra, will be built this summer.

The American association season opens today with Milwaukee at Columbus. St. Paul at Toledo, Minneapolis at Indianapolis, and Kansas City at Louisville. The game at Columbus will open the season at the head of the league.

The White Sox will be back in Duluth May 3. The stove circuit season will be broken and the Sox will head the first of "play ball."

The Devos' Boston Nationals are getting off well in the pennant race and, should they land in the pennant, every good fan will rejoice with the owners. They have had a hard uphill fight and a good fight always stands well with baseball fans.

**Y. M. C. A. WINS
FIRST GAME**

Boat Club Loses Basketball Match, 29
to 15.

In the first game of a series of three, the Y. M. C. A. basketball team defeated the Duluth Boat club five, at the Y. M. C. A. gymnasium, last night, by a score of 29 to 15. The oarsmen were outclassed from the start, although at times they made things interesting for their stronger opponents. At the end of the first half the score stood 17 to 7, with the association boys in the lead, and they scored 15 to the boat club's 8 in the last period of play.

The game was no love feast by any means. Both teams went into it with vigor, which made the play exceedingly rough at times, and kept Referee Baileau busy calling fouls. He called thirty-one infractions of the rules during the game, and he let a good many things go by at that.

Anderson of the Y. M. C. A. was the star performer on the floor last evening, and Haroldson and Delighton did good work for the Boat club team. The game was the first of a series of three, and the boat club five promise better things when the next game is pulled off.

Following is the line-up of the teams:

**CORNER
IN
SPORTS**

That Jack Parres-Gri Jones fizzle at Minneapolis was a blow to the fight game in Minnesota, and it looks as though the sport is practically dead for some time to come. It is such a fair as that pulled off by Parres and Jones that have put boxing in dispute in more than one community in the United States. The fans, who pay their good money to see a fight, want to see the men mix it and when there is anything the least bit shady on the surface, they set up a howl, which can't be anything but hurt public sentiment against the sport of the ring.

Governor Johnson took a hand in the game and issued an order that the law prohibiting boxing be obeyed.

As it is now, Minneapolis, which fostered the sport for months past, will not have another ring battle for some time to come and fights are so few in other parts of the state that the milt artists will leave Minnesota for climes more congenial to their profession.

One such fight is enough to turn an ardent fan against the game for all time to come.

SPORTING BRIEVITIES

George Huff, the Illinois athletic director, will take the management of the Washington team, will succeed Huff at the Illinois institution. If Huff is secured, Huff's place will be filled, but if a good man is not available, Illinois will suffer in the athletic department by the departure of the coach, who has done much for the school at Champaign.

The American association season opens today with Milwaukee at Columbus. St. Paul at Toledo, Minneapolis at Indianapolis, and Kansas City at Louisville. The game at Columbus will open the season at the head of the league.

The White Sox will be back in Duluth May 3. The stove circuit season will be broken and the Sox will head the first of "play ball."

Races for War Canoes
and Motor Boats in
Prospect.

All predictions which have been made to the effect that this will be the most successful year in the history of the Duluth Yacht club will easily be borne out, if present indications count for anything. For one thing, the membership is larger now than ever before, and the members are all enthusiastic over sailing, launching, or boating in one form or another.

And then there is the fact that the club has so many new features to offer this season. The latest project is a summer camp up the St. Louis river, where those who are so inclined may spend the night, or their whole vacation, without any special expense.

Just where it will be located has not yet been announced, but this detail will be decided upon in the near future. Another new feature this year will be a small fleet of canoes, among which will probably be two regulation war canoes, capable of seating eighteen or twenty persons. It has not been definitely decided to purchase the latter this year, but the chances are that the purchase will be made. Races will be arranged between these crafts, and expected. The club also is planning of a speed boat tournament in the local harbor during the summer, to be given under its auspices. Speed boats from different points in the West and Northwest will be invited to compete, and Duluth will have four or five speedy ones herself to enter. There isn't a finer speed boat course in the country than is offered at Duluth, and no trouble is anticipated in getting a good number of outsiders here to compete.

In short, the club will not confine its attention to sailing so much as it has in the past. In interest will be taken in different kinds of aquatic sports. More committees to look after the various details of the club have been appointed this year than ever before, and every detail will have a regularly

appointed committee to look after it. The names of the men to serve on the sailing committee this season have just been announced, as follows: G. Fred Smith, Dr. Frank Lynam, H. S. Mahon, F. R. Kennedy and O. L. Mather.

Dr. D. H. Day and Dr. R. Smith constitute a committee to look after the launch interests, while the entertainment committee consists of Dr. Day, Mr. Mahon, Carlisle Hastings and M. F. Jamar. Then there is a committee consisting of Dr. Day, Mr. Hastings, Mr. Mahon and Mr. Jamar, besides a building and finance committee made up of W. A. McConagie, John McAlpine, F. R. Kennedy and Commodore Horace Johnson.

Plans are now completed for the new ball room, which is to measure 30 by 35 feet. It will be constructed above the present large launch house, and will be completed by the time the season opens. A permanent breakfast room will be constructed this year, making a large and safe anchorage that will be enclosed on all sides, with entrances sufficiently large for the boats to get in.

Members who own their own boats are now overhauling them and getting them in readiness for launching. The season will probably be officially opened by the yacht club on Decoration day. The club fleet of sailing vessels now consist of eleven 28-footers, seven 22-footers, four 18-footers and two 20-footers. There will be several additions to the fleet during the season. Shredded Wheat

Biscuit—and the longer you chew it the better you will like it and the more nutriment you will get out of it. More easily digested than the mushy porridges that are "bolted down" without chewing.

For breakfast heat the Biscuit in oven to restore crispness, pour hot milk over it, add a little cream and a little salt; or, sweeten to taste. Shredded Wheat is also delicious and wholesome for any meal in combination with fresh or preserved fruits. At your grocers.

UNITED IN NOVEL MANNER.

Doubter Prosecutes Man Who Proves to be His Brother.

Seattle, Wash., April 17.—After having been separated for thirty-six years, two brothers have been united in a novel and dramatic manner here. One of the brothers, Johann Weber, a resident of Pennsylvania, after completing with requests made by his brother, Yost Weber, a longshoreman of Seattle, for money, came West to see if the Seattle man were really his kin. On arriving here the man who had asked for assistance was pointed out, but the Pennsylvania man declared that the longshoreman was not his brother and immediately had him arrested as an impostor.

After returning to Pennsylvania he was again called West to be a witness in the case. Notwithstanding the denial of Johann, Yost maintained that Johann was a brother whom he had not seen since leaving Germany for a seafaring life thirty-six years ago.

United States Commissioner Kiefer, before whom the case was tried, hid upon a plan of having the brothers, separately, writing their cousins' names. Both did this and they talked. Others tests were made, including a recital of the longshoreman's class at his confirmation.

When it became plain to both that

they were brothers an affecting scene followed and both men left the courtroom arm in arm after the commissioner had dismissed the case.

WIFE DRINKS A CASE OF BEER EACH DAY.

St. Louis, April 17.—The mere fact that a wife may drink a dozen or so bottles of beer a day, or even an average of a case a day, as charged, does not constitute a sufficient ground for divorce.

This is the ruling Judge Matt G. Reynolds made in the circuit court when he dismissed the petition of John Green against Anna M. Green. Green testified that his wife frequently drank a case of beer a day.

He introduced one witness, a grocer, who testified that during the month of October, 1906, he sent around over 400 bottles of beer to the Green home.

Judge Reynolds said that the fact that Mrs. Green had a fondness for beer was not good grounds for divorce. He said the evidence showed that Green knew of Mrs. Green's beer appetite before marrying.

A GENERAL INCREASE

Skilled Workmen Will Receive Higher Wages This Year.

Contractors Offering \$1 an Hour for Competent Bricklayers.

With the contractors tumbling over each other to get bricklayers and stone-masons, it is not likely that the latter are going to have any trouble in getting the 10 cents an hour wage in wages which they have demanded for May 1. Some of the contractors are even offering the bricklayers as much as \$1 an hour, it is said, in their anxiety to get workmen.

Besides the bricklayers, practically all of the others of the building trades will receive higher wages this season, most of the unions having drawn up new scales which are to go into effect the first of next month. Altogether there are probably between 2,000 and 3,000 skilled workmen who will be included in the general wage increase in Duluth on May 1.

Last year the bricklayers received 60 cents an hour and this year it will be 70 cents. The plumbers are now getting 45 cents, but their new scale to go into effect next month will give them 52½ cents an hour. The members of the carpenters' union are asking for a wage scale of 45 cents, which is an increase of 5 cents over that of last year.

In the case of the painters the new scale has already gone into effect, and provides for an increase of 5 cents an hour over the wage paid last year. The painters, who have been getting 45 cents, are now asking for 50 cents an hour in their new scale, and they expect to get the increase. The steamfitters want the same wage, but the plumbers will not consent. The electricians are asking for an increase of 50 cents a day above the scale of last year. This spring the electricians are asking for 80 cents an hour for eight hours' work, while last year the rate was 70 cents for nine hours. The contractors are willing to grant the increase if the members of the union will concur in the new scale, as it is necessary for the hood-carriers to be at work last night ahead of the masons in order that no time may be wasted in mixing mortar and getting the materials ready. This compromise plan will probably be adopted before May 1.

The plasterers are already getting \$3 a day for their labor and have not made a demand for a higher scale, as they are under an agreement.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of my nervousness, nervousness and general debility," writes A. A. Chow, "I tried Dr. Thomas' Electric Oil. It looked as if there was no hope left. I was persuaded to use Electric Bitters, and I believe to say that they are just what I needed. I am now doing business again as of old. This compound is really a daily. Best tonic medicine on earth. Guaranteed by all druggists. 50c."

WORTHLESS BUM MUST TAKE BATH

Every Fifteen Minutes, Is Sentence of Philadelphia Judge.

Philadelphia, April 17.—"Hully gee, judge, you don't mean dat, do yer?"

"Yes, I do, most emphatically, and certainly be clear for once since your birth at any rate."

This bit of dialogue occurred in the Twenty-eighth district police station at the conclusion of the trial of Toni Tobasco, the charge of being a worthless bum.

Toni was found asleep on the porch of a house near the corner of Eleventh and Berks streets, shortly after midnight by Patrolman Milligan, who was called to the scene by a woman who was crying. He found Toni, who was a white man, with a bundle of rags in his arms. He poked it, it did not move. He poked it again, a little harder this time. The bundle moved. Then Milligan thought he had a person who had been taking the mud bath cure, for Tobasco was in a state of horrible filth. Upon being offered soap and towels with which to cleanse himself, Tobasco balked.

He was taken before Magistrate Rau and the magistrate was shocked by his appearance.

"When did you have a bath last?" asked the magistrate.

"Not since last summer," was the reply.

"When did you wash your face last?"

"About six weeks ago."

"When did you wash your hands?"

"I don't remember the last time."

"Well, I guess you'll remember the next time," said Magistrate Rau, "for I am going to send you to the house of correction with positive instructions on your commitment that you have a bath every fifteen minutes during the day for the first week and every day thereafter during your stay. I guess that will make up some little for last time, and it may get you in the habit and teach you that you must be clean to be healthy."

Toni went off weeping to the cellroom, where he was given a little warm water, soap and a towel. He washed his face, but he had to take his medicine.

Do It Now! Don't Wait Until It's Too Late!

KEEP your body clean! Most people are very neat and clean in their outward appearance, but how about the inside?

Are you clean inside? And if not, how can you face the world with clean thoughts, clear intelligence, a fair, just, bright mind and get your share of capacity for work and enjoyment?

Neglect of exercise, rich over-eating and carelessness about stools, often leave the delicate internal mechanism in a nasty mess.

The small intestine is compelled to absorb the poison of decaying matter instead of wholesome nourishment.

The liver gets inactive; the bile doesn't "work off"; the eyes get yellow; the skin gets dead like putty and pale like dough, disfigured with boils, pimples, blackheads and liver-spots.

There's only one solution to the problem: Keep clean inside all the time. That's the answer.

If you can not diet, or keep your mechanism going by proper exercise, take Cascarets, the sweet, fragrant, harmless little vegetable tablets, that "act like exercise" on your bowels, and gently but powerfully clean out and disinfect the whole digestive canal.

A Cascaret every night before going to bed will "work while you sleep" and make you "feel fine in the morning."

If you have been neglecting yourself for some time, take a Cascaret night and morning and break up the "constipated habit" without acquiring a "cathartic habit."

Cascarets are sold by all druggists, 10c, 25c and 50c. The 10c size trial box is a neat fit for the vest pocket or lady's purse.

Be sure to get the genuine with the "long-tailed C" on the box and the letters "CCC" on each tablet. They are never sold in bulk.

NEW CARS FINISHED

First Batch of Double Truck Cars Ready for Motors.

Seven of Fifteen New Vehicles Are Awaiting Equipment.

General Manager Herbert Warren of the Duluth-Superior Traction company has just returned from Minneapolis where he has been for the past few days on a business trip in connection with the new double truck cars that have been ordered for service in Duluth.

Manager Warren states that the first seven of the bunch of fifteen new cars that have been ordered for the Duluth service have been finished. It was expected that the cars would be shipped last Monday, but a failure on the part of the General Electric company to deliver the motors will probably delay the shipment about three weeks. Were the cars equipped with motors they could come at once.

The other eight new double truck cars will probably follow closely, the first seven that will be shipped to Duluth.

The "Twin City Car works, where the new cars are being turned out, have been building about thirty new cars of the type to be used here.

Manager Warren says that the new cars ordered for the service here are of a somewhat similar type as the double truck cars last put in service here, only much better in point of construction and in many details. The cars, though larger and of a greater carrying capacity, will be much lighter than the first double truck cars put in service here. The aim has been to keep up the standard of strength while reducing the weight, and in the construction of the new cars hollow steel has replaced some of the heavier construction of the work of the older cars.

It is claimed, also, that the new cars will be of superior finish and rather more attractive vehicles than the last double truck cars put in service, which have been generally regarded as a disappointment over the former four-wheeled cars.

The cost of the new cars will form the largest item of expense in the large amount of improvement work that the traction company has planned in its system here, and in Superior this coming season. The double truck cars, with their motor equipment are an expensive affair, more so than the coaches on a railway train and the order of fifteen of these splendid vehicles, placed by one company, has attracted considerable attention throughout the city and in the country where street passenger traffic is handled by electric car lines.

The street railway company is now ready to take on power for the operation of its system, from the Great Northern Power company, as soon as the latter is ready to supply it, and it is thought that the time is not far distant when this will be an accomplished fact. The necessary connections have been made with the power distributing station at Fifteenth avenue west and the street railway company can begin using the power generated by the St. Louis river water power, just the moment it is to be had.

Eleventh avenue station is now ready to receive power from the Great Northern Power company. The switches will be turned on in the near future, and the engines at the latter place will be stopped. In case of an emergency, the switches will be manipulated and the power can be had without any loss of time.

JILTS YANKEE FOR CHINAMAN

Pretty Bride Declares That Mongolian Husbands Are Far Superior.

Albuquerque, N. M., April 17.—"If I had to choose 1,000 times over I would marry a Chinaman rather than an American," declared today, Chinese bride, Mrs. Wong, who is not so domineering as American men, and they do not smoke, chew or swear—the three cardinal vices of American men. The Chinese are also moral—something that can be said of few men in this country."

Any woman who would marry a Chinaman would, quite naturally, be expected to make some such declaration as the above, and that is just what Mrs. Wong did. She is just what Mrs. Wong did. She is just what Mrs. Wong did.

Because the people of California, especially those at Los Angeles, look askance upon marriage between Chinamen and American girls, and because no minister or justice of the peace on the coast can be induced to perform such ceremonies, Tsong Wing Wong, a doctor of Los Angeles, and Miss Callie Felber Stocks, a 22-year-old teacher of English at Los Angeles, Cal., said with more or less display of temper a few minutes after she became the bride of her Mongolian lover. Mrs. Wong evidently felt her position quite keenly and knew that by marrying a Chinaman she would become the object of more or less harsh criticism on the part of her former friends and acquaintances.

WOMAN'S RIGHTS.

The Dignity and Sacredness of Motherhood.

Think of the greatest man who has ever lived upon this earth, and then think of him as he lay, an infant, in his mother's arms. Does it seem possible that he should have grown, become great in the world's estimate and perhaps had monuments erected to perpetuate his memory, and yet that the world should have forgotten even the name of the woman who bore him? The son's work is the mother's primarily and, therefore, the recognition of the dignity and tender sacredness of motherhood should no longer be delayed. It is high time that this country's greatest treasure—THE WOMEN WHO HAVE CONTRIBUTED LARGELY TO MAKE IT WHAT IT IS—should be recognized.

Why should not these good mothers be given the right to vote and have a voice in our government—a right that is accorded to some of the most ignorant, most insignificant and vilest of men?

It has been well said that "for every monument to a great man there should be a monument to his mother and the mother's monument should be built first."

But it is not so much the purpose of this brief article to advocate the just rights and privileges due to the women of this country, although it has afforded the writer great pleasure to pen the foregoing brief tribute to their worth and just desert, as it is to call attention to the fact that when broken down in health and strength by over-work, the too frequent bearing of children, the never ending toil, worry and care of the household, or by whatever may overtax the strength and delicacy of her sensitive system, there is one, tried and proven, safe remedy upon which she may rely to regain health, strength and the power to fully enjoy life.

That remedy is Dr. Pierce's Favorite Prescription—a remedy made wholly from the roots of native forest plants which have been proven to be most efficacious, reliable and safe in the cure of woman's peculiar weaknesses, periodical pains, irregularities, wasting and weakening catarrhal, pelvic drains and kindred ailments. It is a remedy, the makers of which print its formula on every bottle-wrapper and under its own pleasant and corrected name, a remedy devised and adapted to woman's delicate constitution by an educated physician—an experienced specialist in woman's diseases; a remedy, every ingredient of which has received the written endorsement of the most eminent medical writers of all these several schools of medicine.

COUNTY DIVISION BILL NOT VERY LIKELY TO GET THROUGH THIS SESSION

Measure Receives a Severe
Setback in the
Senate.

Tax on Iron Ore Royal-
ties is Doomed to
Defeat.

Salaries in Judge of Pro-
bate's Office Defin-
itely Fixed.

(From a Staff Correspondent.)

St. Paul, April 18.—(Special to The Herald.)—County division received a severe setback in the senate this morning, when the senate defeated an attempt to hasten action upon it by substituting the bill which has passed the house, for the bill which is before the senate, on motion of Senator Vail. Senator Sageng of Ottentari county opposed the motion, making his argument on the merits of the bill. Senator Wilson of Minneapolis asked how the Duluth senators stood, and Senator Laybourn said that while they had not cared to oppose Senator Vail on the floor, both he and Senator Pugh were against the bill. The motion to suspend the rules so far as to substitute the house bill for the senate bill was lost, six for and thirty-seven against. This practically means that it is impossible to get the bill through at this session.

Representative Thundale of Har-
many tried to suspend the rules to
advance his bill to tax iron ore roy-
alties 10 per cent, but Representative
Jefferson of Blaine county opposed
it, on the ground that it was a bad
bill, because it hit at the explorers
that had located iron deposits and

PEREMPTORY CHALLENGES

Used on the Jury Al-
ready Selected to Try
Abe Ruef.

San Francisco, April 18.—Henry
Ach, counsel for Abraham Ruef, who
was stricken in court yesterday, is now
on the way to recovery. His illness
turned out to be ptomaine poisoning,
which was attributed to mussels eaten
at luncheon. Late last night Mr. Ach
was pronounced out of danger.
The twelve men selected as a jury
yesterday subjected to peremptory
challenges. Of these the prosecution
have five in all, the defense being al-
lowed ten. It is expected that when
these challenges are completed, the
other twelve probably will be ordered,
which will serve to prolong the trial,
which has now been delayed for some
time.

It is now said that the indictments
resulting from the recent telephone
investigation will not be filed before
the return from Manila of T. V. Hal-
ley of the Pacific States telephone
company, now under indictment for
perjury, who is expected to be exam-
ined by the grand jury. The object of
the prosecution, it is said, is to begin
as many trials as possible as soon as
the indictments are ready, and detect-
ive Burns has already taken advantage
of the lapse in the grand jury's
work and is busy preparing for the
actual trials which are expected. The
investigation into the other forms of
graft is being carried on simultane-
ously with the preparations for the
work in court.

KILLED BY STRIKERS

Three Men Fatally As-
sault a Car Cleaner
in Chicago.

Chicago, April 18.—Because he refused
to go on strike Edward F. Fago, a car-
cleaner employed by the Chicago &
Northwestern railroad, was hit on the
head with a brick last night and then
jumped on and kicked by three men.
He died a short time later.

The police arrested Paul Majka and
are searching for Henry Wotka and
Joseph Malke, who they assert aided
in the attack on Fago.

The strike which led to the murder
occurred three weeks ago. At that
time the men became dissatisfied with
the wages paid them and quit. Fago,
who had been employed by the com-
pany for five years, refused to join
them. Other men were hired to fill
the places made vacant by the strikers,
and the latter were refused employ-
ment.

Last night the three men, it is al-
leged, tried to assault Fago to quit
and he refused to listen to them. Maj-
ka, it is alleged, picked up a brick from
the floor and struck Fago on the head.
The others then jumped on him and
left him unconscious on the floor. His
death occurred soon afterward.

A GRACEFUL COMPLIMENT

By the Republican Legis-
lature to the Demo-
cratic Governor.

Another Tax Amendment
to be Submitted to
the People.

(From a Staff Correspondent.)

St. Paul, April 18.—(Special to The
Herald.)—The Republican legislature
has paid a very graceful compliment
to the Democratic governor of Minn-
nesota by raising his salary 40 per cent.
Yesterday afternoon the senate, with
only two negative votes, passed the
house bill by Representative T. J.
Brady of St. Paul, increasing the salary
of the governor from \$5,000 a year to
\$7,000 a year. The two opposing votes
were cast by Senators B. N. Anderson
of Litchfield, and there were forty-seven
votes in favor of the measure.

Yesterday was a quiet but indus-
trious day in the legislature. There
were no measures of large importance
to engage attention, and both houses
buckled down to the regular order of
business and put in an active day tack-
ling the large accumulation of bills up-
on the calendars, passing many, none
of which except the governor's salary bill,
were of large importance. The
senate has been beginning its work

PASTOR'S HOME IS DYNAMITED

Culmination of Trouble
Among Members of
Hazelton Church.

Hazelton, Pa., April 18.—An at-
tempt was made early today to kill
the Rev. Matthew Yankola, pastor of
St. Joseph's Slavonic church, in this
city. A heavy charge of dynamite
was exploded under the entrance
to the parsonage, and tore out a
portion of the porch, shattered all
the windows in the house and splin-
tered the front door.

There have been factional troubles
in the church for some time. One
faction has asked for the removal
of the pastor, but without success.
Several weeks ago Father Yankola
received a letter from the Black
Hand, threatening him with death
unless he left the city. He asserts
that the dynamiting is the work of
members of the faction opposed to
his retention. The majority of the
male members of the congregation
are mine workers, used to the han-
dling of explosives.

KINGS TO VISIT.
Madrid, April 18.—It is rumored that
after the birth of an heir to the Span-

Rome, April 18.—A public consistory
took place at the Vatican today with
great ceremony. This being the ses-
sion in which Rome is crowded with
tourists the demand for tickets was
extraordinary. At an early hour all the
streets leading to St. Peter's were black
with people, hurrying to get good
places. (Continued on page 5, third column.)

NEGRO IS NOW A FULL GROWN MAN

Must Take a Man's Place
in World, Says Bishop
Grant.

Washington, April 18.—The financial
board of the African Methodist Epis-
copal church is holding its annual
meeting here, with members present
from many large cities. The annual
report of the financial secretary, E.
W. Lampton, which has been sub-
mitted to the board, shows receipts
for the past year, \$161,242, of which
\$14,195 had been retained for salaries
of bishops, general officers and gen-
eral church purposes; \$17,900 dis-
bursed for education; \$16,129 for
church extension, and \$58,065 for
widows, orphans and indigent preach-
ers.

Bishop Grant, in an address, de-
clared that "after forty-four years
of freedom the American negro is no
longer an object of charity, nor the
ward of the nation," and that "the
negro is now a full-grown man, and as
such must take a man's place."

Denied Any Connection
With Affair for Two
Days.

St. Paul, April 18.—(Special to The
Herald.)—The police have secured a
confession from John Gunderson, who
held up a clerk in the Northern Ex-
press company's office at the union
station Tuesday night and compelled
him to open a safe and hand out a
package containing \$25,000 in currency.
He told the officers where \$24,000 was
hidden and where they would find the
other \$1,000. The officers at once se-
cured the larger amount and are now
out after the \$1,000, which was secreted
in another place.

Yesterday morning, when the
police and express company officials
together interviewed Gunderson on
the robbery the man was in such a
condition that he could not compre-
hend what was wanted of him. His
replies to questions were totally
irrelevant, almost idiotic, and the

BODY OF A MAN DERAILS TRAIN

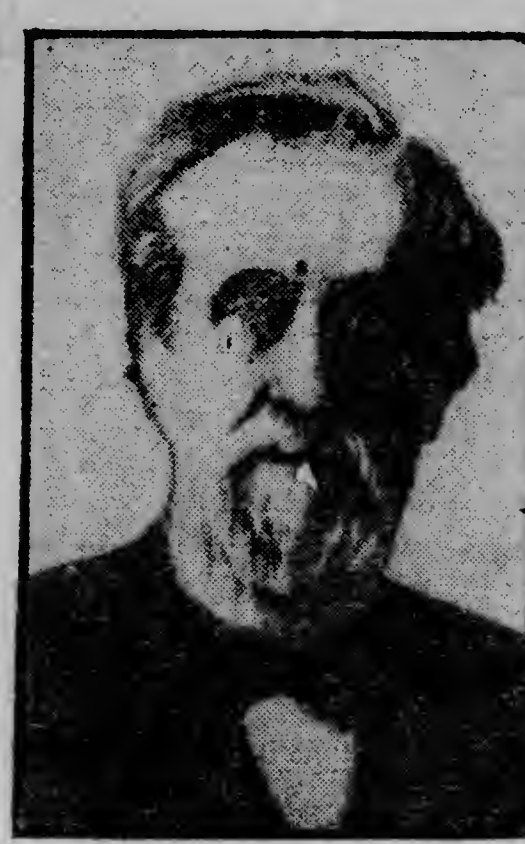

Peculiar Accident Occurs
on Nickle Plate Near
Arcadia, O.

Fosteria Ohio, April 18.—Blocked by
the body of a man, the rear
trucks of train No. 2, the Nickel
Plate railroad, was derailed at Ar-
cadia last night.

McClure, who was a bridge foreman
for the Nickel Plate road had attempt-
ed to board the train when it was
moving and fell under the wheels. His
head was cut off and his body mangled.
Railroad men say it is the first time
in their memory that the body of a
human being has derailed a train.

ARGUMENTS SUBMITTED

In Favor of Hermann in
His Trial at Wash-
ington.

Washington, April 18.—The defense
submitted its arguments to the court
in the trial of Blinger Hermann, charged
with destroying public records, at the
morning session today. The main contention
of the defense is that the jury should be
charged that there is no evidence to show
that Mr. Hermann had any connection
with the alleged Hyde-Benson land
fraud conspiracy. Another con-
tention is that in order to convict,
four things must be found by the
jury:

First.—That one or more of the
conspirators must be found to exist.
Second.—That the defendant was
connected with such conspirators.
Third.—That there was something
in the books destroyed that would
have tended to show the defendant's
connection with the alleged conspir-
acies.
Fourth.—That he destroyed the books
to keep secret this connection.
Considerable attention was given
to the word "fraudulent," as it is
used in the statute under which Mr.
Hermann is being tried.

Gaeta, Italy, April 18.—The British
royal yacht Victoria and Albert, with
King Edward and Queen Alexandra
on board, arrived here at about 3:30
o'clock this morning from Valetta,
Island of Malta, escorted by the
British armored cruisers, Suffolk and
Lancaster. King Edward was received
by King Victor Emmanuel, who was
on board the Italian royal yacht Trina-
ria surrounded by twelve Italian war-
ships and twelve torpedo boats. The
usual salutes were exchanged and
hearty cheers greeted the British king
from the people ashore and the sailors
on board the warships.

The weather, which had been stormy
recently, fortunately cleared to some
extent and the meeting of the two

OIL COMPANY TAKEN OVER

Executive Board Assumes
Charge of the Uncle
Sam Property.

Kansas City, April 18.—An executive
board of three members is today taking
charge of the property of the Uncle
Sam Oil company and will assume its
entire management pending the solu-
tion of the trouble in which the concern
is involved. Harry H. Tucker, Jr., the
indicted secretary-manager, and the
other officials will retire from active
participation in the company's affairs.
This action was decided on at Kansas
City, Kas., last night by the directors
and trustees, and a trust deed was
made out turning over the refineries,
distributing stations, oil land and books
and papers to the board which is com-
posed of two Kansas bankers and a
county judge.

The Fort Scott petitioners allege that
the company is insolvent.

TWO TRAIN ROBBERS ARE UNDER ARREST.

Pittsburg, Kas., April 18.—Joseph
Bush, wanted for alleged complicity in
the robbery of a Missouri Pacific pas-
senger train near here on March 4 last,
when a negro passenger was shot and
killed and several other passengers
were relieved of money and valuables,
was arrested yesterday at Myrtle
Point, Or., according to a message re-
ceived by detectives of this city. John
Merrifield who also is charged with
having aided in the robbery, is under
arrest at Girard, Kas. His arrest was
made two weeks ago, but the fact was
kept secret until Bush could be locat-
ed. Bush was located through in-
formation given the police by Merri-
field.

Chicago, April 18.—A dispatch to

says: The lower gulf was converted
into a sea of boiling water Sunday
night when the earth cracked and
jets of hot water shot into the air
nearly 250 feet.

Fishing smacks of the gulf fish-
eries, which ply between Galveston
and the fishing grounds of Campeche,
are arriving, and the crews relate
harrowing tales of their experiences,
not knowing of the Mexican earth-
quake until they reached here yes-
terday.

The crew of the Aloha, Capt.

SUITS FOR INSURANCE

Nearly Two Thousand
Filed at Frisco for
Fire Losses.

San Francisco, April 18.—More than
200 suits against insurance companies
for the payment of policies held dur-
ing the great fire of a year ago were
filed yesterday at the county clerk's
office, bringing the total well over 1,500.
At 5 o'clock this morning the office closed.
There was a long line of attorneys,
clerks and messengers waiting, and it
took three clerks nearly an hour to
dispose of the overflow. It was prac-
tically the last day of the filing of
such suits, although in some cases the
year allowed did not expire until to-
day. During the past three years
the county clerk's office has taken in
nearly \$3,000 in fees on these cases
alone.

PRESIDENT'S ACTION SCORED

Seattle Labor Council
Asks Him to Retract
Statement.

Seattle, Wash., April 18.—The Seat-
tle Central labor council, last night,
passed resolutions scoring President
Roosevelt's action in referring to E.
H. Harriman as undesirable a citizen
as Moyer, Haywood or Debs. The
resolution criticizes the president for
excluding the alleged murderers of
ex-Governor Steuneger of Idaho be-
fore they have been tried, and for
denying them the rights of American
citizens, to be presumed innocent un-
til they are proved guilty. The labor
leaders requested that the presi-
dent retract, and asked for a square
deal for the men whose names he
has clouded.

THE CLERGY TO BE PRECEDED

By the Military on the
Fete Day of Joan
of Arc.

Paris, April 18.—An influential
delegation from Orleans visited Pre-
mier Clemenceau yesterday and he ap-
proved the program for the celebra-
tion of the fete day of Joan of Arc.
According to this, the functionaries
and military will have precedence
over the clergy in the procession. It
is agreed that the clergy may wear
their vestments and carry banners as
usual, but they must not display
crosses nor reliquaries. The proces-
sion will start from the city hall and
will halt at the cathedral to allow the
clergy to take up their assigned posi-
tions. Civil officers may attend re-
ligious ceremonies, but only as in-
dividuals. The benediction formerly
given on the site of the battle at which
Joan of Arc defeated the English April
29, 1429, and relieved the besieged
city of Orleans will be abolished.

DELEGATES TO THE HAGUE.
Buenos Ayres, April 18.—The president
of Argentina has offered to select as de-
legates to The Hague, Dr. Bunge, author
of the doctrine which bears his name; Dr.
Rojas Suarez Llena, minister at Rome and
Dr. Carlos Rodriguez Larreta.

IS CRUSHED BY VESSEL

A Deckhand Caught Between Boat and Dock, While Landing.

Was Sliding Down Rope From Deck of the Vessel.

In an attempt to land by sliding down a rope from the upper deck of the steamer Shenon Parks a seaman was landed at the foot of Fifth avenue west, William Dune, a deck hand, known to his comrades as "Blackie," was crushed to death between the boat's hull and the dock, about 6 o'clock last evening, his breast and abdomen being mashed to a pulp.

Dune had just signed as one of the Parks crew for his maiden trip down the lakes, having gone on board her at Superior just before the boat started for the coal dock to coal for her first trip of the season. She was shipped by the Seamen's union of Superior. As the Parks drew up to the dock Dune threw a line over her bow, which was made fast and, as the boat drew alongside the dock, he started to slide down. For some reason he miscalculated the distance and lost control of himself as he slid down the rope, and was going so fast when he reached the level of the dock that he could not stop. He made an effort to check his descent by sticking out his foot so that it struck the dock, but this only served to swing him out toward the boat and downward into the space between the huge hull as it drew steadily nearer to the dock.

He clung to the rope and attempted to swing so as to get a footing on the dock and was in the midst of a futile attempt to get his footing when the vessel caught him between her hull and the dock and slowly crushed him to death.

Dune never uttered a word but dropped like a stone into the water as his comrades hastened to work the vessel out into the bay again. As she swung out, one of the crew rescued the body and it was taken to Dunken & Crawford's morgue.

BEGINS SERIES OF MEETINGS

Rev. W. A. Dunnett Delivers Forceful Address at Baptist Church.

Rev. W. A. Dunnett of Lynn, Mass., made an excellent impression on his first appearance at the First Baptist church, when he opened a series of revival meetings which will last through out the week and probably during next week also.

Mr. Dunnett is an excellent speaker and possesses no little personal magnetism. His topic last evening was "She Hath Done What She Could." He pointed out a number of ways in which the work of the church could be advanced and sought to impress upon his hearers that the meetings be planned to bring out the best in the church for the benefit of the church.

Women Everywhere Use Pe-ru-na.

Mrs. Lydia H. Josselyn
Tired, Worn-Out Mothers.
Mrs. Lydia H. Josselyn, 501 Westminster St., Providence, R. I., is Treasurer of the Editors' League of Rhode Island, chartered in Providence. She writes:

"My experience with Peruna has been most gratifying. Last winter I contracted a severe cold, and for several days I coughed until my voice failed me. When other remedies did me no good, I decided to try Peruna, and within four days the cold was broken up, and the cough abated. 'Within another week an increase in my usual strength and vitality told me that Peruna was doing all that it promised, and more. I also noticed it very superior for tired, worn-out mothers, and have advised several to try it, and have seen most gratifying results from its use. I give it highest praise.'"

Miss Lucy Ingram
Pe-ru-na a Spring Tonic.
Miss Lucy Ingram, 621 Ellis St., Augusta, Ga., writes:

"I have used your Peruna as a tonic and found it counteracted the debilitating effects of warm weather. 'I cheerfully recommend those who have that languid feeling which is customary to most of us in spring, to try Peruna. It will prove an invigorator. It is also good to break up colds and the grippe.'"

Mrs. Emily Kellogg
Bilious Headache.
Mrs. Emily Kellogg, 5649 S. Lawrence St., South Tacoma, Wash., member of Ladies of the Maccabees, writes:

"Three months ago I had an attack of biliousness which threatened to undermine my health and strength. Luckily for me, I tried Peruna at the suggestion of my friends before it was too late. I found in a few days time that I did not have the usual sick headache, nor did I feel any more of the usual biliousness. In two weeks' time Peruna had cured me, and I was in a much better condition. My skin assumed its normal color, I had a splendid appetite, and I was in every way improved in health. I used Peruna for a month longer, and it wrought a wonderful change in my entire system. I consider it a most wonderful medicine."

Miss Marie Calvin
All Run Down.
Miss Marie Calvin, 227 Main St., Cincinnati, Ohio, writes:

"After my pleasant experience with Peruna I do not wonder that it is so popular among the young people here in Cincinnati. I caught a severe cold coming down from an evening party, and as I did not pay particular attention to it, I quickly became worse and found myself in a serious condition. I felt lame and sore, and the entire mucous membrane was inflamed. 'I took Peruna and it brought me immediate relief. Within a week I was cured and now whenever I feel at all badly or run down a few doses of Peruna will set things right.'"

Mrs. Frances E. Sammis
Restored Health and Strength.
Mrs. Frances E. Sammis, 230 Charles Block, Denver, Col., writes:

"Peruna restored me to health and strength three different times when I was near nervous prostration and suffered from general catarrhal conditions. When I decided to try it I wrote directly to Dr. Hartman and took it according to his directions. I consider it a fine remedy and have recommended it to others, who have been greatly benefited."

Miss Bessie B. Farrell
Broken Down Health.
Miss Bessie B. Farrell, 1011 3rd Ave., Brooklyn, N. Y., President of the Young People's Christian Association, writes:

"Peruna is certainly a valuable nerve and blood remedy calculated to build up the broken down health of worn-out women. I have found by experience that it is a wonderful restorer of lost strength, assisting the stomach in assimilating and digesting the food and building up the worn-out tissues. I can endorse it as a boon for those afflicted as I have been."

Now as Well as Ever.
Mrs. E. T. Gaddis, Marion, N. C., writes:

"Before I commenced to take Peruna I could not do any hard work without suffering great pain. I took Peruna and I feel as well as ever. I have found it to be a great medicine for women."

Constipation, Stomach Disorders.
Miss Mary V. Adams, Vice President of the Louisiana Literary Union, writes from 1119 Tenth Avenue, St. Louis, Mo.: "Any person with sedentary habits is apt to become habitually constipated. The severity of the body becomes stopped up, and various diseases find their way into the system. I have found this to be the case by my own experience, and am thankful to say that Peruna cleansed my stomach and bowels and all aches of my body. I take a few doses every few days and find that it keeps me in perfect health. I believe it to be an ideal woman's medicine."

Stomach and Nerves.
Two years ago a depressed feeling took hold of me. My back and sides ached continually. My stomach got out of order. I have been using Peruna and now I feel as well as I ever did. My stomach is as strong as ever, and my nervous troubles have disappeared. —Mrs. McGough, 219 West 53rd St., New York.

Pe-ru-na the Family Doctor.
Mrs. M. E. Seymour, R. F. D. 2, Bowman, Ga., writes:

"I am ready to speak a few words in favor of Peruna and Manalini. I have tried them for nearly every ill of life for myself and family, and find them to be all the doctor claims them to be. Peruna cured me of internal trouble when my doctor could not. 'My advice to all suffering women is, consult Dr. Hartman. What he has done for me he will do for you.'"

Could Not Eat Nor Sleep.
"Last spring I became run down from the serious effects of a lingering cold. I could neither eat nor sleep well, and lost flesh and spirit. I finally tried Peruna and it did wonders for me. In two weeks I was like another person, and in a month I felt better than I have ever done before." —Mrs. Judge J. Boyer, 142 Sherman Ave., Evanston, Ill.

big damages for lost arm

Brakeman Awarded Verdict of \$18,000 Against Northern Pacific.

St. Paul, Minn., April 18.—A verdict for \$18,000, the largest amount ever awarded in Minnesota, is said, for the loss of an arm—was given yesterday by a district court jury to George E. Stiles in his suit against the Northern Pacific railway company and Walter Henkle.

Stiles, a brakeman employed by the Northern Pacific company, was a freight train last September that "broke in two" at Detroit, Minn. He went in between the separated cars to adjust the air brake apparatus. He had signaled the engineer, Henkle, to stop the train. The main part of the train until the adjustment had been made. But the engineer backed up too quickly and Stiles' right arm was so severely crushed that

he was amputated. The injured man sued to recover \$30,000 damages. The verdict was given after a trial of three days. The jury also answered the question, "In what respect was Henkle negligent?" The answer was: "Because he did not give the proper signal."

HEAVY BUYING OF PIG IRON

For Steel Making Increases Interest in Other Grades.

Cleveland, Ohio, April 18.—The Iron Trade Review says: The heavy buying of steel-making pig iron in the Pittsburgh district has had a tendency to increase interest on the part of other buyers of all grades of iron, although this effect has been noticeable in other centers than at the actual scene of the recent transactions. Especially Chicago, Cincinnati and Cleveland are there indications of increased activity. Sales of fair tonnages of heavy iron have been reported from the latter two cities. In the South, although \$15.50 can still be had, the fourth quarter for last half year, \$19 appears to be the minimum for third quarter. An occasional inquiry is being received for iron in the first quarter of 1908 and a few small sales have been made. Furnaces are disposed to quote for this district delivery, but it is not expected that much business will be done at present.

Heavy buying by the railroads is again a feature of the market. The Tennessee Coal & Iron Railroad company has sold 45,000 tons of open hearth rails for 1908 delivery at \$30, locomotive shops report that orders for new engines, which decreased for a time, are now coming in freely; numerous orders for structural material and many orders for cars have recently been entered.

MUSIC AND THE DRAMA

TONIGHT'S ATTRACTIONS. LYCEUM—Al Wilson in "Metz in the Alps." POLYTON—Burlesque. BIJOU—Vaudeville.

MANY GOOD ATTRACTIONS. The Lyceum is having a wealth of good attractions. "Forty-Five Minutes from Broadway" last Saturday night was followed by "The College Widow" on Monday night, and "Dustin Farnum in 'The Virginian'" Tuesday and Wednesday nights. Captain Farnum's houses were reported Saturday night and again on Tuesday and Wednesday nights, and there was a good house Monday evening. One of the best popular-priced attractions on the road will be offered, Al H. Wilson, the German singing

GRAND VAUDEVILLE ACTS.
The splendid vaudeville acts are not the least important part of the entertainment being given at the Metropolitan Hotel by the Twentieth Century Maids, who are entertaining at a matinee this afternoon. Among the people who contribute to the entertainment are Joseph K. Watson, Billy Noble, Morton Diamond, Cornelia and Eddie, and many others, including a well-garbed chorus.

CONCERNING WOMEN

"I'd like to see some nice, fat, neck ruffling," said the shopper pleasantly.

"This is the fattest we have," said the salesperson, displaying a rather skimpy kind.

"I don't like it very well," said the shopper.

"But it's very good," said the saleslady, pleasantly.

The shopper passed on.

"I'd like to see some stiff street hats," she said a little later to another lady who had condescended to attend the millinery counter. "I don't like that mushroom kind with the pink rose and cerise ribbon and the Copenhagen blue maine," she protested as she tried to do the confection that was settled nevertheless upon her head.

"But it is very good on you," said the saleslady.

The shopper passed on.

"I want to see some gray silk, kind of mottled. Not like that, you know. I don't think I care for a plain tau silk."

"But it's very good," said the grievous young man.

The shopper passed on.

"I'd like to look at a walking costume, you know, kind of a pleated skirt and the kind of jacket that hits you only when the wind blows. Sort of loose and English kind of," explained the shopper to the next person wanting to know her desires.

"Oh, yes, indeed," said the person addressed. "That is a very good style."

The shopper touched her arm as she turned away. "Well, do you know," she said earnestly. "I'd a good deal rather have a style that is just a little wicked."

"Oh, very well," said the saleslady. "The models we have in that sort are very good."

What's the use? One might just as well submit tamely to this maltreatment of the English language. There seems, according to the statements of the people who explain the merits of the goods offered at this season, to be no other adjective to use, except "good."

TEN DAYS MORE

For Soliciting Y. W. C. A. Funds—Bazaar to Be Held.

The Young Women's Christian association desires \$100,000.

They wish it by the first of May.

There has been collected by noon today \$58,339.55.

There remains \$71,470.45 yet to be subscribed.

There are ten working days left not counting the Sundays for rest and preparation.

By a process involving much mathematical precision and quite an extent of paper, it has been discovered that if \$5,147,045 should be collected each day during the intervening weeks, that the amount would just be reached. By a process that took more precision and several inches more paper it has been discovered that so far in the campaign the daily average has been \$3,252.19.

Any one interested in finding out how much each member has contributed,

and how much more each one must, before the amount is reached, how much energy the captain of each of the teams of young business women are daily expending, and any more interesting detail, is invited to sit with puckered brow and do it by long division.

The interest in the work and the campaign is growing daily and the rooms at the noon hour each day team with excited and intensely interested young women. In almost every campaign of the sort the last days of the campaign are the most interesting and it will of course be so with the campaign for funds for the building of the Duluth Young Women's Christian association.

The reports of the business men's committee are just beginning to come in and it is expected that the subscriptions will increase by leaps and bounds. The campaign of the business women among the women of the city has been an active and most thorough one and there will be but few women in the city who will not be reached before the end of the month. It is greatly desired that the pledge cards now out be sent to the headquarters as promptly as possible in order that the last days should not be too crowded.

One of the affairs planned to further the campaign is a Y. W. C. A. bazaar which has been planned by the Y. M. C. A. and the Y. W. C. A. and will be held at their establishment next Wednesday evening. The store will be in charge of the women of the board, assisted by the Y. W. C. A. and there will be placed on sale only articles sent in by the members of the association and its friends. Fancy articles, dainty cookery, and the like will be sold, and subscriptions for this shop for this morning.

The wedding of Miss Mary Swanson and John Berg, both of Grafton,

Ruby I. Perry, became the bride of George H. Mayhew of Grand Marais. The service was read at 8 o'clock by Rev. S. L. Mitchell, of the First Baptist church and there were no attendants. The bride wore a gown of mode shade with a hat to match. Mr. and Mrs. Mayhew will be at home at Grand Marais.

Card Party.

Mrs. James Meskitt entertained at cards yesterday afternoon at her home, 731 East First street. Her card party was the most interesting and the most successful of the season. The guests were: Mrs. Walter Ashley and Mrs. Henry Bridgeman.

Events of Interest.

Mrs. J. H. Larkin was pleasantly surprised last evening at her home, 403 West Fourth street, in honor of her birthday anniversary. A large number of guests enjoyed a delightful evening.

THEODORE SHONTS

Refuses to "Buy" French Duke for His Pretty Daughter.

Washington, April 18.—The departure of Theodore P. Shonts, former chairman of the Panama canal commission, with his two daughters for New York, where he is now head of the Metropolitan traction interests, has again revived talk concerning the engagement of Miss Shonts to the Duc de Chauldeux.

If there ever was an engagement it is now off, as Washington society has the story, and the reason for this failure of another international alliance is said to be the refusal of Mr. Shonts to grant the dual demand for a settlement.

It is accepted here as the correct version of the version of the duke's refusal to marry the daughter of the American duke of marriage. He is reported to have told De Chauldeux that he would give his daughter a stylish wedding, provide her with a house and a carriage, and a substantial wedding allowance that would keep her in pin money for a long time, but to enter into any agreement to settle an income on her for life before marriage, this he would not do.

SUNDAY SCHOOL CLASS

Of Alfred Quackenbush at Proctor Had a Pleasant Gathering.

Proctor, Minn., April 18.—(Special to The Herald.)—On Monday evening the Sunday school class of Alfred Quackenbush and a few others, who came by special invitation, spent a very pleasant evening at the home of Mr. Quackenbush, Jr., it being the occasion of Alfred's birthday anniversary. The guests assembled at 7:30 p. m. The younger ones immediately adjourned to the roller skating rink and after skating about two hours, returned to his home and spent some two or three hours in playing all kinds of games, after which lunch was served and then some more games. The company broke up about 12:30 a. m., all saying that they had a very pleasant evening. Following are the names of those present: Messrs. Fern Rappold, Graele Lewis, Lucile Gilbert, Mayme Paul, Maude Diers, Leona Paul, Bill Simkins, Morris Chisholm, Bernice Chisholm, Sybil Beldin and Grace Doyle, Messrs. Arthur Gilderman, Girard Stewart, Roy Brayden, Roy Reibline, Frank Smith, Godfrey Anderson, C. W. Ramsdew, O. J. Wilson and Sidney Burdoh; Mesdames E. S. Davis, C. W. Ramsdew and O. J. Wilson.

TWO MEN KILLED

At the Adams-Spruce Mine—Were Intimate Friends.

Eveleth, Minn., April 18.—Two men were killed at about the same time, but in separate accidents, in the Adams-Spruce mine Tuesday evening. Each victim lived two to three hours before succumbing in the hospital.

John Johnson, a Swede-Finn about 25 years of age, was run over by a dinky engine at the Adams stripping just before quitting time the evening and fatally injured.

John Johnson, an Austrian 29 years of age and unmarried, was struck by a motor car in the Spruce mine. He was taken to the hospital, where he died. The two men were intimate friends.

INDOMITABLE SAN FRANCISCO.

One year ago today, San Francisco, commercial queen of the Pacific coast, was laid in ruins by the most terrible earthquake of modern times and fierce flames were in the midst of their terrifying work of completing the havoc wrought by the seismic shock. Hundreds were dead and thousands injured and tens of thousands were in the lowest depths of despair because earthquake and flames had apparently ruined them beyond repair, the property losses being placed at \$300,000,000 or more.

Today, just one year later, about one-half of the devastated city has been rebuilt stronger and better and firmer than ever. Hundreds of stately buildings of steel and stone even now stand in enduring symmetry where April 18, 1906, were only tons of broken bricks and stones, in the midst of which furious fires were raging. The population is 50,000 larger than it was before the catastrophe. The business of the city is heavier than ever and the greatest era in the prosperous metropolis of the West has succeeded dread disaster—and this despite the cowardly course of many insurance companies.

Even while the world was yet agitated over the magnitude of the disaster and while millions of money and great trainloads of supplies were being hurried to the relief of the 300,000 surviving sufferers, while United States troops were restoring order and while countless thousands all over the earth were predicting the early depopulation of the city and its virtual abandonment, the business men were planning rebuilding more substantially than ever. Not one whit daunted by the vast ruins about them, they set about making their city greater than before the cataclysm.

How well these heroes of the West, whose stout hearts no disaster, no matter how appalling, could dismay, have succeeded by their indomitable courage is shown by these facts: Bank clearings, 1905, \$1,834,539,783; 1906, \$1,998,400,779; customs duties, 1905, \$7,131,327; 1906, \$9,091,481; exports of 1905, \$47,000,000; of 1906, \$50,000,000; general business estimated to have been 25 per cent larger in 1906 than in 1905; real estate sales \$30,933,820.

During this one short year, over \$70,000,000 have been expended in reconstruction and rehabilitation. Of this, \$28,210,000 has been paid to 40,000 men who are receiving the highest wages ever given to labor. Almost one-half of the devastated four square miles has been built over again better and more substantially than ever. Over \$100,000,000 has been spent by merchants in replacing their destroyed stocks. The famous residence section, Telegraph Hill, has been rebuilt better than before. Recently 20,000 business men and laborers, attended by 2,000 ladies, cleaned up a large section of the city.

The dauntless San Franciscans declare that what has been done in the past year has only been the breaking of ground for really great operations. In six months more, two-thirds of the section laid waste will be covered with structures, many of them much handsomer than those destroyed. All are predicting that in five years from today, San Francisco will be twice the city it was before it was apparently swept to destruction on the fateful morning of April 18, 1906.

Hurray for the indomitable pluck of the people whom no catastrophe can dismay! All hail the new San Francisco made greater and stronger by disaster!

PEACE PLANS IN PERIL.

Just at this time when America has been holding a great congress the sole aim and object of which is universal and lasting peace, jingoistic German newspapers are working themselves into a "fine frenzy of passion" and endeavoring to arouse the hostility of the people to Great Britain. And this is all because King Edward of England, who has been visiting in Spain, proposes to pay a friendly visit to his brother monarch of Italy.

The bellicose German papers see, or pretend to see, in the coming meeting of the monarchs, a cunning scheme of Britain to win Italy from the Triple Alliance, isolate Germany, Austro-Hungary being useless as an ally because held together only by respect for the venerable emperor, and upset the "balance of Europe." They display the utmost concern for the coming world's peace congress and cast discredit on King Edward's, or William T. Staudt's, disarmament proposal.

Of course, the German foreign office denies officially any responsibility for the views expressed and, equally of course, it declares that it does not see any occasion for disquiet over the coming meeting of the two kings. It is, nevertheless, beyond question that at least one of the jingoistic papers, the Cologne Gazette, has been used frequently in the past to voice threats and radical expressions such as the German government does not deem it discreet to father.

The whole matter may be merely one of those periodical "tempests in a teapot" to which Europeans, and especially Germans, are given in times of dull news, but there is no doubt but that the great majority of the German people have even less love for the British than they have for the French and are suspicious of plots and deep conspiracies against their peace of mind whenever King Edward leaves his realm for any visit, however innocent it may be in itself.

The renewal of this feeling of hostility in Germany bodes ill for the coming world's peace conference at The Hague. The world is not ripe for universal concord and disarmament nor is it likely to be for a number of generations yet to come.

SHONTS AND THE DUKE.

All good Americans will applaud with heartiest vigor the reported refusal of Theodore P. Shonts, former chairman of the Panama canal commission and now general manager of the New York Metropolitan traction interests, to buy a French dukedom and for his older daughter and then maintain them in idleness ever after.

And Mr. Shonts is wise in his decision, for, after all, what is a French dukedom? Simply a bankrupt estate and an ancient castle not half so good as thousands of farms and hundreds of modern farm houses—summer cottages, fashionable Americans call them—that are scattered all over America. The title itself is merely an honorary one and has no more real meaning than that of "colonel" or "general" or even "honorable" in this country.

The duke himself may be a fine young fellow but he is not nearly so good as hundreds of independent young Americans. He has been brought up to consider work for himself or a wife a disgrace and he has lived beyond his means in every way. Instead of buckling down to making himself useful and learning to care for his own wife, he looks to his prospective father-in-law to pay his debts and then support him and his better-half in idleness. These things alone have condemned him irretrievably in the eyes of Mr. Shonts as they should. If the duke really loves the girl, he should go to work like a man to earn a living for her.

Further, the experiences of Anna Gould, Consuelo Vanderbilt, Mrs. John W. Mackay's daughter and a score of other American girls of wealth who have bought foreign nobles and titles for themselves have undoubtedly proved wholesome warnings to Mr. Shonts. He has had to make his own way in the world and his money is the result of his own efforts. There is really no reason why the dual son of his daughter should not at least show an inclination to do the same thing.

If all American men of wealth shall do as Mr. Shonts is said to have done—set their feet down against this title buying and selling—their girl will be better off, for then they will marry good, sensible, loving American men and there will be an end of these unfortunate international marriages.

WILL TAFT EVADE FORAKER?

Will Secretary William H. Taft evade the battle for supremacy in Ohio with Senator J. B. Foraker on the score of previous engagements that will keep him busy for the next eight months, much of the time on the other side of the world? Or will he, in order to retain the favor of the fighting Roosevelt, cut short his trip and go to the Buckeye state to engage in a forensic duel to the political death with the senator?

These are questions that not only Washington but New York and the cities of Ohio are discussing with the deepest interest. No one dares accuse Taft of being anything like a "mollycoddle," but there are many knowing ones who are predicting confidently that he will find some way to let others do the fighting for him. He has a marked aversion to anything even remotely resembling a rough-and-tumble struggle in politics and would go anywhere, do anything, to escape a conflict with such a veteran campaigner as Foraker.

The president has, however, virtually given it out that Taft must go to Ohio and fight his own fight and it is common report that he will tell Taft so very plainly when he shall return from Cuba. All of the watchers of political events are, therefore, deeply interested in figuring whether Taft will virtually defy his strenuous chief and thus risk his support for the succession. It will, however, cause no surprise in Washington if Taft should decide to stick to his Philippines pacification trip, arranged before the Foraker challenge was issued.

On the surface of things in Ohio, Taft has public sentiment with him and Senator Dick has come out openly on Foraker's side and Dick, as Republican state chairman, has full control of the party machinery. It is the general belief, both in and out of Ohio, that Foraker and Dick, if unchecked very speedily, will have the Republican workers so well organized for their side by fall that even Roosevelt would find it well-nigh impossible to make headway against them.

The conflict in Ohio, whether it shall resolve itself into a duel between Foraker and Taft with Dick and Roosevelt as the respective seconds or into a battle of the Ohio senators against the full forces of the administration is certain to be a great one for the next few months with the outcome very much in doubt to the very last, though the chances, in a duel, are conceded to be decidedly against Taft.

THE PASSING SHOW.

A Duluth dog has taken cup and ribbon at a Pacific coast bench show. Which shows that in the canine line as in all others, this city is in the very front rank.

Will Wisconsin have a senatorial deadlock equal to that of Rhode Island or will it turn down all of its eager aspirants and select a "dark horse" as La Follette's mate?

Neither earthquake nor holocaust can subdue the spirit of sturdy Americans. San Francisco, one year after its catastrophe, is becoming handsomer and greater than ever.

Every one who can afford to give even a little help along the Y. W. C. A. home movement. To no worthier object it is possible for one to devote his or her spare cash.

President Roosevelt's Arbor day appeal to the children of America was all right but for genuine poetic expression it was not in the same class with Governor Johnson's proclamation.

One year ago today, San Francisco's people were in the midst of dread disaster. Today, new San Francisco with more people than ever is holding a grand celebration in honor of its resurrection.

Is April to be known hereafter as the month in which it is best to keep away from earthquake belts? Last April San Francisco had its dread disaster and this April Mexico has been shaken mightily.

What is the use of getting so excited this year over the possible presidential candidates for 1908? Any one of half a dozen things may happen in the next twelve months to all of the present aspirants.

Up-to-date in England. The possibilities of advertising are not yet fully realized in this country. Our English cousins can still give us pointers. This is not a jest. JEKYLL AND HYDE CASE

Superior Evangelistic Singer Admits Revolting Charges.

Says He is Changed Man and Returns to Face Consequences.

A complete confession as to having committed a revolting statutory crime with which he is charged by the Grand Forks authorities, has been written out and addressed "To the Public," by Paul Gladstone, the singer, connected with the Chapman-Hunt evangelistic forces in Superior, who was arrested there at an early hour yesterday morning on a state warrant from Grand Forks.

Gladstone at first denied the charges, and imputed them to the work of enemies, who sought to ruin his reputation, but shortly before midnight last night he evidently thought better of his course of action and confessed. Gladstone excuses his crime on a basis of dual personality almost as striking as that of Dr. Jekyll and Mr. Hyde, though he basis his transformation from the beast which committed the revolting crime to the present man upon the influences of Christ and His teachings, which, he says, only truly entered his soul about six weeks ago, when he decided to join the evangelical workers, and started with them traveling.

Gladstone's confession is as follows:

"To the Public:

"I am charged with a most revolting crime, and I am going to return to Grand Forks to plead guilty.

"Yet I did not commit the crime. The man who did it is dead. He no longer exists. I used to be the man, and though a church member, I was dead in trespass and sin, but now all things have passed away, all things have become new.

"I am a new creature in Christ. If we confess our sins, He is faithful and just to forgive our sins and cleanse us from all unrighteousness. I have confessed and Christ has done His part in making me new.

"I return to endure the punishment due the man that now is dead. May the prayers of God's people everywhere be with me."

In a concluding paragraph Gladstone goes on to tell how his regeneration came about six weeks ago, and how he had decided to join the evangelical forces soon after he had been "changed."

The crime with which Gladstone is charged is alleged to have been committed during two years of Gladstone's service as choir master in Grand Forks churches, and the pastor of the First Baptist church of Grand Forks commenced the prosecution.

Gladstone is not a regular member of the evangelistic corps of Dr. Chapman-Hunt, nor was he in any way connected with evangelistic work during the period of time when he is said to have been guilty of the acts of which he is accused. He was recommended as an available man to fill an important vacancy which occurred just before the opening of the Superior campaign.

Sheaf O. G. Hanson of Grand Forks arrived in Superior last evening and returned to Grand Forks with the prisoner this morning. Gladstone having signified his willingness to go without extradition papers.

THE POLICE COURT GRIST

Carousals in Eleventh Avenue District Grew Too Frequent.

Young Man Jailed for Theft on Eve of Wedding.

With the arrest of Dan Blanchard and four of his companions, at his home on Eleventh avenue west, last night, the police think they have broken up a gang of men who are said to have been terrorizing the neighborhood for the past few weeks. Complaints that drunken men have been frequenting the neighborhood of Blanchard's home have been coming in with more or less regularity of late, and the arrest of Blanchard and his four friends, John McTaggart, Malcolm McLeod, Pat Boyls and Henry Pearson, is the result.

According to the police, Blanchard is living alone in a house on Eleventh avenue west, his family having left him. The complaints which have come in regarding the carousals of Blanchard and his friends indicate that the men have not confined themselves to Blanchard's house in their celebrations, but have wandered out around the neighborhood, to the terror of the women and children thereabouts.

The four companions of Blanchard were arrested on charges of plain drunkenness this morning, and were let off with a \$3 fine each, but Blanchard, when arraigned on the same charge, pleaded not guilty, and signified his intention of securing an attorney for his trial which was scheduled to be held this afternoon. Mr. Blanchard says that the police are wrong in their assumptions, and that he can prove his innocence of the charges against him.

Albert Bernhardt, the man who was sent up to the county jail, sentenced to sixty days at hard labor for drunkenness, was released this morning upon furnishing substantial bonds for the support of his family for the next six months.

Bernhardt, it will be remembered, was sent up for sixty days some weeks ago on a disorderly charge, but was released upon the payment of his fine by Louis Heiling, who arranged with Bernhardt to work out his fine for him. Bernhardt asked for his first week's wages in cash in order that he might buy necessities for his family, and when it was given to him provided to spend it.

The judge gave him the limit for second offense drunkenness and he has been in two weeks. His family meanwhile was left destitute. Mrs. Bernhardt is rapidly going blind from cataracts in both eyes and is sick and unable to work with a family of four to support. She made a plea for her husband's release and this morning Assistant City Attorney McKee directed his release upon the furnishing of substantial bonds to the effect that he would keep his family supplied with the necessities of life during the next six months, to the best of his ability.

George Dayhoff, the young man arrested on the eve of his wedding on the complaint of the Gately Supply company, charging him with an attempt to steal a suit of clothes, was found guilty in municipal court this morning by Judge Cutting and sentenced to pay a fine of \$75 and costs or spend sixty days at hard labor in the county jail. The severity of the sentence was partly due to the fact that Dayhoff had spent ten days in jail about two months ago on a petty larceny charge to which he pleaded guilty.

Dayhoff bought the suit on the installment plan, but gave a fictitious name and the address of a boarding house where he had formerly boarded, one to which he is now residing since the purchase of the suit. Dayhoff was to have been married on May 6, and it is understood that the affair is "definitely postponed."

Lead and Zinc Now Proven to Be the Most Profitable of All Mining. Millions of Dollars in Dividends Paid to Stockholders Annually. You Can Share in the Profits of 300 Lead and Zinc Mines.

SPLENDID RECORD

Lead and Zinc Mines of the Southwest Lead the World.

Have you ever considered the advantages of investing in a commercial product for which there is a constantly increasing demand—one whose price is steadily advancing year by year?

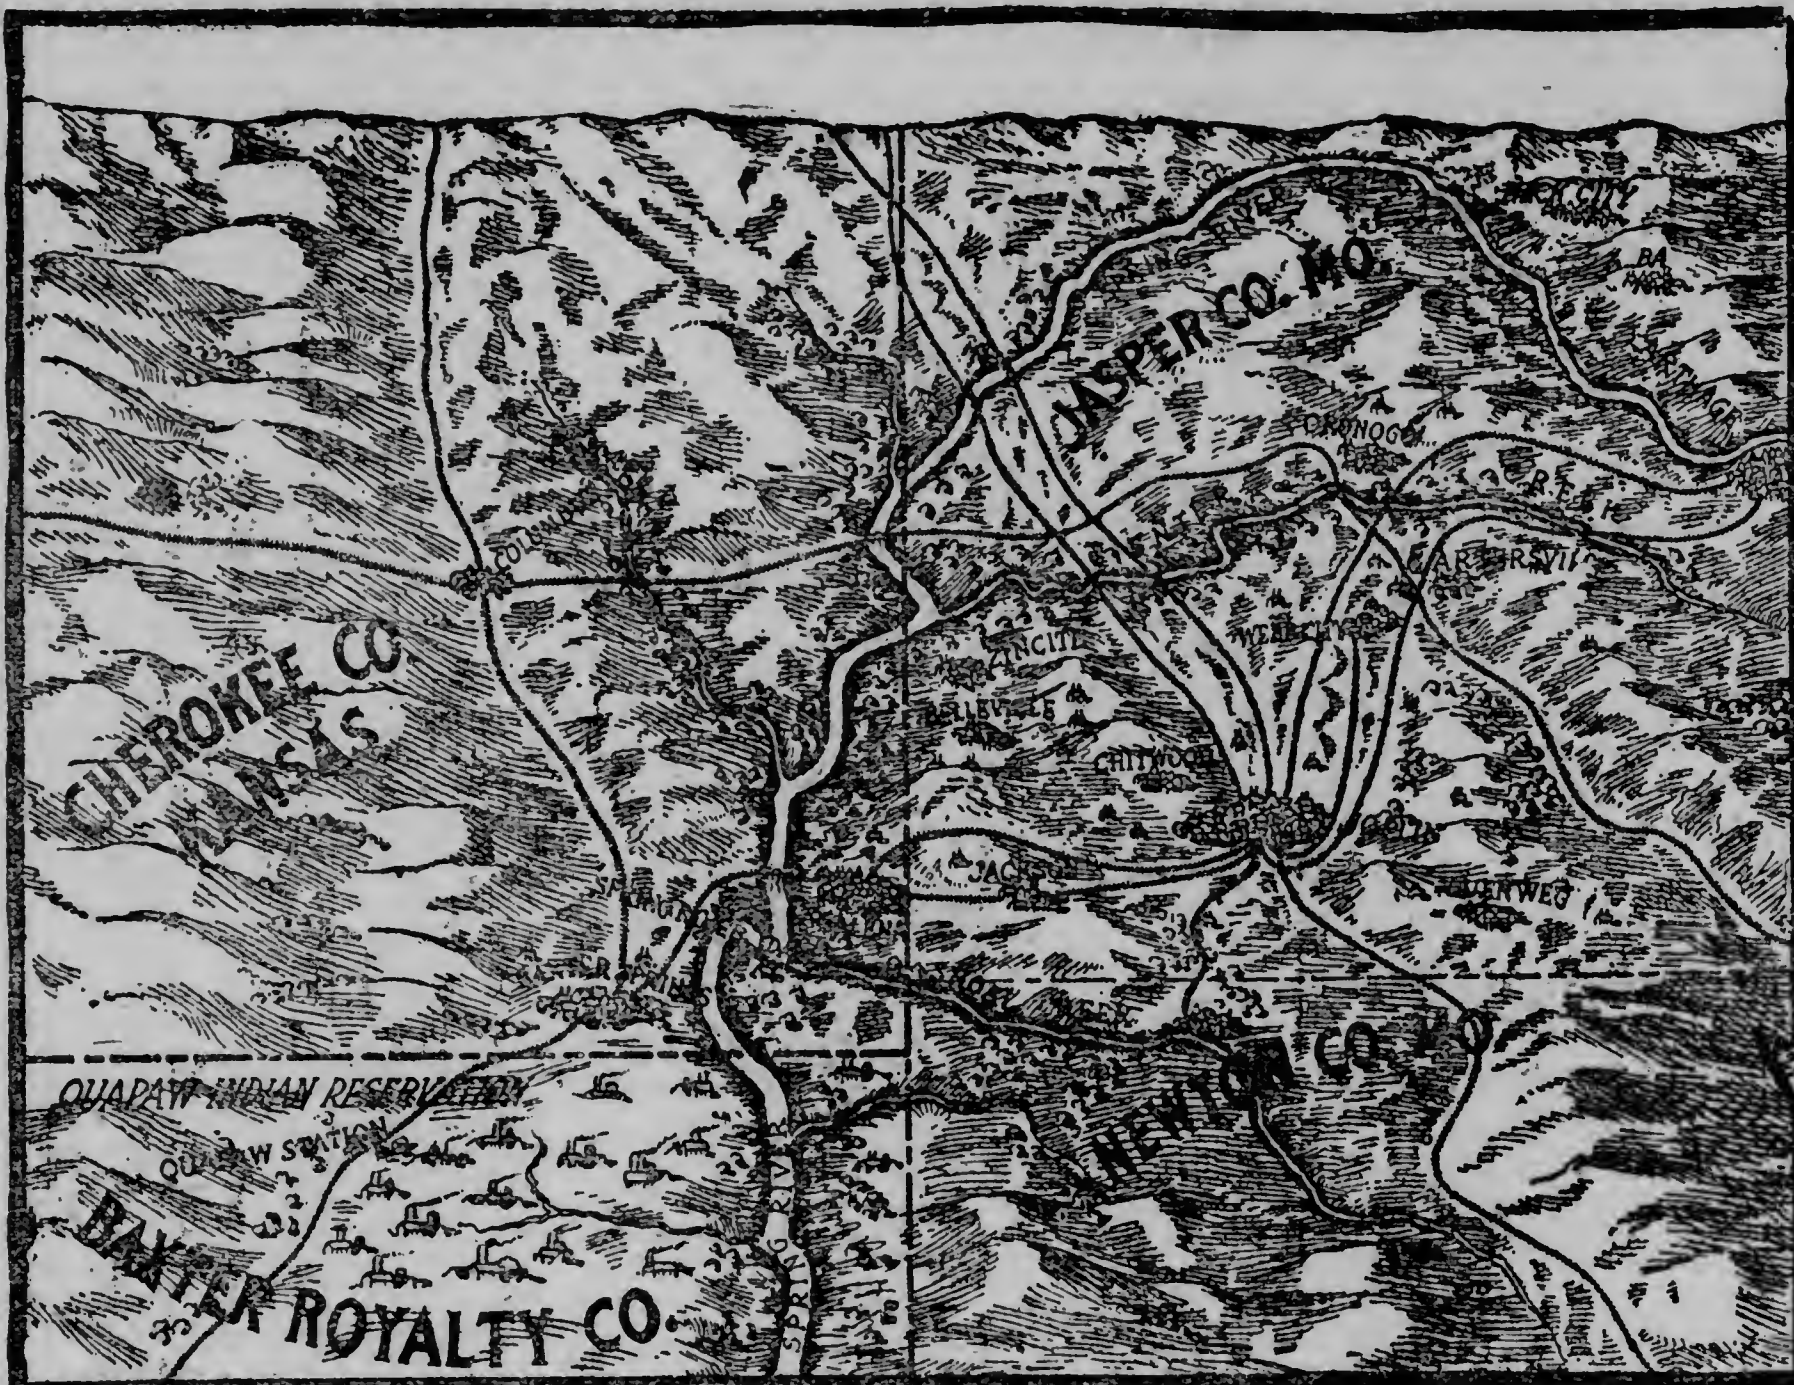

The great Lead and Zinc industry of the Southwest offers you just such an investment. The Southwest Field is the richest Lead and Zinc mining region in the United States, its annual output of Zinc being 80 per cent of the product of the entire country.

Carthage, Cartersville, Webb City, Joplin, Galena and Baxter Springs—these are some of the mining camps that are making fortunes for thousands of investors by their splendid output of Lead and Zinc.

A Lead and Zinc production valued at \$74,153,024 from the Southwest Field within the short space of seven years! An average output of nearly ten millions of dollars annually, and that amount added to the world's wealth by this one industry! Over fifteen million dollars' worth of Lead and Zinc are mined and sold in the Southwest Field during the year 1906 alone!

Read these figures once more and ask yourself why you are not receiving your share in the magnificent profits of the Lead and Zinc mining industries.

The Baxter Royalty Company offers you the opportunity, by its small payment plan, to secure an interest in 300 Lead and Zinc mines located in the very richest section of the Southwest Field, and dividends are guaranteed each stockholder within the present year.

The Territory Shown Above Has Over 700 Paying Lead and Zinc Mines and Produces 80 Per Cent of All Zinc Mined in the United States.

ENORMOUS PROFITS

Tremendous Earning Power of Lead and Zinc Mines.

The demand for Lead and Zinc is increasing rapidly in almost every branch of industrial activity. These two metals have become indispensable in many manufacturing and commercial processes. They enter largely into the making of paint, oil cloths, rubber goods, plumbers' materials and printers' type.

Zinc is required for electrical installations wherever copper is used, and is indispensable in telegraphy, telephoning and electrical transportation. These uses alone call for enormous quantities of the metal.

The United States Navy has recently investigated the advantages of Zinc as a coating for war vessels to prevent the formation of barnacles. Consider for a moment the immense quantities that will be required in the near future by the combined navies of the world when this new process is generally adopted by all the great powers.

The world's great tin mines are being rapidly exhausted, and Zinc alone of all metals will be able to partially take the place of tin. For building and decorative purposes Zinc finds new uses every year. These and other uses are causing unprecedented demand for Lead and Zinc; and the price is climbing steadily upward.

Since 1902 the average price of Lead has increased from \$46.10 to \$75.50 per ton; and of Zinc from \$30.33 to \$44.88 per ton. The present prices are much higher than any of these averages.

Yet Lead and Zinc mining is one of the least expensive kinds of mining. Whereas it requires vast sums to open up a gold or copper mine, a few thousand dollars are sufficient capital to start a Lead and Zinc mine.

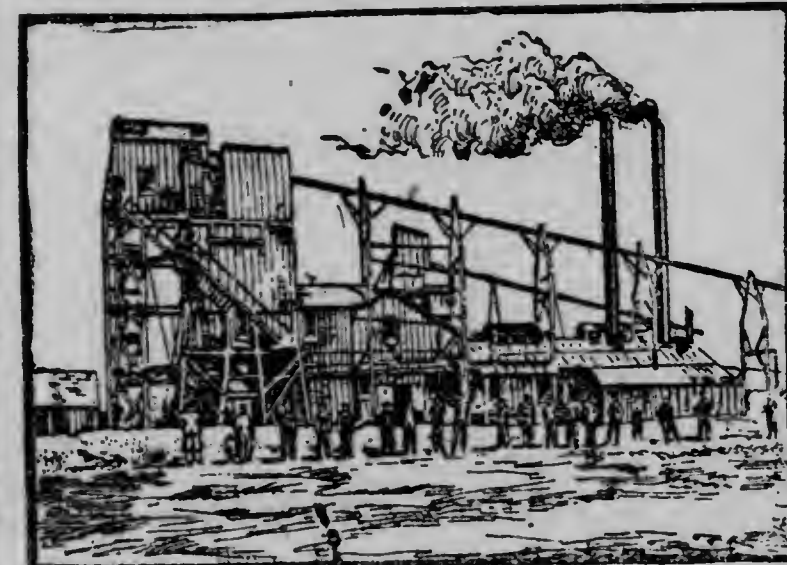

You probably have acquaintances who have invested in gold or copper mines and lost money. But can you think of a single instance in Lead and Zinc mining in the Southwest? A case of failure among properly managed mines in the Southwest Lead and Zinc field is practically unheard of. The mine operators there are making money and making it easily.

I want to send you a long list of Lead and Zinc companies operating in the Southwest Field that are paying their stockholders dividends of from 24 per cent up as high as 120 per cent annually.

How are such profits possible? That question is easily answered:—

1. The ore is near the surface.
2. The ore buyers are at the bins paying cash for every ton of ore produced.
3. The climate is favorable for work the year round, the latitude being the same as that of Southern Kentucky.
4. Lead and Zinc are not controlled by a trust, and the mine owners get the full benefit of every advance in the price of ore.

Read these facts once more; and I challenge anyone to show me any other investment which combines all these elements of safety and enormous profit.

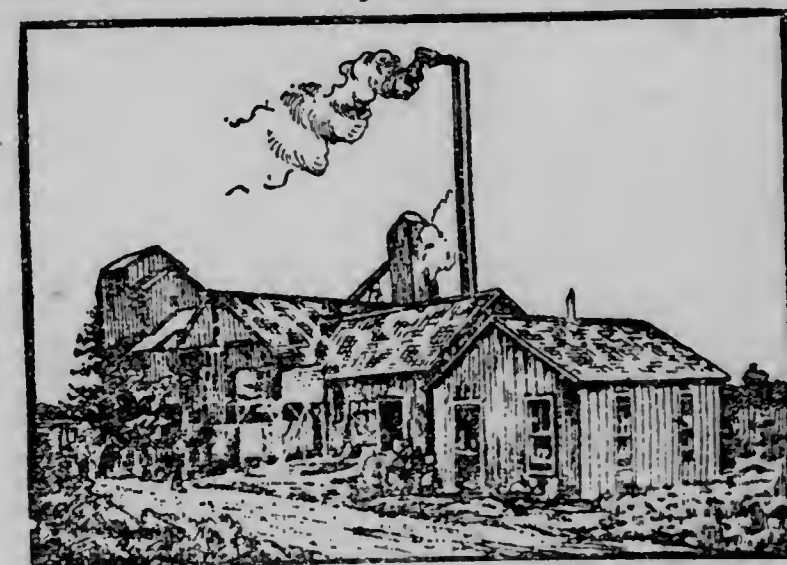

OLD ABE MILL.
Modern 200-ton mill already in operation on Baxter Royalty Co. property, supplied by two shafts working in ore bodies 27 feet thick.

Vast Ore Bodies Underlying Our 3720 Acres.

We have 3,720 acres of valuable Lead and Zinc lands located just south of Baxter Springs, Kansas, in the richest part of the Southwest Field. This section is known as the Joplin district, and has recently startled the commercial world by the amazing productiveness of its Lead and Zinc mines. Drillings have been made in various parts of our property and have absolutely demonstrated an immense blanket formation of rich Lead-Zinc ore underlying our lands. The ore is found at a depth of from 20 to 100 feet, thus effecting a large saving in the operating expenses of the mine. These vast ore bodies vary from 14 to 74 feet in thickness, and are a comparatively recent discovery. The first mill in the district began operation in 1904. We now have five concentrating mills in successful operation on our property and yielding large profits to our treasury. The five mills now in operation, together with the new mills which will be installed at an early date, make practically certain a millage of at least 5,000 tons daily for each shift, or a daily profit of \$1,208. Counting but 300 working days in the year, we should have \$361,600 per year from these mills, working single shift. These mills will operate on but a small portion of our acreage, and yet be fed with a supply of ore sufficient to keep them running at their full capacity for many years.

We have room on our unleased lands for over 300 operating companies, as an acreage of 10 acres is the usual requirement of one operating company, and we have 3,000 acres of rich lands still unleased. The daily capacity of an operating mill is rarely less than 100 tons, and is usually much greater. Each 100-ton millage means a daily profit to us of \$2,410, and 300 such mills would bring us a net profit of \$4,338,000 annually, counting but 300 working days in the year. This estimate is conservative at every point. As the prices of Lead and Zinc are rapidly advancing, these enormous revenues will continue to roll into our treasury in constantly increasing volume year after year.

The ore is there, and the demands of the commercial world will compel it to be mined. We hold the lands, and not a ton of ore can be sold on our property without yielding us our share in the profits. Do you want to share these profits with us?

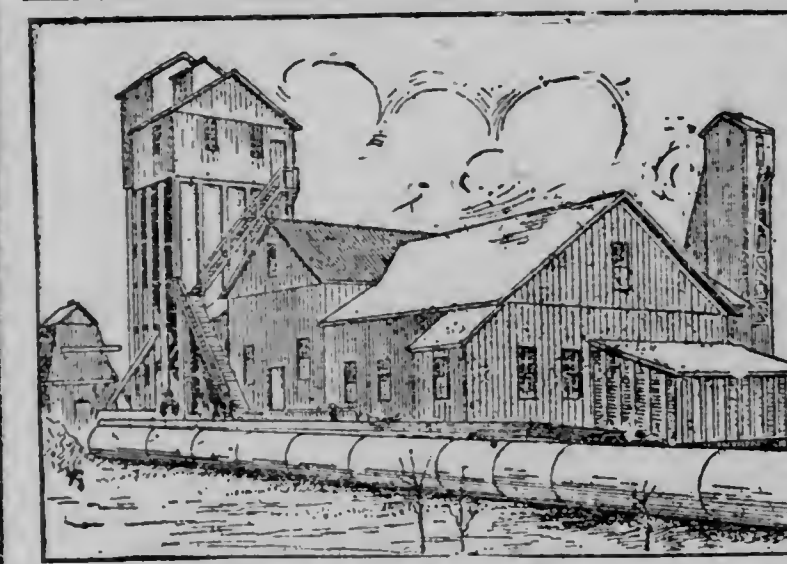

100-TON JOANNA MILL.
Already in operation on Baxter Royalty Co. property, supplied from direct shafts of solid lead.

WHY STOCK IS ONLY 10 CENTS A SHARE—PAR VALUE \$1.00.
PRICE WILL ADVANCE AT AN EARLY DATE.

The plans of the Baxter Royalty Company have been laid out on a large scale. Unlike the ordinary stock company our profits will not be dependent upon the success or failure of any individual mine. The Baxter Royalty Company's earnings may be gauged by a mathematical certainty by the application of the law of averages—the principle adopted by every successful insurance company. As every mining company cannot be a success, it naturally follows that every one cannot be a failure. In the Southwest Field the vast majority of the Lead and Zinc mines are wonderfully successful, so that by the law of averages it follows that our interest in 300 mines, all located on our property, is bound to yield us exceedingly large returns. We have 3,720 acres of rich ore lands still lying idle. In fact we find ourselves in precisely the same position as the farmer who has a larger acreage than he

can cultivate with the capital in hand. He knows that with additional capital and assistance he could make the land yield abundant crops and enormous profits. He knows that every season that the land lies idle means a loss of these crops and those profits-for time is money. In the same way we intend by the investment of additional capital to bring our enormous acreage of mineral lands to a highly profitable stage of development at the earliest possible moment. For this reason a limited amount of treasury stock is now offered to the public at 10 cents per share. In this way the funds will be available for immediate use, and our lands will not lie idle. But for this consideration our stock would not be offered for sale at any price, but we know that by immediate development of the property, a large half-ton map of the Lead and Zinc Field, and convincing list of high-class bank and business references.

NEW SPRING RIVER MILL.
Daily capacity of this mill 200 tons. Supplied from ore bodies 25 feet thick proven by seven drill holes.

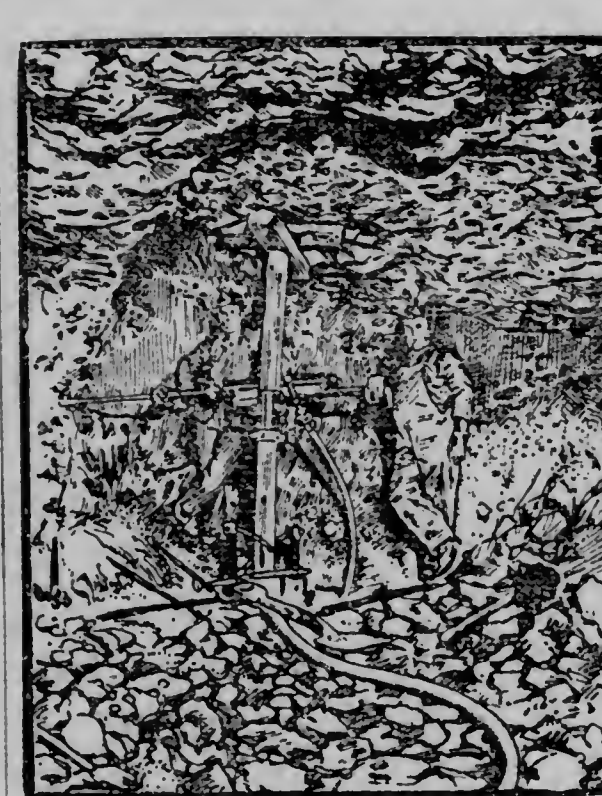

\$10,000 FOR ZINC LEASE.

Most Ever Paid For Forty Acres in Joplin District.
CARTHAGE, MO., Aug. 14.—(Special).—J. C. Stewart, president of the Center Creek Mining Company, has received a check for \$10,000 for a 40-acre lease owned by that company and located north of Cartersville. This is the largest cash deal ever made in this district for a forty-acre lease of zinc lands on which there is but one mill. The real value of the land consists in the fact that some forty drill holes covering the tract show a sheet ore face of ten to fourteen feet, all above the 156-foot level. The Center Creek company has also given a sixty-day option on the fee of the property at a price about the same as the lease. The Pennsylvania company is planning to erect several large mills.—From Kansas City Daily Journal.

This 40-acre lease, where the ore face is not over 14 feet, brought \$10,000. The Baxter Royalty Co.'s property comprises 3720 acres underlain with ore bodies 14 to 74 feet in thickness.

200-TON CRAMER-MORSE MILL.
Already in operation on Baxter Royalty Co. property, supplied from ore bodies 48 feet thick.

40-FOOT ORE FACE.
In Cramer-Morse Mine already operating on Baxter Royalty Co. property.

Wonderfully Rapid Development of Southwest Lead and Zinc District.

The Daily Mining Record of Denver, Colorado, one of America's leading mining journals, under date of Feb. 11, 1907, published the following special dispatch from Baxter Springs, Kan., and the Joplin district: "South of this city four miles is the Baxter Springs mining camp, located in the Quapaw Indian Reservation, I. A. Three years ago there was nothing but fields and forests and today there are more than 30 shafts sunk and 25 concentrating mills with a capacity of from 40 to 200 tons daily, either in operation or in the course of construction, and contracts let for four 50-ton daily capacity mills. The ore is found in this camp in blanket formation all the way from the surface to 100 feet in thickness, extending over many acres. The ore concentrates are all the way from 10 to 60 per cent metallic zinc."

Special Plan of Small Payments.

In order that no one may be debarred by lack of ready money from joining with us in this enterprise, subscriptions will be accepted for allotments of 10 shares, and upwards, payable 10 per cent with order and 10 per cent monthly for nine months.

Your whole reservation will receive the benefit of every advance in price, even while you are paying for it. Upon completion of your payments, a certificate will be issued for stock purchased. If unable to finish payments, you will receive upon request a certificate for the amount paid for stock new 10 cents per share, par value \$1.00. A few dollars will start you. Read the following table, then act promptly:

\$1 a month buys 100 shares, par value \$100.	\$15 a month buys 1,500 shares, par value \$1,500.
\$2 a month buys 200 shares, par value \$200.	\$25 a month buys 2,500 shares, par value \$2,500.
\$3 a month buys 300 shares, par value \$300.	\$30 a month buys 3,000 shares, par value \$3,000.
\$5 a month buys 500 shares, par value \$500.	\$50 a month buys 5,000 shares, par value \$5,000.
\$10 a month buys \$1,000 shares, par value \$1,000.	\$100 a month buys 10,000 shares, par value \$10,000.

Stock fully paid and non-assessable. All stock shares alike. No preferred stock, no bonds.

MAKE YOUR MONEY WORK FOR YOU

You often hear it said that in these days of trusts and high prices the poor man has no chance to get ahead. This is true as long as the poor man is content to receive 3 or 4 per cent from the wealthy bankers, who take his money and put it to work earning 20, 30 or 100 per cent or more. You can put your money to work the same as the bankers and capitalists do, and Sage and Rockefeller never had a better opportunity than I am offering you today.

MY GUARANTEE TO INVESTORS

Knowing as I do the magnificent money-making opportunity now within the grasp of the Baxter Royalty Company's stockholders, I make you this guarantee:

Send in your order and first remittance at once, subject to withdrawal within 30 days if further investigation fails to convince you as to each and every claim that I have made.

Moreover, if you or a pool of your friends contemplate buying as much as \$1,000 worth of stock, send your representative to our property to make a thorough investigation, and the company will pay the entire expense of the trip.

This is a strictly high-class investment appealing to bankers, merchants, professional men, farmers, mechanics, and the investing public in general. In all my experience with investment securities I have never seen an investment that I regarded as so absolutely good.

The steady up and movement that is now being witnessed in the price of this security, combined with the fact that the stock is being rapidly taken up by substantial investors in all parts of the United States, makes altogether probable the realization of very unusual profits to every holder of Baxter Royalty.

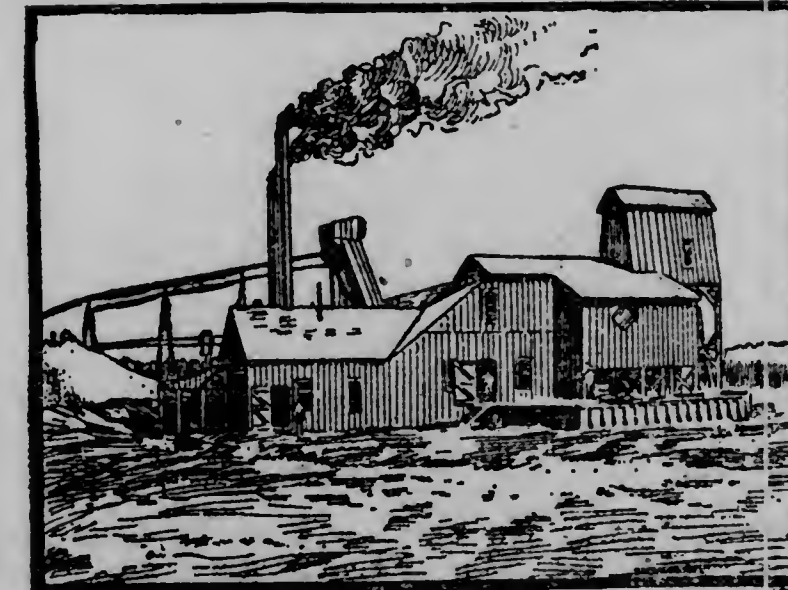

I reserve the right to return any subscription not sent in at once, as from present appearance it seems likely that the stock will be very largely over-subscribed in the near future.

FISH'S SON IS A CLERK

Heir of Railroad Magnate Takes Humble Position in Chicago.

In General Freight Department of Chicago & Eastern Illinois.

Chicago, April 18.—A little before 3 o'clock a tall, broad-shouldered young man with a square, determined jaw swung out of the elevator at the sixth floor of the La Salle street station and marched into room 618, where the offices of the general freight department of the Chicago & Eastern Illinois road are located.

"Well, I'm ready to go to work," he said to F. C. Reilly, the general freight agent.

"Humph! You have that appearance, Mr. Fish. You'll have the desk at the door here—and I guess we'll find enough for you to do. One of the clerks will give you some forms to be filled and mailed in a little bit."

This was Stuyvesant Fish, Jr., son of the former president of the Illinois Central, who recently pitted himself against Edward H. Harriman in the year of railroad mergers, and was one of the oldest and richest families in the country, introduced to his new \$15 a week job yesterday.

Young Fish secured the appointment to a clerkship in the freight office, not because of his long and honorable line of ancestors, but because he convinced W. B. Biddle, vice president in charge of traffic of the Rock Island, the Frisco and the Chicago & Eastern Illinois lines, that he was a clerk in the freight office.

The young man is the logical heir to the control of the vast railroad interests now held by his millionaire father, and while he did not say so in making his application for a job to Mr. Biddle, he has determined to learn how railroads are run from the lowest office to the highest.

Mr. Biddle turned the young man over to Mr. Reilly. His advent yesterday into the big room filled with desks did not cause much of a stir. To the men grinning away over records of rates, bills, and the myriads of other papers, he was just another clerk.

Curled of Rheumatism. Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned."

It troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

MILLERS DENY STORIES

Of Casting Blame on Railroads for the Car Shortage.

Chicago, April 17.—Directors of the Millers' National Federation are denouncing published reports instigated by enemies, it is charged, concerning the proceedings of the annual meeting of the federation held here last week. The reports made it appear that a feeling of intense hostility existed in the federation against the railroads because of the car shortage which prevailed throughout the winter months. The directors say that this is a gross misrepresentation of their position. That the car shortage existed and that they suffered from it severely they admit, but they assert they have never tried to fasten upon the roads the sole responsibility for the conditions which existed.

MAN MAKES COY MAIDEN

Carries Lady's Night Robe, Shirt Waist, Razor and Revolver.

Carefully Combs His Wig, But Will Not Speak English.

Detroit, Mich., April 18.—Sheriff Burns is inclined to the belief that he has something of an important catch in the person of a smooth tusked, who gives his name as Antonio Palek and who dressed in female attire, was taken in tow by Marshal Bernard Whalen in Hamtramack.

Palek's arrest had Hamtramack agog and a whole lot of fun was had at the expense of the prisoner and officer in charge. Palek stood at the home of Adolph Roethling, of Leuschner avenue, about 3:30 and asked if "she" could not obtain "board" there. Mr. Roethling, who was at home, told "her" that he could not accommodate "her." "She" insisted and Roethling becoming suspicious excused himself and stepping to the side door told a neighbor to get the marshal. Marshal Whalen went over and took the "woman" to the office of Justice Gerhard where "she" was registered as a disorderly person and committed to the Wayne county jail to await examination.

While the prisoner was being searched, Marshal Whalen chanced to touch Palek's rather rouged cheek.

"A woman with a beard," he cried, and an examination revealed that Palek was far from being a blushing damsel.

The grip sack the prisoner carried contained a 35-caliber revolver, a razor, silk waist, skirt, white petticoat, apron and a lady's white high garter, and a dark skirt of mixed red and black, shirt waist, tan box coat, patent kid shoes, a new brunette wig and a rich red scarf on the head. His rig was complete.

Palek said he couldn't understand English, but spoke Hungarian fluently. "I came to this country from Austria yesterday night, but slept in a woodshed from place to place, finally settling in Sharon, Pa.," he said through an interpreter. "It was here I decided to play woman, believing that the work of a woman would be easier than a man's. I took street car out of Sharon and walked and rode for a couple of days until I landed in Detroit four days ago. I slept in a shoe factory, but slept in a sleazy rooming house the other three nights. I went to Hamtramack Thursday morning."

Justice Gerhard invited the big crowd that had gathered about his place to go in and have a look at his "curiosity," and the place was packed until Marshal Whalen took his prisoner to the car. The "lady" folk jollied the "man" with "good evening" and when he was holding hands.

When the prisoner was brought into the jail, "she" sat mute when questioned in Hungarian, and Sheriff Burns called Charles Scheinowski to talk Polish. This man Palek understood about the head and chest, and Dr. W. J. Stapleton says he may be a Hun when he wants to. He told the interpreter that his language is a dialect of Austria-Hungary, but it is better that he understands all three languages.

Palek makes a very coy maiden. He keeps his head down and carries himself with an ease that many a real woman might envy. He never fails to precede his remarks with "good evening" or crossing a street, and combs his long hair with surprising frequency. He is 42 years of age and has a voice and appearance would cause ninety-nine out of 100 to take him for a foreign working woman of about 35.

"You know this fellow looks like one of those smooth customers," Sheriff Burns said, "and it would not surprise me if he were wanted somewhere. I intend communicating with the Sharon authorities in the morning."

OBSERVE SIXTY-FIFTH WEDDING ANNIVERSARY.

York, Me., April 18.—Mr. and Mrs. Theodore Robinson of this town last week observed the 65th anniversary of their wedding and although the old couple are rapidly showing their age, they are still active. They have a little farm at Sebary, and for the past 45 years they have lived there.

They were married April 10, 1842, at Kittery, by Justice of the Peace of the Maine district. He and nearly 50 years ago they moved to their present farm. Mr. Robinson was born in Kittery, Me., April 27, 1840, and when 12 years of age he came to York, where he married John Robinson of York and Mrs. Lizzie F. Pratt of the Scotland district.

Working with him until he purchased a little farm of his own. Mrs. Robinson was born in York, Me., June 7, 1842, and was while she was working in a boarding house at Portsmouth that she met her husband, and the following year they were married. They have two children, John Robinson of York and Mrs. Lizzie F. Pratt of the Scotland district.

COMPANY MAKES GOOD.

Pays over \$25,000 to Replace Money Stolen at St. Paul Station.

St. Paul, April 18.—(Special to The Herald.)—It developed yesterday that the money stolen from the Union depot was not consigned to Clocost, but was a package of \$25,000 that the Merchants National bank of this city had consigned to Duluth.

Yesterday afternoon the express company turned over a check for the full amount to the bank.

LANDS PATENTED TO STATE OF MINNESOTA.

Washington, April 18.—(Special to The Herald.)—There was approved to the state of Minnesota, on April 18, 1907, school land selections embracing 3736 acres of land in the Cass Lake land district. These lands were selected by the state in lieu of other lands lost to the state.

CONTRACTS AWARDED

County Board Accepts Bid for Addition to Courthouse.

C. George Stevens Gets Contract to Duplicate Plat Book.

The board of county commissioners convened yesterday afternoon and awarded three contracts, two for construction work and another for a reproduction of Book C of plats in the office of the register of deeds.

The contract for the latter was awarded to C. George Stevens of this city, on his bid of \$500. The work is to be completed by Jan. 1, 1908. The book of plats in question is one of the valuable county records kept in the register of deeds office, and which is now in so dilapidated a condition that the register notified the board he would no longer be responsible for its safekeeping. The book is frequently used as a reference, and the leaves are about all detached and liable to get lost or misplaced. As it is the only record of the kind that the county has, it was decided necessary to have the entire book reproduced, a process that will probably take the greater part of the year.

John S. Scheunes was awarded the contract to construct an addition to the office of the judge of probate, on the east side of the courthouse, on his bid of \$445. The addition must be completed by June 1 next. The addition, it is believed, will greatly facilitate the transaction of business in the probate office, which for some time past, has been very much in need of room.

A. A. Scanlon and Paul Herman, two farmers living on the Miller Trunk road, were awarded the contract to reconstruct the east wall of the Whiteface river bridge for \$275. The work is to be started tomorrow.

The commissioners discussed the matter of repairing the east wall of the courthouse, but decided to defer the work until after the addition to the probate office is completed.

A portion of the old wall will have to be torn out anyway.

Commissioners Patterson, Sundeen and Kauppi inspected roads in Mendota Monday and Tuesday. They were entertained at Mendota by the Mendota Hotel.

The board will, April 20, next, make an inspection trip over the Miller Trunk road, from Evelev to Duluth.

MARRIED 69 YEARS AGO.

Mr. and Mrs. Cole Have Lived in Michigan Ever Since.

Detroit, Mich., April 18.—One of the most interesting couples in all Michigan is Mr. and Mrs. Lyander Cole. He is 96 years old, she 87, and they were married more than sixty-nine years ago.

Until twelve years ago they lived on their farm in Calhoun county, but since then have lived with their son Oscar of Grand Rapids, and with their daughter, Mrs. J. H. Potts, of 81 Woodward apartments. At the present time they live with the daughter.

"When I first came to Detroit," Mr. Cole recalls, "it was a little village on the river bank with only one good street. If I were a young man again and in good health I would go west."

Mr. Cole recalls how in the early days he walked four times from Cline's Pines to Detroit, 170 miles, over a road made by the Indians.

Both Mr. and Mrs. Cole were born in New York state, but came to Michigan as children.

SAVES CHILD FROM CAT.

Michigan Mother Rescues Her Little One From Suffocation.

Coldwater, Mich., April 18.—Lying on the breast of her 13-month-old child, his nose thrust into the little one's mouth, Mrs. L. Sattison found the pet cat of the family. The mother made liberal use of the broom and drove the cat away. The child was black in the face.

A physician worked over the baby an hour before respiration was completely restored. The doctor said the mother discovered the cat just in time to save the child's life.

JEWELS BURIED WITH HER

But When Grave Was Opened, Only One Ring Remained.

Cleveland, Ohio, April 18.—When the grave of Anna Sayle, in a cemetery at East Cleveland, was opened recently, the jewels buried with her long ago were missing. Some of them were diamonds valued at several thousand dollars.

The grave was excavated more than twenty years ago. The woman had asked that her jewels, many of which were family heirlooms her mother had bought for her, be buried with her. Only a diamond ring was found.

ORDER FOR HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND.

In the Matter of the Estate of Dorothy Lloyd, Decedent.

In the Matter of Joseph Lloyd having been filed in this court, representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that to will of decedent has been proved no administration granted on her estate in this state, and that the decedent died intestate, and the same determined by this court, and the same assigned to the persons thereto entitled.

It is Ordered, That said petition be heard before this court, at the Probate Court rooms in the Court House, on the 20th day of April, 1907, at 10 o'clock a.m.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts of the aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific treatment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed the great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address

RUG AND DRAPERY DEPARTMENT.

WELCOME—thrice welcome to you one and all! A new department makes its bow tomorrow! The third floor has been remodeled—and while there is still more work to do—we are far enough along to invite you to come and see with your own eyes that we have lived up to what you might expect from Duluth's fastest growing store!

An entirely new stock—everything new from end to end—the freshest stock of everything wanted for the home—everything of the tastiest and most desirable—and it goes without saying that prices will be right—past experience has taught you that prices here are never more and often less than elsewhere!

There are other good Rug and Drapery stores here—and very good stores they are, too—but we believed we saw a way to serve you better than anyone else is doing—that's why we opened this new department!

YOU KNOW WHAT OTHER STORES HAVE DONE—

NOW COME AND SEE WHAT WE CAN DO!

CLAIM HE WAS INSANE

Defense Produces Several Witnesses Who Testify Argyle Was Deranged.

Friends Who Saw His Strange Actions Go on Stand.

The Argyle assault case will probably be finished, so far as the testimony is concerned, by this evening, in which case the attorneys will argue to the jury tomorrow.

Mr. Cullen, attorney for Fred M. Argyle, called several witnesses this morning who testified to the good reputation that he bore previous to the shooting and some passed their opinion that the defendant was mentally deranged for several days prior to the shooting.

This class of testimony by what is termed "non-expert witnesses" has been brought out to a larger extent by Mr. Cullen at this trial than at the former trial. Its weight is claimed to be largely in the value that the jury attaches to it after hearing it and knowing to what extent the witness had an opportunity for observation.

Up to noon today Mr. Cullen had not introduced any expert testimony in support of his claim that Fred Argyle was insane at the time of the alleged assault on his wife, but it seemed to be the understanding that

Dr. Leonard, who testified at the first trial that the defendant was insane both before and at the time of the shooting, would be among those called this afternoon.

The sessions are still fairly well attended by people who either knew the defendant, his wife, or who are curious when there is any intimation that a word of testimony to indicate what the nature of the trouble, nor has there been anything tending to show that other people interfered in the family affairs of the Argyles.

There has been some testimony tending to show that Argyle thought other people were interfering with his family affairs.

New Witnesses Called.

The defense has called several witnesses who did not appear at the former trial. Principal among these was Mrs. Herman Weiling, who with her husband, were friends of the Argyles.

A very important meeting will be held tomorrow night at Sloan's hall, Twentieth avenue west. A full attendance is requested.

For some period of time, Mrs. Weiling, who is a strong witness for Argyle, her testimony being very direct and unshaken by the cross-examination.

When on the stand yesterday afternoon Mrs. Weiling said she had known Argyle for the past six years, that she frequently before and after his marriage, she claimed that Argyle's actions and his talk was very peculiar and she was led at the time to believe that his mind was not right.

Mrs. Weiling testified that Argyle visited her home at another time and that after remaining for some time on the porch with a staring look in his eyes and remarking for some time looking at the defendant, she said Argyle refused to enter her house again, asked for his hat and coat and went away. The witness claimed his actions on this occasion

confirmed her belief that he was mentally deranged.

Recalled to the stand this morning, Mrs. Weiling remembered a time when she visited the Glass Block store last fall to do some trading, shortly after Mr. and Mrs. Argyle had begun living together again after their first separation. The witness said Mrs. Argyle told her that they were living together again.

Mrs. Weiling said that while she was talking to Mrs. Argyle, Mrs. Argyle, who was running the elevator, came up from the sub-basement several times and would peek around the corner of the elevator shaft at his wife. She said Mrs. Argyle laughed and remarked that her husband was so happy because she had gone back to him that he kept coming up from the basement and looking at her every little while throughout the day. Mrs. Weiling testified that her own family and the Argyles visited back and forth and went out on fishing trips and picnics together, and that so far as she could see Argyle always treated his wife with kindness.

Another friend of the family, Mrs. Kate Murphy of 14 First avenue east, testified that she has known Fred Argyle for four years. She claimed that prior to June, at which date his wife left him, Argyle was always neat about his person, but that subsequent to the date mentioned he went about unshaven, dirty and with his clothing very untidy. She claimed, too, that he seemed to have lost a great deal in weight and did not look like the same person she used to know as Fred Argyle.

Mrs. Murphy said she was in the basement of the Glass Block store about ten days prior to the shooting and met Argyle face to face but he did not seem to recognize her. She claimed that he looked nervous and worried and acted strangely. Mrs. Murphy declared that James P. Kearney, a department manager at the Glass Block store, testified that he had known Argyle for some years and knew that he had a good reputation among the employees of the store.

Mr. Vesterfield, assistant shipping clerk for T. A. Patrick & Co., claimed that Argyle's reputation was good throughout the community where he lived.

Other witnesses as to Argyle's good character were Jacob Johnson, who is employed by Bayla & Co., James L. Crawford and Charles A. Stewart, both of whom are in the undertaking business and are former employers of the defendant.

Mrs. Elta Evans, from whom Argyle removed his hat, testified as to the good character of Argyle and expressed her opinion that, from his actions and talk

while in her house the evening before the shooting, he was insane.

Another Character Witness.

Mrs. E. Dubiel, who with her husband runs the grocery store where the Argyles traded, was also a character witness. Mrs. Dubiel claimed that the evening before the shooting Argyle passed the store and glanced in, that she saw the wild look about his eyes and was frightened. She stated that in her opinion he was insane.

Daniel T. McDonald, superintendent at Patton & White's store, testified that Argyle, since the last time he had been among the employees that was a hard-working, sober, industrious employee.

County Attorney Norton, this morning, sought to strike out Mr. McDonald's testimony on the ground that it did not refer to the community where the defendant lived, but the court denied the motion.

Mrs. E. Dubiel had been recalled for re-direct examination shortly before the court adjourned at noon today.

STEPHENSON GAINS.

Now Tied With Esch in Contest for the Wisconsin Senatorship.

Madison, Wis., April 18.—The second formal ballot for United States senator in joint assembly today resulted in no choice. The Republican vote was practically the same as yesterday, with the exception that Isaac Stephenson of Marinette gained two votes, receiving a total of 19. Esch tied him, Lenroot and Cooper each received 18. Hans Rasmussen and Winkler 2, and the rest scattered. Bird received the Democratic vote and Pummel the Social-Democratic strength.

Aid for Chinese.

The Herald is in receipt of \$2 from some unknown person signing himself "Singing Son," which he is glad to be used for the relief of the Chinese and Russian families suffering.

The money has been turned over to the proper agents for the fund and will be forwarded to China together with any other sum that may be sent in.

BRYAN AT HARTFORD.

He Makes a Short Speech Before the Connecticut Legislature.

Hartford, Conn., April 18.—William J. Bryan was the guest of the general assembly today. He came to Connecticut to lecture in this city and Danbury under the auspices of the Democratic State Central committee. At the capital Mr. Bryan was received by Governor Woodruff and informally met many prominent men of the state. At noon the senate joined the house of representatives in convention and heard an address by Mr. Bryan, Lieut. Governor Everett J. Lake, presiding. Later Mr. Bryan was dined by the Democratic State Central committee at Hotel Garde.

EXTRA DIVIDEND

Of \$10 Per Share Declared by Boston & Montana Consolidated.

Directors of the Amalgamated Copper company today declared a quarterly dividend of 1 1/2 per cent and an extra dividend of 1/2 of 1 per cent to be declared is unchanged from the last previous quarter.

Directors of the Boston & Montana Consolidated Copper and Silver Mining company declared a quarterly dividend of \$2 per share and an extra dividend of \$1 per share.

JUNIOR CLASS SUSPENDED.

Springfield, Mass., April 18.—The entire junior class of Drury college, Congregational, numbering thirty-four, was suspended yesterday because they refused to apologize for resolutions drawn up last Monday and directed against the faculty. The resolutions were that the faculty be suspended for refusing to stand by the juniors. The trouble started with a letter from President Kirby's home of a quantity of ice cream, intended for a senior reception.

COMPLAINS TO MAYOR

J. H. Grande Wants to Have Chief Troyer Investigated.

Action Will be Postponed Pending Outcome of Suit.

Not satisfied with pushing his \$5,000 damage suit against Chief Troyer for alleged injustice done him in connection with his recent arrest and subsequent release on a forgery charge, J. H. Grande, the fruit man, this morning filed a request with Mayor Cullum asking that an official investigation of the chief's conduct in relation to the arrest, be made, and including all the points in the complaint which were contained in the complaint in the \$5,000 damage suit.

The mayor was inclined to be very reticent about the matter this morning, but stated that in all probability there would be no chance of an investigation until after the lawsuit now pending, and that there would be none at all unless circumstances warranted it. He said he had not looked into the matter at all as yet.

THE KANSAS IN COMMISSION.

Philadelphia, April 18.—The battleship Kansas was placed in commission at the League Island navy yard today with appropriate ceremonies. The exercises were presided over by the commander of the Kansas and were witnessed only by the officers of the battleship, members of the crew and attaches of the navy yard.

ROMATIC DEVONSHIRE.

The Land Made Famous by Philpotts' Novels.

Philpotts has made us familiar with romantic Devonshire, "The River," "Children of the Mist," etc. The characters are very human; the people there drink coffee with the same results as elsewhere. A writer at Rock House, Orchard Hill, Bliford, North Devon, states:

"For 30 years I drank coffee for breakfast and dinner but some 5 years ago I found that it was producing indigestion and heart-burn, and was making me restless at night. These symptoms were followed by brain fog and a sluggish mental condition."

When I realized this, I made up my mind that to quit drinking coffee and having read of Postum, I concluded to try it. I had it carefully made, according to directions, and found to my agreeable surprise at the end of a week, that I no longer suffered from either indigestion, heartburn, or brain-fog, and that I could drink it at night and secure restful and refreshing sleep."

Since that time we have entirely discontinued the use of the old kind of coffee, growing fonder and fonder of Postum as time goes on. My digestive organs certainly do their work much better now than before, a result due to Postum Food Coffee, I am satisfied."

As a table beverage we find (for all the members of my family use it) that Postum is properly made, it is most refreshing and agreeable, of delicious flavor and aroma. Vigilance is, however, necessary to select this, for unless the servants are watched they are likely to neglect the thorough boiling which it must have in order to extract the goodness from the cereal. Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

WEST DULUTH ESTABLISH NEW COURT

Judge Flack Will Soon Begin Trying Minor Cases.

Bill Giving Him Jurisdiction Passes the State Senate.

As soon as Governor Johnson affixes his signature to the bill providing for a justice court for West Duluth, Judge J. B. Flack will have power to try all cases which come up at this end of the city of a minor nature. The bill, which was first introduced and passed by the house, was yesterday passed by the senate, and will soon go to the governor to be signed.

West Duluth people are greatly pleased over the news that the bill is about to become a law, as a justice court has been badly needed by West Duluth since the municipal court was removed, some years ago. On account of the distance of West Duluth from the main part of the city, much delay has been occasioned by the necessary trips back and forth by those concerned in minor municipal court cases.

Judge Flack will have jurisdiction over all civil cases where the amount of money or value of property is not more than \$100, and all criminal cases in which the punishment for the alleged offense is not more than three months in jail, or a fine of \$100.

Where the court will be located has not yet been decided by Judge Flack, but he is talking of making arrangements with the Commercial club for the use of its hall.

EXTENSION QUESTION.

Proctor People Are as Anxious as Ever for Line.

Citizens of Proctor, who attended the meeting of Duluth lodge last evening, again brought up the street railway extension matter, and made inquiries concerning the prospects of a line being built to Proctor this year. This question, which was strenuously agitated a couple of months ago, has been allowed to die down in Duluth, but the Proctor

people are as anxious to get the line as ever, and have not given up hope.

After the matter had been brought up by the Proctor people, the committee which has the matter in charge and represents the Commercial club, got together and decided to again bring the matter up before the Commercial club tomorrow evening, when the members of the club from Proctor will be asked to be present.

Supt. Warren of the street railway company was this morning asked to attend the meeting and confer with the members of the club about the extension, and promised to do so.

W. B. Getchell is chairman of the Commercial club committee, and Rev. Charles W. Rasmussen of Proctor is at the head of the citizens of that town who are interested in the extension.

MASONS WILL BUILD.

Will Erect a Fine Temple for West Duluth Lodge.

A fine \$12,000 Masonic temple will be erected during the present year by the Masons of West Duluth for the use of the two lodges of the order at this end of the city. The matter was definitely decided last evening at the meeting of Euclid lodge, No. 198.

The building will be erected on the western side of Central avenue between Cody and Elinor streets and will be two stories high and constructed of brick and stone. It will be about 42 by 100 feet and on the first floor will be the banquet hall and waiting rooms, and on the second the lodge rooms.

The plans for the building have not yet been entirely completed but will probably be handed to the building committee of the lodge by Sunday of this week.

Grand Marais Couple Wedded.

The wedding ceremony, which united Miss Rose Murphy of Grand Marais to Martin Arhous, also of Grand Marais, took place at 8 o'clock last evening at the St. James parsonage. Rev. D. W. Lynch performed the ceremony, which was quiet and attended by only the two witnesses. A wedding supper was afterwards served at the home of the bride's sister, Mrs. L. J. Brotherton, 627 West Fifty-seventh avenue west, only the relatives and a few friends attending. The young couple will make their home at Grand Marais where they are both well known.

Birthday Surprise Party.

Mrs. Fred Brassard was pleasantly surprised last evening by a number of her friends at her home, 438 Ontario street, the occasion being her birthday anniversary. Progressive clink was played and the prizes were awarded to

Mrs. Joseph Gauthier, Mrs. Joseph Brassard, Miss Deulah Brassard and Miss Esie LaFlair. A dainty luncheon was afterward served, covers being laid for twenty guests. An informal program of music and recitations followed. Those present were: Mr. and Mrs. Alex Forbes, Mr. and Mrs. Joseph Brassard, Mr. and Mrs. Felix Eber, Mr. and Mrs. D. Gauthier, Mrs. H. Pickard, Mrs. T. Lutzka, T. Sinnott, Misses Myrtle and Esie LaFlair, Ella and Phoebe Brassard, Buelah and Alexine Brassard and Jennevie Brassard.

Improvements Completed.

The improvements and redecoration which have been made at the Commercial club hall during the last few weeks are now practically completed and the hall is one of the finest of its kind in West Duluth. A steel ceiling, light green in color, has been put up, and the walls have been decorated to match. The hall has been thoroughly cleaned and will be in the best shape possible when the club assemblies tomorrow evening.

Hibernians Entertainment.

This evening at Great Eastern hall, Prof. Robert Turner of Boston will give his first illustrated lecture of the series on "America." Over 200 people will be shown and the lecture will be a great patriotic affair interspersed with musical selections, making it both instructive and entertaining.

The audience will be taken across the continent from the North to the South, and the East to the West and everything of interest will be illustrated and briefly explained. The entertainment has been well received in other parts of the country where it has been given and has proved interesting as well as instructive to the audience. The committee having charge of the entertainment feel confident of the success of their efforts.

On Friday evening Ray W. Abbott will sing "Good Night, Little Girl, Good Night."

NEGRESS MURDERED IN CHICAGO HOUSE.

Chicago, April 18.—Mrs. Mary Johnson, a negress from Omaha, Neb., was found murdered in a rooming house at 1505 Wabash avenue today. Her head had been almost severed from the body with a hatchet. Ole J. Johnson, a negro, also from Omaha, was arrested, and admitted to the police that he killed the woman because of jealousy. The couple had been living together as man and wife. They came from Omaha about six months ago.

MAY LOSE SIGHT.

Hawley, Minn., April 17.—Carl Bartness was seriously injured by an explosion of giant powder yesterday. He was engaged in blasting for the cut on the new Northern Pacific right of way and was ordered to re-drill a hole where a charge had failed to explode. A hot drill being used, his face was terribly mangled and he may lose the sight of both eyes.

Everybody Knows What Constipation Is.

Everybody Should Know What Hunyadi Janos is.

HUNYADI JANOS is the original Hungarian Natural Mineral Laxative Water, which has been in constant use the world over for nearly half a century as the surest, best and most effective remedy for constipation, sluggish liver and all disorders resulting therefrom, such as bilious attacks, indigestion, rheumatism, gout, etc. Eminent physicians acknowledge its wonderful curative properties and freely prescribe it, not only to regulate the liver and bowels, but as a splendid tonic when the whole system is run down. What makes it such a wonderful remedy so far above all others is that, although absolutely harmless, it is always reliable, acting quickly, naturally and pleasantly, even in the worst cases. An inexpensive remedy well within the reach of all, for a large bottle containing many doses costs but a trifle. At all druggists. Try it.

Oak Hall Clothing

Is Meant For Every Man.

The price range—\$15.00 to \$35.00—proves that. The man with unlimited income need not look for finer clothing than constitutes our \$35.00 grade.

And the man who has to count his dollars will find our \$15, \$18 and \$20 grades well within his ideas of choice.

Our interests in the matter of clothing selling, therefore, you see, are not linked or confined to one particular class of men. Of course, we prefer to appeal to the critical class, for then we are sure that Oak Hall Clothing will be appreciated as it should be.

If you are among this class it certainly behooves you to make this store your court of first and last resort. If you exercise this judgment you will certainly have acted in behalf of your best wardrobe and economic interests.

INSANITY EXPERTS PUT DIFFERENCE OF OPINION BY BOTH SIDES

Argyle Case Develops Difference of Opinion Between Doctors.

Different Hypothetical Questions Bring Con- tradictory Answers.

At noon today it could be definitely predicted that the Argyle trial would not be finished today. In fact it looked very much as though it would continue a day or two into next week.

The defense has begun the introduction of expert testimony in the attempt to establish the insanity of Fred M. Argyle at the time he wrote the letters found on him in the police station and at the time he did the shooting at Lakeside, and judging from the number of expert witnesses that have been subpoenaed both by the defense and by the state, in rebuttal, there is likely to be a strong fight over the question of Argyle's sanity at the time of the alleged assault.

The situation at noon tended to indicate that it will probably be a question of which hypothesis the jury will accept in determining whether Argyle was sane or insane. According to Mr. Cuklin's hypothesis, based on the alleged facts, as he claims them, the experts will say Argyle was insane, and according to County Attorney Norton's hypothesis, based on the facts, as he alleges them, the experts will say that Argyle must have been sane.

Dr. H. C. Leonard, a local physician and surgeon, who is a member of the state board of medical examiners, was the first expert insanity witness called by the defense this morning and it was understood that J. E. Bowers, also of Duluth, who was for about twenty years superintendent of the state insane asylums at St. Peter and Pergus Falls, will be called by Mr. Cuklin this afternoon.

It is further understood that County Attorney Norton has subpoenaed several prominent physicians to give expert testimony for the state, among these being Dr. P. J. Patton and Dr. Boyer.

In the former trial Dr. Leonard was the only expert witness to testify. Dr. Leonard was on the stand under direct and cross-examination all the forenoon. Mr. Cuklin asked him a hypothetical question, based on the facts as he claimed they had been brought out by the testimony, and requested an opinion as to the sanity or insanity of Argyle.

Dr. Leonard declared his belief that the defendant was insane at the time he wrote the letter addressed to Coroner McCuen, also when he did the shooting at Lakeside, and that he believed the defendant was sane at the time he wrote the letter to the former trial.

Examined by Mr. Morton, "On what reason," asked Mr. Norton, on cross-examination, "do you base your opinion that Argyle was insane when he wrote the letter and when he did the shooting?"

"He was evidently acting under a delusion," the witness replied, "being that he believed that he was being persecuted by the state and that he was going to be killed by the state."

"Is it true, is it not, that persons laboring under a mental derangement do not think logically?"

"Most of them do not. Some of them do."

"It depends on the form of insanity, then?"

"It depends on the nature of the affliction and the severity."

"Is it not true that a man can have a delusion and not be insane?"

"No, sir."

"When a man has a delusion of any kind he is in a state of mind that he does not realize the nature and quality of his acts—does not know right from wrong?"

"Well, I want to know. The jury wants to know."

"In your opinion, then, was Fred Argyle in a mental condition to know the nature and the quality of his act when he did the shooting?"

"There is no evidence that he was and, presumably, he was insane."

Dr. Leonard read in sections, the letter addressed to Coroner McCuen, and asked Dr. Leonard his opinion relative to each section as to whether he thought they showed evidence of insanity. The witness said some parts of the letter and others did not, except when considered in connection with the whole contents of the letter. Dr. Leonard said that Argyle was not in a condition to be responsible for his acts when he wrote the letter.

The line of demarcation between sanity and insanity is well defined, but the evidence cannot be obtained in all cases. He said the dividing line may be impossible to tell by reason of a lack of evidence.

The witness admitted that a person may attempt a homicide when he is in his right mind and claimed that, while he is not the general rule for a person to remember during lucid intervals things done while insane, he might recollect either all or part of what occurred. The witness said there was no rule as to whether such person should remember the important thing or the unimportant.

County Attorney Norton then asked Dr. Leonard his hypothetical question, based on the facts of the county attorney claimed them to have been established by the testimony. It might be termed, in a general way, a question just the opposite of that asked by Mr. Cuklin.

Excluding from consideration the letters claimed to have been written by Argyle, Dr. Leonard testified that he could not say there was proof enough to warrant him in saying that Argyle was insane.

Questions further by Mr. Cuklin, the witness said he meant that he could not say whether Argyle was sane or insane based on the question that Mr. Norton asked.

Yesterday afternoon Fred M. Argyle went on the stand and testified in his own behalf. His testimony varied very much from that of the experts at the former trial, but his cross-examination

by County Attorney Norton was, if anything, more severe.

Argyle claimed to remember some of the incidents leading up to the first shot, which he declared he fired in the air, but after that he suffered a lapse of memory until he found himself on the street car, at the end of the line in Lester Park. He claimed he did not remember how he happened to put the revolver in his pocket, and did not know it was there until he put his hand on it at Lester Park, while talking to his wife.

Argyle declared positively that he did not remember shooting Miss Hutchcraft, or of firing another shot until the first one fired in the air. He claimed that he did not remember what he said at police headquarters after his arrest, and denied any knowledge of the letters found in his pockets, although admitting they were in his handwriting. He claimed that he did not have anything to eat from Monday noon before the shooting until Wednesday afternoon. The shooting took place Tuesday evening, Mr. Cuklin brought out this testimony for its bearing on Argyle's physical condition the night of the shooting.

Argyle testified that he loved his wife and loved her still, that he always treated her in a kind manner. He testified that he never had a serious illness and was not subject to epileptic fits. He admitted that he was addicted to the use of intoxicating liquor when about 20 years of age, but claimed that he has not used liquor for some years.

The witness denied having any intention of harming anybody when he went out to Lakeside. He could not remember how he got there, but thought he must have taken a car, as he did not walk.

Miss Bessie Hart, who assisted L. C. Coffin, a dancing instructor, testified that Argyle took lessons at the school after Jan. 1, and that he acted in a very strange manner. She said he acted as though he had a "strain" on his mind.

Mrs. Cora Hutchinson, a neighbor of Argyle, testified that Argyle had a very good reputation in the neighborhood, and that he seemed to treat his wife with kindness. She testified to a portion of the conversation she overheard between Argyle and his wife the evening Mrs. Argyle left home.

AGREEMENT FOR PEACE

Has Been Arranged Be- tween Nicaragua and Salvador.

Washington, April 18.—A tentative agreement for peace, according to advices received today, has been arranged between Nicaragua and Salvador, which probably will end the Central American war. Orders have been issued for the withdrawal of all Nicaraguan troops from Honduras and the peace negotiations are proceeding with every prospect of successful fruition within a brief time. Minister Corra of Nicaragua had at conference today with Assistant Secretary of State Bacon, at which he communicated to him cablegrams which he had received from his government indicating the decision of the foreign affairs now being held on Tigre Island must have been decided upon. The ministers, according to advices, are communicating with their respective governments as to the terms of the agreement.

NO LONGER A GENTLEMAN.
The members of a football team were in my car going to another city to play, said a sleeping car conductor, says the Denver Post. They had to ride half the night and so they took the sleeper. One youth had 80 cents to spend and when he went to bed he decided to hide that money so nobody would find it. When in one's was looking, he slipped it into the toe of one of his shoes. Then he put the shoes under the berth and went to sleep to dream of his fortune below.

"Well, along in the night the porter came in and began his work of shining shoes. He found the boy's shoes with the 80 cents in it and you ought to have seen him smile. 'Dis man am sittin' a gentleman,' he said. 'Just think—leavin' me 80 cents jes' to blacken' his shoes.'"

"The next morning when the player found his 80 cents gone, he nearly had a fit. He made the porter give him back his money. The porter was mad. He came to me and said:

"Say, boss, you know that feller ah

said was a gentleman fo' leavin' me 80 cents fo' blacken' his shoes?"
"Yes, I replied.

THREE ARE CONVICTED On Charges of Conspiracy to Defraud the Gov- ernment.

Omaha, Neb., April 18.—Thomas M. Huntington, April B. Todd and Fred Hoyt were today convicted in the United States court on charges of conspiracy to defraud the government of about 500,000 acres of public lands in Sheridan and Cherry counties, Nebraska. Their cases have been on trial here for the past ten days.

These men were indicted jointly with Richards and Constock of the Nebraska Land & Cattle company, who were convicted last fall.

Huntington, who is a banker at Corral, Neb., furnished the money to pay the expenses of the outfitmen when going to file on the land.

Hoyt is a partner of Huntington, and is charged with having paid expenses of five outfitmen and of having given them the descriptions of the land upon which they afterward filed.

Todd is from Denver and procured the old soldiers of Iowa, Nebraska and Illinois to place the fraudulent filings on the homesteads.

BEAUTIFUL WOMAN AND HER NEPHEW GO INSANE.

Milan, April 18.—The beautiful Marchesa Attila Rambiet, Missaglia, a member of an illustrious Italian family, suddenly became insane Wednesday and barricaded herself in the family palace. She then dressed herself in her robes of state and set fire to the furniture. When the firemen arrived she shot at them with a revolver. There was a protracted scene which ended only when her ammunition was exhausted. The firemen on entering discovered a nephew of the Marchesa there. He also was insane. Both are now in the asylum.

WISCONSIN DEADLOCK REMAINS UNCHANGED.

Madison, Wis., April 18.—The third joint ballot in the Wisconsin legislature today for United States senator resulted in no choice. There was practically no change in the previous votes. Following is the vote: Republicans, Cooper, 19; Esch, 15; Leonard, 18; Stephenson, 19; Hatten, 15; Baensch, 6; Winkler, 3; Hudson, 1; Bird (Democrat), 13; Rummel (Social-Democrat), 4; Thompson (Social-Democrat), 1. There were eleven absentees.

ROCHESTER COLLECTOR IS ASKED TO RESIGN.

Washington, April 18.—It was admitted at the White House today that the resignation of Archie Sanders, as collector of internal revenue at Rochester, N. Y., had been requested about a week ago. It was not known at the White House whether or not he had sent the resignation in, but it was stated that if he does not do so he will be removed. His successor already has been chosen, but his name was not announced.

A CRUEL RELIGION.

"It is all very well," said the Lenten lecturer, "to say that other religions are as good as ours. Take Muhammadanism, for instance, that cruel creed. Take the 'Lord's prayer' of Mohammedanism, the prayer that is repeated daily in every Mohammedan household and mosque. This is it:

"I seek refuge with Allah from Satan, the accursed. In the name of Allah, the Compassionate, the Merciful, Oh, Lord of all Creatures, Oh, Allah, destroy the infidels and polytheists, thine enemies, the enemies of the religion! Oh, Allah, make their children orphans and their women, and their children, and their possessions, and their lands, as booty to the Moslems. Oh, Lord of all Creatures!"

BUSINESS MEN'S EXHIBITION

The Globe-Wernicke Company of Cincinnati Have Decided

To Give a Big Demonstration of Their Goods in Duluth.

The Globe-Wernicke company of Cincinnati, Ohio, have just completed arrangements to give a big exhibition in Duluth of modern office furniture and appliances. The show is planned on an extensive scale, the same as the Globe-Wernicke people have given in other cities, namely, New York, Boston, Chicago and Milwaukee. That manufacturers throughout the country have great faith in the immediate future of Duluth is evidenced by the fact of the Globe-Wernicke company going to the expense of giving this exhibition free in this city and are sending three of their factory experts here to fully demonstrate and explain the superior advantages of their goods. The show will be given on the main floor of F. S. Kelley Furniture company on next Tuesday, Wednesday and Thursday, and will include every device known for the modern office. The public generally is invited to attend this show and it is certainly deserving the support of every office and business man in Duluth.

WILL FIGHT FOR SMITH'S FORTUNE

Relatives to Ask Division of the \$75,000,000 He Left.

New York, April 18.—The immense fortune, estimated at \$75,000,000 left by James Henry Smith, when he died suddenly in Japan a few weeks ago, while on a wedding tour around the world, may cause a hard legal contest for its possession. According to a story printed here today more than a score of Smith's relatives have reached a determination to insist upon a division of the estate. These relatives include Smith's mother, Mrs. Beatrice Smith, now 80 years old, of Evanston, Ill.; a sister, Lady Mary Cooper, wife of Sir George Cooper of London; a second sister, Mrs. Frederick Rossbach, wife of a Chicago business man; a third sister, Mrs. J. N. Mills, wife of a Presbyterian minister of Chicago; and George A. Smith, a brother, who lives in Philadelphia. In addition there are nephews and a niece of George Smith, the founder of the fortune. They are William S. Mason, vice president of the Evanston, Ill., bank; George G. Mason of Abingdon, S. D.; and Mrs. Frederick Vose, wife of an Evanston, Ill., attorney.

The printed story says that many of Smith's friends believe that he will provide for every relative in a way that leaves no ground for a contest.

DISASTROUS TYPHOON SWEEPS ISLAND OF YAP.

Berlin, April 18.—Colonial Director Sternburg informed the budget committee of the railroad retching that a message had been received from the governor of the island of Yap, announcing that a disastrous typhoon swept over the Caro-

line island on Good Friday, March 29, and that 230 of 800 natives of the Chuhi group were drowned; that the coconut trees were destroyed and that famine threatened the surviving natives. The steamer Planet of the Germany navy, which has been engaged in seedling work, and the steamer Germania of the Jalut company, proceeded to the Chuhi islands, taking food and help. It is proposed to bring as many suffering natives as possible to the Blew and Ladron islands.

GUARDIANS START SUITS

Claim Wards Were Injured Through Negligence of Corporations.

Judge W. G. Bonham of this city, guardian of Joseph Vucucovel, a minor, who was employed in the Elba mine, near McKinley, has started a suit against the Hobart Iron company to recover judgment for \$4,400 damages alleged to be due by reason of the injuries received by Vucucovel, in an accident, Feb. 5, 1906.

The complaint alleges that Vucucovel was assisting in the unloading of a car of ore, when a mule attached to the car started up, the jerk displacing a block of wood and causing the ore to open and the ore to fall on the employee, fracturing his leg and causing other injuries.

John Heitman, another Duluth attorney, guardian of Christ Halvorsen, has started a suit against the Northern Pacific Railway company to recover \$1,999 damages for injuries

claimed to have been received by Halvorsen, Feb. 13 last, while helping a car reprior. It is claimed that Halvorsen was in the pit at the roundhouse, helping repair a foot-board on a switch engine, when the locomotive started suddenly, dislocating his hip and causing other injuries.

VOLCANO ACTIVE.

Inhabitants of Chile Panic-Stricken From Earthquakes and Explosions.

Lima, April 18.—The volcano Puyehue in the province of Valdivia, Chile, is yet in active eruption and new craters have opened. The losses in the neighboring country are enormous and the inhabitants are panic-stricken. Showers of hot ashes are falling and there are continuing earthquake shocks, accompanied by subterranean explosions. Absolute darkness would prevail but for the light from several fires over an extent of six miles. A great number of cattle have been killed near Lake Rapco. Several brooks which furnish drinking water for the people have dried up. The ruined inhabitants are fleeing in all directions. The government has sent assistance.

COMMERCE OF WORLD

Now Exceeds \$26,000,000,000 According to Commerce and Labor Bulletin.

Washington, April 18.—The international commerce of the world, now exceeds \$26,000,000,000 of which \$13,500,000,000 is imports and \$12,500,000,000 exports, according to a statement issued by the bureau of statistics of the department of commerce and labor today. Of this total, 14-15 per cent are drawn from this country, and of their exports, 5½ per cent are sent here. These figures of exports include only the domestic merchandise, but do not include the foreign colonial merchandise brought into the country and re-exported.

The total imports of the countries other than the United States are given as \$12,513,143,000 and the share of these imports drawn from the United States as \$1,798,333,000 or 14.37 per cent of the total. The total exports of the countries other than the United States are given as \$10,778,466,000 and the share sent to the United States at \$1,031,113,000 or 9.57 per cent of the total.

SACRED CONCERT SUNDAY

Will be Given at Lyceum Under Auspices of Y. M. C. A.

As a fitting close to the series of big meetings for men which have been held under the auspices of the Y. M. C. A. during the past winter, a sacred concert will be given at the Lyceum theater Sunday afternoon. Admission to the concert will be free but a silver offering will be taken.

The concert will be open to both ladies and gentlemen but as the seating capacity of the theater is limited, only adults and boys and girls over 10 will be admitted. Men who have been attending the "big meetings" during the winter are especially invited.

The concert is given by the High school musical society, assisted by the choir of St. Paul's church. The doors of the theater will open at 2:45 and free tickets can be secured at the Lyceum box office or at Smith & Smith's drug store.

WILL SUMMER IN THE TOMBS

Not Much Hope of Thaw Being Released on Bail.

New York, April 19.—No movement to attempt to secure the release of

Harry K. Thaw on bail has been made and none is likely for some time. Dan O'Reilly and Clifford W. Harbridge, the two lawyers still in his employ, say that no immediate steps will be taken regarding bail.

That Thaw and members of his family are resigned to the fact that Thaw must spend another summer in the Tombs, is apparently indicated by the departure from the city of nearly every member of the family. Mrs. William Thaw and the countess of Yarmouth are now in Pittsburgh and Mr. and Mrs. Edward Thaw have sailed for Europe.

Of all the devoted family that gathered about the slayer of Stanford White during his fight for freedom recently, only one, his wife, Mrs.

Everlyn Thaw, remains at the Hotel Lorraine. She visits the prisoner daily and declares she will continue to do so as long as he is in jail.

WILL TRAGEDY FOLLOW WISCONSIN WEDDING?

Racine, Wis., April 19.—A wedding that will end in a terrible tragedy, according to Italians in this city and vicinity, was solemnized Wednesday afternoon at Ives, Wis., the seat of the stone quarrying industry of Southern Wisconsin.

Mrs. Mary Sasso, widow of the "king of Little Italy" of Racine county, was married to William Smith, a rich farmer and Democratic politician of Calumet, this county.

When the news was spread among the stone quarry workers over 700 of them left their work and proceeded to Ives, ostensibly to celebrate the marriage of their "queen." But several of the most prominent of the Italians said that Smith must die before the year is out, so angry are they at the fact that he has won the hand of the "queen" over the advances of several rivals from the Italian quarters who aspired to take the place of the late Sasso.

Sasso was a notorious character here, being accused of depredations and crimes. He died a few months ago while visiting his old home in Italy.

BEARD VS. SHAVE.
Paris Cor. London Telegraph: What is the use of being a free man if one cannot wear a full beard? So argues M. Antide Boyer, a socialist deputy, and submitting the action to the word he has submitted to the chamber a proposition to the effect that this right shall be proclaimed for the benefit of cafe waiters and servants, and that any employer who may object shall be liable to a fine, and even to a term of imprisonment.

There is a good deal of laughter over this odd suggestion. What, it is asked, is to become of masters whose men prefer the razor? Are they to be suspected of putting undue pressure on them, and punished accordingly? The Temps, in a witty article, remarks that M. Antide Boyer can only escape from this dilemma by rendering his proposition even more

draconic in character and by inviting parliament to decree that every Frenchman must wear a full beard, under penalty of a sentence to hard labor. It is remarked, by the way, that M. Antide Boyer is not quite up to date, as he does not seem to have noticed that some of the very masters against whose tyranny he declaims are themselves going about clean shaven. It is an Anglo-Saxon fashion, so is sure to catch on in France," the Temps tells its readers, adding, quite logically, that it looks as if some day the wearing of a full beard will really reflect on the humbler classes. If servants and cafe waiters have to go about with beards, while their employers and patrons have not a hair on their upper lips or chins, the contrast will be just as painful the other way. Then their syndicates will agitate for

the privilege of shaving. It is a queer prospect, as in these days there is no knowing what parliament may not rule.

Mounted Combs 50c, Usually \$1 to \$1.50

It's a long time since Duluth has seen either so large or fine a lot of Mounted Combs—even at regular prices—as are presented in this lot.

This will be a rare opportunity—for the values are extraordinary. Here are the facts. We purchased a maker's sample line—1,000 in the lot and no two alike—and, as is invariably the case, got them "at a price." They will go on sale Saturday at our Jewelry Department at just one price for choice of the lot.

These Combs are made by the best known manufacturer in the United States, and the lot consists of highly polished Shell or Amber Back Combs, handsomely mounted with plain gold bands, or set with variety of choice brilliants. The new high-back effects are also included. The regular price would be \$1.25 and \$1.50.

No exchanges or refunds—on sale Saturday morning at 8 o'clock—at the Jewelry Department—your choice tomorrow

A Sale of all Finished Patterns in Royal Society Embroidery

Most stores would hold off an offer like this till the season ends—not so, here!

Saturday we will offer every finished piece in stock, used to show the style and patterns in the popular "Royal Society Package Goods," at season-end prices!

Why? They're a little soiled—perfect otherwise—and we'd rather sell these now at a discount than show laundered pieces. Otherwise they're perfect—and they are beautifully finished.

But to the point! There are three styles of embroidery—Walachian, Stiletto (or eyelet) and Satin Stitch—and there are dressing gowns, corset covers, aprons, gowns, drawers and underwear sets. Former regular prices have ranged from \$5 to \$11.75; Saturday's prices will be \$3.00 for the \$5.00 pieces, up to \$8.50 for the \$11.75 set. (Art Needlework—Main Floor.)

There are Good Reasons Why You Get This Splendid Bargain in Men's \$1 to \$1.50 Neckwear at 50c

We closed the deal on them months ago—they should have been here a month ago. It was a special purchase, and now that they're late, we've determined to make the price little enough—for they must go! Listen, Men! All silk four-in-hands, ties of the very best quality and most desirable patterns—every one is absolutely correct in style, color and make.

Any man who knows ties will readily admit they are real \$1, \$1.25 and \$1.50 ties, but Saturday's price is only

Special display and sale Saturday of all the latest imported novelties in yoke collars, coat sets, embroidered linen collars and ruchings—at our usual low prices.

The Charm That Makes Our Millinery So Popular

Is something we can't quite explain. It's a combination of many things—good taste in selecting goods; use of the finest materials in making; the highest-class workmanship in which our artists excel; our ability to adapt creations to individuals; and, lastly, but just as important as any, lower prices for equal values than are presented in any other store in Duluth.

By the way, we've been compelled to send to Chicago for another expert artist in making and trimming—another testimony to the demand for Glass Block headwear.

Charming Hats : \$3 and \$5

At \$3.00—Choice of 100 beautiful dress hats and street hats—finely tailored—braids and shapes, trimmed with ribbons, quills, flowers, wings and ornaments—such hats as you see elsewhere priced \$4 to \$5—here \$3.

At \$5.00—Very beautiful dress hats of the very latest vogue in either large or small shapes—laces, braids, clips and Milans—made up in very finest styles by the best artists. Others ask \$6 to \$8 for hats of equal merit.

Boys' Clothing—Style and Durability That's Permanent.

Style and service are the first qualifications that commend this boys' clothing store to YOU! That pleasant, satisfied feeling that is always a result in purchasing good and honest clothing, accompanies our boys' clothing and remains with it until the boy has outgrown his clothes.

Some new suits will be shown Saturday, that every boy in Duluth ought to see.

Boys' all wool navy blue Russian Blouse suits, trimmed with

In the Suit Section We're Giving High-grade Values—at Savings.

Wish we could tell you all the comments that come to us upon our showing of Women's Wearables—all bearing out our insistent claim that our Suits embody the expression of best styles and finest tailoring, and that our prices are much less than any others in town. You can know it best—and profit by it—by making inspection and comparisons. Compare these Saturday values.

Tailored Suits at \$25 —Equal to Most Others at \$30 and \$35.

We know that statement is absolute fact—and a little comparison of values and prices will prove it to you.

**HUGE MINCE PIE
HIS WEDDING FEE**

**Minister Who Weds Lov-

Luscious Reward.**

New York, April 19.—Rev. Henry Warren, New York city: Dear Clergyman—I have heard so much of your kindness to poor people like myself that I write to ask you to help me. I work here in Passaic, N. J., in a silk mill, and at a loom near mine works my sweetheart. We have been engaged for two years, but we have not been able to get married. It is the old story of love and only a little money.

We have saved up enough for some of the expenses, and we feel that we can't enough to make life a joy, but we really cannot afford to pay a clergyman anything to marry us. For that reason, we have felt backward about asking any minister here to make us man and wife. My sweetheart is a splendid cook, and I am a hard worker, so if the knot is tied everything'll be all right.

Will you then, Dr. Warren, help a poor fellow along and perform his marriage ceremony for nothing? You don't know how much Minnie and I love each other.

HEIMAN REEDER.

Passaic, N. J., March 23, 1907.

When the Rev. Henry M. Warren, chaplain of the hotel, received this letter on March 23, he immediately telegraphed the writer:

"Will marry you for nothing and pay your expenses to New York, too."

From the speedy arrival of Herman Reeder and his bride, Minnie Corning, at the home of the clergyman, it was evident they had started for New York as soon as they had opened the telegram.

After a beautiful wedding, the bride and groom were united in marriage by the Rev. Dr. Warren, and with

**ONE MILLION SAMPLES
OF THE GREAT KIDNEY MEDICINE
WARNER'S SAFE CURE,
SENT ABSOLUTELY FREE**

Thousands of people have kidney disease and do not know it. Our doctors have met with many cases in their experience where the kidneys had become so impregnated with the disease that they would be called incurable by most doctors, yet the patient was not aware that his kidneys were diseased.

Warner's Safe Cure has been tested for many years and found to be an absolute cure for all forms of kidney and bladder disease.

Warner's Safe Cure, to begin with, is purely vegetable and contains no harmful drugs; it is a most valuable and effective tonic; it is a stimulant to digestion and awakens the torpid liver, putting the patient into the very best receptive state for the work of the restorer of the kidneys. It goes right at its work, and does it with absolute method, preparing the tissues, soothing where sore, and is needed, stimulating the enfeebled organs and healing at the same time. It builds up the body, gives it strength, and restores the energy that is or has been wanting under the baneful suffering of kidney disease.

The one great fact that stands out is that Warner's Safe Cure cures.

Bright's disease, gravel, liver complaint, pains in the back, rheumatism, rheumatic gout, bladder trouble, dropsy, eczema, blood diseases, too frequent desire to urinate and painful passing of urine are all cured by diseased kidneys and can be speedily cured by Warner's Safe Cure, which has been prescribed by leading doctors for 25 years.

FREE SAMPLE BOTTLE.

To convince every sufferer from diseases of the kidneys, liver, bladder and blood that Warner's Safe Cure will cure them, a sample bottle will be sent absolutely free to any one who will write Warner's Safe Cure Co., Rochester, N. Y., and mention having seen this liberal offer in the Duluth Evening Herald. The genuineness of this offer is fully guaranteed. The medical department of Warner's Safe Cure Co. is in charge of the most learned specialists of kidney disease the world has ever known. These doctors give their advice free of charge, and a medical booklet containing symptoms and treatment of each form of the disease and samples of thousands of testimonials received from patients who have been cured of all forms of kidney disease.

Are you languid, low spirited, weak and flabby, have you a constantly dripping urine in the morning, or at night, or when you are sitting down, or when you urinate and a frequent desire to urinate? If so your kidneys are diseased.

This is the supreme moment when you should begin to do something to arrest all these unnatural feelings and conditions, for they are the unmistakable symptoms of kidney disease. And they tell you that your kidneys have been diseased for some time, for kidney trouble seldom puts out such symptoms as the victim recognizes until they have been working several months. You have every reason to be alarmed, and you should take Warner's Safe Cure at once.

Taken at this stage your kidneys will get relief from the free trial bottle almost from the first dose.

WARNER'S SAFE CURE

Is put up in two regular sizes and sold at all druggists at 50c. and \$1.00 a bottle. Refuse substitutes. There is none just as good as Warner's Safe Cure. It has cured all forms of kidney disease during the last thirty years. It is prescribed by all doctors and used in the leading hospitals as the only absolute cure for all forms of disease of the kidneys, liver and bladder.

**CROPS ARE
BACKWARD**

**Cold Weather is Affecting
Receipts of Fruits and
Vegetables.**

**Minnesota Crops Will be
Very Late This
Year.**

The cold and wet weather reported in all parts of the country has had a very depressing effect on the commission business.

It has affected both the supply and the demand. During cold and rainy weather there is little demand for fresh fruits and vegetables. People are apparently content to stick to the old articles of diet. Strawberries and fresh green stuff do not appeal to their palates on a chilly, windy spring day. This has kept the demand for this class of goods down to a minimum.

It has also affected the source of supply. The cold weather which has been reported in nearly all parts of the South has made the crops of produce and fruits very backward. The Mississippi berry crop was almost entirely down, and the peach shipments have been made from this district, which is usually so productive.

"Everything is very hard to get this spring," said one of the commission men, in speaking of the conditions. "We are finding it difficult to secure berries and fresh green vegetables at all, and in fact throughout the country, are very backward."

"The Minnesota crops are going to be very late this year. They have done very little planting as yet in this state, and we will get the crops two or three weeks later than usual."

"What we need to live things up is some warm, spring weather. I hope it comes in the South a few days before it does here, however, for unless they get some warm days down there, they won't get their crops, before we get them here, we will be unable to supply the demand for strawberries and green vegetables."

The strawberries which are now coming in are from Louisiana. They are arriving in carload lots, and are of a very fine quality, although not as fine as they would be if the weather conditions were better in the South.

Railroad and weather conditions are still such as to interfere seriously with the shipments of produce from the South. All oranges now have to be shipped with ice, and this, together with the scarcity and heavy demand, has resulted in a very firm market.

Potatoes are scarce at the present time, and the market is firm. The shipments of potatoes have not been coming in as freely as they should of late. This is due to the fact that the country districts, and the shortage of cars for loading, the result is that the market is kept pretty well cleaned up, and there is never a very large surplus of stock on hand. The price is ruling firm.

Cabbages are also scarce and hard to get. The old cabbage is now entirely out of the market, and new is arriving from California, Texas and Louisiana. The price is firm at \$1.25 per hundred weight.

The choice of fresh green vegetables offered in the market at the present time is a very wide one, but as stated above, it is hard to secure them in large quantities, and the prices are ruling firm. Florida tomatoes are being offered and also fresh lettuce, radishes and green onions.

Receipts of bananas have not been equal to the demand during the last few weeks, and prices have advanced in all parts of the country. The demand for them has been running very heavy and they are quoted at from \$2.50 to \$3.00 per bunch.

The season for apples is beginning to decline. There is still a good demand for them, and the standard grade on the market are selling at from \$3.25 to \$3.50 per barrel.

Egg receipts are fairly heavy, and the market is ruling firm. The price is \$1.25 per dozen. Others are holding out for higher prices, but the market is not likely to move until late in May or early in June, by which time the supply will be fairly good.

The butter market continues firm and high, with receipts rather light.

**DOG MURDERED
IN COLD BLOOD**

**And \$2,500 Reward Of-
fered for Arrest of
His Murderer.**

Boulder, Colo., April 19.—Prince Leo was a St. Bernard dog.

Dr. E. C. Lindermann of this city and the Western Federation of Miners and Kennel associations of America will unite in paying a reward of \$2,500 for the arrest of the person who killed the dog. The dog was shot and killed while frolicking with some children at the home of his master, Dr. Lindermann.

Prince Leo was brought to this country from Switzerland. He took several first prizes at dog shows. His value was \$10,000.

In 1902, Feb. 13, Prince Leo was with his master at Lindermann, a copper mining camp. Jack Julliff, a miner, was sent to Leadville over the Rocky mountains on snowshoes for medical supplies. A blizzard came up after Julliff started and it was feared he would perish. Searching parties did not dare to venture out. Prince Leo alone took up the task of rescuing Julliff. After an absence of forty-two hours Prince Leo's bark was heard. The men found the dog dragging the almost lifeless form of Julliff up the side of the mountain. He had carried Julliff, whom he had found lost and exhausted, about three miles. He licked the man to keep him warm.

Dr. Lindermann then sent Prince Leo with a note calling for medicine safely enclosed in a leather pouch attached to the dog's neck to Leadville. Prince Leo got back safely and promptly with the medicine.

The dog thereafter was ruler of the camp. The miners' union gave the dog a collar with a gold medal attached for saving Julliff. Prominent Coloradoans gave him a silver plate in recognition of his noble deeds. He also was given a bronze medal, inscribed "The Noblest Dog in the United States," by fanciers.

Prince Leo had many other noble

**REVENGE UPON
HIS TORTURER**

**Prisoner Who Had Been
Released Horribly Beats
an African.**

Paris, April 19.—Andre Touzel was a bad soldier, and met the fate of all bad soldiers—he was sent to the "Bat d'Art," the African battalions. He remained at Gabes for two years, and during the period underwent awful tortures at the hands of a native, Chneff Azen.

Touzel never forgot his bad treat-

ment, and when he returned to Paris and resumed his trade of engineer he often told his friends that if ever Chneff crossed his path, he would square accounts with him.

The engineer was passing along the Boulevard de la Villette the other night when he was accosted by one of those Algerian merchants, who sell carpets and other goods on the terraces of cafes. At the sound of the Algerian's voice, the engineer turned sharply around. He recognized the Algerian as his torturer. Stepping behind, he charged the Algerian with his head, bringing him to the ground. Then he sat upon him with his feet kicking him in the face until passersby, attracted by the Algerian's piteous cries, sought to interfere.

The engineer told his story of his persecutions in Africa and the crowd, instead of rescuing the victim, joined in the kicking. Had the police cyclists not arrived, Chneff Azen would surely have been kicked to death. He was rescued and taken to the hospital. The engineer told his story to the police magistrate and was liberated on condition that he would come up if called upon.

**For Stealing \$62 From
a Fellow-Workman
Now Dead.**

Detroit, Mich., April 19.—His conscience, weighed with the memory of a crime committed two years ago, and the shadow of justice continually hovering over him, Theodore Cunningham walked into the central station and requested Lieut. Walpole to imprison him.

"I couldn't stand it any longer," said Cunningham. "The fear of arrest was constantly with me, and regret over the one crooked act of my life was constantly pounding at the door of my conscience. The shadow has been with me, waking and sleeping, and lately I have been unable to sleep and eat regularly. Two years ago I stole \$62 from Charles Patterson, who was employed with me at the plant of the Morton Baking company, in this city. I took the money from Patterson's coat pocket while he was at work, and then disappeared."

"I wandered around the country a good deal, and finally drifted to Toledo, Ohio, where I have been working as a laborer for some time. Conscience would not down. I had a

terrible fight with sleeplessness, and when I got up in the morning I decided to go to Detroit and give myself up. I want to take my medicine and get the thing off my mind."

After hearing the man's story, Lieut. Walpole accommodated him with a cell, pending an investigation. Communication with the Morton Baking company disclosed the information that Cunningham's story is true, but it was further made known that Patterson died a short time ago. His wife still is living, though, and the police will try to locate her, if the law will permit her, to make a complaint she will be asked to do so.

Cunningham, who was poorly dressed, is 32 years of age and unmarried. Another conscience-troubled thief surprised Dr. Agnes Everett, 215 Brooklyn avenue by returning \$81 worth of jewelry stolen twenty-four hours previously. The thief's conscience jabs were not severe enough to induce him to return the \$5 gold

piece that was taken with the jewelry, but Dr. Everett says she is satisfied to get her jewelry back.

THE COMIN' LIGHT, SIR.

Chicago News: The palmarium, after the harsh March wind and the dust, clouds, was like a moonlight night in the tropics. A peculiar illumination, a vitreous greenish-blue, gave to everything a charm and mystery.

"It is like the light under the sea," said a girl in yellow.

"It is like moonlight," said a matron in black and white.

"What is the cause of this strange and beautiful light?" the host inquired of the servant who brought the coffee.

"That there is the new kind of electric light, sir," the man answered. "The facade of the opera in Paris is lit up with it. They have it in the foyer of the Ritz. It is the comin' light."

"It's a light in a glass tube a yard long, sir. This glass tube is filled with a good green rays which can't be told, sir, from the finest quality of moonlight."

"Is scientific name I don't know, but this here light in a long glass tube is a comin' thing," they tell me, in decorative illumination, sir."

Sues Railway Company.

Gustav Webber has sued the Northern Pacific Railway company for \$1,200 for injuries alleged to have been received in an accident Feb. 22 last. Mr. Webber claims that, while alighting at West Duluth, while the train was in motion, he fell on the platform and hurt his hip. He claims that the conductor told him to jump.

Old Dredge Located.

According to news dispatched from Port Hope, Ont., the big government dredge Sir Wilfrid has been located, after having been at the bottom of Lake Ontario, near Newcastle, for the last three years. The buoy which had marked the spot, and the dredge was washed away, but the crew of the tug Hercules of the dredge after considerable labor, found the dredge, and the machinery is being removed.

Women Will Serve Dinner.

The women of the First Methodist church will serve dinner this evening at the church, beginning at 7:30 o'clock. For the benefit of those families in which there are several children, a special discount in price has been arranged. The regular price will be 25 cents, but for a family of four or more it has been reduced to 25 cents each. This move upon the part of those in charge of the dinner will undoubtedly be a popular one.

Boys' Annual Dinner.

The fifth annual banquet of the boys' department of the Y. M. C. A., which will be held at the Y. M. C. A. building, will be held at 7:30 o'clock.

THEY HAVE GRIEVANCE

Teachers Being Called Upon to Pay for Lectures.

Claim They Had No Voice in Engaging the Lecturer.

Duluth school teachers feel that they have a grievance.

At the bottom of it all is the lecture course being given this month at the high school assembly hall under educational auspices. The lecturer is Charles W. Seymour, who was a lawyer in the East, until the lecture stage attracted him from the bar.

Mr. Seymour has lectured here before and it is claimed that he was brought to the city and to the high school hall again this season without the teachers having expressed a fervid desire to hear him again. Now it has been found that the course is not a financial success and the teachers are being asked to make up the deficiency.

"Taxation without representation is tyranny," is the cry of the teachers. They maintain that they were not asked to bring Mr. Seymour here to lecture this spring and very much dislike being told that it is up to them to make up any deficiencies that may occur. It is said that something like \$100 is needed to clear the expenses of the course, which lasts until the end of month.

Since the course began, two lectures have been given each week, on Mondays and Saturdays. Before they began, the teachers were informed that they might secure course tickets for 75 cents. While they were not told that they had to pay for the tickets, they declare that the matter was put to them in such a way that they "simply had to."

Most of them bought tickets when they really did not care anything about hearing Mr. Seymour again.

"While he has a few new ones, most of Mr. Seymour's lectures are the same he gave here last year and the year before," said one school teacher today. "They are very good if you have never heard them before, of course, but I cannot see why any one should care to hear the same lecture over again. Moreover, there is a marked sameness about the delivery of the lectures."

"I do not think it is fair to foist additional expenses on the shoulders of the teachers when they have a hard enough time to get along in these days of high prices. The teachers should not be asked to pay for course tickets to lectures. If they want to go they can, but it is not right to make it almost obligatory to patronize the affairs. At least, no one should be asked to buy tickets to the same lectures they have heard several times before."

ASK FOR A NEW TRIAL

Arguments Made Before Appellate Court for Abe Hummel.

New York, April 18.—Arguments were heard yesterday in the appellate division of the supreme court in the appeal for a new trial for Abraham H. Hummel, convicted Dec. 20, 1905, on the charge of conspiracy and sentenced to serve one year in the penitentiary and to pay a fine of \$100. John B. Stanchfield appeared for Hummel who was not in court and Robert C. Taylor represented the district attorney's office. Mr. Stanchfield asked for a new trial on the ground of alleged unfairness of the judge in his charge to the jury when the case was tried in the criminal branch of the supreme court. Hummel was convicted on a charge of conspiracy, it being alleged that there had been a corrupt agreement among Hummel, his partner, Steinhardt, and Charles F. Dodge, to annul the marriage of Charles Morse and Clement Morse, Dodge's former wife. An indictment for subornation of perjury still rests against Hummel, but he has not been tried on that count. A decision by the judges of the appellate division is looked for May 10.

DR. HAUGH IS ELECTROCUTED

Murdered His Parents and Brother and Then Burned House.

Columbus, Ohio, April 18.—Dr. Oliver Crook Haugh of Dayton, Ohio, convicted of the murder of his father, mother and brother at Dayton, Ohio, on the night of Nov. 4, 1905 was electrocuted in the annex at the Ohio penitentiary a few minutes after midnight.

The murder of his parents and brother occurred on the night of Nov. 4, 1905. The house in which the Haughs lived at Dayton was burned and when search of the ruins was made, the bodies of the elder Haugh, his wife and a son were found. All circumstances indicated the family had been murdered and the house burned to conceal the crime. Dr. Haugh claimed that he had barely escaped from the house with his life and though he denied that he had committed any crime, suspicion pointed toward him and after his arrest, a strong circumstantial case was made. His defense was insanity but he was legally declared to be sane. It was brought out, however, that he was addicted to the use of a subtle drug known as hyoscine-hydro-bromate. Later attempts were made to connect him with the murder of several women at Cincinnati, who were mysteriously strangled. He was also said to be involved with a Mary Twoby, who died under suspicious circumstances at Lorain, Ohio, and with a Mrs. Annie Patterson, who died mysteriously at Chicago. Haugh was married and his wife, now divorced, and two children are living at Dayton.

WEST END WILL BUILD NEW HOMES

Five West Enders Buy
Lots and Will Im-
prove Them.

David Adams Disposes
of Some of His
Dwellings.

Every week brings forth fresh evidence of the growth and prosperity of the West end.

Yesterday deals were closed for the erection of five fine residences on Second street, between Twenty-third and Twenty-fourth avenues west. The lots were only purchased by the prospective builders yesterday, but they are making all arrangements to have the actual work of construction begin as soon as possible.

The contracts have not been let yet, but they will be within the next two or three days. The lots were sold by the Western Land association, and the purchasers were John Olson, O. B. Johnson, John Carlson, John Nord and David Adams. Each man put up a handsome residence for himself of the lots, and when they are completed they will greatly improve Second street.

Last week David Adams placed an advertisement in these columns stating that his home at 39 North Twenty-eighth avenue west was for sale at \$5,000. Many inquiries resulted, and Mr. Adams disposed of the property to Peter Quinn for \$5,000. Mr. Adams has also sold a house on Twenty-eighth avenue west to John McStetten for \$2,500; one on Excelsior street to Carl Hammerstrom, for \$3,400; one on West Fourth street to Oscar Strom, for \$2,600; and a house on leased ground at Twenty-eighth avenue west and Second street to Bert Abbott, for \$1,100.

This makes eight houses of his own that Mr. Adams has sold since the first of the year. The prices received for them reaches a total of \$31,000. Mr. Adams is not joining faith in the West end, nor will he quit that part of town; he is merely anxious to get his money out of the old deals and put it into some new ones.

Quinn takes possession of Mr. Adams' home on Twenty-eighth avenue west the first of June, after which time until the new home on Second street is completed, Mr. Adams and his family will camp on Lester river and at Isle Royale.

Forty New Members.

Forty new members will be admitted to the rank of the West End Democratic club at an important meeting to be held this evening in Sloan's hall.

The business session will be followed by a smoker, when a number of interesting talks will be given. Among those who are scheduled to speak are Mayor Cullen and Aldermen W. E. McEwen, Joseph Shattell and Charles Mork.

Husbands Entertained.

Husbands were the honor guests at a party Wednesday evening, at the home of Mrs. John Wallin, 203 West Superior street. The hostesses were the members of the Euphony club.

A very pleasant evening was enjoyed. Games, contests and other diversions made the time pass very pleasantly. The business session will be followed by a smoker, when a number of interesting talks will be given. Among those who are scheduled to speak are Mayor Cullen and Aldermen W. E. McEwen, Joseph Shattell and Charles Mork.

West End Shortfalls.

Charles Lindberg and Charles Lundberg of Mankato, Minn., have been calling on friends in the West end for the past few days.

Paul Skogberg of Red Wing, Minn., visited with friends in the West end while en route to Kelsey, Minn. The young ladies of the Swedish Mission church will hold an auction sale at the church Wednesday evening, April 24.

Prof. D. Magnus of Minneapolis, is in the West end, soliciting funds for Minnesota, which is being built at the Flour City.

Rev. F. O. Kling, pastor of the Swedish Mission church, has returned from Adolph, Minn., where he conducted services Wednesday evening.

M. A. Johnson, who formerly resided in the West end is recovering from an operation.

Why go uptown. Hats and prices will be the best. Bring your old hats. We'll make them new. Penrose's, 1814 Hennepin avenue west.

The Young Ladies' Guild of St. Luke's Episcopal church will meet this evening at the home of Miss Anna Purdy, 212 West Second street. The session will begin at 8 o'clock and some important business will come up for discussion.

A boy was born yesterday to Mr. and Mrs. E. R. Abo, of Twenty-fourth avenue west.

Mr. and Mrs. Fred Eggers of 106 West Second street, expect Mr. Eggers' sister, Miss Rose Eggers of Winona, Minn., Saturday. Miss Eggers will make her home in this city.

Dick Broderick has left the employ of the Northern Pacific and has entered the employ of the Duluth, Missabe & Northern.

The Ladies' Auxiliary of the Switchmen's union will give a masquerade party April 26 at Sloan's hall.

Frank Dardis has accepted a position as bookkeeper with the Duluth Brewing & Malting company.

Peter Miley has gone to Two Harbors, to work for the Duluth & Iron Range.

Duluth Observatory of the North Star Benefit association will meet Tuesday evening at Lundberg's music store.

For weak lungs or lingering cough nothing equals the Norwegian Cod Liver oil sold at the Lion Drug store.

The entertainment given Wednesday evening at the First Swedish Baptist church by the young people's society was very well attended. The principal talks were given by the pastor, Rev. A. Edstrom and Carl Peterson. Refreshments were served.

Emil Anderson has left for Barrow, Saskatchewan, Canada. Joseph Cummings is remodeling and enlarging his grocery store at Twenty-eighth avenue west and Second street. Mrs. Swan Anderson has been called to Ashland by the serious illness of her mother.

Gabriel Grinvald left yesterday for the East. He will sail shortly for Tromsø, Norway, where he will make his home in the future.

Rev. H. K. Madsen, pastor of the First Norwegian-Danish M. E. church, has returned from Perkasie Falls, where he delivered a lecture.

Miss Hannah Peterson and Leonard Peterson have returned to Eveleth, after a visit with Mrs. John A. Johnson, 212 West Second street.

A. McMillan and N. McMillan of Ashland, Wis., spent yesterday in the West end.

W. N. Campbell of St. Paul transacted business in the West end yesterday. Your prescriptions will be properly filled at the Lion Drug store.

After another siege of alterations, moving, re-arranging and decorating with all the attending inconveniences, the store is again in order. Two lines, that we could well do without, have been dropped and the space given to other departments that were too cramped to properly handle the demands made upon them. The changes that have been made we know will prove of inestimable value to our growing patronage; and, let us say right here, that we shall always be alert to improve this store and make it the ideal shopping place for those who want good things at a fair price.

Saturday, Monday and Tuesday

WE HOLD OUR

Sixteenth

Spring

Opening!

WE TAKE great pleasure in inviting you to come and view the very best stock of Spring Merchandise that we have ever displayed. Styles, assortments and values are incomparable; and we believe you will share our enthusiasm when you see all the beautiful things gathered together here.

The Splendid New Cloak Dept.

IS THE STORE'S BEAUTY SPOT.

Besides being luxuriously fitted up, this department carries a line of Women's and Children's Stylish Wearing Apparel that is being sold different—decidedly different—from the way this business is usually done now-a-days. One small profit on every garment is our plan, and it works admirably. As our Cloak Department manager remarked the other day: "Guess we won't have any Half Price Sales this summer, we will not have anything left to sell at the end of the season. People would rather pay our price now!"

SATURDAY IS Y. W. C. A. DAY

The first, and likely the biggest day of our spring opening, we have set apart as Y. W. C. A. day. The ladies of the Y. W. C. A. will be in charge of the entire store, and a certain percentage of the day's business will be donated to them to further increase their building fund. Now, then, we want to see a record-breaking day! Let every friend of the Y. W. C. A. attend the opening on Saturday.

Fashionable Suitings---

THREE LOSE LIVES IN MONTREAL FIRE.

Montreal, Que., April 19.—Fire yesterday afternoon in the plant of the Canada Steam Laundry caused the loss of three lives, two men and a woman, and the injury of twelve others, one of whom, a woman, may die.

A quantity of benzine in the building caused the fire to burn furiously and to spread rapidly and a panic among the employees, of whom there were thirty women and ten men, resulted.

A number of them jumped from windows and six men who had made their way to a fire escape on the third floor, leaped to the ground before they could be rescued. When the flames were gotten under control, the bodies of two men and a woman were found in the ruins, burned beyond recognition. In the meantime about a dozen injured women and girls had been taken to the General hospital nearby.

A HUNGRY WAITER.
London Chronicle: He rushed up to the coffee stall. "I am famished!" he declared. Forthwith he made a meal of four courses—a ham sandwich, a hard boiled egg, a sardine sandwich and a cake. A bystander, waiting for a midnight train, is not sure of the exact order of that all frecco feast. He snapped his lips with satisfaction, and, tipping the proprietor, went off with the remark: "Quite enjoyed that! Haven't had a bite all day." And the bystander, curious as to his calling, inquired on his departure. "Oh, he's a waiter over there," pointing to a huge railway hotel. It was a new and odd conception—that of this hunger-bitten carrier of eatables himself starving in the midst of plenty!

HIS SECOND HONEYMOON

Regained His Memory After Three Years' Absence From Friends.

Jumped From a Steamship, Became Lumberman and Got \$300,000.

New York, April 19.—A cable dispatch from Charles E. Barnes, dated Cannes, France, to a friend in this city, was received announcing that he and Mrs. Barnes had been reunited in Europe and had arrived at Cannes on their second honeymoon. They will soon return to America.

This makes the final chapter in one of the most wonderful cases of lost memory and dual personality recorded in America.

Three years ago Mr. Barnes, then manager of the New York office of the Hickenhauser Typewriting company, procured and the devoted husband of a beautiful wife, mysteriously disappeared from the Fall River line steamer boat Priscilla while en route to Boston. For weeks a rigorous search was made, but even his wife lost hope, and it was believed he had met with foul play or had committed suicide.

William Barnes, the brother of Charles is in business in Quebec. While walking to his office last February, William met a man whom he thought to be the perfect double of his missing brother. He stared at the man, who looked up. With startled looks both gazed at each other. Charles Barnes, for the supposed double was the real brother—replied forward and fell into William's arms, calling: "Will! Will! What is the matter? Where am I?"

The chance meeting on the street had in a flash called back the lost identity, and all the memories of the past came surging back to the mind, which had been blank to all that had occurred previous to the landing of the Priscilla at Fall River.

"Where is Kate? Where is my wife? Have I been ill?" were some of the questions which Barnes asked his brother in quick succession.

The story of his disappearance and the belief of all of his relatives that he was dead was told to him. Mrs. Barnes, who had been in straitened means, was in Europe chaperoning a party of girls, and as soon as her address was learned Barnes called her. On receiving her reply he sailed to join her.

The most remarkable feature of the whole marvelous tale is the fact that in the years that Barnes was unaware of his identity he amassed more than \$300,000 by fortunate investments in timber and mining claims.

The adventures of Barnes in the three years of his strange mental lapse, and the remarkable manner in which his memory was restored, were told yesterday by Mrs. Henry A. Butz, wife of the president of Drew theological seminary and aunt of Mrs. Barnes, at her home in Madison, N. J.

"I have not seen Mr. Barnes since he recovered his memory. We missed each other on the ocean, he going to his wife, while we were returning home," Mrs. Butz said. "I have, however, received a letter from my niece, and although I do not know all of the details, I have been informed of all the essential facts."

"Mr. Barnes remembers nothing how he left the Fall River boat. He first became conscious and normal, except his memory, while in a lumber camp in the Northwest was of his past was a complete blank to him and he began to work with the men in the logging camp. From his cards he supposed that his name must be Charles E. Barnes, and so continued to use his real name. For several months he remained in the camp, when he got timberland and established a business for himself. His financial success was marked, but nothing of his past came back to him."

"This business often took him to Quebec, and it was on one of these trips that he met his brother. My husband and I were in Rome with Mrs. Barnes. The first news came in a cable to my husband. It was arranged for Mr. Barnes to join his wife; it was impossible for her to return, as she was chaperoning a party of six young women on a tour of Europe."

Mr. Barnes says he does not remember that he was injured or received any shock while he was on the steamerboat. He says he can remember nothing that occurred on the trip.

Mr. Barnes' disappearance created a sensation. The police here and in Boston searched for weeks for a clue, and several arrests were made on a theory of foul play. The police eventually declared the case one of suicide.

When the Priscilla arrived in Fall River Barnes' hat and coat, with articles of toilet, were found in his state-room. How he left the ship is as much of a mystery as ever, but friends now believe that Barnes, who is a powerful swimmer, jumped into the water as the vessel was moving her dock and swam ashore. The officers of the boat declared he had not gone ashore by the usual means.

After her husband's disappearance Mrs. Barnes was obliged to earn her own living. She became the matron of the Bantown Military academy and remained in that position until last September, when she took the party of young women to Europe.

The properties Mr. Barnes has acquired in the last three years, however, were the only object he had in view. He was cleared out of the copper ore he discovered.

The most singular thing, perhaps, in Mr. Barnes' case is that although he forgot his past while in Canada, with the return of his memory he has not forgotten his life during the last three years, but he retains a keen grasp of his business affairs.

One of the most remarkable cases of loss of memory which has come to the attention of New York authorities in recent years is that of Dr. Henry H. Cate of Lakewood, N. J. He disappeared in 1903 and wandered about the country for several months in ignorance of his identity or his home. In December, 1906, he appeared at a police station in Springfield, Mass., at 3 in the morning. The police found in a pocket of his suit the mark of his tailor, which convinced them that he was Dr. Cate. They wrote for his photograph.

"That's it," cried when he saw the photograph. "Now I know who I am." After careful treatment Dr. Cate recovered.

Robert I. Murray, a mechanic, went to Beloit, Wis., not long ago, bereft of all knowledge of his personality and surroundings. He had no control over organs of speech and misnamed most familiar objects. He was cured.

George Funderland, 19 years old, of Harlem, forgot his name and address and had to appeal to the police. He recovered.

DISCREPANCY IN ACCOUNTS

Careless Bookkeeping Revealed at the University of Wisconsin.

Madison, Wis., April 19.—A startling report that discrepancy of \$400,000 exists in the accounts of the University of Wisconsin was circulated at the capitol yesterday.

Several months ago the university regents put a New York expert to work on the books. Recently the expert made a report to the regents. President Van Hise said yesterday that there was absolutely no suspicion of any misappropriation of funds, but admitted that there has been failure to properly charge up certain investments to their proper accounts.

The matter probably will be investigated by the legislature. The university affairs were investigated by a special legislative committee last year but this alleged discrepancy apparently escaped the notice of the investigators.

DROWNS IN SHALLOW WATER.

Thomas Mealey's Death in Anoka County Is a Mystery.

Anoka, Minn., April 19.—Death by drowning in a pool of water but four inches deep is the conclusion of the coroner in the case of Thomas Mealey, who was found dead Wednesday night a short distance from the city. Mealey was going to his home in the country, near-by, and set out in what appeared to be in perfect health. Just how he happened to be in the water has not been determined. He was about 70 years old and had lived in this country forty years.

He leaves four children, one of whom is Mrs. Thomas Casey of Minneapolis. He was a man of considerable wealth.

SKIN TORTURES AFFLICT CHILDREN

Obstinate Case of Eczema Covered Little Girl's Limbs with Running Sores—Poison Oak Made Boy's Hands and Arms a Mass of Torturing Sores—Sufferers Soon Relieved and Completely Cured—Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble."

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Pills. In about three weeks his hands and arms healed up. So we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby. living. We do twelve miles from a doctor. Mrs. Lizzie Vincent, Thomas, Fairmont, Walden's Ridge, Tenn., Oct. 13, 1905."

PUBLICISTS GIVE VIEWS

Upon the American Colonial Policy and Administration.

Philadelphia, April 19.—The American Academy of Political and Social Science, which today began its eleventh annual meeting, has taken for its general topic, "American Colonial Policy and Administration." A number of well-known publicists, including delegates who attended the peace congress in New York this week, will participate in the discussion. Among them will be Ambassador Bryce, Henry C. Lodge, former governor of the Philippines, United States Senator Beveridge, Prof. J. W. Jenks of Cornell, Prof. J. H. Brown of the University of Chicago, and David J. Barrows, superintendent of public instruction in the Philippines.

The first session was held this afternoon when the industrial and financial problems in the United States will claim the attention of the academy. The speakers will be Mr. E. A. Tamm, chief of the bureau of insular affairs, and Dr. Brumbaugh.

The principal address of the evening session will be by Ambassador Bryce, who will speak on "Some Difficulties in Colonial Government Encountered by Great Britain and How They Have Been Met."

New York, April 19.—Benedict Gimbel, a member of the firm of Gimbel Bros., proprietors of one of the largest department stores of Philadelphia, was arrested here yesterday and, following arraignment in court, held on the double charge of improper conduct and attempted bribery of a police officer. The latter complaint was preferred at the instance of the district attorney's office after Gimbel had been taken into custody and had, it was alleged, sought an illegal release. Unable to furnish immediate bail in the sum of \$5,000, Gimbel was committed to the Tombs for the night.

The original complaint was the wife of a Wall street broker, whose 16-year-old son, Ivor Clark, was in the company of Gimbel when the latter was arrested. When taken to the Tombs police court, Gimbel sent for Attorney Daniel O'Reilly, and later, when seen in his cell, the prisoner appeared greatly agitated. It was, he said, his first experience behind the bars, and the effect upon him was extremely disquieting. "The arrest was a terrible mistake," he said, "but I do not want to say anything more now until I have my lawyer again."

LITTLE BOY HAS NARROW ESCAPE

Louis Rockman Caught on Fender and Tossed From Track.

Four-year-old Louis Rockman, son of Mr. and Mrs. Samuel Rockman of Sixth avenue west and Third street, had a narrow escape last night from being run down by a street car on the Bowery. The little fellow had wandered away from home and was lost. Dazed and blinded by the lights and the rush of the passing traffic, he made an effort to cross Superior street between Sixth and Seventh avenues west but stopped in the middle of the street, too frightened to run, as he saw one of the big cars bearing down upon him.

The horrified motorman threw on the reverse lever and did everything in his power to stop the rapidly moving car to a standstill before reaching the boy, but without avail. He dropped the fender just before he struck him, however, and the boy was simply knocked clear of the track. The crowd who were watching him from rolling under the wheels.

The second toe of the little fellow's right foot was crushed and the big toe so badly injured as to possibly necessitate amputation. Mr. and Mrs. Rockman were searching for the boy at the time the accident occurred and were terrified to receive word that he was at the hospital.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong? These may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. P. Walsh, of 228 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of incalculable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the change of life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.

KIDNAPING IS LAID TO WOMAN

Three Children of Millionaire Are Lured From Their Home.

Ocean City, N. J., April 19.—No news of the whereabouts of his three children, who are supposed to have been kidnapped, has been received by T. Wistar Brown, a millionaire of this city. It is the belief of many persons that a modishly gowned woman, with whom the children were last seen, is a relative of the Browns, as the children seemed to know her and went with her willingly.

The police of Philadelphia, Camden, Atlantic City and other cities to which the kidnapped children might have been taken are on the lookout for them, but so far no clues have been found. The three children and the woman have been traced as far as Australia, where they could have taken a trolley for either Pleasantville or Atlantic City and connected with trains for all points. Mrs. Brown is prostrated. One of the reasons for the belief that it is a relative of the children who is responsible for their disappearance is that when Brown was arrested charged with infidelity toward his six children last fall, his relatives were active in having the children protected. The children who are missing are Margaret, 15 years old; Moses, 14, and William, 10.

The woman is described as being very well dressed, wearing a long seal skin coat and a hat of latest design. Over her face was a full veil, which concealed her features.

tures. She was seen with the children taking a boat from this place to the mainland. The theory is advanced that the children went with her voluntarily.

T. Wistar Brown, the father, is regarded as eccentric by residents of Ocean City. When he was arrested charged with cruelty to his six children, it developed that the children were severely punished when they failed to commit memory lessons from the Bible, and that they had been forced to take ocean baths daily throughout the winter. It was also alleged that he forced them to eat unit food.

When he appeared in court Mr. Brown, who is a giant in stature, virtually admitted all the charges against him, and said that he was rearing his children according to the Scriptures, and was accustomed to harshness and exposure.

The jury found him guilty on all six charges and fined him \$100 in each case. He made an appeal from the decision, but the case has not yet been decided.

Following the trial his relatives applied to the court for the appointment of a guardian, asserting that the children needed protection and that the conviction of the father warranted it. The matter has been taken under advisement by the court.

At the trial Dr. E. E. Graham, a specialist in children's diseases, testified that all six children were far below the normal in vitality, probably due to the exposure to which they had been subjected by their father.

Mr. Brown is a son of the late Moses Brown of Philadelphia, and is related to the famous Wistar family of Germantown, his mother having been a Wistar.

Bitten by a Spider.
Through blood poisoning caused by a spider bite, John Washington of Hockleyville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Buckle's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." He is every sore.

COHAN IS TO WED AGAIN

New Wife Will be Miss Agnes Nolan of Brookline.

Ethel Levey, Cohan's Former Wife, to Wed Robert Edeson.

Baltimore, Md., April 19.—A New York newspaper printed a story to the effect that George M. Cohan, from whom Ethel Levey recently obtained a divorce, would shortly marry Miss Eva Merrill, who was earlier in the season a member of his company, but has now retired. She was described as a pretty young woman of quiet demeanor and one who had never been conspicuous among theatrical folk.

Mr. Cohan was seen in his rooms at the Belvedere and was asked about the approaching marriage. He had already read the New York story and smiled.

"I am to be married, it is true," he replied, "but not to Miss Eva Merrill, if there be any such young lady. I do not know Miss Merrill and do not recall ever having had anyone of that name in my company. The young lady I am soon to marry is Miss Agnes Nolan of Brookline, Mass., a charming little girl, and we have arranged to be wedded on the next Fourth of July."

"Your birthday, isn't it?" he replied. "Quite true, my birthday," he replied. "The New York paper is also wrong in saying that I am going to Europe. We did think of going, but my professional engagements will prevent. They are of a character that cannot be broken. I shall not have a summer holiday."

Miss Levey, formerly Mrs. Cohan, is to become the wife of Robert Edeson, who appeared here earlier in the season in "Strongheart," and both have admitted the fact. The present delay is caused by what is called the "interlocutory period" imposed by the court after a divorce, and must be lived through in single blessedness before the happy couple can take their places with the new deal.

Jerry and Mrs. Cohan, the father and mother of George, who are playing in "George Washington, Jr.," are said to particularly favor the marriage with Miss Nolan. George Cohan was born in July, 1878, at Providence, R. I., and it was in the same city, ten years later, that he made his first appearance on the stage in a play written by his father, and which was given by the company of which his mother was the business manager and treasurer. A little later George appeared at Haverstraw, N. Y., where he was heralded as a phenomenal boy violinist. The two seasons following he toured the country with his parents, appearing in a play written by his father entitled "The Two Harneys." In the season of 1890 he played the boy in "Rocky Road Boy," after which the family entered

the vaudeville field and became widely known as the Four Cohans. The fourth member was the sister Josephine, not now with them.

George soon began to show ability as a writer of sketches, one of his first being "A Wise Guy," which still enjoys popularity. Another was "The Governor's Son," which was lengthened into a play in three acts. Then came a rural piece, "Running for Office," and next, in 1904, "Little Johnny Jones," which has filled two engagements in Baltimore, one during the present season. Mr. Cohan is also the author of "Forty-five Minutes From Broadway," which was given here at the Academy with Fay Templeton in the cast, and of "Popularity," which was written for "Nat" Goodwin, but which afterward went to Thomas W. Ross.

Mr. Cohan was asked about the report that he made \$100,000 a year. He said:

"The report is about \$200,000 short of the truth, so far as relates to this year."

"Do you really mean it?"

"I do, indeed. The year has been a fortunate one."

FIVE MONTHS THE LIMIT FOR THEIR COURTSHIP.

Chicago, April 19.—A woman with six children has no time to waste for courtship.

She is in the Oser class when it comes to straying down the haunted ways of glamour land.

This is no dictum of fickle Dan Cupid.

It is cold, hard law, from the legal records of Cook county.

Judge Mack of the juvenile court fixed the legal limit of courtship for women whose former marriages have been on the Rooseveltian plan, in the case of Mrs. Bridget Hanley and Peter Silvesky. The couple were brought into court over a question concerning the care of Mrs. Hanley's children.

"Why don't you get married?" asked the court. "Five months is long enough for any man to keep company with a woman before he marries her. My advice to both of you is to get married right away."

The couple rushed out of the court room to get the license.

SPRING WATER THAT IS INTOXICATING.

Ada, Ohio, April 19.—Unusual excitement has resulted here from the finding of a spring from which flow waters that are intoxicating.

The spring is located two miles north of Ada, on the banks of Hog creek, which empties into the Wapakoneta river. A four-inch stream pours out of a pure white sand intermittently, at periods of about thirty minutes. A distinct odor of alcohol arises from the spring, and the water tastes much like moonshine whisky, connoisseurs say.

When the intoxicating effects of the water begin to wear off, no unpleasant sensations follow, such as accompany the sobering up after an ordinary "drunk."

The intoxicating qualities of the spring

were discovered last week, when an automobile party stopped to fill a water tank from Hog creek. One of the party made millions of Goldfields, were eating luncheon two weeks ago in the Arlington hotel in Carson City, they were attracted by the beauty of a waitress, Mamie Berning. They told her that she was too pretty to be waiting at tables, and that they would pay for her education. Detch and Colburn each agreed to pay \$500 toward a fund to be placed with the state school superintendent, and Colburn handed his check to Senator Pyne. The girl resigned her place and bought a wardrobe on credit, besides several hats and a trunk.

When Senator Pyne presented the check to Colburn it was not honored, payment having been stopped. Detch, who has made no payment, refuses to answer letters on the subject.

Mamie Berning, to earn money to pay the bills she had contracted, went back to her position as waitress yesterday.

WAITRESS MADE VICTIM OF MILLIONAIRES' HOAX.

Reno, Nev., April 19.—While Milton M. Detch and R. G. Colburn, two of the recent made millions of Goldfields, were eating luncheon two weeks ago in the Arlington hotel in Carson City, they were attracted by the beauty of a waitress, Mamie Berning. They told her that she was too pretty to be waiting at tables, and that they would pay for her education. Detch and Colburn each agreed to pay \$500 toward a fund to be placed with the state school superintendent, and Colburn handed his check to Senator Pyne. "THE FIRST SOCIETY OF ETERNAL YOUTH."

Des Moines, Iowa, April 19.—"The First Society of Eternal Youth" is the name of an organization founded here, which has for its object the prolongation of life, and which proposes to fine every member who becomes ill. That the association is in earnest is evidenced by the fact that 100 men already have enrolled in the scheme, the preamble of which reads as follows:

"The special object and business of this society shall be to renew and perpetuate the mental, moral and physical youth and strength of all its members, to build up and continue in the highest degree the mental vigor in each individual member, and imperatively requiring from each and every member that he live the life of health, thereby contributing his share in banishing the spectre of disease and death from the face of the earth."

"Any member who is reported sick from any disease, and so remains sick and is confined to his bed for a continuous period of three days or more, shall be fined in a sum not less than \$1, nor more than \$10, for the first offense. For the second offense, under this article any member shall be

suspended from membership, and for the third offense of any member in violation of this article, expulsion from the society shall be the penalty."

All members upon joining must sign a pledge that he or she will continually assert that there is nothing but custom and habit of thought that causes people to be ill, grow old or die.

His Opinion.
"Fitwell clothes are good enough for me and in my opinion are equal to the best custom made at one-half of the price." A trial will convince you. 112 West Superior.

THE FLIGHT OF AN HEIRESS

New York, April 19.—Pursued by titled fortune hunters even after she had come to this country to escape them, Miss Dorothea Edgaria Crouse has been forced to leave this city to get away from their unwelcome attentions, and is now on her way to join her mother, Countess Poliska, in Paris, where she hopes to keep the penniless noblemen out of her path. Miss Crouse is the only daughter of the late D. Edgar Crouse of Syracuse.

Heiress to \$400,000, and possessed of more than ordinary beauty and owning a \$100,000 mansion in Riverside Drive, at the age of 20, the girl is the object of solicitation on the part of fortune hunters.

Impetuous noblemen of the continent have prostrated themselves at her feet, and she has already been the recipient of fourteen offers of marriage. Miss Crouse left Paris early in the season only to find that she was still pursued in this country and still remained the object of these attentions.

Dorothea Edgaria Crouse's life story reads like a romance. No one knew of her existence until D. Edgar Crouse, the wealthiest man in Syracuse, died in 1882. No one had the least suspicion that he was married, and by his will, which disposed of some \$7,000,000 after the bequests amounting to half a million were paid to friends, it was arranged that the residue of his estate should be given "to my next of kin." This, it was of course supposed, meant the twenty-five odd relatives.

And the publication of the heirs there broke in rumors of a wife and child. These rumors materialized in the shape of Mrs. Grace Wilson of New York City, and Dorothea Edgaria Crouse, as she was then called. Miss Wilson furnished evidence showing that she had been married to D. Edgar Crouse under the assumed name of D. Edgar Wilson, and had lived for a long time in London with him.

Shortly after Dorothea was born Mrs. Wilson obtained a divorce from Mr. Crouse on the charge of abandonment. She then married Siegfert Kostentz, a wealthy Austrian, interested in English syndicates.

Through her attorneys she forced a settlement, the entire estate being divided evenly between the heirs and the daughter.

"I have been somewhat costly, but Donan's Reguplets gave just the results desired. They act mildly and regulate the bowels perfectly."—George B. Krause, 306 Walnut avenue, Altoona, Pa.

Sufficient Reason!
If your sailor asks you \$30 for the same suit that the "Fitwell" will sell you for \$15, it had ought to be reason enough for you to give us a look, anyhow. 112 West Superior.

COMES WEST TO WED MOTHER'S PLAYMATE.
Sioux City, Iowa, April 19.—Miss Carrie M. Ely, aged 21, of Millmont, Pa., took her bridal trip before her wedding, and alone, when she traveled from her Pennsylvania home to this city, where she met and married John E. Buoy of Brunswick, Neb.

When a young man in Millmont, Buoy had a school mate who later married and became the mother of the young woman he has taken as his bride.

When the daughter and the mother's old playmate met, it was a case of love at first sight, and before the sturdy Westerner returned to his home he had her promise to marry him. Being unable to find a convenient time to go for his bride, the latter accepted his invitation to come West for the wedding. So when she alighted from the train in this city her elderly fiancé was there to greet her.

Within an hour the marriage record said she was 21 and he 57.

WEATHER BAD
FOR BASEBALL

Duluth Team Has Little
Chance to Play at
Madison.

Madison, Wis., April 19.—(Special to The Herald.)—The members of the Duluth team are fast being converted to the opinion that Madison is no place for spring practice. Ever since the ball team from the University of the Lakes struck this burg, last Monday, the weather has been miserable, and the fact has been in no condition for anything but the lightest practice. Daily workouts have been held, however, though they have not been very extensive. All of the squad has not reported as yet. Tracey, the long, lank first baseman, only reported for work this morning, and Shortstop Leggett is not due until Monday. The work has been somewhat ragged so far, but it is hard to tell how much of this has been due to the poor condition of the field.

The slab artists each put in a little session every day shooting their slants in the direction of the big pond, which is backed by Smith and his smile.

The Sox lost last evening for Prospect, Ill., and are facing up against the Illinois bunch this afternoon.

ONE WEEK MORE
IN GYMNASIUM

Oarsmen Will Probably
Launch Shells Satur-
day, April 27.

By one week from tomorrow the Duluth Boat club crews are hoping to take to the water.

They are becoming anxious to get in the shells, as the St. Paul crews have been on the water for some little time, and will have two or three weeks' start of the local men in the spring training.

There is enough material on hand for a senior eight, and at least two junior eights. These crews can be split up to make six fours, and there will also be the lightweight four for men under 140 pounds.

If the weather is at all favorable, the boat house will be opened, and some of the working boats and barges launched a week from tomorrow.

WOMAN ASSAULTED.
New York, April 19.—Seized by the throat from behind, choked so that she could make no outcry, and dragged into a dark corner of a lumber yard at One Hundred and Thirty-ninth street and Hider avenue, the Bronx, Mrs. Wilhelmina Schleifer, 44 years old, a widow was last night criminally assaulted by a young negro. Her assailant escaped, leaving her unconscious. The police arrested a negro as a suspect and held him for identification.

BRIDGE AND POKER HIT.
Chicago Professor Says Polite Gambling Tears Down the Character.

Chicago, April 19.—That bridge whist and poker are responsible for a decline in the standards of society is maintained by Prof. Shaller Mathews, dean of the university of Chicago divinity school. Prof. Mathews attacked "society gambling" in a lecture before his Bible class.

"The only excuse for gambling given by the gamblers is that their money is their own and that they can do as they please with it," he said. "The vice is distinctly an issue in American society. The craving for gambling is an enemy of the stability of civilized institutions. I do not countenance the statement, 'He must sow his wild oats.' I cannot understand the moral attitude of those parents who may know of the misdeeds of children and yet think it is not right as long as the children are 'not caught.'"

CORNER
IN
SPORTS

It is true that Bert Shores, alias Bill Maynard, alias Young Hackenschmidt, has handed out one or two ripe, juicy lemons to the followers of the wrestling game.

The manner in which he double crossed the boys one at the Metropolitan he the Rooney-Johnson match, where Rooney was brought up and passed off as a rube wrestler, was a rather odorous mess.

Later a three cornered affair between Parr, Maynard and Beil was billed and he did not throw the promoter and the wrestling fans down on the deal.

Beil has the reputation of being a fair wrestler, and one who works to win all the time. He has never been known to throw a match. Forfeit money is up sufficient to insure the appearance of both men, and Maynard will be in a position where he will have no choice but to wrestle and win.

The news comes out of the West that Bill Squires has finally arrived in San Francisco and ready to post a \$5,000 forfeit. Evidently Bill hasn't been fighting for nothing in Australia.

Squires says will meet the winners of the O'Brien-Burns fight at Los Angeles, May 9. It is said that Jack O'Brien has gone into training for the fight with the Canadian, so the possibility that the fight at Los Angeles could not materialize is removed.

Jimmy Coffroth's scheme to match Burns and Squires also falls through. Squires shows willing to meet Burns' game. It is up to Tommy to win from Jack O'Brien, or he loses his chance to fight at Los Angeles and at the same time loses all claim to the heavyweight championship. The fight between Burns and Squires should certainly be a whirlwind. The men have something to fight for besides the purse of \$20,000 offered by Mackay, and as neither man loves the other any too ardently, it looks as though one of them should go down and out.

SPORTING BRIEVITIES

Tonight at Eveleth, the Duluth Y. M. C. A. basketball team will meet a few representing the Young Men's Athletic club of Eveleth. The range team has defeated every aggregation in its world.

The Duluth five in a basketball game at the Zenith City and they expect to take care of Eveleth nicely.

The Winnipeg team of the Northern Copper Country league will be the second to report, Manager Lamb and some of his men getting together at Minneapolis today. Tomorrow others will reach the Flour City and the whole squad will get into active practice at Sunday. It is expected, the Maroons will meet the Toozes, the strong Minneapolis independent team.

Frankie Neil doesn't take kindly to the talk of making Spike Robinson and Abe Attell a twenty-round game in San Francisco or some other California city. Neil claims that he was robbed of the decision in his last bout with Attell and that he is really the champion lightweight. He either wants to fight Robinson direct, or meet Attell, the winner, to defend the title against Robinson.

Larry LaJoie must win the pennant of the American league this season or lose the \$10,000 a prize now being offered for piloting the Naps. That is said to be the ultimatum delivered to Larry by the Cleveland crowd. However, the Naps are strong, if luck will break even with them and none would be surprised to see them walk away with the pennant.

WILL WRESTLE AT MET.
W. H. Beaulieu and Dick Johnson Will Come Together.

Tonight, at the Metropolitan opera house, Dick Johnson, who showed he is something of a wrestler by defeating Fred Schrette, last Friday night, will meet W. H. Beaulieu, a West Duluth man, who has something of a reputation as a good man on the mat. Both men are in good shape, and as Duluth people have had little opportunity of seeing heavyweights perform, they should furnish an interesting match. Beaulieu will weigh in at about 160 and Johnson at 155. The match will be catch-as-catch-can, best two of three falls.

Court of Arbitration.
To the Editor of The Herald: There seems no sensible reason for the labor-civil situation to remain as it is. It is true that it is difficult to find some permanent and satisfactory method of settling disputes; but each state territory ought to be capable of regulating its own disputes, and each state could have a court of arbitration chosen by its people at annual or biennial elections. This court would consist of representatives of the labor, of representatives of the business community, and of one of the highest courts. As the situation is today, labor and capital are in a "war of attrition," and some kind of "armed neutrality," and some kind of "armed truce," is needed to guard against the re-occurrence of such outbreaks as have at times taken place in the past.

GOFFERS IN
PRACTICE

Members of Northland
Club Out on the
Lines.

Actual Season Will Open
About First of
May.

With the coming of something approaching spring weather, there is increased activity at the grounds of the Northland Country club. Yesterday afternoon there were a number of enthusiastic golfers out, eager to begin again and pick up their play again after the long winter.

There are now three men engaged upon the ground, pegging out the links and putting the grounds in shape generally. The greens, which have been covered with straw and brush during the winter, have not yet been mowed. They have withstood the winter well, however, and once the air becomes warm enough to remove the danger of the grass being killed by the cold, they will be uncovered. A green-keeper will also be engaged to keep the grass in shape, and his attention will be given to that the greens are expected to be among the best in the Northwest.

Mr. Moffatt, the club professional and groundkeeper, has been on the grounds for about two weeks, but he has been unable to do a great deal in the way of getting the grounds in shape, on account of the inclemency of the weather. Now, however, if the rain and snow holds off for a while he, and the men directed by him, will have everything in season shape in a short time.

Although there will be a good deal of practice on the links during the coming two weeks, and the grounds may be suitable for actual play, it is not believed there will be a great deal of play before the first of May. Then, if the weather proves satisfactory, the season will open at the club, and from then on the golfing will be active daily. The greens will be uncovered next week, and improved wherever necessary, and all work preliminary to the season will be completed by the first of the month.

THAW'S FRIEND A SWINDLER?

Bogus Checks Said to Have Caused
Crow's Suicide Attempt.

Pittsburg, Pa., April 19.—The real reason for the attempted suicide of Robert M. Crow, 22 years old, who fired a bullet into his body while standing in a box at the Grand opera house became public in spite of the efforts of members of the family to suppress it. Although Crow is a nephew of H. C. McElldowney, president of the Union Trust company, and a nephew of H. C. McElldowney, president of the Union Trust company, he is charged with having passed bogus checks. At the time he attempted suicide, detectives were looking for him. They have two warrants charging him with false promises.

The detectives are keeping closely informed of Crow's condition. It is said that he has a good chance to recover. Although Crow has been taken to the hospital his uncle H. C. McElldowney and W. C. McElldowney, said that the young man was insane. They have a mania to do some sensational act and that his mania, which they claimed was a mental disease, was caused largely by the deep interest which he took in the trial of his friend, Harry K. Thaw.

It now is believed that he was trying to get rich by beating the stock market, and that his losses were heavy. When asked how much money was gone, it is said that he started to raise funds by passing bad checks.

FOR THAT ATTIRE
FEELING
Wear Our Clothes!

DON'T GO IT BLIND!

Our low prices will dazzle your eyes when you examine our clothes—A FEW YARDS OF CLOTH AND A MILE OF THREAD isn't the whole story of a good suit, no by several thousand stitches. It takes tailor's brains and clever craftsmanship to make clothes that fit right, look right and stay right. We would be glad to show you why our clothes retain their shape and then, if you like them, we will sell them to you—and we believe—that for

ASSEMBLES ITS PLANT

Street Railway Company
Will Erect General
Office Building.

Plans Large Number of
Storage Tracks for
Cars.

The Duluth Street Railway company has completed its plans for the removal of its general offices in the power station at Eleventh avenue west to Twenty-sixth avenue west. Application has been made to the building inspector for a permit for a new office building to cost \$17,000, and the contract for the same has been awarded Alexander Roberts. The structure is to be ready for occupancy by Oct. 1, next.

The company now owns the entire block bounded by Twenty-sixth, Twenty-seventh, Twenty-eighth and Twenty-ninth avenues west and Superior and First streets, and intends to assemble its entire plant, with the exception of the Eleventh avenue west power station, on the West end block. The plans contemplate an extensive amount of improvement work besides the construction of the new office building.

The general office building will be erected on the northeast corner of Twenty-sixth and Superior streets. It will have a frontage of forty feet on Superior street and will be eighty feet deep on the avenue. The office building will be two stories high, constructed of brick, with a basement under the entire structure. It is possible that the basement will be finished off for use as a training school for motormen.

On the first floor a corridor will lead through to the rear of the building, the offices being located on either side. The offices of the superintendent, superintendent's clerk, purchasing agent, roadmaster, fireproof room for records, and fireproof vault for the most valuable records, will be located on the first floor. The lost articles department which is under the superintendent's charge will also be located on the first floor.

On the second floor the general manager, auditor, chief engineer, claim agent, fireproof room and vault. The interior will be nicely finished and the building will be modernly equipped with oil rooms. The building will be heated by hot water.

The lost articles department will be quite an interesting feature of the new building. The room designed for the purpose will have thirty-six compartments for bundles left on the cars and thirty-six umbrella compartments. Lost articles will be turned in to the superintendent and placed in the proper compartment. The person losing the bundle or umbrella will have thirty days in which to claim it. If no claim is presented at the end of thirty days, the conductor turning in the lost article has five days in which to claim it, after which the company will consider its responsibility to have ceased.

Between the office building and First street will be constructed a long one-story building with an extension roof on the inner side covering the work car tracks. In this building will be located a waiting room, blacksmith shop, stables, wagon room, etc.

Between the office building and the new storage tracks will be constructed the entire length of the block. These tracks will have sufficient length to accommodate about fifty cars.

The company has found it necessary to provide storage tracks for its cars outside the carhouse, which was ample at the time it was built to accommodate every car in the service. The growth of the system and increase in rolling stock has reached a point where the company cannot now get all its cars under cover, and when the fifteen new double-track cars will have arrived the storage track will be all

GOLD NEAR WASHINGTON.

Washington Herald: Gold is mined within sight of Washington monument. The rights around the capital are really a part of the Appalachian system and before the outbreak of the gold fever in California all the gold produced in the United States came out of the Appalachian mines.

Only the ores that contained free milling gold could be worked with the crude processes then known, says the Technical World. Then, too, because of the presence of subterranean streams, mining could not be done at any great depth.

Nevertheless, gold mines are in profitable operation today in Maryland and Southwestern Virginia, and these gold veins, badly broken and disintegrated, are being worked down through the Carolinas and into Georgia and Alabama.

There is not a ravine or gulch in the environs of Washington city where, if a man dug down to the gravel and black sand that lie over bed rock, he cannot, by panning, get a color. It has not been found in sufficient quantities to make placer mining attractive, though many men have washed out enough gold to have a ring or charm made.

A few miles west of Washington a man may see several small mines, some in operation and some abandoned. Great areas of gold bearing rock have been uncovered or blocked out. Gold is obtained, but in many instances it has cost more to extract it than the gold was worth.

At present there is one mine of extensive operations are being carried on, and though the operators do not talk for publication, the belief is general that they are making a good profit from the mine. There are thousands of tons of ore in sight, and if you take a pound of the ore, crush it and wash it, a fair amount of gold is obtained. Much of the ore assays high, but getting the yellow stuff out in paying quantities is the problem.

Ignorance may be bliss, but it's not prosperity. To prosper you must read Herald ads—and then you are no longer ignorant.

INAUGURATED AS GOVERNOR

Regis Post Assumes Executive Charge of Porto Rico.

San Juan, P. R., April 19.—Regis H. Post was inaugurated governor of Porto Rico yesterday in succession to Beekman Winthrop who retired to become assistant secretary of the treasury at Washington.

Chief Justice Quinones of the supreme court of the island administered the oath of office. The members of the supreme court, the executive council, and the house of delegates attended in a body. The foreign consuls were also present.

The ceremonies were opened by an invocation by the Right Rev. W. A. Jones, bishop of Porto Rico, after which Mr. Winthrop delivered a farewell address to the people of the island. At the close of his remarks the retiring governor was given a touching ovation. Mr. Post is the fourth civil governor of this island since 1899 when Charles H. Allen was inaugurated. He is the 12th man to fill the governorship in the last 99 years.

At the conclusion of his inaugural address, Mr. Post received a message of the military, the insular police, and members of the navy, in which a number of school children also participated.

Mr. Post has been active in the administrative and political life of this island since his appointment to the position of auditor in 1903. He was subsequently secretary of Porto Rico and president of the executive council. His appointment as governor is generally approved. He is the author of no less than seventy laws for the insular government, the most important being the election law and the municipal law.

ASH-BURNING SECRET,

Cherished by Altoona Cobbler, Is Given to the World.

Altoona, Pa., April 19.—The remarkable ash-burning secret discovered by John Ellmore, an Altoona cobbler, which has excited attention almost the world over, is common property. Almost every householder in Altoona is now converting his ashes into fuel, with great saving in coal bills.

Several well-known chemists, immediately it was announced that Ellmore had solved the problem of obtaining heat from ashes, set to work to try to discover the formula. They were successful, and here it is: Common salt, one pound; oxalic acid, two ounces; water, one gallon. Mix and moisten with it a mixture containing one part coal and three parts ashes, and a better fuel than pure coal is obtained.

than arbitration—conciliation, and I can see the spirit growing. It might appear as chimerical to some, but it is growing and nothing can stop it.

"The play is, though, that while it is properly only in the United States—as an organization I mean. What do I find? Representatives of all classes, irrespective of party lines, all acting together, all understanding, all helping and all wanting to organize. There what is known as the high classes are indifferent and abstain from taking part, although it is more important and useful to them, this spirit of conciliation, than to any one else. They leave the benefits and moral advancement to the Socialists or labor party. In the United States it is understood that it has not to do with the poor only, but that its aim is universal.

"The result of my visit to this country is that I return to Europe with the firm conviction that the American example and manifestations will make a strong impression upon European opinion and through public opinion on the governments themselves. I cannot praise the result too much."

REPORTS OF BIG DRYDOCK CONFIRMED

(Continued from page 1.)

owner this will be no inconsiderable item.

Cheaper repairs, it is claimed, would mean cheaper insurance, and the proposed drydocks are for the purpose of providing these cheaper repairs.

Mr. Tomlinson has been very busy during the last few weeks inspecting drydocks in all the principal cities on the Great Lakes. He is probably the largest individual owner of vessel tonnage on the lakes, controlling fifteen large freighters of the most modern type. He is therefore one of the largest premium payers on the lakes.

Prominent representatives of the English underwriters are expected to visit the Great Lakes within the next two weeks, and they will go over the situation carefully.

Mr. Tomlinson confirmed these facts regarding the general plans, but stated that no details could be given out regarding them until after the English underwriters had paid their visit to

this country and had announced their decision.

The importance of such an industry to Duluth can be readily seen. The about \$2,000,000 and the industry would be second only in importance to the proposed steel plant among the industries of Duluth.

MOVEMENT TO CUTIRON ORE FREIGHT RATES GETS SEVERE BUMP IN SENATE

(Continued from page 1.)

represents Jefferson's district, and he was supported by Senators Sagans and Sundberg. Speeches against the bill were made by Senators Durmont of St. Paul, V. L. Johnson of Center City, George R. Laybourn of Duluth, and R. E. Vail of Virginia. The arguments against the bill were that the Minnesota iron ore freight rates are about the same as those in other states, or even a little less on a per ton per mile basis; that there is absolutely no complaint of the rates from shippers; that the steel corporation, which owns the two principal ore carrying roads, pays a large share of the freight itself; that to reduce rates means to needlessly cut off a large amount of revenue from the state through the gross earnings tax, without benefiting anybody; that to pass such a resolution would be to affront capital; that it is about to be invested in the state in steel manufacturing.

The senate this morning refused to concur in the house amendments to the tax commission bill, and appointed a conference committee consisting of Senators Smith, Sullivan, Thorpe, Schmalzer and Wilson. The house will appoint a similar committee.

The senate this morning passed the Spooner bill for a girl's industrial school to be located by the board of control by the unusual vote of sixty to nothing. Senator Wright wanted to offer an amendment prohibiting the board from locating the school at Red Wing, where the boys' school is situated, but so much objection arose that he withdrew it.

Deerwood will get a new fish hatchery that will benefit the whole of Northern Minnesota. This morning Representative Bouck of Royaltan had

the rules suspended for the passage of Senator Alderman's bill appropriating \$8,000 for that purpose, and the bill now goes to the governor.

Representative Hugo secured a suspension of the rules and the passage of Senator Pugh's bill extending the hours of school elections in Duluth and this bill also goes to the governor for his signature. The hours are now from 10 to 4 and the bill makes them 6 to 7 in order that workmen may have a chance to vote.

Members of the house were much surprised this morning to find Representative Spooner's bill increasing the railroad gross earnings tax from 4 to 6 per cent on general orders. The bill had not been reported out by the railroad committee recently and everybody supposed it was sleeping quietly somewhere. It does not require payment of local assessments.

The rules committee of the house reported some special rules, which were adopted. They provide that hereafter no member may speak more than five minutes and that a committee of five be appointed to pick out local bills to be considered as a special order. Speaker Johnson appointed Representative Knox of Aitkin chairman of this committee.

The house had a bit of a wrangle this morning over the report of the Peterson committee on the Minnesota Shippers' and Receivers' association. The committee wanted to adopt. Representative Rockne said it was a matter of personalities between Peterson and Loftis of the association, and the report should be rejected. Representative Tighe's motion to lay the whole matter on the table was voted down, after which at the suggestion of V. A. Solari, the report was put over until tomorrow so that the members may have a chance to read it.

PUBLICITY AGITATION

Concerning Campaign Expenses to Receive President's Attention.

Thinks It Possible to Devise an Entirely New Scheme.

Chicago, April 19.—A dispatch to the Tribune from Washington says: President Roosevelt is studying over a new departure in politics which, whether it is carried out to any practical result or not, is certain to excite widespread discussion among public men the country over.

The agitation for publicity of campaign expenses and various laws in the different states for official primary elections has caused the president to question in his own mind whether it may not be possible to devise a scheme by which the government may assume the responsibility, not only for the actual expense of the election as at present, but for the legitimate expenses of the regular nominees.

His idea is not formulated, he has no detailed scheme in view, he is fully aware of the complexity of the subject, and he sees in advance the manifold objections that will be made to it. Nevertheless, he believes the idea is worth consideration and it is receiving his earnest attention at the present time.

LATE DOINGS IN UPPER MICHIGAN

Italian Laborer Cooked to Death at the Dunn Mine.

Negunee—Fing Regallo, an Italian workman, fell into a sump at the Dunn mine at Crystal Falls and was literally cooked to death. The sump is used as a chamber into which the exhaust steam from an underground pump is permitted to escape.

Regallo, being missed, companions found him lying in the sump, where he had been for some time. He was badly scalded and he died shortly afterward. It is believed he was stunned by his fall into the sump, and he would have escaped with slight burns.

Preparing to scrub the floor, Mrs. Henry Pommer, of L'Anse, was so horribly injured that she died. She was working on the floor of a hotel when she slipped and fell. She was carrying a large tub of water and it was this which caused her to fall. She was 42 years of age and had been married for 15 years.

Rescuer—The snow storm which started in this section April 6 is still raging. At present there is about 38 inches of snow on the level.

Newberry—J. H. and Robert Hunter, Newberry men, while looking for cedar land north of town, stumbled over a bear's den in which were a mother bear and her three cubs. They succeeded in bagging all four of the animals. In shooting them they bear one of the cubs also was killed, but the other two were captured alive.

Marquette—S. A. Honick has been appointed to succeed H. H. Landry as chief train dispatcher for the Duluth, South Shore & Atlantic railway and of the Houghton division of the Alameda railway. Mr. Honick has been chief night train dispatcher for some time past. He has been in the employ of the company for fifteen years, being stationed for a good share of the time at this city. Mr. Landry will remain in the employ of the Duluth, South Shore & Atlantic railway, his position specifying that he will be transferred to other duties.

LABOR TROUBLES IN THE DOMINION

To be Investigated by Vice President Lewis at Once.

Ottawa, Ont., April 19.—The labor department has received word that President Mitchell and Vice President Lewis of the United Mine Workers telegraphed the men at Fernie, B. C., and the other Western mines, urging them to return to work. Vice President Lewis has started from Indianapolis to the scene, and an interview has been arranged by him with the operators on next Thursday.

The department is taking steps to investigate the situation in the West, in view of the alarming statements sent out from Calgary.

It seems undoubted that some men have left work, but nothing exists which can be described as a strike.

The cause of the trouble, so far as

known here, seems to be a misunderstanding.

The new act requires several days' notice to be posted of any change in conditions. One or two mines, in compliance therewith posted a notice of a reduction. The miners did not understand that this was in accordance with the provisions of the act and declared that they would work elsewhere.

WEYERHAEUSER DENIES.

St. Paul Man Says He Is Not Richer Than Rockefeller.

Milwaukee, April 19.—Frederick Weyerhaeuser, who has been deemed almost as rich as John D. Rockefeller, is in Milwaukee on a tour of inspection of manufacturing establishments.

"That is not so; that's a lie, started by the Hearst papers," he said, when asked about the report that his wealth rivals, if not exceeds, that of Rockefeller. Discussing the business outlook, he said:

"I think the outlook is excellent. The business of the country is on a sound basis. I think it will continue so if there is not too much interference."

"Do you mean adverse legislation?" "Exactly," he replied. "I will say that President Roosevelt has gone on his course with the most intentions. Yet I think he has been meddlesome."

The cause of the trouble, so far as

NEW LAWS EFFECTIVE

**Governor Has Approved
of Several Affecting
This County.**

**Chairman Patterson Will
Announce His Appoint-
ments Very Soon.**

In response to his request concerning the status of certain bills which were introduced in legislature by members of the St. Louis county delegation, Assistant County Attorney W. J. Stevenson has received a reply from Frank A. Day, secretary to Governor Johnson.

Mr. Day states that the act regulating the salaries and clerk hire for county attorneys in counties of over 10,000 non-union was approved by the governor April 15. This act provides a salary of \$3,600 for the county attorney; \$2,000 for his first assistant; and \$400 for clerk hire. The range assistant is to be known as the second assistant county attorney. The act repealing Chapter 45, special laws of 1901, which was approved by the governor, April 15. This act repeals the former salary act of county officials, in-

cluding the county commissioners who, under the revised laws of 1905, will now receive an annual salary of \$1,200 each but will be allowed no traveling expenses.

The act providing for the appointment of a courthouse commission by the chairman of the county board was approved by the governor April 11, and the act providing for the appointment of a poor commission by the chairman of the county board was also approved, April 11.

The acts become effective as soon as approved, providing they do not themselves set a time when they shall become effective.

It is expected Chairman E. M. Patterson of the county board will announce his appointments within a day or two.

A KEY TO SLANG.
Los Angeles Times: Philologists like to study slang. They can account for many slang phrases that seem idiotic.

To give the cold shoulder?—It was the custom in medieval France, when a guest had overstayed his welcome, to serve him a cold shoulder of mutton instead of the usual hot meal. Finally, the man always took this hint.

"Deadhead"—In Pompeii a complimentary ticket to a entertainment took the form of a brick. A visitor to Sparta found the capital without walls, and the king what he would do in case of invasion, in his well-kept town. "Sparta has 90,000 soldiers," the king answered, "and each man is a brick."

Catching a Tartar?—During the war between Russia and Turkey a private soldier shouted: "Captain, I have caught a Tartar." "Well, bring him in," the captain rejoined. "He won't let me," the soldier called despairingly, as his prisoner fled into the Tartar lines.

"Skidoo"—The origin of this phrase lost in the black and white romance and gilly.

To eat humble pie?—In the Middle Ages, after a deer had been slaughtered, the master of the house and his family ate the choice cuts, while the feet, neck and head were made into a pie. This humble pie was served to the servants and retainers.

THE LEAGUE CONVENTION

**Christian Endeavor Societies Will Meet at
Lester Park.**

**District Conference Will
Close With a Platform
Session.**

With the Duluth District Methodist Episcopal conference drawing rapidly to a close, the attention of the Methodist workers in the city is turning to the Epworth league convention of the Duluth district, which will begin tomorrow morning at 9:30. Rev. James Geer of Lester Park opening the convention with devotional services. The topic of discussion, as announced upon the programs, is "Salvation, or the Department of World Evangelism," and the Lester Park church will be given over to the leaguers all day tomorrow.

Sunday, delegates from throughout the district are expected for the meetings, and the majority of those who attended the district conference will remain over for the league convention. The reception committee is expecting between fifty and sixty additional delegates to arrive this afternoon and evening.

Yesterday afternoon's conference program was followed out exactly, and this morning's session was also carried out as scheduled, with the exception that Rev. J. B. Hingley of Minneapolis, presiding elder of the Litchfield district, who was to have spoken before the close of the session.

Yesteryday afternoon's conference program was followed out exactly, and this morning's session was also carried out as scheduled, with the exception that Rev. J. B. Hingley of Minneapolis, presiding elder of the Litchfield district, who was to have spoken before the close of the session.

REV. J. B. HINGLEY,
Who Will Speak to Epworth League
Convention.

Session was delayed a day, and will speak to the Epworth leaguers tomorrow afternoon instead.

Dr. E. C. Clemans, presiding elder of the churches as to the program of the morning. The only action of importance, which was taken was the appointment of a committee to look into the matter of publishing a district paper, as an official organ of the Duluth district, and the committee consisting of Rev. T. H. Stafford of Sandstone, Rev. H. R. Scott of Grand Rapids, and Rev. A. L. Richardson of Carlton, will report to the afternoon's session as to the advisability of publishing such a journal.

The reports of the pastors were heard and gave evidence of a most successful year, both as to the growth of the churches and the spiritual life of the establishment of new churches. Dr. Clemans gave a talk on the "Conditions and Problems of the Duluth District." Rev. H. H. Ousterhout of Aitkin gave a paper on "The Resurrection," and Rev. A. Richardson of Carlton talked on "Benevolence."

The feature of this afternoon's session was a talk by Mrs. Sarah H. Knight, superintendent of the Asbury hospital, at St. Paul, the institution supported by Methodists, on "The Needs of the Hospital and Its Work." Alderman Watson S. Moore also spoke on "The Ideal Preacher."

This evening's session will be a platform meeting, Rev. S. G. Briggs of the Merritt Memorial church in the West end and Rev. M. S. Rice of the First Methodist church being the principal speakers.

In addition to the talk by Rev. J. B. Hingley of Minneapolis tomorrow afternoon, the following program will be carried out:

COMPLAINT MADE AGAINST ROADS

**Of Discrimination in
Rates in Iowa and
Minnesota.**

Washington, April 19.—(Special to The Herald).—The Interstate commerce commission today received a petition from L. R. Willard and G. H. Ruth, doing business under the name of the Marshall Oil company, against the rates charged by the Chicago & Northwestern, Chicago, Alton & St. Paul and Chicago-Great Western Railway companies. The complaint alleges unjust discrimination in rates between certain points in the district of their business of shipments of petroleum and its products over the lines of these railways, from Mason City, through the states of Iowa and Minnesota. The headquarters of the complainant company are at Marshalltown, Iowa.

This complaint of the Marshall Oil company will be served upon the several railroad companies by the interstate commerce commission, with request to answer in writing within twenty days.

OLD EMPLOYEE PENSIONED.
Chippewa Falls, Wis., April 18.—D. L. McKay, the oldest employee of the Muscatine Lumber Co., having been working for it over twenty years, has been granted a pension of \$1,000 per year during the remainder of his life. He came to Wisconsin in 1847 and was a lumber inspector for the State of Wisconsin from 1880 to 1896. He is one of the best known lumbermen in Northern Wisconsin.

NO LIMIT TO EXPENSE.

Matron Says Cost of Living Increases With Income.

Baltimore News: The question "On what sum of money can a family live comfortably?" is a relative one. Several society women who were interviewed agreed to this. One lady, on being told that the bureau of industrial statistics had announced that a family of six might live on \$750 a year, opened her eyes to the widest. "I don't see how one person could draw his breath on that," she said, "much less live on it."

The amount of money upon which a family can live, the majority of those interviewed declared, depended upon the number of horses and automobiles they kept, the wages they paid their servants and a host of other equally important things.

If the boys in the family are sent to college and the girls go to expensive finishing schools, if all the members dress well and if they entertain and travel extensively, one matron thought that \$75,000 a year would be a necessary income.

Another well known society woman asked "On what can a family live comfortably?" replied: "I have no more idea what it costs to live than you have. My husband pays the bills, and I do not keep house myself. It would be as hard for me to theorize on the subject, for each family is a law unto itself in this matter."

"On what sum can a society woman dress well?" she was asked.

"That, too, depends upon the individual."

large house in condition.

"A point I should like to make is this, that there are a number of women in this city who do not care for display and who are not abnormally fond of their clothes. They are obliged to do this because of their positions. If the husband of one of these is prominent in the world of finance, or is known as a very rich man, and the feminine members of the family appear shabby or exceedingly plain attire, the rumor would go around that he is penurious, or had met with business reverses, or was unkind, or some disagreeable thing of that sort. I know a number of women whose husbands insist that they make a good appearance, and who, therefore, spend more on their wardrobes than they would otherwise. It is a sort of business asset, so to speak."

"My own experience has been that families live on whatever they have to live on, and as some once said, \$10 more. One naturally adapts himself to his position and his income. It is the easiest thing in the world to increase one's expenses with his income, and I have never known anyone who did not do it almost involuntarily."

"The people who live on \$750 a year must endure many privations, but perhaps they are none the less happy for that. I should say that a family in the circles known as 'society' could live on any amount from \$10,000 to \$250,000 a year."

OLDEST FAMILY IN OHIO.

Columbus Dispatch: Death at last had made a break in the remarkable Robinson family of octogenarians and septuagenarians in Radnor township, Charles A. Robinson, one of the pioneers of Delaware county, was the first in a family of six to die. He lived to pass his 81 milestone.

His brother, Daniel, aged 81; Chandler, his twin brother, aged 81; Albert, aged 71, and his sisters, Mrs. Mary Robinson, aged 77, and Mrs. Lydia Hill Robinson, aged 85, survive.

They constitute the oldest family in the state, and Charles and Chandler, up to the time of the former's death, had the distinction of being the oldest known twins.

"There was nothing in his grips by which he could be traced. The French diplomat set up as a awful road, but he had neglected to deposit his valises in a hotel safe, and it was up to him. Brown put this case at rest, but about three weeks after the robbery occurred I went to New York to attend to a little sanitation business. I transacted my business, and then a couple of the sleuths on Mulberry street took me out to have a drink with me, and we wound up in an up-Turkish bath."

"We were reclining in the hot room when a man came in carrying and thrown a pretensions of a protracted gag cape in, and pretty swiftly. He scanned us all to and fro with his right hand then, and there-

ghost floating in air above the Stock Exchange.

He felt faint and left, and knew not why he wanted to turn for instance, for he had some enough left to know that his story would arouse more amusement than sympathy. He tried to hurry on, to get out of reach of that voice, to reach his office but there was the hum of many boots behind him and a hand grasped his arm. The hand was real all right, so thinking some friend had come to him in his distress, he turned, and there stood Switzer.

He tried to speak, but his voice failed him. Switzer wag a slow chin, and told him to know what ailed him.

"You ought to be dead, didn't you? Well, I fooled 'em again. Better call up the boys when you go back and tell them that old Switzer's ghost is loose in LaSalle street."

ALL THE YEAR HARVEST.

New Orleans Times Democrat: "Our Thanksgiving celebrates the granting of the harvest," says a clergyman, "and a fine poetic festival it is. But did it ever occur to you how various are the harvest times of the different nations?"

"The year is the harvest month of the Chileans, of the Australians, the Argentine folks, and the New Zealanders."

"February is the harvest of Indian—February and a part of March."

"The Egyptians, the Persians and the Syrians harvest in April, while the Chinese, the Japanese, the Moroccans and the Algerians harvest in May."

harvest time is June, the Russian and the Dutch and the English, German, American and Canadians is August; the Scandinavian, Scottish and Welsh is September. The northern part of Russia, Norway and Sweden do not gather their harvest until October.

MAKING THE DOG GOOD.

Once in a year you may find a good tenant by chance—through "happenstance." If a Herald want ad. will find him for you at the time you want him.

MAKING THE DOG GOOD. The trouble in a wire that crossed a private yard. While they were repairing the trouble a savage dog of a large size pounced on them, and to save himself one of the men struck the enraged animal on the head with a heavy hammer. He had in his hand, killing it instantly. It was not a pleasant position to be in. He was in the line of defense. The men lost no time in getting back to headquarters. The dog was not killed. The dog's bell rang, and a feminine voice called for the manager, who was interrupted by the two men and their pet dog. Yorick—"poor, good little Yorick, who had never harmed anyone in his life." The manager asked the men if they knew anything about the dog, and the gully one replied, his misdeeds aggravating his habit of stuttering:

HILL IRON LAND DEAL

Report of Special Committee Submitted to the Legislature.
Conclusions Based on the Evidence Given Are Submitted.

(From a Staff Correspondent.)
St. Paul, April 20.—(Special to The Herald.)—The special committee of the house appointed Jan. 15 to investigate the deal between the Great Northern railroad, or James J. Hill, and the United States Steel corporation, by which the railroad or its president leased certain Mesaba range iron properties to the steel corporation, made its report to the house today.
The report recites the story of the acquisition of the ore lands and their lease to the steel corporation, and the conclusions based on the evidence given before the committee. The examination was conducted by Clarence E. Miller of Duluth, a member of the committee. The report in full is as follows:
"Your committee has secured and considered both oral and written testimony respecting the matters under consideration, and finds that the original acquisition of one-half of the Mesaba range of the Great Northern Railway company had its inception in the fall of 1888. At that time the Great Northern Railway company owned and operated, under the name of the Eastern Minnesota, a line of railway extending through several of the northern counties of the state, intersecting with the main line of the Great Northern railway near Crookston. At that time this line was operated as a distinct system, and it was officiated by officials of the Great Northern Railway company."

PLOT TO BURN THE BUILDINGS

Of the International Exhibition at Dublin is Frustrated.

London, April 20.—Rumors of plots to burn down the buildings of the international exhibition, opening in Dublin, May 4, which, however, are said to have been discovered in time to frustrate them, are published in the afternoon papers here today. The plots are attributed to the advanced political sections in Ireland, which, admittedly, are violently opposed to the international exhibition, claiming that it would be unfair to Ireland to display the products of the highly developed industries of other nations in competition with native products, which are not so highly perfected.

BODY OF ST. PAUL MAN FOUND IN THE RIVER.

St. Paul, April 20.—(Special to The Herald.)—The body of Patrick Condon, 38 years old, living at 142 East Noble street, was found in the river near the west side of the Great Western railroad bridge, at 5:30 o'clock this morning.
The body had been in the water only a few hours, and was wedged between two rocks when found. There were no marks of violence, and it is believed by Deputy Coroner Maloney that Condon went to sleep while sitting on the railroad bridge and fell into the water accidentally.

INDIANA BANK ROBBED.
Bluffton, Ind., April 20.—The safe in the bank of Knight Brothers, at Gainesville, a small village in the northern part of this county, was blown open early today. All the telephone wires leading from the town were cut and details of the robbery were delayed.

TWO BILLS OF INTEREST TO THE IRON-PRODUCING SECTIONS PASS HOUSE

One Sets Forth State's Rights Under Lakes, Other Fixes New Royalties.

House Refuses to Concur in Anti-Pass Bill and Asks for Conference.

(From a Staff Correspondent.)

St. Paul, April 20.—(Special to The Herald.)—The house passed, under suspension of the rules this morning, two bills of interest to the iron-producing sections. One, by Representative Walz, sets forth the state's claim to the mineral deposits underlying the beds of meandered lakes and streams. The house committee on mines and minerals proposed an amendment, which was adopted, providing that it should not apply to applications for lake bed leases now pending.

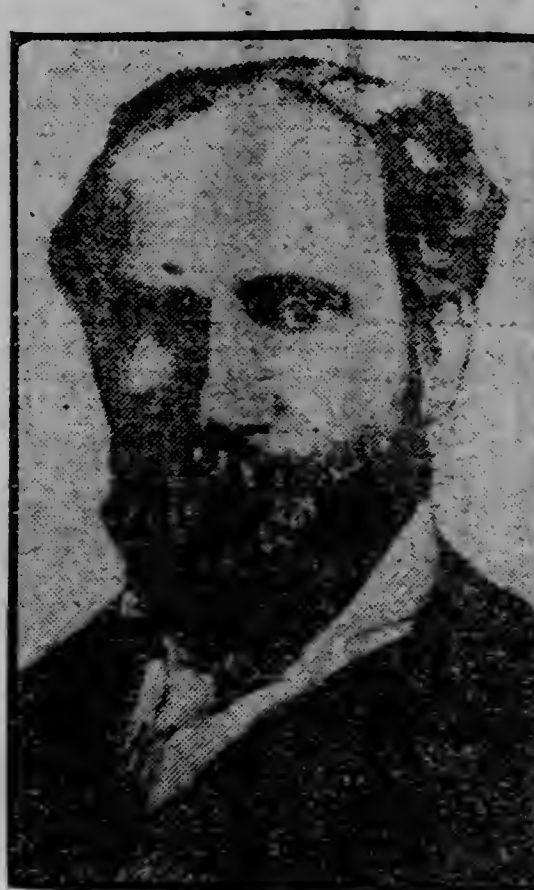

Another bill, by Representative Benken, restores the leading provisions of the law, with a new set of royalties, based upon the figures in the Hill lease to the steel corporation. The special committee to investigate the rights of the state in mineral

eral and timber lands, made its report to the house. The committee found that the state owns 2,900,000 acres of land, mostly in Northern Minnesota; that it still owns about a billion and a half feet of standing timber; that the state should have a laboratory near the mines to ascertain the grades of ore, for the purpose of fixing royalties. The royalties should be put up to at least 75 cents and the lake bed bill should be passed. The committee found that there is little or no trespassing on state lands, and that the timber is well safeguarded. The methods of disposing of state agricultural lands are approved.

The anti-pass bill came back to the house from the senate this morning, and it was discovered that in amending it, the senate, in its hurry, had

PORTE IN A BAD LIGHT

Minister Leishman Makes a Clever Diplomatic Move.

Places Porte in Position of Thwarting the Sultan.

Constantinople, April 20.—Ambassador Leishman has made a new move in the American school question, by which he has placed the porte in the awkward position of appearing to thwart the will of the sultan. In his last communication to the foreign office, the ambassador pointed out as a result of the research, it is hoped, a satisfactory settlement of the school question would be arranged, the porte has utterly failed to carry out the imperial assurance. The action of Mr. Leishman in thus holding the porte responsible for the delay is regarded in diplomatic circles here as being very adroit. Even Turkish circles admit that it places the government in the unfavorable light of seeming to oppose the execution of the sultan's promises.

UNITED STATES SAILOR CAN ONLY RECOVER PRICE PAID FOR DANCE TICKET

Famous Case Involving the Wearing of Uniform Decided by Court.

Proprietors of Places of Amusement Have Right to Exclude Anybody.

Providence, R. I., April 20.—Chief Yeoman Fred J. Buezele, who was barred from a dance hall in Newport because, he claims, he was wearing the uniform of the United States navy, can recover at law only the price of his admission ticket, according to a decision handed down by William H. Sweetland, chief presiding officer of the Rhode Island superior court. The decision, which is long, and which overrules the demurrers raised by the defendants, says the legal rights of a man wearing the United States uniform are not different from those of any well-behaved person who possesses a ticket of admission to any place of amusement.

Judge Sweetland rules that Buezele, excluded because he was wearing a naval uniform, is in no differ-

ent position legally from one who is excluded because he is not in evening dress, or for any other reason, though it may have been but the whim of the defendant. The motives of the defendant are held as the cause. In other words, the judge said, the proprietors of a place of amusement are not under any obligations to admit any person whom they may choose to exclude. Later suit was brought against the Newport Amusement association, proprietors of a dancing pavilion at Newport, from which Buezele claimed he was excluded last September because he was wearing a naval uniform. The management tendered to him the 25 cents he had paid for his ticket, but Buezele immediately brought suit for damages. He was given financial support by naval officers stationed at Newport, and President

Government Decides to Purchase Peyton Property.

Will Have to Acquire Small Lot by Condemnation.

A Washington dispatch to The Herald announces that the secretary of the treasury has decided to purchase the H. M. Peyton property at the northwest corner of First street and Fifth avenue west, for a postoffice site, for \$35,000.
The Peyton property comprises a frontage of 150 feet, on First street, and 140 on the avenue. The government purposes to take part of the adjoining lot, which it will acquire under condemnation proceedings.
Some time ago it was announced that the government would erect a new building, to be devoted exclusively to the postoffice department, while the federal building was to be given up to the other governmental offices, now located in it. The Peyton property was known to be under option to the government, but the deal had not been definitely closed.

COMING AFTER SMITH'S MONEY

Sir Alexander Cooper and Wife Sail for United States.

New York, April 20.—A London dispatch to the Times says that Sir George Alexander Cooper and Lady Cooper sailed yesterday on the steamer Deutschland for the United States to aid in the settlement of the estate of James Henry ("Silent") Smith, who died in Japan recently while on a honeymoon trip around the world. Lady Cooper is a sister of Mr. Smith, and her English friends understand that the greater part of his estate, which is reported to amount to over \$70,000,000, has been left to her by his will.

Lady Cooper and James Henry Smith were children of George S. Smith, Evanston, Ill., a cousin of George Smith, the Chicago real estate owner and promoter of the Chicago Milwaukee & St. Paul railroad and other Western enterprises. George Smith left James Henry Smith a fortune of \$50,000,000, and Lady Cooper is said to have received an equal amount from his estate.
Sir George Cooper was a country baronet when his wife inherited her millions. Before her marriage she was Miss Mary Emma Smith and popular in Chicago society.
Sir George and Lady Cooper have two sons and a daughter. The heir to the baronetcy, George James Robertson Cooper, who may be one of the richest men in the world in time, was born in 1850.
The Times says that should the news called by its London correspondent be confirmed, Lady Cooper will become the richest woman in the world.

NEWSPAPER MEN BARRED.
Washington, April 20.—Secretary Loeb announced yesterday that hereafter newspaper men will not be allowed to congregate in the White House grounds for the United States is succeeding in absorbing East European immigrants.

MANILA HAS A BAD FIRE

Eleven Hundred Houses Are Burned in Native Districts.

Thousands of People Rendered Homeless in a Few Minutes.

Manila, April 20.—Fire destroyed 1,100 Nipa houses in the districts of Singalong, Paco and Bambang, in Manila, this afternoon. The American settlements at Ermita and Malate escaped through the hard work of the firemen, assisted by soldiers and citizens. The flames, fanned by a heavy gale, swept an area of 100 acres, and within two hours and destroyed the homes of 100 foreign residents and 1,000 natives. The native refugees are sheltered in the schools and other public buildings while many are sleeping in open spaces. The damage is conservatively estimated at \$200,000 in gold. No casualties are reported. The fire occurred at 10 o'clock, and the fire department did not arrive with the estimate of the damage given which was made by the police and firemen. They assert that 250 houses were destroyed and 1,000 natives and the homeless. Their estimate of the financial loss is the same as that of the other municipal officials. It is thought that the figures given by the health officers are nearer correct.

FINNS ALARMED

By Change in the Usual Maneuvers of Russian Troops.

St. Petersburg, April 20.—The officers of several of the cavalry and artillery regiments of the guard have been notified that maneuvers in Finland may be substituted this year for the usual exercises in the summer camp at Krasnoye-Selo. The news has caused considerable alarm among the Finns, who regard the step as a prelude to the military occupation of Finland. The recent captures of cartridges from abroad which are supposed to have been destined for importation into Russia through Finland and the capture of cartridges in Finland itself, intended for the revolutionists in that part of the empire, have strengthened the hands of the anti-Finnish advisers of the emperor. Two squadrons of torpedo boats have been formed to guard the gulfs of both the Baltic and the Bosphorus, and being established at Bomarsund, Nikolai, Abo and other ports.

DR. BARTH TO STUDY

American Political and Social Life on Trip to United States.

Berlin, April 20.—Dr. Theodore Barth, leader of one of the radical parties in the German reichstag and ex-editor of Die Nation, which recently discontinued publication, has started for New York by way of Genoa, from which port he will sail April 24. After a short stop in New York city, Dr. Barth will go to Washington. From the latter city he will go West, and later will visit Canada, returning by way of Boston. It is Dr. Barth's intention to make a study of the most recent developments of American political and social life, with special reference to the relations between the great capitalists and politicians. He will study the immigration problem, inquiring how far the United States is succeeding in absorbing East European immigrants.

WEATHER FORECAST—Generally clear tonight and Sunday; minimum temperature tonight about 25 degs.

\$40,000 IN TWO SYSTEMS

Park Point and West Duluth Sewers Will be Begun.

Plans for sewer improvements are being drawn up in the office of the city engineer aggregating in the neighborhood of \$40,000 for the two systems planned. They are the West Duluth system, with the Forty-ninth avenue outlet, and the Park Point system.

In connection with the latter, a prominent pioneer merchant died suddenly while out walking Tuesday night.

Yankton—James Hackett, who met with a fatal accident at Sioux Falls by being run over by a state car, was a resident of this city, where his wife and two children reside. He was a Wisconsin man, coming from Granville. He has lived here eight years in connection with the great Northern and has been highly respected. His father and mother and one sister, Mrs. May Long, live at Wilmar, Minn. He has one sister at Duluth, and three brothers, Walter and John, all railroad men. He was a member of the A. O. U. W.

Spekhardt—Friends of John Russ fear he is committed suicide. He disappeared a few days ago from the house where he has been rooming, leaving a note to the effect that he no longer cared to live and that his body would be found on the cliffs of Spanish mountain.

Mitchell—No trace has as yet been found of Rex Carpenter, the barber who mysteriously disappeared from this city one month ago. The brother of the missing man has arrived and has arranged to have the body of the missing man.

March 19 and was never seen afterward. He had \$9 in his possession.

CONFLAGRATION AT ILO ILO IS CHECKED.

Manila, April 20.—The latest reports from Ilo Ilo say that the fire has been checked. The native quarter of the city was destroyed and \$500 to 1,000 natives made homeless.

The property loss is estimated at \$100,000. The business section of the city was untouched. There was no loss of life by the earthquake. The shocks, while the most severe experienced in fifteen years, were not violent enough to cause much destruction.

The total damage caused by the earthquake in the entire archipelago will not exceed \$10,000.

For Moving Pictures, William Zeiz is Killed by Train.

London, April 20.—William Zeiz, while impersonating a signman bound to the railroad line by robbers, in a moving picture representation of a train wrecking scene, was killed by a train near Croydon, today. The train ought to have stopped, but failed to do so owing to an error in the signaling.

PRESCRIPTION TO CLEAN THE BLOOD

Anyone can easily mix the following prescription at home, which is said to be the splendid because of its peculiarly beneficial action upon the kidneys, which are made to properly filter and strain from the blood the impurities, acids and poisons.

Get the ingredients from any good pharmacy and mix them by shaking well in a bottle: Fluid Extract Dandelion, one-half ounce; Compound Karsgen, one ounce; Compound Syrup Sarsaparilla, three ounces.

Take in teaspoonful doses after each meal and a bedtime. Drink plenty of good water too.

Those whose veins are filled with sour acids and rheumatic poison, who require a good blood cleanser and system tonic or if the kidneys are weak and clogged up, should prepare this mixture and take as directed for a few days and note results.

HAPPENINGS IN THE DAKOTAS

Grand Forks Boy is Drowned in English Coulee.

NORTH DAKOTA.

Grand Forks—Clarence Lawson, son of County Surveyor Thomas Lawson, was drowned yesterday afternoon in English Coulee, about a mile and a half from Grand Forks. The boy was hunting muskrats with Paul Galt and slipped down an icy slope into the coulee.

Galt tried to rescue the drowning boy, but Lawson was unable to grasp the end of the rope handed to him, and only came up once. Galt hurried to a nearby house and called for assistance, and the boy was taken out about half an hour after the accident and hurried to the scene. She has collapsed and is in a serious condition. Lawson was 16 years old and was an only son.

S. G. Sletason, who lost his voice on Tuesday afternoon, recovered it Thursday evening. His trouble was due to the chords controlling the voice becoming temporarily paralyzed.

As a result of a trust recently formed in Grand Forks by laundries of North Dakota, the prices of what is known as family laundry have been boosted 25 per cent.

Bismarck—When the proceedings for the removal of A. T. Patterson from the office of state attorney of Burleigh county came up yesterday before Judge, Bismarck of the Fifth district, the accused moved that the case be dismissed, alleging that the hearing be ruled out. This was done and the matter then narrowed down to the allegation that the state's attorney had patronized "Talley's blind pig."

The accused's affidavit of prejudice against the judge, which was granted, and Judge Pollock of Fargo will be asked to try the case. Judge N. G. Young of Fargo has been called into the case by the state's attorney to act for the defense with Judge Newton of Bismarck.

Minto—Lynch Bros. flour mill was destroyed by fire Thursday night. The mill was valued at \$12,000 and the insurance probably will cover the loss. The mill contained 300 barrels of wheat and 600 sacks of flour, the flour valued at \$1,000. The mill was owned by the Lynch Bros. and was burned down, and only the walls were left standing.

Fargo—After evading the United States officers for more than a year, J. E. McKinley, who robbed a postoffice in Bottineau county, is in jail here. He was employed by the Northern Pacific.

An effort will be made to create a new county out of western Sisseton and eastern Kidder, with Medina as the county seat. W. J. Dwyer of Medina is the prime mover of the plan and backed by residents of both counties tributary to Medina, which has grown rapidly.

SOUTH DAKOTA.

Vermillion—When C. E. Bridgeman, a prominent pioneer merchant died suddenly while out walking Tuesday night, he left a large family. He was a resident of this city, where his wife and two children reside. He was a Wisconsin man, coming from Granville. He has lived here eight years in connection with the great Northern and has been highly respected. His father and mother and one sister, Mrs. May Long, live at Wilmar, Minn. MARINE NEWS

MANY DAYS OF WAITING

No Prospect of Sault Being Opened for Some Time.

Boats Waiting in the Harbor All Ready to Leave.

Even marine men, who predicted a month ago that interlake navigation was not likely to open before this date, April 20, are liable to be anywhere from two or three days to a week too early in their prediction. There has been practically no change in the ice conditions at the Sault and unless the offer of Capt. Reid to open a passage with his tug is accepted no boats are likely to pass through for another week.

During the present week the W. B. Kerr, which is one of the largest boats on the lakes, tried the ice above Detroit but could make little headway. The ice is still about twelve inches thick and is solid and blue. The Kerr is without cargo and in good shape to break ice, but it will probably be some time before she tackles the ice-breaking job again.

In the Duluth harbor the boats are all ready to leave for lower lakes as soon as the work comes from the Sault. Half a dozen boats are anchored in the bay with cargoes all loaded, while others are tied up at the docks. The Pittsburgh boats are all being loaded at the ore docks at West Duluth while several freighters have gone to Two Harbors to load.

This morning the newly repaired steamer Mataafa and the Lambert left the harbor and cruised about outside Minnesota Point for a few hours. They returned about 1 o'clock, the Mataafa going to the ore docks and the Lambert to one of the elevators.

GREAT ICE BREAKER.

C. W. Turner Tells of Work of Tug Whalen at Port Arthur.

C. W. Turner, manager of the Booth company, has just returned to St. Paul from Port Arthur and Port William, where he had been to see what could be done to open up a channel for the Booth boats.

In writing to a friend in Duluth, he says that the ice outside of Thunder Bay is still 25 inches thick.

I had the pleasure of going out on the tug Whalen, which is the best boat in the government fleet to break ice, and I want to say that this is a wonderful boat. She has been hired by the government to break the channel out to open water, but at times it took her entire 80 horse-power to break her way through the ice. She is certainly a great ice breaker, and I never saw a boat so through the heavy blue ice as she did, so through the heavy blue ice as she did, so through the heavy blue ice as she did.

BLOCKADE IN LAKE ERIE.

Many Boats Are Stuck in the Ice Near Buffalo.

Buffalo, April 20.—Outbound vessels are experiencing great trouble in getting through the ice.

The sun has not even commenced to thaw the top of the ice or the snow on the ice at Port Arthur, and it is just like breaking through so much solid rock. They have wired us from Port Arthur to let them know when the America will leave, and say they will go out to the channel and be ready for us by the time the boat gets there.

STRANGE PLEA FOR RELEASE

Labor Delegate From Michigan Asked Judge for Leniency.

On the ground that he was a walking delegate from the Michigan Federation of Labor who had come to Duluth to interview a prominent local mining man on the labor situation in the home of the Wolverines, Edwin Taylor, made a plea for leniency before Judge Win-

don in municipal court this morning when he was arraigned on a drunkenness charge.

"I don't see how that excuses you. Unions are pretty powerful things all right, but I guess you fellows can't get drunk any more than anybody else," said the judge.

"Well, you see I thought you might let me off considering who I was," said the labor man.

"Has he ever been in here before?" asked the judge of the police officer who was keeping a watchful eye on the delegate.

"No sir," said the copper with a grin.

"One dollar and costs then," said Judge Winson. "Everybody gets the same treatment here. Teddy's square deal and the Big Stick rule here," and the disgruntled labor promoter reluctantly dug up the \$3 and departed.

FISH ALMOST KILLS BOY.

Was Being Towed to the Open Lake When Rescued.

Racine, Wis., April 20.—Tennis Moray, aged 12 years, was dragged for nearly 100 feet beneath the waters of Root river here Thursday afternoon by what is believed to have been the largest bass which ever inhabited that stream. The boy who had difficulty in paddling

fast enough to overtake him, as the fish towed him toward the open waters of the lake.

Young Moray was fishing off a float anchored in the river, and had tied a stout line around his waist. Upon this line he strung several small catfish, which he had suspended in the water at his feet. The bass struck the string of small fish with a rush and dragged the screaming boy under water.

"Proceed, judge," said Harris, and the knot was tied.

Justice Fitzgerald

To Face New York Supreme Court on Serious Charges.

New York, April 20.—Justice Thomas W. Fitzgerald must appear next Monday before the appellate division of the supreme court and show cause why he should not be removed from the office of the justice of the court of special sessions and disbarred from the practice of law.

The charges against Justice Fitzgerald are of a very serious nature. They involve the misappropriation of funds of the procuring money under false pretenses and other very sharp practices. It is even alleged that he misappropriated money of the Roman Catholic church of Port Richmond, and of Father Campbell.

One claim is that Fitzgerald got over \$3,000 out of the city of New York for his expenses in defending his title to office, and he kept for his own use \$2,000 of money that had been given him by the controller to pay his counsel, J. G. Millard and James Burke, Jr., by compelling Burke to allow him to keep \$1,000 of the \$2,000 fee which the city had given Fitzgerald to pay him.

NEW BERTH FOR HIGGINS.

"Lumberjack Sky Pilot" to be Transferred to Coast Logging Camps.

Seattle, Wash., April 20.—Rev. Frank Higgins of Minnesota, known as the "lumberjack sky pilot," is to be taken from the field of his earlier effort. At the spring meeting of the Olympia Presbyterian in Centralia he was decided upon as one of three for missionary work in Washington logging camps.

STATE TO APPEASE HUBBY.

Des Moines, Iowa, April 20.—That Ralph G. Palmer, the absconding ticket agent for the Milwaukee road, who disappeared leaving a shortage of over \$5,000, stole the funds to "square" himself with the husband of a woman at La Crosse, Wis., to whom he had been paying attentions, was the sensational development in the Palmer case Thursday afternoon.

LABOR ORGANIZE NEW UNION

Holisting and Portable Engineers of Duluth Send for Charter.

Twenty-Two Have Signed Up as Charter Members.

UNION MEETINGS.

Saturday—Bakers and Confectioners at Kalamazoo hall; Bootmakers at Axa hall.

Sunday—Switchmen at Sloan hall.

Monday—Retail Clerks at Labor World hall; Teamsters at Labor World hall; Stonemasons at Axa hall.

Tuesday—Carpenters at Rowley hall; Machinists at Axa hall; Painters, Decorators and Paperhangers at Kalamazoo hall; Sheet Metal Workers at Labor World hall.

Wednesday—Marine Engineers at Labor World hall; Meat Cutters at Labor World hall; Steamfitters at Labor World hall; Plasterers at Kalamazoo hall; Freight Handlers at Kalamazoo hall; L. T. P. A. at Labor World hall.

Thursday—Builders Laborers at Axa hall; Plumbers at Labor World hall; Cooks and Waiters at Labor World hall.

Friday—Tile Layers and Helpers at Labor World hall; Federal Trades Assembly at Labor World hall; Bricklayers at Axa hall; Ship Carpenters at Sloan hall.

Another union labor organization has been added to Duluth's list this week, it being a local union of the holisting and portable engineers. The first meeting was held last Sunday at Axa hall and there were twenty-two charter members. William Jenkins was elected president of the new organization, Oscar Archambault, financial secretary-treasurer and John Neils, recording and corresponding secretary.

Some of the members who will join the new union already mentioned are of the regular station engineers' union, but will withdraw from that organization with the consent of its members. The two unions will be under the same international organization, but have separate charters and will hold separate meetings.

The charter for the new union was sent for today by W. E. McEwen, state organizer for the A. F. of L. as soon as it is received, the members of the union will hold regular meetings at Axa hall. Although there are only twenty-two members at present, it is expected that the number will become much stronger and will eventually have a membership of seventy or seventy-five members.

QUESTION OF UNFAIRNESS

Will be Decided in Reference to Sullivan's Barber Shop.

The situation among the barbers of Duluth remains unchanged since last week and no new developments are expected until the next meeting of the trades assembly when the committee will report upon the proposition to place James Sullivan's shop on the "unfair" list.

The barbers have asked that he be put on the "unfair" list for the reason that he has refused to raise the prices as requested by the master barbers and the journeymen April 1. Mr. Sullivan is the only master barber out of sixty-seven who has refused to obey the demand of the barbers' union.

It was only on condition that all of the barbers would agree to the new scale of prices that the master barbers were to receive a better scale of wages. They are asking for a scale of 50 per cent of all money taken in with a guarantee of \$15 a week. The scale at present is \$15 a week and half of that.

STRAIN TOO GREAT.

Hundreds of Duluth Readers Find Daily Toil a Burden.

The hustle and worry of business men. The hard work and stooping of workmen. The woman's household cares. Are too great a strain on the kidneys. Backache, headache, sideache. Kidney troubles, urinary troubles follow.

A Duluth citizen tells you how to cure them all. Engineer James Root, better known as "Jim" Root, the heroic engineer of the St. Paul & Duluth, limited, says: "For many years I was troubled with my kidneys, and had pains and soreness across the small of my back. The kidney secretions at times presented an unnatural appearance and I was unable to run. I saw Doan's Kidney Pills advertised and procured a box and used them. From the prompt, satisfactory results obtained, I can speak of them only in the highest terms of praise. Doan's Kidney Pills have cured me of my troubles, and it gave me prompt and permanent relief."

For sale by all dealers. Price 50 cents. Foster-McIlhenny Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

No dentifrice like SOZODONT.

Why? Because its mission as an Alkaline Antiseptic Liquid Dentifrice is to permeate the gums and mouth and penetrate the minutest crevices of the teeth, neutralizing and removing mouth acids, antisepticizing and cleansing the entire tooth structure.

Its fragrance is delectable and lasting.

everything taken in over \$25.

After the committee reports at the next meeting of the trades assembly, the members will vote upon whether or not Mr. Sullivan will be put upon the position to the proposition will be met with as the union card has already been withdrawn from Sullivan's shop, and the former union barbers are suspended.

UNIONS MUST MOVE.

Labor World Hall Will be Vacated on May 1.

May 1 will be moving day for quite a number of unions which have been holding meetings at Labor World hall for the last few years. The hall must be vacated at that time and there will be a general move to other quarters.

The Kalamazoo hall will probably get most of the unions which have been meeting at Labor World hall. The trades assembly will go to that place, as well as the structural alliance, the leather workers and others. Some will go to the Axa hall, and others to other parts of the city entirely. It is reported that the quarters of the old Masonic temple will be engaged by some of the unions for meeting places.

The labor temple project has about been abandoned for the present as no suitable building could be secured for the purpose. At some later date, however, the unions will probably get together on a proposition and build a temple of their own in the same manner that the labor pavilion at Fairmount park was erected.

State Labor Bureau.

The bill providing for state free labor bureaus in Duluth and St. Paul in addition to the one already established at Minneapolis has passed both houses of the legislature and now only awaits the signature of the governor before becoming a law. The city free employment agency in Duluth will probably be abandoned and turned over to the state. The bill provides for two employment agencies to look after the bureau, one to be paid a salary of \$300 a year and the other \$1,200.

Invents New Heel.

A. B. Helmback, 1807 West First street, who has been connected with the Duluth postoffice as a letter carrier for twenty years, has recently invented a new rubber heel upon which he has just secured a patent. The heel is made of rubber and is of the ordinary kind, and it is claimed that it can be removed at any time with the aid of a cleaver which its hollow of the heel on the inside and no nails are used whatever. If the wearer runs a lot on one side, it can be changed to the other shoe and when worn out all together, it can be easily replaced. At a late hour of the day, Mr. Helmback has received several good offers for his patent, but has not yet decided what he will do with it.

ELECTRIC RAILWAYS

(Continued from page 1.)

plated portions of cities and villages, and through plated portions of the local councils refused to grant franchises. If franchises were granted, the roads were not to have the right to condemn land, but to run the roads as if the franchises gave the roads access to streets on which it was not practicable to run the roads on condemned lines through private property.

Generally, the rights conveyed were about the same as those which the railroads operated by steam now enjoy. The bill provided that the roads and by friends of the bill that such laws are necessary if the state is to have the least of rural roads to compete with the steam railroads.

Representative Phillips offered an amendment providing that the right to condemn should not apply to plated portions of cities and villages, but that the right to condemn should be made between rural and urban lines.

An amendment was offered by Representative Hugo, containing the vital part of the bill, and providing that the roads should be run on the exchange of freight and passenger business made between rural and urban lines.

Representative Tighe of St. Paul wanted to know if that would not give city lines the right to carry freight and passenger business, and Representative Hicks of Minneapolis said that it most certainly would, and that it was a bad provision.

Mr. Tighe offered an amendment, which Mr. Hugo accepted, providing that the bill should not be construed as permitting city lines to carry freight. Then the Hugo amendment was adopted.

Representative Lennon offered an amendment providing that two bills should not apply to cities over \$50,000, but this was defeated. Representative Spencer pointing out that the bill would shut rural lines out from the larger cities.

Representative Lennon spoke against the bill, whereupon Representative Thayer said that it was to be expected that the railroad interests would oppose such a measure.

Mr. Lennon arose in high indignation, and said that if the gentleman intimated that he represented railroad interests he said that which was not true, and he wanted to hurl the accusation back into his teeth.

Mr. Thayer said that his remark had no personal application, but it seemed to have hit and hurt the base. Mr. Lennon said that he had no intention of being defeated. Representative Lennon moved that the bill be reconsidered, and asked that his motion be voted down. It was, and the bill was passed.

Accepts New Rates. The Great Northern railroad, through Representative Sawyer, yesterday afternoon conveyed to the house its intention to accept the new rates.

tion to accept not only the commodity rate established by the bill which was recently put through both houses under suspension of rules, but the 2-cent passenger rate.

No other roads have accepted the reductions contemplated in these bills, but the example of the Great Northern will doubtless be followed by most, if not all, of the railroads in the state.

It will certainly be necessary for competing lines to meet the rates thus promulgated by the Great Northern.

Accompanying Mr. Spooner's announcement was a bill covering back into the state treasury nearly all of the \$50,000 appropriated early in the session to aid the attorney general in fighting the rate cases.

The bill was accompanied by a letter from the attorney general stating that the money was no longer needed, and that only about \$5,000 of it had been spent. Out of the remainder might be taken the \$10,000 usually appropriated for a contingent fund in his office, and the remainder might be put back in the treasury. The bill which Mr. Spooner offered provided for this.

Mr. Spooner wanted to have the rules suspended and the bill passed at once, but the hour was late, the members had become suspicious of the bills they had never had a peep at, and, on motion of Representative Rockne, the bill was laid over until today.

Capitol Approach Scheme.

The house yesterday afternoon took up the bill providing for the killing of the mangled remains of the capitol approach bill, which Representative Tighe of St. Paul fathered. It passed, 42 to 43, but only after an earnest personal appeal from Mr. Tighe, and after Representative Brady of St. Paul had secured the carriers to bring in three more votes, which put it through.

At the beginning of the session there was a fine scheme on foot to have the state guarantee \$2,000,000 in bonds of the city of St. Paul to be used in building several fine approaches to the capitol, which were to be wide, tree-lined avenues that would add greatly to the beauty of the city.

It became evident early in the session that the legislators were not going to let the bill pass. The reason why it should be passed was the credit for the beautifying of the capitol city, and the bill was drawn, and two propositions substituted. One allowed the city of St. Paul to issue bonds for the purpose, and the other allowed the city to acquire by purchase or condemnation lands surrounding the capitol, to be used in extending the capitol grounds. The amount of territory to be acquired and the price is left wholly to the commission.

No appropriation is carried by the bill, but efforts are being made by Mr. Paul to get the bill passed. Mr. Paul is now in the capitol committee put something into the omnibus appropriations bill to help along the bill.

Explaining it, Mr. Tighe said it was the place that had been handed him in place of the grand scheme that had been devised at the beginning of the session, and it was all he had to take home to his constituents. It was a very innocent measure, and should pass.

On the roll call it became evident that the day was not yet won for the bill, and Mr. Tighe, in answering a question about the bill, found a chance to interpolate a speech into the roll call.

During the session Mr. Tighe has been playing brothers with the granger party, and on this occasion he sought to call the granger party to his aid. He called "Hey, Rubel!" with all his might, asked the granger party to return his favors, and said he was the only city member that had stood by them.

Representative Spooner said that it was an unfair bill, and that with great cunning and address it sought to bind the legislature to make large appropriations for new capitol grounds. Failing in the attempt, he sought to lead the legislature, without knowing what it was doing, into making the scheme a failure.

The bill got through by the roll call, with only two votes to spare.

Iron Deposits in Lake Beds.

The house committee on mines and minerals yesterday afternoon recommended for passage the bill providing that the state shall exercise a claim of ownership in the iron deposits in the Lake Superior company's lands.

The bill was introduced by Representative Tighe of St. Paul, and was passed by a vote of 42 to 43. The bill provides that the state shall exercise a claim of ownership in the iron deposits in the Lake Superior company's lands.

The house is far behind the senate in its work. The senate has been working busily on general orders and resolutions, and the calendar for several days, while the house has been taking up most of its time on special bills.

At the beginning of the session, the calendar was not touched in several days. The house will do well if it clears up the calendar and makes a brief incursion into general orders before adjournment comes Tuesday night, for the bills day, he passed in the session Wednesday morning.

HILL IRON LAND DEAL.

(Continued from page 1.)

Northern, James J. Hill being president, Samuel Johnson being vice president and John D. White being secretary.

As this line has since been absorbed by and is operated as a division of the Great Northern, and as all transactions connected with the ore lands were for the general benefit of the entire Great Northern system, we may with propriety consider the subject as a Great Northern enterprise.

It was apparent that the most profitable source of revenue in that section of the state was to be found in the hauling of iron ore. No part of the Great Northern system penetrated into the producing belt. From Swan River, however, a railroad, which had originally been constructed as a logging road, extended northeastward to the city of Hibbing on the Mississippi range, and some twenty miles beyond that road, together with some 25,000 acres of land, was the property of companies controlled by the Wright & Davis companies.

At the time of the purchase of the land, the Wright & Davis companies, a concern located at Saginaw, Mich., but which, for some years, had been operating in Duluth and lumber business, their operations extending largely over an area now known as the Hibbing range. From most of these lands the timber was cut and the lumber was sold as cut-over lands. The logging operations were about completed, and the Wright & Davis companies were desirous of closing up its entire business in Minnesota.

The Wright & Davis companies, in some of these lands, already the Mahoning mine had been opened and was producing. It having been the custom of the Great Northern to purchase the lands of the Great Northern for the purpose of purchasing them for the purpose of securing the Great Northern system the carrying of ore from this area to the iron producing region. Accordingly, a contract was entered into by James J. Hill, representing the Great Northern, and the Wright & Davis companies, by which the latter agreed to sell to the Great Northern all of the lands within the iron belt in Minnesota, purchased as above stated, and not included in the Wright & Davis purchase, complete upwards of 12,000 acres and containing about 1,000,000 tons of ore.

The Lake Superior company, limited, also purchased certain mining leases from the Wright & Davis companies, and in order to accomplish this, indirectly, under the law. There was organized the Lake Superior company, limited, consisting of James J. Hill, James H. Hill, John D. White, and others. The capital was \$100,000, and the company was organized to purchase the lands of the Wright & Davis companies, and the balance by the other two, James J. Hill and John D. White.

BEWARE OF IMITATIONS Cheap Substitutes and "Just As Good As."

Unscrupulous dealers, mindful only of profit and caring nothing for the health of their patrons, are offering for sale low-grade, impure whiskey, which they tell you is as "good as Duffy's."

It is a cheap concoction and fraud, intended to deceive the people.

Of course, when a remedy has been before the public so long, has been prescribed and used by the best doctors and in all the prominent hospitals, and has carried the blessing of health into so many thousands of homes as DUFFY'S PURE MALT WHISKEY has, imitations are bound to arise. But they can imitate the bottle and label only—no one can imitate the contents.

DUFFY'S PURE MALT WHISKEY is made from a formula worked out fifty years ago by one of the greatest chemists the world has ever known, and while it has cured millions of people during the last half century, the secret has never been discovered.

Any firm that will sell imitation or substitution goods will sell impure drugs. The firm that is dishonest in one thing would not hesitate to be dishonest in another. Whenever you see imitation and substitution goods offered for sale by a firm, beware of anything and everything put up by that firm. You endanger your own life and the lives of your family and friends by dealing with them.

BEWARE OF FRAUDS! Duffy's Pure Malt Whiskey

is sold in sealed bottles only—never in bulk. A facsimile of the genuine bottle, full size, is printed here so that you may easily recognize it. It is our own patented bottle—round, amber colored, and with the name "Duffy's Malt Whiskey Company" blown into the glass. The trade-mark—the Old Chemist's Head—is on the label, and over the cork there is an engraved paper seal. Be certain this seal is not broken.

REFUSE IMITATIONS AND SUBSTITUTES

When you ask for DUFFY'S PURE MALT WHISKEY be sure you get the genuine which is the only absolutely pure malt whiskey containing medicinal, health-giving qualities. Imitations and substitutes, far from relieving the sick, are positively harmful. Demand DUFFY'S, and be sure you get it. Be on your guard against refilled bottles. Duffy's Pure Malt Whiskey promotes health and longevity.

KEEPS THE OLD YOUNG—THE YOUNG STRONG

It is the only whiskey recognized by doctors everywhere as a guarantee of a pure and healthy beverage. The genuine is sold by all druggists, grocers and dealers, or direct, \$1 a bottle. Illustrated medical booklet and doctor's advice free. Address Duffy Malt Whiskey Co., Rochester, N. Y.

representing a beneficial interest in the said lands. These beneficial interest certificates, or shares, were distributed among the persons appearing as stockholders of the Great Northern Railway company on December 23, 1895, each of these persons receiving a number of shares corresponding to the number of shares of stock he held in the Great Northern Railway company.

The trustees receive a salary of \$10,000 each, save the president of the board, Louis W. Hill, whose salary is from \$25,000 to \$50,000 according to the income from the properties.

1. That the original purpose in securing the Wright & Davis lands, together with the railroad connected therewith, was to provide freight traffic for the Great Northern Railway company.

2. That the ore lands, and the whole thereof, were purchased for the purpose of and with the money or securities belonging to the shareholders of the Great Northern Railway company.

3. That the charter of the Great Northern Railway company, as amended by the federal laws forbidding that it own, hold, operate, or control any line of mining lands, and that, realizing this, the purpose was accomplished through the incorporation of the Lake Superior company limited.

4. That the transactions of the Lake Superior company limited, the same always having been directed, or subsequently ratified by resolution of the board of directors approved by the shareholders of the Great Northern Railway company, were in effect transactions of the Great Northern Railway company.

5. That the ore lands were purchased with securities, or income from securities, belonging to the shareholders of the Great Northern Railway company, and were assets of that company, or its shareholders, and for this reason it is our opinion that the great profits derived and to be derived from the mining lands in the Lake Superior company, instead of being segregated and distributed as a bonus to the stockholders, could very properly have been turned in as assets of the Great Northern Railway company, to be used by that company in the interests of the road, after the payment of reasonable dividends to the stockholders.

6. That if the leasing of the ore properties by the Lake Superior company, limited, to the United States Steel corporation, should be declared invalid and void, because in reality an ultra vires act on the part of the Great Northern Railway company, the state lands included in that lease would not revert back to the state nor in any way be affected, save reverting to the grantors of the Lake Superior company, who has in turn received from the state of the original leases from the state.

APPEALS HIS CASE

M. Cook Refuses to Abide by Decision of Court.

Will Attempt to Have Auctioneers' Ordinance Annulled.

M. Cook, who was arrested and convicted for violating a city ordinance by selling watches and jewelry at auction, and who was sentenced to pay a fine, with the alternative of a jail term, has given notice of an appeal to the district court, discharging his writ of habeas corpus. The papers were filed by Baldwin, Baldwin & Dancer.

The Cook case has been watched with considerable interest, as it was in the nature of a test case. Mr. Cook and his attorneys holding that the city council, or the city charter, had no right to prohibit the sale of jewelry at auction.

Judge Cant, before whom the habeas corpus proceedings were held, decided that the ordinance was to be construed as a regulation of the auctioneering business, and in the interest of the public's welfare, demanded its enforcement.

HAD NO USE ABSENTEE FOR ARGYLE PUNISHED

Mrs. Argyle's Sister Naval Militia Member Claims Defendant Mistreated His Wife.

Dr. J. E. Bowers Claims Pleads Guilty and Will That Argyle Was Insane. Pay a Fine of \$6.

The trial of the Argyle assault case bids fair to be concluded next Monday. There was no session today as the district court holds a special term every Saturday.

Yesterday afternoon, Dr. H. C. Leonard, who was called as an expert witness on insanity, for the defense, was examined and Dr. J. E. Bowers, another expert witness called for the same purpose, underwent direct and cross-examination. Both physicians gave as their opinion that Fred Argyle was insane when he fired the shots at Lakeside the evening of March 5 last. The opinions were based on the hypothetical question of Mr. Gullkin, counsel for Argyle, who stated what he claimed were the facts connected with the condition of Argyle and with his acts.

Dr. Bowers claimed that there is no well defined line between sanity and insanity and that it is sometimes difficult for alienists to determine whether a patient is sane or insane. He claimed that the first shot Argyle fired might have resulted in a clinical insanity, but that, being over, he might remember some of the events that took place. The witness said Argyle was sane up to the time he fired the first shot, but that he was insane immediately afterward.

A. P. McDonald, a News-Tribune reporter, testified to alleged statements made to him by Argyle in the police station, on the day after the shooting. He claimed that Argyle said he did not intend to injure anybody and that he fired the shots in the air.

Mrs. Argyle, who was the first witness called by the state in rebuttal, yesterday testified that Argyle did not treat his wife with kindness and consideration. She claimed that she told him to take about it one time and he ordered her out of the house, stating that his street-walkers were coming.

Miss Lavalle admitted that she never had any use for Argyle and that he was a nuisance. She said that she was married to him and that she was the mother of his daughter.

Miss Gertrude Lerner, a clerk at the Glass Block store, claimed that Argyle was apparently sane March 4 and 5, that she saw him many times during both days.

Absence from drill without an excuse from the center officer is being checked by the officers of the Minnesota naval militia in a way that is likely to impress itself on the minds of the enlisted men.

Under the federal and state laws the naval militia is invested with the same authority to discipline its men as the regular state militia and steps are now being taken to bring some of the delinquent members of the organization to a full realization of their duty.

Last evening a court-martial, the first one held by the Minnesota naval militia, took place at the Armory and one of the enlisted men who has been absent from drills without an excuse was fined \$6, with the alternative of three days in the county jail.

The court-martial was conducted according to the rules and regulations laid down by the war department. It was presided over by Lieut. C. W. Kelley, and Ensign J. A. Wharton acted as judge advocate. The charges were preferred by one of the commanding officers of the division.

The enlisted man charged with being absent from drills was represented by W. B. Buehler. After the investigation was partially completed the accused withdrew his plea of not guilty and entered a plea of guilty, his intention being to pay his fine.

It is understood that there are a few other enlisted men who have neglected to attend the drills and who have procured the prescribed excuses for such absence. Some more court-martials are likely to be held in the near future.

All the subpoenas and papers in a court-martial are served according to legal process and a refusal to obey is held and punished as contempt of court.

ROOSEVELT CONDEMNED By Olney for His San Domingo Policy of Debt Collecting.

Washington, April 20.—Richard Olney, who was one of the principal speakers at today's session of the American Society of International Law, criticized President Roosevelt's San Domingo policy, and condemned the taking of the Panama canal strip without compensation to Colombia.

As to Santo Domingo, Mr. Olney said that the United States was being made an international debt collecting agency; that the policy tended to tyranny and to retard progress and advance the interests of international law, which, he said, was not founded on the will of a Caesar.

Secretary of the department of commerce and labor presided today, and opened the discussion with an expression of the hope that if the Hague conference did not reach an agreement as to the limitation of armaments, the nations would understand that the limitation of armaments would be arrived at to prevent a neutral power from furnishing money to a belligerent.

It ought, he said, to be made a hostile act to furnish money to nations involved in war.

At the conclusion of the address of Mr. Olney, the general topic of the Hague conference, and the development of international law as a science, was discussed by John W. Foster, Prof. Theodore S. Woolsey of Connecticut, and Representative Bartholdt of St. Louis.

FAST TRIP FOR FREIGHT

Makes Trip From Chicago in Twenty-Four Hours.

Almost as Good Time as is Made by Passenger.

Twenty-four hours from Chicago to Duluth by freight is the record which was established this morning, when at 5:25 a. m. three cars of bananas came in over the Northern Pacific from St. Paul, destined for Duluth wholesalers.

The fruit left Chicago on a special freight train yesterday morning at 6 o'clock and went to St. Paul via the Milwaukee, from where they were sent to Duluth.

This is almost as fast time as is usually made on regular passenger traffic between Duluth and the Windy City over the route named and is beyond a doubt a record for quick freight handling in the Northwest.

Leo A. Bal, district deputy of the Omaha order, which reaches Chicago over a much shorter route than that traveled by the fruit cars yesterday, requires over twelve hours for the trip, which, considering the distance traveled, is not very much better average time than was made by the freight train.

James Lewis, who has been connected with the local freight department for the Northern Pacific as far back as the memory of the oldest inhabitant, says it is the quickest he has ever known, and there is no one in the city who has disputed the statement.

EXCITING RACE ON FIRST STREET

Jack Ahern Defeats A. S. Gibson by Good Margin.

An exciting fifty-yard dash was pulled off about 11 o'clock this morning between Jack Ahern and A. S. Gibson in front of Bayha's on First street. The race drew a crowd of about 500 people and caused considerable excitement for a time. Ahern won out by a margin of twelve feet. Dr. McNulty fired the starting gun.

The race was planned a day or two ago when the two participants got into an argument as to their respective speeds and finally decided to settle the question, their friends backing them heavily.

Gibson says his defeat to the fact that he is not in condition while Ahern was trained down to a fine point, and he has offered to back himself for \$200 for a second race after he shall have had a chance to get in shape for the contest. He says he has not run for two years and was in worse condition this morning than he supposed.

Ahern showed fine form and was in first rate shape, running strong and fast at the finish. Considerable money was wagered on the contest, one of Gibson's backers losing \$50 by his opponent's defeat. Those who saw the race are hoping for a second contest in the near future.

WILL START NEW BRANCH

Knights of Columbus Leave for Crookston in Special Cars.

New Council of the Order Installed There Tonight.

Two special cars, containing about 100 members of the Duluth Knights of Columbus, will be attached to the Great Northern train this afternoon, en route to Crookston, where the Duluth officers will officiate at the organization of a new council of the order, this evening. Crookston will also be the Mecca of four other councils, as the Fargo, Winnipeg, St. Paul and Minneapolis councils will also be represented at the organization of the new chapter, and the town will be given over to the lodge men and their friends tomorrow.

The local delegation is expected to arrive here by Monday morning. Leo A. Bal, district deputy of the order, D. P. MacDonald, grand knight of the Duluth council, assisted by officials from the four other councils which will send delegations, will officiate at the installation. It is expected that the Crookston council will be organized with about sixty members at the start.

The Crookston Knights have made all sorts of elaborate preparations for the entertainment of their fellow councilmen, and a most enjoyable program has been planned.

Delegates Elected. Court Commerce, No. 3233, Independent Order of Foresters, held a business meeting last night, at which place the delegates to the high court meeting, to be held at Crookston, Minn., were elected. They are: George R. Laybourn, Charles S. Palmer, W. J. Pierce and W. W. Hoopes.

Sons of Veterans. The committee on Memorial Day will meet with the Sons of Veterans Tuesday evening.

The Duluth camp, Sons of Veterans, are planning to have an old-time camp-fire in the near future.

Wrong Address Given. In the item regarding the dancing party to be given by the Imperial camp, No. 2296, M. W. A., the address of the hall should have read 224 West First street, instead of 224 West Fourth. The party will be given next Tuesday evening.

Meeting Is Called. A call has been made by the secretary for a meeting of the committee which will have charge of the entertaining of the delegates of the National Fraternal congress, which will meet here in August. The meeting will be held in the Commercial club rooms, Friday evening, April 26.

OMAHA ROAD ACCEPTS RATE

All Fares in Minnesota Will be Two Cents Per Mile.

St. Paul, April 20.—(Special to The Herald.)—The Chicago, St. Paul, Minneapolis & Omaha railway today, in a circular, has declared its acceptance of the ruling of the legislature in making the maximum passenger rate in Minnesota at 2 cents a mile. The new rates will be in effect May 1. The circular provides that all rates between Minneapolis, St. Paul and Minnesota points will be abolished and the regular fare of 2 cents a mile charged.

All communication tickets between St. Paul and the smaller nearby towns are declared off, as well as the homeseekers rates, the party excursion rates and authorized short-line mileage rates. These rates will hereafter be based entirely at 2 cents a mile.

The new rates only apply, however, to points in Minnesota, but they will apply to all classes of passengers. Mileage tickets sold after April 30, 1907, will not be good for passage between points in Minnesota, but will be good otherwise as heretofore, and further orders, on stations between Minnesota and stations and other states.

Interested travelers may avail themselves of the reduced rate in Minnesota by purchasing tickets or paying train fares to and from the state boundaries.

DR. HOAG. Dr. Hoag will be in Superior, Wis., at Hotel Superior, Wednesday, May 8th, 1907; office hours from 11 a. m. to 8 p. m., and in Ashland, Wis., Commercial house, Thursday, May 9th, 1907, where he can be consulted privately and free of charge.

FOUND ARSENIC IN MRS. METTE'S STOMACH.

Chicago, April 20.—Prof. Walter Holmes, the chemist of the coroner's office, today reported to the coroner that sufficient arsenic to cause death had been found in the stomach of Mrs. Mary Mette, who died several weeks ago. Frank Mette, her husband, died April 6. It is supposed also of arsenical poisoning.

Several others of the family are now in hospital as the result of food in which arsenic had been poison. There is no present clue to the poisoner.

Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alterative. REALTY MARKET SHOWS A MARKED ACTIVITY

Gregory Company Reported to Have Bought Fifty-Three Acres of Waterfront Property From Thomas Lowry—Much Speculation on Location of Steel Plant and Shipyard—Steady Selling of Residence Property.

"I wish I had \$1,000,000 invested in Duluth real estate this very moment," remarked a well known local real estate man yesterday afternoon, after commenting on the several big enterprises already known and others which are as yet speculative and which will tend toward the building up of the population and wealth of the city.

"I have been in the business here many years and during that time have seen prices of real estate take a large and sudden increase simply on the rumor that a certain industry was coming here. We know now that the Great Northern Power company's plant is an assured thing; we have definite and positive information that the steel corporation is going to establish a large plant here; that the Wisconsin Central railway is coming in here; and have reliable information that Duluth will probably get a large shipyard; and that some other railroads and important industrial projects will also come in the near future. With the knowledge of all these things, it strikes me that this is the turning point for one of the large real estate movements that Duluth has ever known with will result in the building up a mighty city here at the head of the Lake Superior."

The foregoing statement pretty well expresses the sentiment of the real estate men and investors in Duluth property at the present time. There is a confidence in the future of the city that was never before so apparent and it is a matter of common remark that if any other city in the country was as many big industrial enterprises assured for it as Duluth the people would not be so slow to depreciate the publicity given to the advancing prices of local real estate. It is a fact that the real estate men and investors in Duluth property have been reluctant to report their sales for fear that some of the deals on which money has been paid and which are awaiting the owner's sanction, may fall by reason of the refusal of the latter to sell.

Those who have been following the course of the transfers comment on the fact that the movement in real estate is not confined to any one or two particular localities, but the selling is general in all parts of Duluth.

There is a strong demand for improved property. A great many people want homes and a majority of them seem to be disposed to buy property already improved if they can get it. Even with that condition of demand there is a much larger building movement than there was a year ago when the cost of building was somewhat less than it is at the present time.

A special to The Herald from its Washington correspondent, which came too late to publish in yesterday's paper, announces that the secretary of treasury has decided to purchase the H. M. Peyton property on the north-west corner of Fifth avenue west and First street for \$66,000 for the new postoffice building. The property has a frontage of 150 feet on First street and is 140 feet deep on the avenue. A fractional part of the property not owned by Mr. Peyton will be secured under condemnation proceedings. This announcement of determination of the government to purchase the Peyton property is no surprise, as it was generally expected that the new postoffice building would be the building owned by Mr. Peyton from the federal building. The fact that the Peyton property was under option to the government for the purpose mentioned, was published in The Herald some months ago. The contemplated improvement of the corner will be an important one for West First street, as it means permanency of public buildings in that locality. When the postoffice building and the new courthouse are erected, three large public buildings will be located on First street between Fourth and Sixth avenues west.

The probable location of the steel plant and the Tomlinson-Davidson shipyard are topics of a great deal of interest among the real estate men, investors and the people at large throughout the city. While it seems to be a matter of general belief that the steel plant will be located on the St. Louis river and the shipyards at or near Oneca, nobody seems to have any

positive knowledge about the intentions of the corporations, nor are they likely to have until such information is given from authoritative sources. The talk about the sites is entirely of a speculative character.

The report that the Merrill & Ring sawmill property at West Duluth is under option to persons whose names are not made public, is causing much speculation. The property comprises outlots A and B, running from the Terminal company's tracks out to the dock line. In support of this contention some of the real estate men point out the fact that there is practically one water front property left, outside of the holdings of the West Duluth Land company, in Oneca that has not been taken by interests likely to have a use for such water frontage. The available property is said to be Erie pier. On the upper side of the railroad bridge the water front, with the exception of the West Duluth Land company's holdings, has also been pretty well taken up by industrial enterprises. Mr. Lowry owning nearly ninety acres of the Zenith Furnace company about 133 acres, and the Duluth Tar company thirty-six acres.

That there has been much activity in the way of negotiations for dock property and water frontage along the upper bay, for some weeks past, has been a matter of common knowledge, and some of the deals are now so widely known that there seems no special reason for suppression from publication what nearly every real estate man in town is talking about.

It is understood that within the past week or ten days that Thomas Lowry, the street railway magnate, has disposed of 53.5 acres of water front property on the upper bay to the Gregory company for \$300 an acre. The property Mr. Lowry is said to have sold, comprises outlot F, with 47.2 acres; outlot G, with 3 acres; and outlot E, with 3.3 acres. A large portion of the land is under water and has been used as the banking ground or log pond of Alger, Smith & Co.'s West Duluth saw mill.

The Gregory company is quite heavily interested in Duluth realty for investment. John McCarthy and John Stephenson are among the local people connected with it.

The residence property adjoining the Peyton property on First street between Fifth and Sixth avenues west, was sold this week by S. B. Vance to C. S. Sargent, for \$18,000. The property has a frontage on the upper side of First street and is described as lot 57, West First street. The deal was made through the office of Little & Nolte.

The C. F. Johnson residence on the southeast corner of Fourth avenue west and Second street, facing the courthouse site was sold this week to purchasers represented by F. I. Salter, for \$10,000. The lot is 50 by 100 feet and is occupied by a frame dwelling.

Quite a number of grades of residence property in the eastern end of the city have been made lately. John B. Greenfield reports his office. John Coventry's residence at the northeast corner of Forty-eighth and London streets, comprising the west half of block 47, London addition, to O. R. Harris, for \$4,200; W. H. Squire's residence at the corner of Dodge street and Forty-seventh avenue east, comprising lot 16, block 112, London addition, to John Ramberg, for \$2,900; H. W. Andriago's residence property on the upper side of McCulloch street, described as lot 13, block 54, London addition, to Albert Holme, Louis Loranger's residence property, described as lots 300 and 301, block 27, Cronley Park, addition, to Charles R. Stal, for \$1,000.

H. B. Fryberger has purchased from W. D. Winsor and others a 50-foot lot on the lower side of First street, between Lake avenue and First avenue east, for \$3,000. The property is described as lot 6, East First street, and it is understood to have been purchased for investment.

Edward Mendenhall has sold W. F. Smith for \$3,500 a residence property on the lower side of Fourth street, between First and Second avenues west. The property is described as the west 10 feet of lot 23, and the east 20 feet of lot 25 West Fourth street, First division.

Two residence properties in Highland Park addition have changed hands this week. G. W. Bergtold has purchased from the Sterling Land company lots 7 and 8, block 11, for \$2,700, and H. C. Beckwith has purchased from L. P. Murray and others lot 13, block 17, for \$3,400.

F. H. Burnett has sold E. E. Hollinshead for \$7,200 a residence property on the upper side of East Third street, just east of the corner of Fourteenth avenue east. The property is known as the west half of lot 16, block 90, Endion.

Henry Guyer has sold a residence property on the upper side of Fifth street, between Tenth and Twentieth avenues west, to Sultana Zoey, for \$2,650. The property is described as lot 313, block 12, Second division.

The People's Brewing company, which is planning to erect a new brewing plant in Oneca, has added several more lots to its property holdings. A transfer was recorded this week of lots 5, 6, 7, 8, 13, 14, 15 and 16, block 64, Oneca from George L. Raymond for \$3,400.

Another new real estate firm commenced business in Duluth this week when the E. H. Hope Land & Lumber company opened its offices at No. 10 Lyeum building, Fifth avenue west. The company is handling some large tracts of farming, mineral and timber lands in Aitkin county.

The following transfers of titles under the Torrens Land registration law were recorded this week by the registrar of titles:

George L. Raymond and wife, to People's Brewing Co., lots 5, 6, 7, 8, 13, 14, 15 and 16, block 64 Oneca \$3,400

Lamp Screen of Paper

ROSE SIDE SCREEN, SIZE, 9 INCHES IN DIAMETER. COPYRIGHT BY DENNISON MFG. CO.

A rose screen is made on the same principle as an ordinary crush rose, enlarged, of course. The center, too, requires enlargement. Long stems, laden with leaves, form a background for the flower, and the whole is completed by a brace for the back, which keeps the shade from too close proximity with the lamp. This is a little wire affair, which may be purchased for 10 cents.

To make a rose for such use crush three of these in the fingers for center, forming a little hood, and wire to a stiff stem. Roll the tops of the other petals from you over

a crochet needle, then with the forefinger and thumb of each hand push together. This gives the curl, and at the same time a wrinkled effect. The sides of the petal are curled inward in the same manner. Curling in this way rounds the petal and gives the rose a full, rounding shape.

Place the curled petals a little above the center ones and wire on japping each petal nearly halfway over the one preceding. Wrap the petals close to the center, as the tendency is for them to spread. Continue until rose is of desired size. File on calyx, attach flower to green covered wire and wind.

Simple Methods of Making Old Dresses Look Like New

To a girl whose frocks are few, spring is not that season of untrammelled joy of which poets sing. For, alas! the time of putting on thin dresses has not yet arrived, and those she has worn through the winter show they are not new, and for the average young woman it is not easy to be contented with old clothes. Where new ones are out of the question much may be done for little cost to freshen old garments if a girl will give time to the remodeling.

Dressing, sponging and putting on new finishes will really do wonders for an old suit, for example. Just as the best cloth dress in the world would not look well were it not pressed, so steaming and ironing will spruce up the old. Try it on one and see.

Take an old skirt, begin to rip at the waistband, and unpick enough to allow it to lie perfectly flat; then arrange an ironer's dress board on two chair backs, get a basin of hot water and a little liquid ammonia, set in the seat of the chair where it will be handy. Next get a piece of clothing sort, with design such as tweed or covert coating. Cut it about half a yard square or less and have three or four very hot irons at the fire. These are the most important

as they must just be under searing point, and a stiff clothes brush will be needed.

Having collected all the requisites and spread the dress over the board, dip the piece of cloth in the water and wring it out as dry as possible; then spread it like a patch over the dress; smooth it down and iron quickly with the hottest iron. As soon as the iron has passed over the whole surface of the patch tear it quickly off, and while the cloth below is steaming brush up the nap with the clothes brush and leave it while you proceed to do the next square of the skirt, repeating the same process until the entire garment has been ironed that way.

The effect is marvellous and the dress, when done, will be almost as good as new.

The jacket may be treated in the same way, great care being taken in pressing the seams and round the edge of the coat.

A set of new buttons will also improve a wrap, and a white rolling collar and cuffs transform it. If the cloth is a heavy one do not make the mistake of having the white set of a thin variety. The contrast will be bad. It should be heavy linen or pique. These launder perfectly when soiled. It is astonishing how well an old pair

Lingerie Bonnets for Children

Dainty lingerie bonnets, trimmed with flutings of fine linen and delicate and edged with narrow Valenciennes lace, will be worn by small children this spring and during the coming summer.

Caps made like the one in the illustration, of sheer linen, such a bonnet, either plain, with a series of flutings, or with ruffles of insertion, will be appropriate for every day

wear, or when baby is dressed for an outing in the afternoon.

Long or short linen streamers, fastened to each side of the cap, are tied under the chin to keep the bonnet securely in place. These strings are pretty trimmed with lace and ruffles to match the decoration on the cap, or if hemstitched they will be quite as effective.

Fashioned of sheer linen, such a bonnet, either plain, with a series of flutings, or with ruffles of insertion, will be appropriate for every day

of boots look if the heels are built up even and the buttons all on. Use heavy polish on a pair thus revamped, keep them shined, and a girl has no need to be ashamed of the way her feet look.

Hats, I admit, are a difficult proposition for the next few weeks, but even they may come in for improvement. If the trimming can be removed,

so much the better. Take it off, and beat and brush the hat carefully, but thoroughly. Then with a stiff brush, but one small enough to get into the creases, go over all the trimming. Velvet bows may be steamed and

pressed, and flower petals brushed and pressed too, with the point of the iron. Curling makes old tips new, and a few cents spent for a wig now is worth having. One is more than repaid for the trouble in the general effect of freshness and smartness.

Boas, Ostrich, Marabout and Chiffon for Spring Use

When a fur boa is first laid aside about the throat to a plain coat it is necessary to have some light collar may not be too sudden. This rule so that the change from fur year, neckpieces, skins, etc., will be

Replete with originality is this model of white cloth, the trained, rather clinging skirt disclosing front panel, arrived at by means of inverted pleats, caught down to the depth of the lower crossbar of platinum and gold braid and gold buttons. On the supremely graceful corsage a broad silk braid is introduced, with singularly happy re-

are many shaped collars and caps effects that are rather smart. Ostrich and coque feather flat boas that are white on one side, with a color on the other, are attractive, as are the mixtures of white with a color. Then there are the coque and marabout neck pieces, with little ostrich tips through them, that are exceedingly pretty. Plain round feather boas have to be unusually long and full to be really smart, for, after wearing the wide fur stoles all winter, a small feather boa would look rather poor and anything but smart.

Shaded coque feathers in any shade that is best with the cloth suit are still to be had, and are very little different from the ones seen some years back. For the street dark tones are most in vogue, and with a cloth suit the boa is better a shade darker than a tint paler than the costume itself. The bright shades of blue, pink and mauve are sometimes seen at the theater, and, just at this season and in the autumn, are effective with muffs to correspond if worn with a dark cloth or silk dress.

Brown, feathery marabout is so delightfully soft to wear, and is such an excellent weight for the between seasons, that it remains in fashion year after year.

A severe tailor gown almost always requires some relief, and a full ruche of net or chiffon gives just the necessary touch. This style of boa should be carefully selected, with an eye to the becoming, for, while one will look exceedingly well in a short, very full ruche, another finds a longer, thinner model more becoming. Long ribbon ends looped up here and there in tiny bow knots and rosettes finish the boa off attractively and give it the necessary length. In most colors net ruching can be bought by the yard, and it is generally less expensive to buy it this way and make the ribbon streamers at home than to purchase the finished ruche. A maine collar for the neck is scarcely worth the purchasing unless made from the so-called waterproof tulle, which really stands an extraordinary amount of wear. Silk net, either plain or figured, makes always a good looking ruche, and this is the favorite material among the ready made ruchings.

Chiffon is rather too heavy to be pretty for a light boa, but there are to be found a number of chiffon ruches that are decidedly smart. For mourning black chiffon is more stylish than net, and in black looks less hot than when made in the colors. Chiffon cloth is a better investment than chiffon or mousseline de soie, both of which give most unsatisfactory wear.

In making up a ruche from the plain net, it is possible to get far more attractive results than are ever seen in the shops, as by tying on little rosettes and bow knots which cost hardly anything, a really expensive looking boa may be fashioned. Satin, velvet and taffeta ribbon are all equally in fashion, sometimes all three being used and carried down in the long streamers.

BOUGHT ELSEWHERE.

They were selecting the jury the other day for the trial of a will case in Judge Strimple's court. Michael Graham, a West side grocer, was on the stand, and Judge Noble was asking the usual formal questions to determine his qualification to sit as a juror in this particular case.

"Your name," asked Judge Noble.

"Michael Graham, sir."

"And your occupation?"

"I'm a grocer, sir."

Quire, Sanders & Dempsey represented the other side in court; and Judge Noble continuing his questions, asked: "Have you ever done business with Squire Sanders & Dempsey?"

GOWN FOR AFTERNOON WEAR.

Japanese Wrap Called Tonkinese

THIS WRAP IS A JAPANESE MODEL. COAT FROM JAMES MCCREERY CO. PHOTO BY MISS RUTH SANDERSON OF THE ROSE OF THE FRENCH CO. PHOTO BY JOEL TUCKER.

This garment is what its French maker calls a "Tonkinese" wrap, doubtless because of the Japanese influence in its shaping and the exquisite Oriental embroidery which embellishes it. The material is a tussah silk. The fronts of the coat are loose and cut away from the bust line, where they are fastened with

two large pearl buttons set in gilt rims. The back is circular and joined to a yoke embroidered in white, blue and gold threads in Japanese designs. The real novelty of this coat is in the mandarin sleeve created this season to fit the exaggerated armhole which is seen in almost every wrap and costume of the present day. These sleeves are of

fillet and narrow Irish crochet insertion over white satin. They are full length and finished at the hand with a narrow band cuff, in which there is a touch of black satin.

A bit of black in the simulated collar and the yoke, which takes the lines of a sailor collar in front, are trimmed with long white silk tassels.

Checked voile in a dark color with white dots makes a stunning bodice that will be particularly serviceable for wear on cool spring days. As the material is too sheer to be practical, a slip of some dainty light silk must be used as a lining. It adds to the effec-

tiveness of the garment.

A blouse, fashioned like the illustration above is a model that the amateur sewer can follow with no difficulty, for it is cut on simple lines. A square yoke filled in with Irish lace is surrounded with two rows of braid, ending

in tabs that are stitched to the material directly in the center. Three small tucks on either shoulder give a fullness to the waist that has a decided blouse at the bodice. The full three-quarter length sleeves are finished with three pieces of narrow Valenciennes lace ruchings.

DULUTH WOMAN HAS VALUABLE COLLECTION OF PHOTOGRAPHS OF EARLY DAYS OF CITY

Pictures Taken Before the Ship Canal Was Put Through.

Queer Methods of Carrying the Mail Then in Vogue.

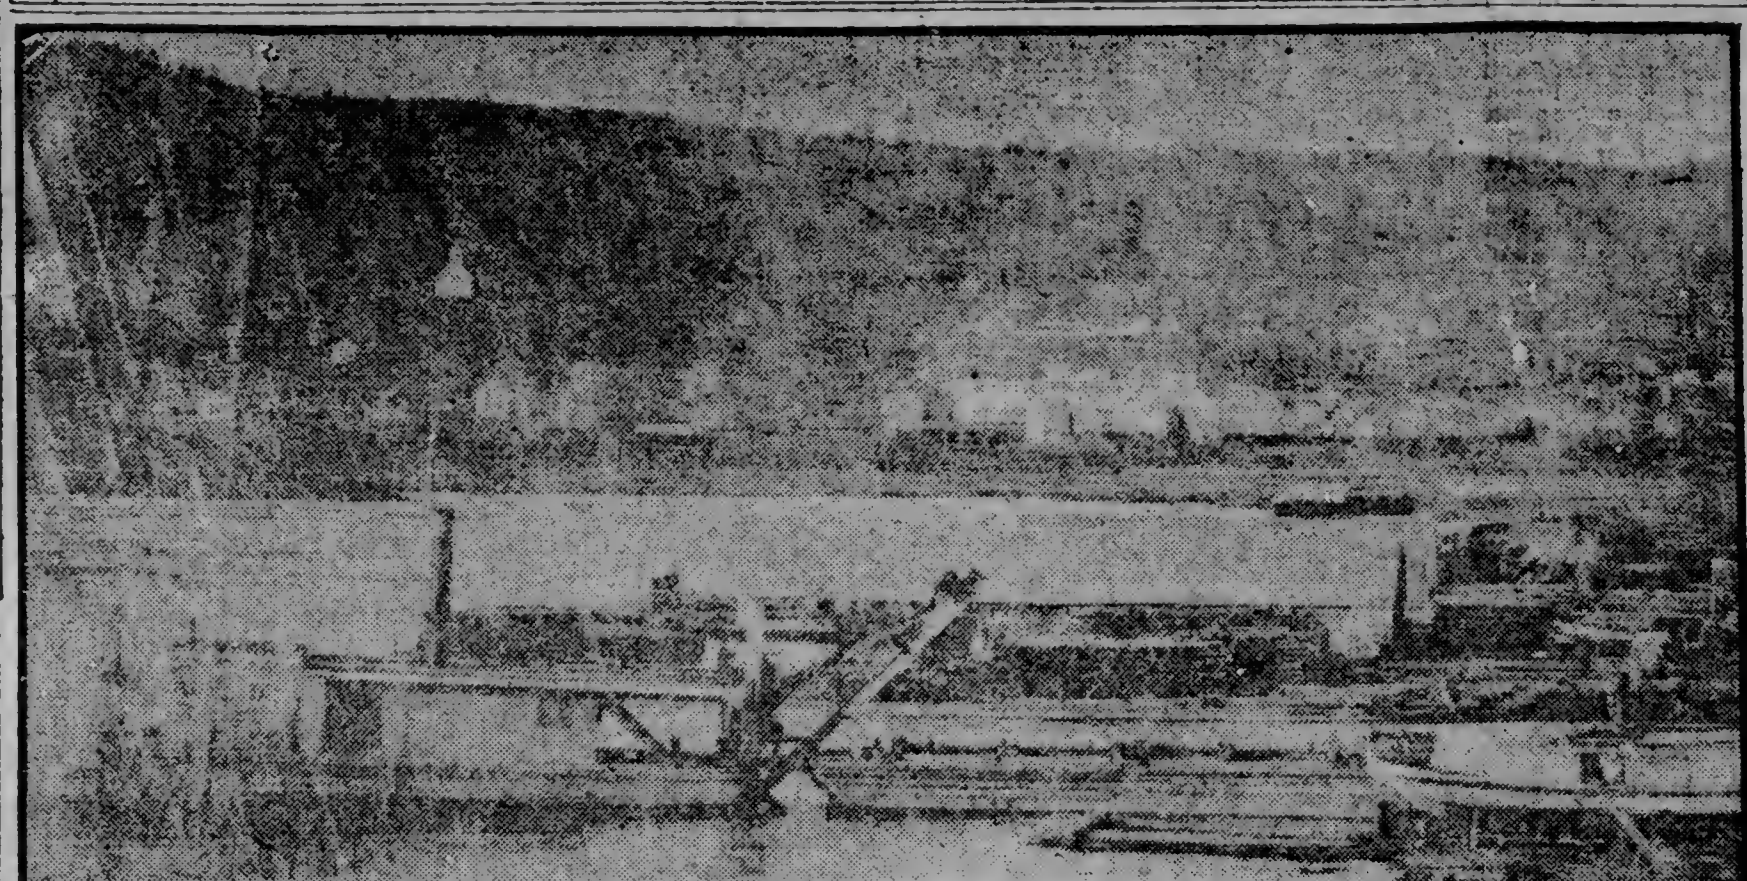

Views of First Fire Hall and Other Buildings.

Duluth's early history is still as familiar to a number of the pioneer citizens as an open book, although very few photographs of the city taken during its infancy are still preserved.

An unusually fine collection of old views is owned by Mrs. E. F. Heller, who spent her girlhood in Duluth.

In her collection are probably some of the first pictures of the city ever taken and one is marked 1869 although the writing is scarcely legible. One of the pictures shows Duluth's first fire hall, built in the early '70s. The little fire engine used in those days is shown in front of the building with a portion of the volunteer fire company. Old settlers will remember how proud the citizens became after this little engine was purchased and installed at the new fire hall. The building still stands on Second street opposite the high school building and is occupied by a grocery store.

One of the early lake boats is shown in another of the views. In the picture the boat is shown nearly surrounded by ice, as the photograph was taken during the late fall. Another boat view shows a fleet of the old time steamers and schooners tied up at one of the docks. Some of these boats are still in commission, but are now fast disappearing. The docks in

DULUTH FROM THE HARBOR BEFORE THE CANAL WAS CUT.

those days were rather primitive affairs as is shown by the picture. Very little dredging had been done in the harbor at that time and there were none of the deep modern slips which are used in these days.

One of the oldest of all the pictures in the collection is a general view of the city, taken from the bay some time prior to 1870. From Superior street up the hill the pine woods were very thick at that time and the clearings were few and far between. Where the row of white buildings is shown just above the shore line is the street now called Superior. One of the buildings in the row was one of the first hotels in the city. Where First and Second streets now run, a few buildings were scattered in those days and further upon the hill a little white church is shown. Where this little church was situated now stands the Catholic cathedral.

What is now East Superior street is shown in another of the views and some of the earliest houses and buildings

can be seen. The view was taken at about Fifth avenue east and old settlers will readily recognize some of the buildings. The sparsely settled condition of the street which now has such a busy thoroughfare, can be readily seen from the picture, in which is shown the wooded district coming right down to the principal buildings.

The picture showing the two dog teams with their sleds, might have been taken in Greenland of the Klondike, but this was also the pioneer manner of transporting the mails up and down the north shore between Duluth and Elavay Bay and other points. The picture was taken on the ice in the bay.

The collection also contains a view of the oldest house in Duluth, known as the Foster house, which is situated on Lower Lake avenue about 500 feet from the canal. The house was built in 1836, by Robert E. Jefferson and for some time was run as a hotel and was known as the Jefferson house. It was

later purchased by Thomas Foster, who was one of the first newspaper men in the city. He was the man who gave Duluth the name "Zenth City of the Unsailed Seas."

Two small pictures show the first volunteer fire department drawn up at drill and the other the first Memorial day celebration held here after the war. Another picture gives a view of Minnesota Point before the Duluth canal was cut through and another view of the bay before it was dredged out. In those days part of the bay was nothing more than a big swamp, especially at the Duluth end. One picture in the collection shows the result of a snowstorm in the early '70s. A view of Lake avenue after the storm shows buildings nearly covered with snow and the street shoveled out looks more like a railroad cut through a mountain than anything else.

The collection of views is valued very highly by the owner and members of patriarchal. They build no houses, but live in rude huts and trunks of large trees. They clothe themselves in bark and eat wild beasts and vermin. They are very arrogant, but mortally afraid of cannibals. If they have any religion at all, no foreigner has ever been initiated into its secrets.

Far in the north, hidden by the mountains, exists still another tribe of dark-skinned, which a score of years ago were little more than beasts. They wandered in the forests from day to day, sleeping under trees and occasionally cave wherever they night overtook them, hunting for a living and dying when hunting was poor. Since then, however, brought into contact with traders from other regions, they have assimilated many habits, customs and beliefs of Eastern and local peoples. They have now much of the Tagbanuan in them. The still retain agriculture, and only when forced to it, trouble to raise a crop of rice. At rice harvest time, all the neighbors of the tribe hold an old-fashioned "husking-bee" or "log-rolling party," each one trying to gain the most crop and taking equal shares as pay.

These Batanes are not such a clean tribe; Senior Venturilla found 60 per cent of them diseased. But with all their uncleanness of body, they insist upon cleanliness of soul. If after death their god, Diwata, should judge their souls unstained they are sent with the accompaniment of stringed instruments and flute to the happiness of Lupaing. The guilty souls, however, are doomed to be thrust into the depths of Basal, where are waiting caldrons of fire and boiling water.

Much like the Batanes clan of the only legacy is a little tribe of agile men, the Tanduian. They live on the seashore and roam in the forests with no view but to visit for shelter. Much of their time is spent bee-hunting, for the great ships which wait in the harbor pay them well for wax and honey. They, too, abhor cannibalism; stories of victims buried alive, says the traveler, are told only by the head men. But now the Tanduian have dwindled. Two decades ago a powerful people, as power goes among these natives, they were almost obliterated by a scourge of tropical miasms, the result of which will never recover.

RADIUM AS MEDICINE

What An Expert of George Washington University Has Discovered Regarding the Curative Properties of the Marvelous Element.

Washington, April 20.—(Special to The Herald).—Is radium, that mysterious element which, through the incessant activity of the radium clock, has enabled the scientist virtually to solve the problem of perpetual motion; whose value exceeds that of the most precious metals of ancient times over, and is likely to increase progressively with increasing demand—is this marvel of the new science destined to give medical treatment of several of the most serious ills under which humanity labors? Ever since the discovery of radium, in 1896, by Henri Becquerel and Madame M. Curie, a considerable number of physicians on both sides of the Atlantic have been experimenting with the element, with a view to discovering what it will do and what it will not do, by way of stimulating or retarding the development of the human tissues. A literature embracing forty or more volumes and many important magazine articles bearing on the subject, has been created, and in France, an entire magazine, Le Radium, has been devoted to this new power.

Now comes an announcement that the Jamestown exposition is to have a special department for the display of what radium has accomplished for medical science up to date. This supplementary to the exhibit of the physical properties of radium, under George F. Kunz's supervision, will be in charge of Dr. Truman Abbe, an instructor in physiology in the George Washington university. Dr. Truman Abbe was one of the first in this country to collect all available information regarding radium, and to inquire into its medicinal effects. With his uncle, Dr. Robert Abbe, of New York city, he has probably done more advanced work in radium therapeutics than any other physician in the United States, and his appointment as head of this department at the Jamestown exposition, came in recognition of a typical example of the spirit of research which prevails in the scientific professional circles of Washington. The opportunities afforded by the great collections like the National museum, the Smithsonian institution, the Army Medical museum, the Museum of Naval Hygiene, and by other government departments, for the encouragement to professional men and to advanced students at the national capital to conduct independent investigations, Dr. Abbe, like so many members of the medical department of the George Washington university, has made the most complete of its kind in the world, to be of invaluable assistance in the studies he has been pursuing.

The radium exhibits for the Jamestown exhibition are now being gathered. For average Americans, all

ways intensely curious as to the latest results of scientific achievement, they are certain to be of peculiarly fascinating interest. The wonders of the elements have been extensively proclaimed in the newspapers and magazines, but the chance, actually to see its effects and uses is one that has not been offered to so many people in the aggregate. In the collection which will be brought together by the expert from George Washington university will be specimens from the aggregation of radium owned by Dr. Robert Abbe of New York city, who has obtained for his own use more specimens than are possessed by any other individual in the United States.

In Dr. Truman Abbe's personal collection, which will also be shown at Jamestown, is the first example of radium in a diluted form that was ever brought to this country. It arrived here soon after the identification of the substance in the late '90s, and part of it went to the Smithsonian institution. There will, further, be radium photographs, which the public will be able to compare with the more familiar X-ray photographs, demonstrations of the therapeutic qualities of radium and examples of the literature of the subject.

A very short time has elapsed since the discovery was made that of all radio-active bodies by far the most powerful is one which may be derived in the form of salt from pitch-blend, and far-reaching consequences in the practice of medicine have not yet been attained. Only charlatans and fakirs pretend that a new panacea has been found. What Dr. Abbe's exhibit will show, however, is that a promising field of investigation has been opened. Radium applied to the human body certainly has possibilities. It is not merely a scientific curiosity. The wonderful and spectacular effects that emanate from the element whose potency is practically without a time limit are well known.

Among such are the radium clock, with its alternately charging and discharging gold leaves, which to all intents and purposes has solved the riddle of perpetual motion; the fluorescence, or glow that is imparted to many substances as they come near a bit of the magic stuff; even though it is wrapped in thick sheets of lead and buried from sight in a drawer of a cabinet, the penetration of one or more of the three forms of rays through almost all known substances, including, of course, the human body, and the imparting of radio-activity to nearly all substances that come into the field of activity of the rays. X-ray photographs, or skiagraphs, as they are technically called, show generally less definite edges than those of the X-ray photographs.

Yet what especially interests the physician anxious to utilize any new knowledge available for the elimination of the old troubles of the race, lies in the fact, now universally admitted, that mysterious radiations and emanations from this product of pitch-

blend have the power of checking the growth of certain vegetable and animal cells and tissues, while stimulating others to greater activity. This property has been illustrated by almost countless experiments conducted with plants, animals and human beings. By physicians radium has been applied to the skin; it has been sunk below the surface of all sorts of organisms and its effects carefully observed. It one instance it was brought next to the electric torpedo, a fish that ordinarily will hand out several hundred shocks in rapid succession; but, under the influence of the radio-active emanations, it lost its power of electrical discharge. There have been numerous attempts to restore sight to the blind through radium—unsuccessfully for the most part up to the present time.

Above all, the radium treatment of cancer has been carefully studied by a few physicians who have foreseen in the possibilities of immense benefit to the race. A cancer, in plain language, is nothing but mass of perverted and rapidly growing cells. The reason for their perversion, whether they are due to toxins in the blood or to a germ not yet identified, still awaits discovery, agency which will retard the development of diseased cells, bids fair to accomplish that which has heretofore been possible only through surgery, and then, usually, with no assurance of ultimate success. Radium applied to a cancer inhibits the growth of the cells for about a centimeter below the surface. Even in the case of cancers that are well along, the use of radium, it has been discovered, gives relief; and it is believed that in the early stages something more radical may be effected.

One of the greatest difficulties up to this time has been the scantiness of the supply of the element. Cancers are often very extensive, sometimes involving half of a man's head and having secondarily deposits anywhere in the man's body. While one portion is being treated with one of the small particles of radium which have few thousand dollars will purchase, the rest of the great tract of perverted cells continues on its course of destruction. Thus far the source of supply is so limited that use of radium in large enough quantities to be effective in treatment of cancerous growths of any considerable size is obviously out of the question.

What, however, has been accomplished up to this time by medical men who have made use of radium, will be exhibited at the Jamestown exposition, and, incidentally, the medical fraternity throughout the United States will be given a demonstration of the richness of material for research in this direction which the capital city affords. One of the greatest assets possessed by the department of medicine of the George Washington university is the easy access of its teachers and pupils to such collections as the surgeon general, library and to the very important marine hospital service floating with national problems in hygiene and the laboratories of the various government departments, which are all open to students of medicine—just as the literature of radium is all comprehended in the library in question.

A Woman Tells How to Relieve Rheumatic Pains.
I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice, many of my friends have tried and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

DULUTH NAVAL RESERVES WILL HAVE A NEWER AND MUCH LARGER VESSEL

Gunboat Dorothea is a Modern and Roomy Vessel.

Officers and Men Elated Over Change from Gopher.

NEW TRAINING SHIP DOROTHEA.

The officers and members of the Minnesota naval militia are very much elated over the news received this week that the navy department had assigned the training ship Dorothea to the local reserves. The steamer is now in Chicago, and it is expected that she will be brought to the Head of the Lakes about the first of July. The government intends to make all the necessary repairs to the boat after she is brought to Duluth.

The Minnesota sailors first thought of the Dorothea during the naval maneuvers on Lake Michigan, last summer, when they learned that the Illinois militia were after a larger boat. While no official announcement has yet been made, it seems to be the impression that the Illinois militia sailors are to get the Isle of Cuba.

The Dorothea is a larger and more modern built boat in every way than the Gopher, which was first assigned to the Minnesota naval militia, and which is still in this harbor. The measurements of the Dorothea are as follows: Length over all, 132 feet and 6 inches; beam, 23 feet and 5 inches; mean draft, 11 feet and 5 inches; gross tonnage, 433; displacement, 394 tons.

She is a steel boat, built in 1897 and 1898, for an Eastern multi-millionaire, who named her after his wife. Following the death of the owner's wife,

the Dorothea was sold to the government, during the Spanish-American war, with the understanding that her name would never be changed. The gross tonnage of the Dorothea is only 100 tons less than that of the Mayflower, President Roosevelt's steam yacht, and she is one of the largest boats available for training ship purposes, being regarded by the government as available for use in time of war.

The Dorothea can develop a speed of about eighteen miles per hour. She has triple-expansion engines, two water-tube boilers, and is equipped with a powerful searchlight, and the Ardwick night signal lights. Her engine room has every appliance known to modern machinery, and the boat has an ice-making machine.

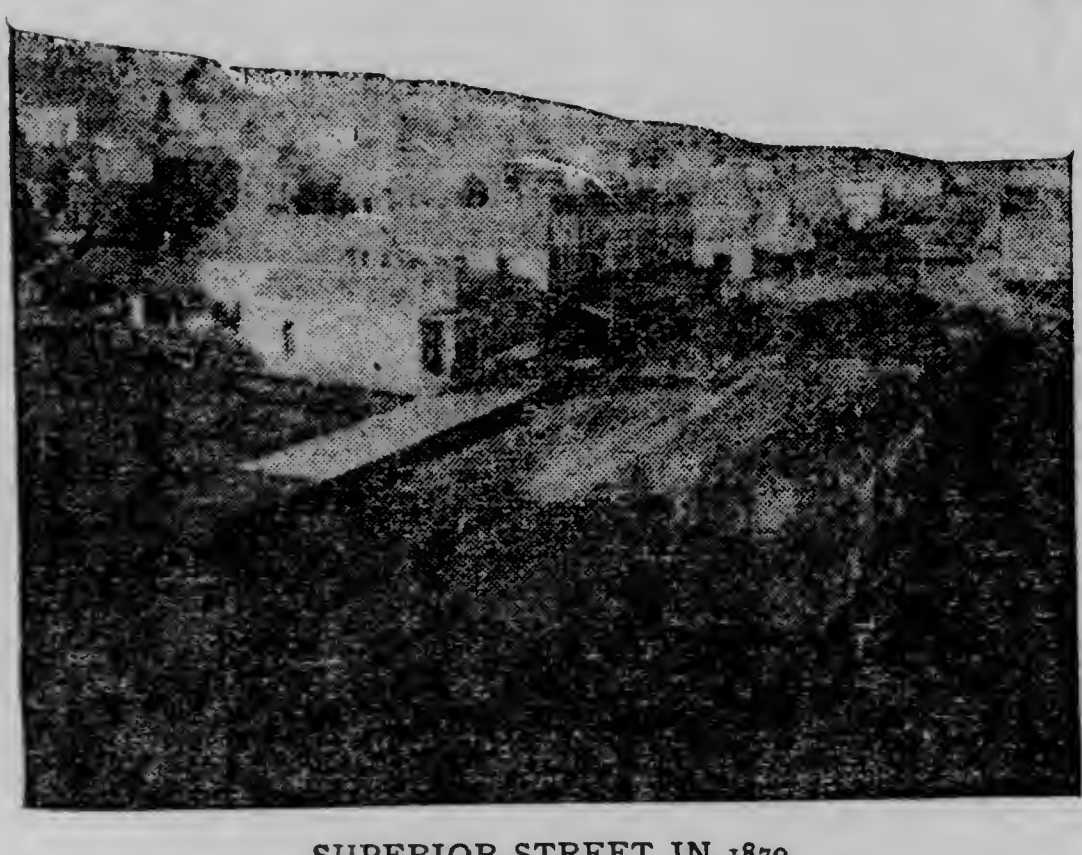

On deck all the woodwork is in mahogany. The boat has berths for ten officers, a captain's cabin, and accommodations for 120 men.

The boat has four bunkers with a coal capacity of seventy-eight tons. At the present time all the available ships of the navy are being loaned to the naval militia organizations, and the Minnesota sailors consider themselves fortunate in securing so fine a ship as the Dorothea.

The Gopher, which has served the Minnesota militia as a training ship for the past two years, will probably be assigned to the Wisconsin naval militia, at Superior, providing an organization is completed at that place. The Gopher is still in good condition, but is hardly large enough for the local reserves.

Considering the remarkable showing made by the Duluth sailors during the maneuvers of the naval militia, last summer, handicapped as they were by less modern equipment than the other organizations, besides being the youngest in point of service, it is expected that when the maneuvers take place, near Mackinac Island, this summer, the Minnesota sailors will be able to carry away a large share of the honors in competition with the other organizations.

Commander Guy A. Eaton was in St. Paul this week to attend the opening of bids to furnish the local reserve with new uniforms.

by the wife of the chief. After the meal he was surprised back into his own civilization by the withdrawal of the hostess and the proffer of native smoking apparatus.

In spite of this touch of Western custom, there is very much of the barbaric still surviving in religious rites and feasts. They worship as supreme lord the creator of the earth and men, and pay due reverence to a staff of spirits, good and bad, which hold the balance of human happiness within their grasp. Superstition, as the West regards it, of course prevails, exerting such a strong influence upon their acts that the song of a certain bird at a certain time may cause the slaughter of a new-born babe. A sneeze, perhaps rarer among these open-air people than among the indoor Westerners, may necessitate special rites or sacrifices.

Feasts, says Senior Venturilla, are held at harvest time and on special moon days, feasts and revels of a

truly barbaric tinge, resplendent with kaleidoscopic motion and weird with ear-holding incantations. In the midst of the drink of pangasi, women glide gracefully to and fro in a circle, chanting softly. Men, wilder and stronger, shouting, leap into the air like frenzied rabbits until they fall exhausted upon the ground. And over the whole the voice of the officiating chief, his body glistening in the moonlight with coconut oil, speaks forth strange words of hope.

Upon the death of a member of the tribe the ceremony is more solemn. The body is carried reverently to the place of burial, followed by a sombre train of mourners; clothing, articles of food and household utensils that may be needed in the other world are carefully placed near by; and the service of chanting performed, cannonades boom over the spot.

The laws of the tribe do not forbid polygamy if the wealth and position of the husband warrants the extra expenditure necessary for more than one wife, but in the family the first wife always rules the household

and her children have prior rights in the line of succession. Divorce laws are stricter than would naturally be imagined in such a state of civilization.

Although the Tagbanuas as a rule are peace-loving, they are not of the nature to stand insult or oppression. On the comparatively rare occasion they go to war, from their skill and numbers they are heartily feared by the other tribes. Armed with bow and arrow and blow-gun, with the Moro kris and spear, with a few muskets of a very old pattern, they are a picture to inspire reverence from their less-enlightened neighbors.

Closely allied to the Tagbanuas, and yet their main rivals in numbers and advancement, are the Palawanes. To the Palawan tribe belong a host of settlements for the size of their territory strangely varied. The more civilized of the people have built up a social system in the main very similar to that of the Tagbanuas. There are among them, however, some Mohammedans who observe Moro customs entirely. And yet within the same tribe there are

those who would shoot a Moro on sight and who feed on "wild animals, vermin of the forest, worms and grasses," centipedes, snakes, monkeys, etc. They are not fond of industry. They prefer to hunt with their kris and blow-gun. Through the blow-gun they shoot a deadly poisonous quill fashioned from cane and black on the end, making even more dangerous a weapon than the much-prized muskets of their neighbors.

In one feature at least they lead the island. They have worked out to the commercial disadvantage of their trading rivals a system of weights and measures perhaps not of metric accuracy, but fully adequate to their purpose. And yet there is one tribe which in a way gets ahead even of the Palawanes. The Quevenas, inhabitants of the northern islands, but for an occasional offer of bees-wax and "alaciga," seldom trade or even communicate with their neighbors. All that is known of them can be put into a hundred words. They keep very much to themselves. They have no chief, no rancherías. Their government is

"Mrs. Warren's Profession," George Bernard Shaw's Drama, On Friday and Saturday.

Bernard Shaw had something to say upon a vital subject and said it when he wrote "Mrs. Warren's Profession." The play deals solely with conditions regarding the employment of women as found in England, not America. England at the present time has very few positions open for women, but the only ones available are domestics, barmaids and such like. In America there are only two positions at the present time which are not open for women. Women are now engaged in but two of the 303 gainful occupations of the men of this country. There are no female soldiers or telegraph linemen. The government will not enlist her and she is entirely disqualified for climbing a pole. In all the other vocations, however, she is well represented, and it is a remarkable fact that the number of women employed as bread winners is increasing at a more rapid rate than the army of men. The percentage of women bread winners in the United States has increased only 3.10. In Ohio the feminine increase is nearly 6 per cent, while in Massachusetts it has increased 4.09. The following list, which shows the number of women engaged in various occupations formerly exclusively masculine will furnish some food for thought:

Physicians and surgeons	8,119
Messengers	6,663
Barbers	5,574
Preachers	3,373
Schoolkeepers	2,338
Raisers of live stock	1,932
House and sign painters	1,759
Employees of steam railroads	1,143
Lawyers	1,016
Transfers	904
Renlists	807
Electricians	409
Butchers	378
Bankers	293

In England none of these positions are open to women, and this has supplied Bernard Shaw material for his most powerful drama, "Mrs. Warren's Profession." He presents his arguments in a clear and tolerable way. The lines bristle with Shaw's humor, and with a frankness of speech, of which Shaw is a master hand. It is a frank discussion of a serious social condition, as it exists today in Europe, not America. It has to do with the courtesan's excuse for her calling. The excuses are made by the courtesan mother to her daughter, born out of wedlock, a young woman brought up in ignorance of her mother's nomenclature, a highly educated and strong-minded person, who begins to suspect from the character of her mother's associates and hints thrown out by them that there is a shady side to her mother's life. She forces a confession from the older woman, who defends her choice of calling with railings against social conditions, which she alleges force women to choose the courtesan way.

This attack on existing social conditions, particularly those which relate to the commercial employment of women in Europe is the motive, which

has led the playwright to present this picture for public consideration. "Mrs. Warren's Profession" is simply a drama of modern life, as enacted in Europe, not America. It is not the error of the sinner that Bernard Shaw exposes, but the social conditions that give it an excuse for thriving in Europe. He shows that Mrs. Warren had no difficulty in finding a partner to her schemes in the person of Sir George Crofts, baron, nephew of the archbishop of Canterbury, and leader of England's so-called "smart set." She had no trouble in persuading him to invest forty thousand pounds, for which he received 25 per cent on his investment, and with the proceeds he indulged in all the deadly sins without loss of social standing. It will be seen here Friday and Saturday with Rose Coghlan featured.

"AT YALE."

Paul Gilmore as an Oarsman in New College Play.

Paul Gilmore, the Dice Saeley in "At Yale," the new college play to be presented at the Lyceum, Tuesday and Wednesday, speaking recently of the tremendous training necessary for a conflict of two rival boats in the water, said:

"The casual reader of the races annually rowed between the colleges, or even the not too careful observer of the race itself, has but a very superficial knowledge of the fierce training the boys have to undergo and the weighty superhuman pluck they are obliged to exhibit during the race itself. Their training begins in the winter-yes, in the early fall, six months before the race. There is the gymnasium work that never ends. There are the long runs on the road to take off extra weight. They begin the winter training in the tank—the long hour of pulling oars on a dummy boat. At last the ice goes and the crew is free to begin work in earnest. Swimming suits go in by the first of March. Then comes three months of steady, hard, driving work, increasing daily almost up to moment of the race. The weeklings are weeded out—the fittest only survive. And now for the hard struggle. The eyes of the world are upon you. Forced to use every atom of strength you can call your own, with every nerve on edge, with muscles trained to unheard of fitness, you will pull not only your own but the weight of the world that is momentarily perched upon that oar. You pull with your heart and your very soul. Nothing is held back. Your all goes in that despairing pull, pull, pull! You are pulling your best, but the stroke hits up the pace just a bit harder, just a bit faster. Your heart stops beating, your nerves break—your arms cease to move—and still faster goes the stroke. The other boat is gaining, they must win. Another strain, greater than the first. You turn blind and grope with your oar in the water as if finding something you least expected. You fall heavily down, down, down, you care not where. Peace. Oblivion. But this race is won by your boat!"

Mr. Gilmore is playing the role of

stroke on the varsity crew in the new college play "At Yale."

The Motion Pictures.

Shepard's Moving Pictures will again be shown at the Lyceum theater, Sunday night. The latest and best films that can be secured will be given, and a splendid program is promised. A feature of the picture show that is growing more popular each Sunday is the illustrated songs. Tomorrow evening several of the latest New York successes will be sung by a prominent Duluth singer, in connection with beautiful colored slides. The price for this special program will remain the same, 10 cents for children and 20 cents for adults to any part of the theater.

Stirring Melodrama.

"The Eye Witness," Lincoln J. Carter's latest sensational melodrama, will be seen at the Lyceum, Thursday night. It tells a highly interesting story of life in and around Chicago, moves in a swift and realistic manner, and presents a series of dramatic situations and artistic and sensational climaxes. The play is provided with a large scenic equipment, and includes four of the most sensational mechanical effects Mr. Carter has yet invented.

LYCEUM NOTES.

News and Gossip of the Coming Attractions.

The Sousa Opera company will return to the Lyceum, May 13, with Klau & Erlanger's presentation of the March Kings' latest and best comic opera production, "The Free Lance." Harry B. Smith, the author of "Robin Hood," is also the sponsor of "The Free Lance," which is termed a military comic opera, in two acts. Joseph Cawthorn, so well known locally as one of the best comic opera comedians, is the stellar feature of the cast, and has been provided with a character eminently fitted to show off his humorous personality to the utmost. The principal characters are assumed by Nella Bergen, Albert Hart, Jeanette Lowrie, George Tait, Stanley Murphy and George Schiller. A singing ensemble of seventy-five accompanies the production.

Oscar Fegman and Ruth White will be seen at Duluth, May 7 and 8, in Richard Carlo's and H. L. Heart's great musical comedy success, "The Tenderfoot." This characteristic opera abounds in picturesque scenes, the Texas locale giving abundant opportunity for richness of coloring in the costumes of the Mexicans and senoritas, the rangers and cowboys and the seminary visitors. The music is swinging and tuneful, while the comedy is of a variety that has caused critics to call "The Tenderfoot" the funniest of all comic operas.

Eugene Blair in Clyde Fitch's "The Woman in the Case," is scheduled to appear here shortly. This is considered the most successful play that Clyde Fitch has written, and it is said of Miss Blair's interpretation of the character of Margaret Rolfe that it is a powerful example of emotional acting. The star is surrounded by a company of unusual excellence, and the production is a replica of that seen during the long run at the Herald Square theater.

Miss Isabel Irving, in Jerome K. Jerome's comedy, "Susan in Search

of a Husband," will be seen here, May 6. Her company includes Miss Jessie Izett, Miss Marie Wainwright, Miss Edith Lemmert, Hassard Short, Ernest Mainwaring, Herbert Standing and A. G. Andrews.

Lillian Russell, generally regarded as the most beautiful woman on the American stage, who recently announced her retirement from the comic opera field, has made a great success in comedy in the principal role of Kellet Chambers' new play, "The Butterfly." Joseph Brooks, Miss

Russell's manager, has given the piece a very elaborate production, and has surrounded Miss Russell with an exceptionally talented company. Miss Russell and her company are now making an extended tour of the West, and will present "The Butterfly" in this city, at the Lyceum theater, on Friday and Saturday, June 29 and 30.

Mrs. Leslie Carter will include Duluth in her tour of the continent, and is billed to appear here, June 29, in "Du Barry."

AT THE METROPOLITAN

The Imperial Burlesquers Will Open A Week's Engagement in Duluth, Presenting Matinees, Sunday, Tuesday, Thursday and Saturday.

Giving two brand new burlesques and a vaudeville bill which is the pride of a watchful management, the Imperial Burlesquers will open a week's engagement at the Metropolitan tomorrow afternoon, when they will give a matinee. Other matinees will be given Tuesday, Thursday (ladies' day) and Saturday.

The burlesques come from the pen of Harry Marshall, who is said to be the big noise at the gentle art of writing for the big extravaganza organizations. It is said that these two latest are his best efforts.

"A Night in Paris" is the title of the skit with which the Imperials begin their engagement. Replete with songs, Cook, comedian, and Deonzo and McDonald, acrobatic comedians.

AT THE BIJOU

"The Stolen Kid," A Musical Comedy Sketch Will Head Next Week's Vaudeville Bill—"The Man With 100 Faces" is Another Feature for the Week.

"The Stolen Kid," a musical and comedy sketch, presented by Gavin, Platt and Peaches, will be the feature attraction for next week. Their act is different from others and is full of fun and wholesome comedy. In reality it is not a sketch, but a musical comedy melange, which almost borders on opera. The musical numbers of the piece are beautiful and rendered by voices of the highest quality. It has been featured and billed as a headliner in every city where it has appeared.

While the above act is featured on the week's bill it would be unjust to say that the balance of the acts are not equally as good along other lines. Harry Braham, an imitator of famous men and known as the man of a hundred faces, will present a character act from Charles Dickens, which is said to be exceptionally good.

A pleasing sketch will be offered by Maud Isabel Entwistle, who was billed by mistake to appear the past week. Miss Entwistle and her clever company will present the one-act comedy playlet by Charles Horwitz, entitled "When the Widow Arrived." This

distinguished artist is cleverly assisted by Miss Anna Ott, Henry Stingley and Scott Dyer, Jr.

A genuine musical treat is Lorrene Marchel, who has a beautiful lyric soprano voice. She will render several selections never heard here before. Another act of considerable note will be Reeves and Kenney, who present a singing and talking act that is an encore receiver from start to finish.

Isadore Silver will render the popular song hit entitled "There Is No One to Care for Us Now," which is illustrated with colored views.

The moving pictures for the week show the new subjects just out, entitled "A Curious Dream," and "The Curfew Shall Not Ring Tonight," which is one of the most beautiful pictures ever shown, having many picturesque and heart touching scenes. Matinees are given every day at 2:45. Seats may be reserved for both matinee and evening performances, which are at 8 and 9:30. A special school children's matinee will be given on Saturday afternoon at 2:30 with regular performances on Sunday afternoon and night.

GOSSIP OF THE RIALTO

Music-Mad Gotham Had the Time of Its Life During the Past Winter—Arnold Daly in New Play.

New York, April 20.—The most brilliant, most prosperous, and most artistic season that New York ever witnessed will be brought to a close tonight at the Metropolitan Opera house.

It is no exaggeration to say that New York is music mad. In no other city of the world is money so lavishly spent on music, and not even among the great capitals of Europe, where the pay of artists is much smaller than here has any place been found where two grand opera companies of the highest skill and merit are maintained. The feature of the musical season here was the impresario of the Manhattan. When he started the project of building a new grand opera house with popular price admission in opposition to the richly endowed and aristocratic Metropolitan, all his friends thought he had gone crazy.

Although he had a fortune in his theaters and his financial standing was of the highest, he could not find a single friend who would help him in the new enterprise. He had to go it alone. He had to build and equip an opera house, he had to hire a complete orchestra and all the singers and musicians for whom he personally scoured Europe. He also had to furnish all the costumes for a very large number of operas.

Probably there was not a soul in New York interested in music, who did not think that the venture would be a rank failure, except Hammerstein himself. He held steadily to the scheme, which has turned out to be so brilliant a success. He has brought on a magnificent price and he made money on his first season. He has brought on a magnificent price and he made money on his first season. He has brought on a magnificent price and he made money on his first season.

Heinrich Conried, who has made the Irving Place theater in New York one of the most artistic centers in this country, will relinquish the directorship of the theater next season. His successor has not yet been determined upon.

These have been bad days, in the streets or in the theater, for the poetically minded who lament the snow of yesterday.

With the weather man crying fair and warmer and Kipling's red gods calling us forth to the her-mingled "Red streams, the feet of the young men have been ankle deep in the blizzard, what poetry will know as the wet blizzard; and at the close of a dramatic season rich in pictures and riches in pictures, behold a brace of farce comedies which creak in the joints like the limbs of hour antiquity. Of the weather a Hibernian excitedly remarked that it was the coldest spring since last winter. Of the drama, even worse might be said, if it were not for the tardy appearance of Mme. Nazimova.—The unaccommodated Russian came down with a cold in a translation of Roberto Brucce's charming "Indule." That we shall do well to treasure for another week the present let us take what comfort we can from Miss Ethel Barrymore's revival of "His Excellency the Governor" and Arnold Daly's descent from the Bernard Shaw skyrocket in "The Boys of Company E."

If it were Miss Barrymore's conscious purpose to join the age-old cry against the pernicious star system, she could scarcely do more to develop her powers of impersonation and sink her stored personality than she has done in her present season at the Empire. She produced John Galsworthy's drab, socialistic preachment, "The Silver Box," in order to take the minor role of a faded and care-deadened charwoman, and now she has passed over the part of a rather sprightly and strutting ingenue to play that of an advancing spinster of faith, originated in this country by Miss Jessie Millward. "If you don't have me in serious art," she has the air of saying to her maline clientele, "try me in farcical romance. But nevertheless you shall see me as an actress, not as a star."

Very subtle are the means by which Miss Barrymore stimulates the decline of a youthful charm. They are so very subtle that the most astute and observant alchemist, Her cheeks are a trifle paler than their wont. That is something.

The one indelible stroke of character is her gown. It is a thing of snowy satin, adorned in a shimmering network of incandescent silver. As a woman's beauty fades her gowns advance in splendor. The feminine psychologists asseverate this and Miss Barrymore demonstrates it. Dark hair may or may not be lost, but this whiteness can most certainly be heard. When this Stella de Olex walks, the effect is of a theatrical hailstorm. And she

WHEN MIDAS MOVES TO THE COUNTRY

Rural Palaces Built by Millionaires, Each Requiring Servants by the Score and Costing a Fortune Every Season---How the Transfer From Town to Country is Made With Little Trouble or Inconvenience to Any One But the Retainer---The Tipping System.

By DEXTER MARSHALL.

(Copyright, 1907, by Dexter Marshall.) April is getting old and it is nearly time to open the country houses to which the millionaires and the society folk of New York and half a dozen other of the country's largest cities fly away in the warm weather. Some country houses are open already. In fact, to remain open until after the season when "nobody is in town" shall have passed.

So far as New York is concerned this Yorkers are away from their accustomed haunts that you would expect the big town to look empty, but it doesn't simply because the summer visitors are so numerous.

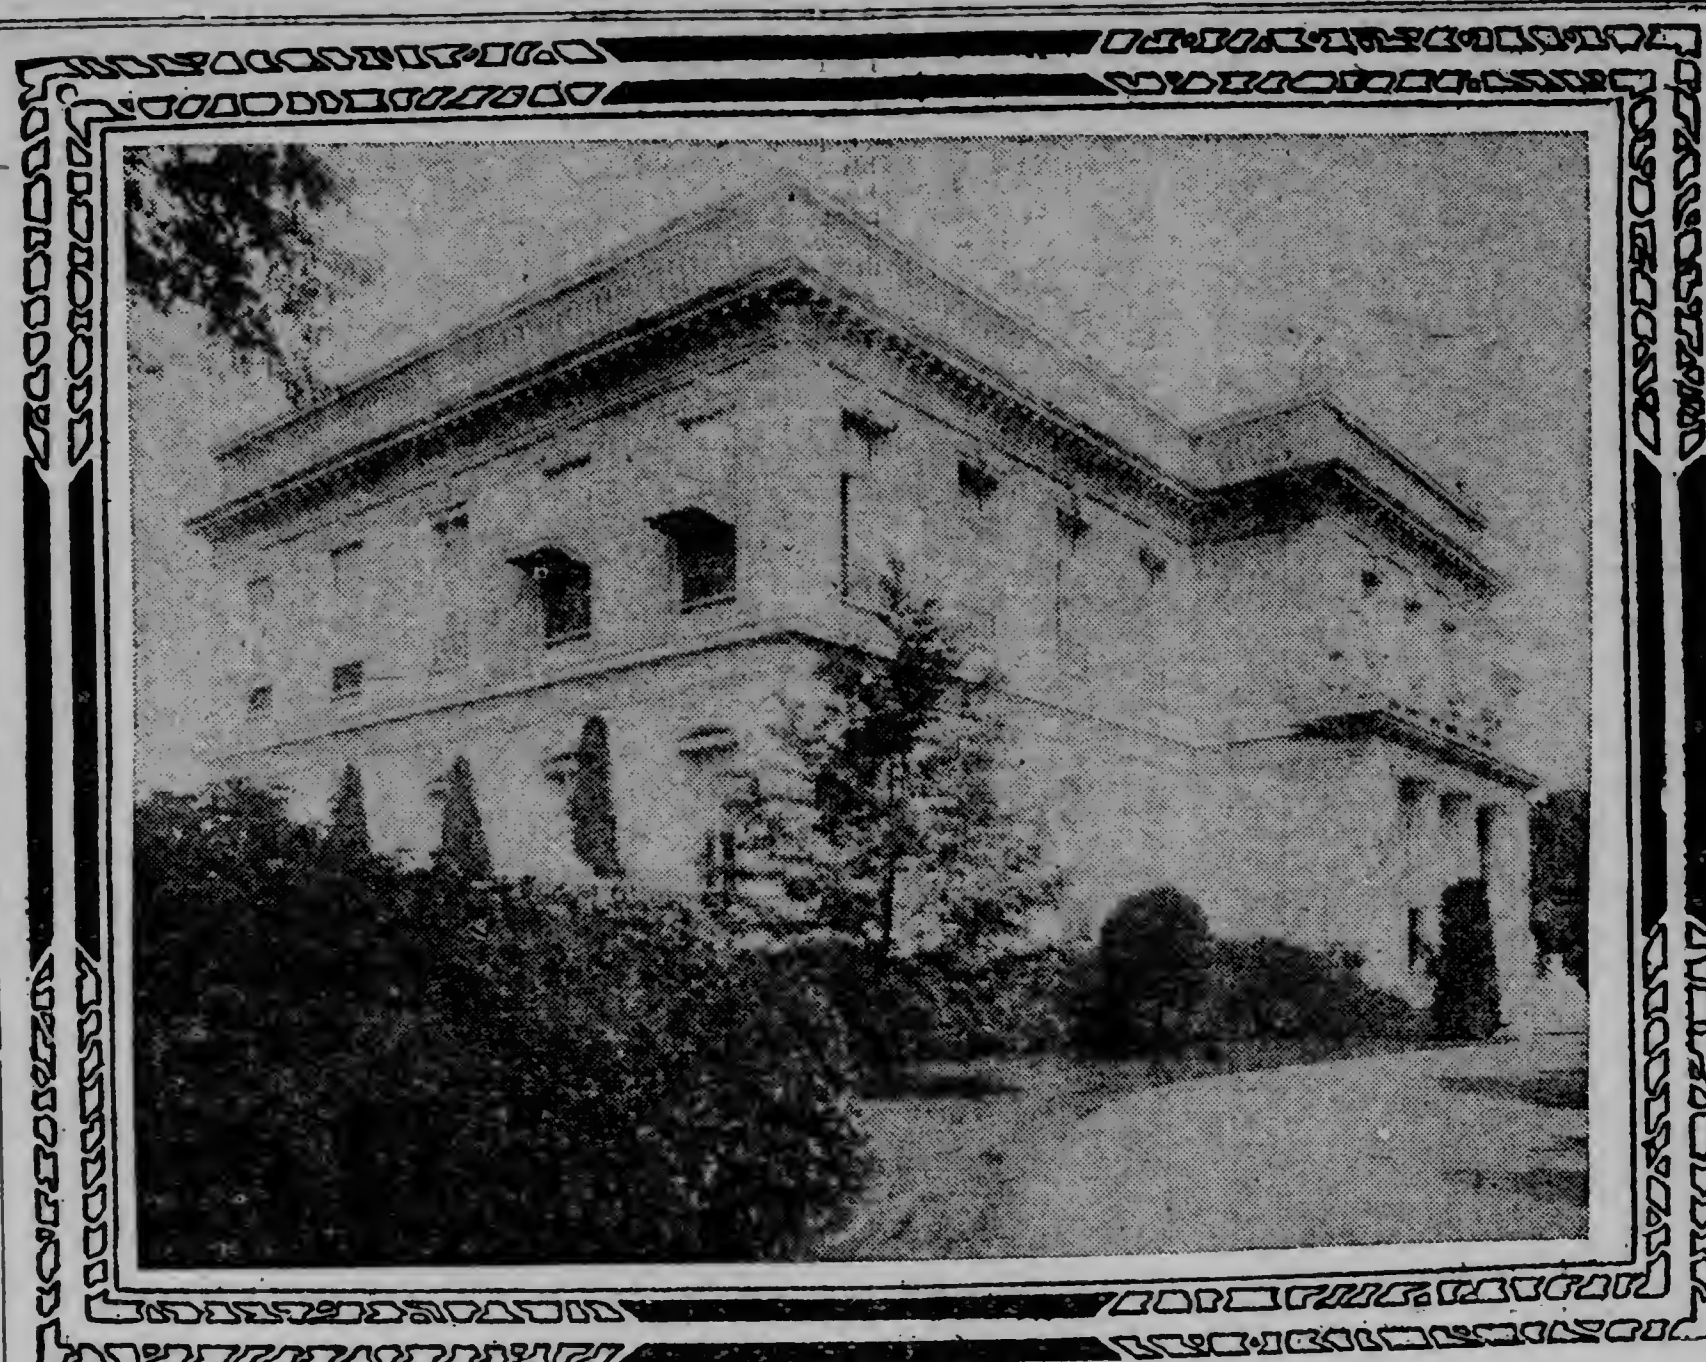

Whether what might be termed the country house population of New York really amounts to 100,000 or not it would not be easily to find out. The Social Register contains the names of about 25,000 persons. While not all these by any means live in country houses in summer, there are many rich people not named in the Social Register who do enough no doubt to make the total of 25,000 about right. At the rate of three servants for each

phrase means no more than that out of a population of 4,000,000 possibly 100,000, a quarter of 1 per cent, or one in 400, including servants, are out of the city. The real summer exodus begins in June, when the people—the real people—take their vacations, is another matter. Then so many New

person the grand total would be about 100,000. This rate may or may not be high. Mrs. Cornelius Vanderbilt, Sr., and her daughter, Gladys, require about thirty people including the coachman and his subordinates to keep the tenor of life running smoothly for them in the big

house at Fifth avenue and Fifty-eighth street, and quite as many when in the country at Newport. This is fifteen to one, and the rich New York family of four, man and wife, a son and a daughter, requiring twenty servants, including those in the stable or garage as well as those in the house, is not uncommon.

The transfer of a household in ordinary circumstances from one house to another, anywhere from twenty-five to a hundred miles apart, even if the country place is ready furnished, is an affair of some moment and occasionally some discomfort to the members of the family themselves. It is not so when the typical modern city family of wealth makes its annual move from town to country. The servants do everything, except transport the persons of the members of the family. The latter have to do no more than to step on board the train and from the train to the motor car, trap, carriage or omnibus which awaits them at the station.

On the day of the change breakfast is served to the family at the usual time in the usual way. Luncheon must be taken in some public restaurant or with a friend, but dinner at the country house is served at the usual hour upon the arrival of the family, with everything as trim and comfortable as if the family lived there the whole year through. There positively is no discomfort for the family and not much for the servants, since there are so many of them that each has comparatively little to do.

Moving into the country. "You see, there isn't much to be moved except the horses, the automobiles, the carriages, the trunks and the human beings whose clothes are packed in the trunks," explained a young man who acts as "personal secretary" of a very big "magnate whose family spends its summers in an out-of-town palace that has been the subject of much publicity. The country house is furnished as completely, if not as expensively, as the town house, even to the library.

The gardener and his wife live at the country place the year 'round, keeping it in perfect order and always ready to open and air the rooms for the family's occupation. Notice of twenty-four hours, or even twelve, is all that is necessary to insure everything being in order for the family and a household of guests' besides.

"There are about twenty-five retainers in the household of my boss," continued the secretary. Let's count them up: In the house, butler and three footmen, chef and three women assistants, housekeeper and two laundresses, one parlor maid, two chamber maids, and three lady's maids. There is also a 'useful man.' In the stable there are a coachman, a carriage groom (who sits beside the coachman when he drives), a 'pad groom,' who rides with any one of the women of the family when she cares to take saddle exercise, and an unskilled man or two to help round, groom, horses, caring for harness and cleaning up.

"Besides, there is now a chauffeur, and when the boss gets his own garage and two or three extra machines, it will take nearly thirty people to run the place. I have accounted for twenty-four, not including the social secretary or valet. As a matter of fact, my employer says he won't have a valet in the house. He will put up with all the other English varieties of servants, but he still is abundantly able to dress himself. There are three more at the country house—the gardener, his wife and a handy man—but as two or three of the city servants always remain with the city house while the family is away, its four members actually do get along with twenty-four servants—just half a dozen apiece.

"When the time comes to move out for the summer six or eight of the house staff precede the family by two or three days. They begin preparatory work, which is completed by the others, most of whom follow a little later, leaving only three or four to remain in town until the day of the actual transfer. Each servant has a trunk, of

course, and is expected to have it packed and ready for the move, and the trunks of the family as well, but that is all excepting the silver, which is packed for transportation, as it is cared for by the butler and his assistants. The boss pays the railroad fare of them all, as a matter of course.

"There is some extra work for the house force putting the town house in to shape for the summer, covering the furniture, and the like of that, but it's an easy proposition when there are so many to attend to the work. It's my opinion that the upper servants in the house of a rich and swell family in any of the big cities today have a pretty easy and pleasant way of earning their living, if they are willing to be servants."

Running a Country House. Such an establishment as the one indicated is rather modest compared with the establishments of Dr. W. Seward Webb, Elbridge T. Gerry, Clarence H. Mackay, or any in their class. First class judges in the art of running a big house, either in town or country say that Mackay's establishment at Roslyn, on Long Island, is the best run country house in America; that Gerry's Fifth avenue mansion is the best run city house, and that both Dr. Webb's town house on Fifth avenue and his country house at Shelburne Farms, in Vermont, are close to the highest level.

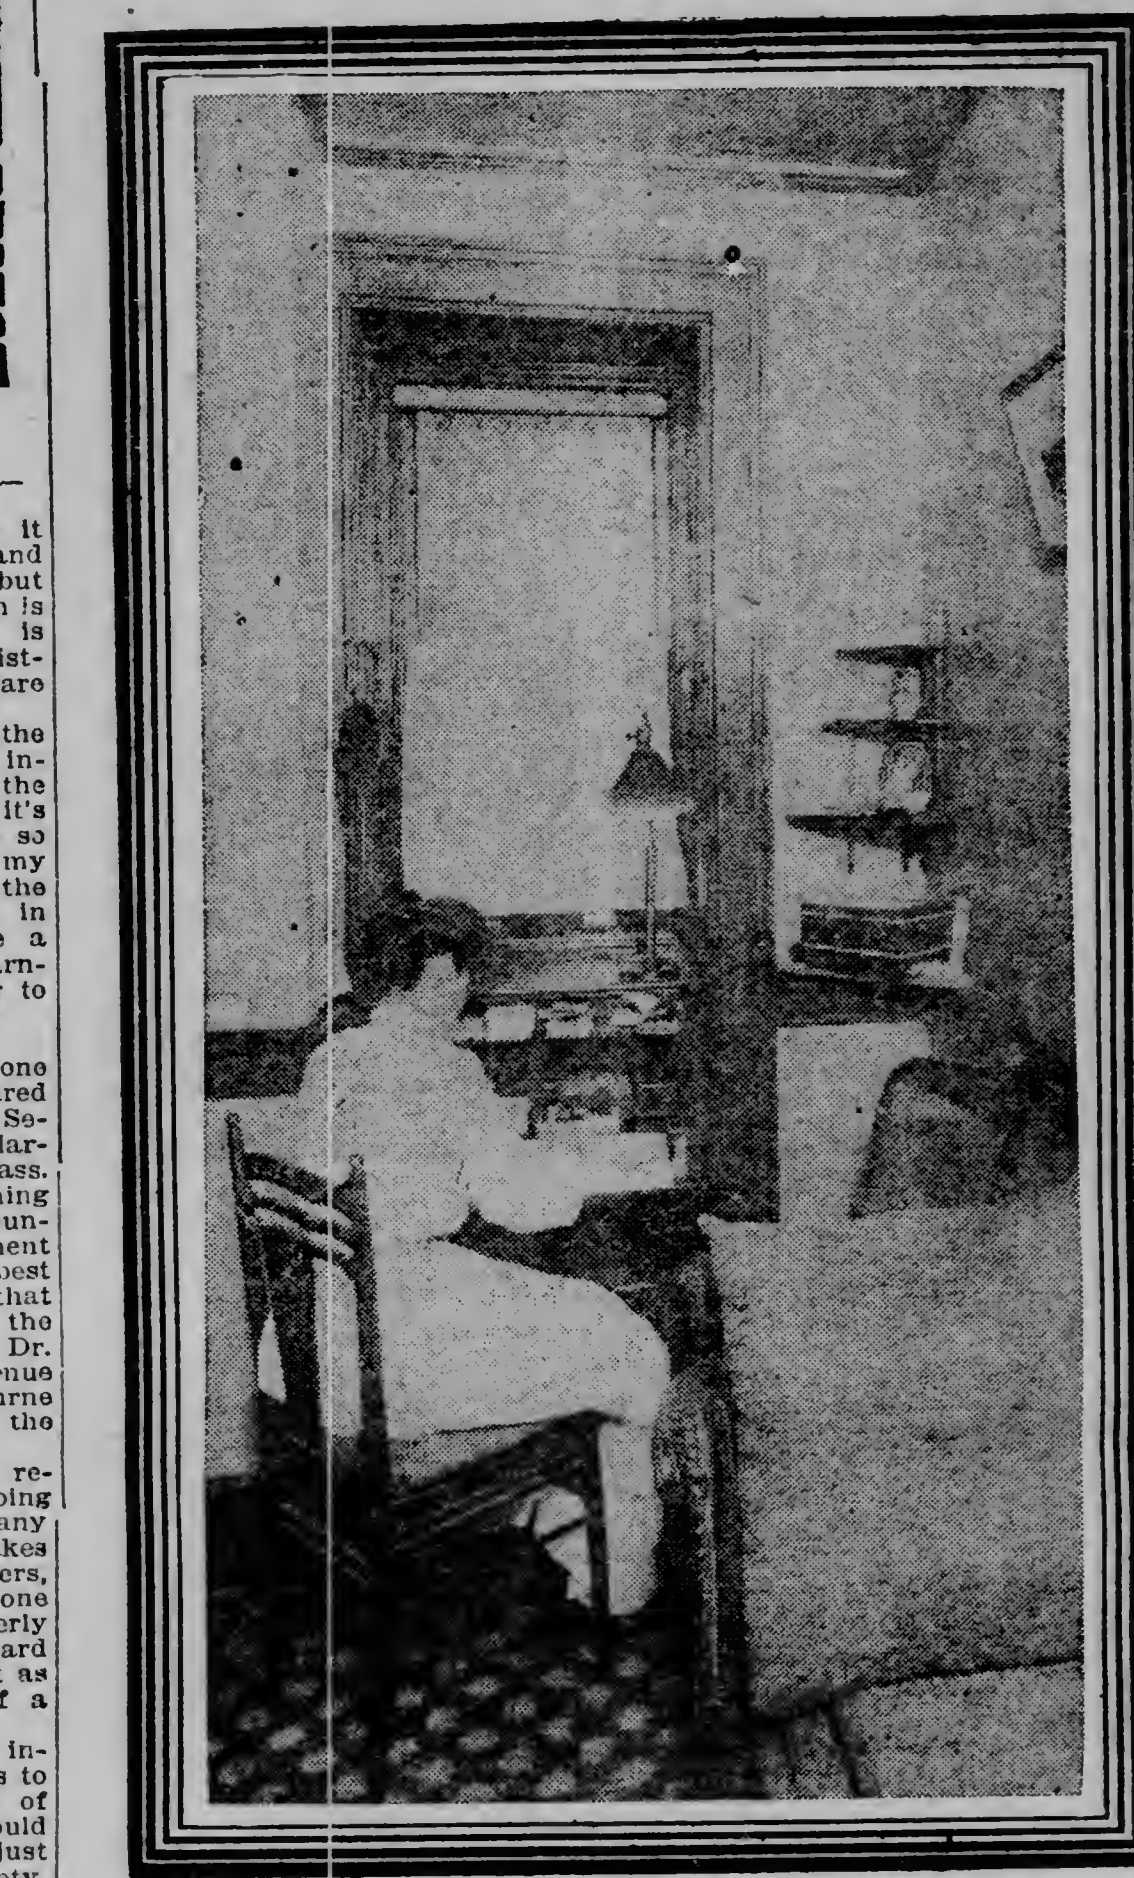

Harbor Hill, the Mackay place, requires more servants to keep it going than would fill the rolls of a company in the United States infantry. It takes a steam engineer, two or three stokers, an expert electrician and at least one assistant to keep the house properly heated and lighted. The switchboard at Harbor Hill is as big and almost as complicated as the switchboard of a good sized hotel.

The electric installation there includes a set of storage battery cells to serve as a reserve supply in case of breakdown, so that an accident could not plunge the house into darkness just when it is filled with life and gaiety. The Mackay house is by no means the only country residence with its own storage battery, etc., though naturally the current is taken from company mains whenever practicable, since a private plant costs a lot to install and privately manufactured current is expensive.

Curiously enough, while the influence of the English has been very marked upon the way the houses of the rich in America, both in town and country, are run, the English steward, who acts as business manager of the place, has not been introduced here to any extent. In this country most establishments are conducted on the plan of three or four practically independent departments. The butler has charge of all the men servants in the house, often hiring and discharging them. The kitchen force, both men and women, are subordinate to the chef. All the other women servants are under the housekeeper, if there is one, though many fine places are run without such an

attaché. The coachman has sole control of the grooms and stablemen, including their engagement and discharge, although most invariably, while the gardener is responsible for all the outdoor force, except the stablemen and grooms. Owing to the lack of stewards, the master of the house himself, or his personal secretary from the office, looks after much of the buying and the payment of the bills. When it comes to the pay of the servants of a modern country house, or city mansion, the chef and the butler rank all the others, the chef restaurant waiters, at \$2 or \$3 each.

often, but not always, receiving higher pay than the butler. Everything considered, the latter is fairly well paid as a rule. He must be a good man, sober and with plenty of good taste, since it is the butler who plans and carries out the decorations, which include the flowers, and the success of a dinner depends almost as much upon him as upon the chef.

When the family is at its country house, the whole afternoon before a big dinner may be taken up by the gardener and the butler devising and putting into effect the scheme of floral adornment. The butler in every truly well-regulated country house has a great variety of tableware at his disposal, so that he may choose whatever color scheme he likes for his table, but of course it must

The butler also buys and serves all the uncooked fruit—apples, grapes, fruit, grapes and the like; also the cream for the tea and coffee, sometimes also the butter and the "biscuits" or crackers, of which he sees that there is a fresh supply in every guest's room every night, in case he should be hungry.

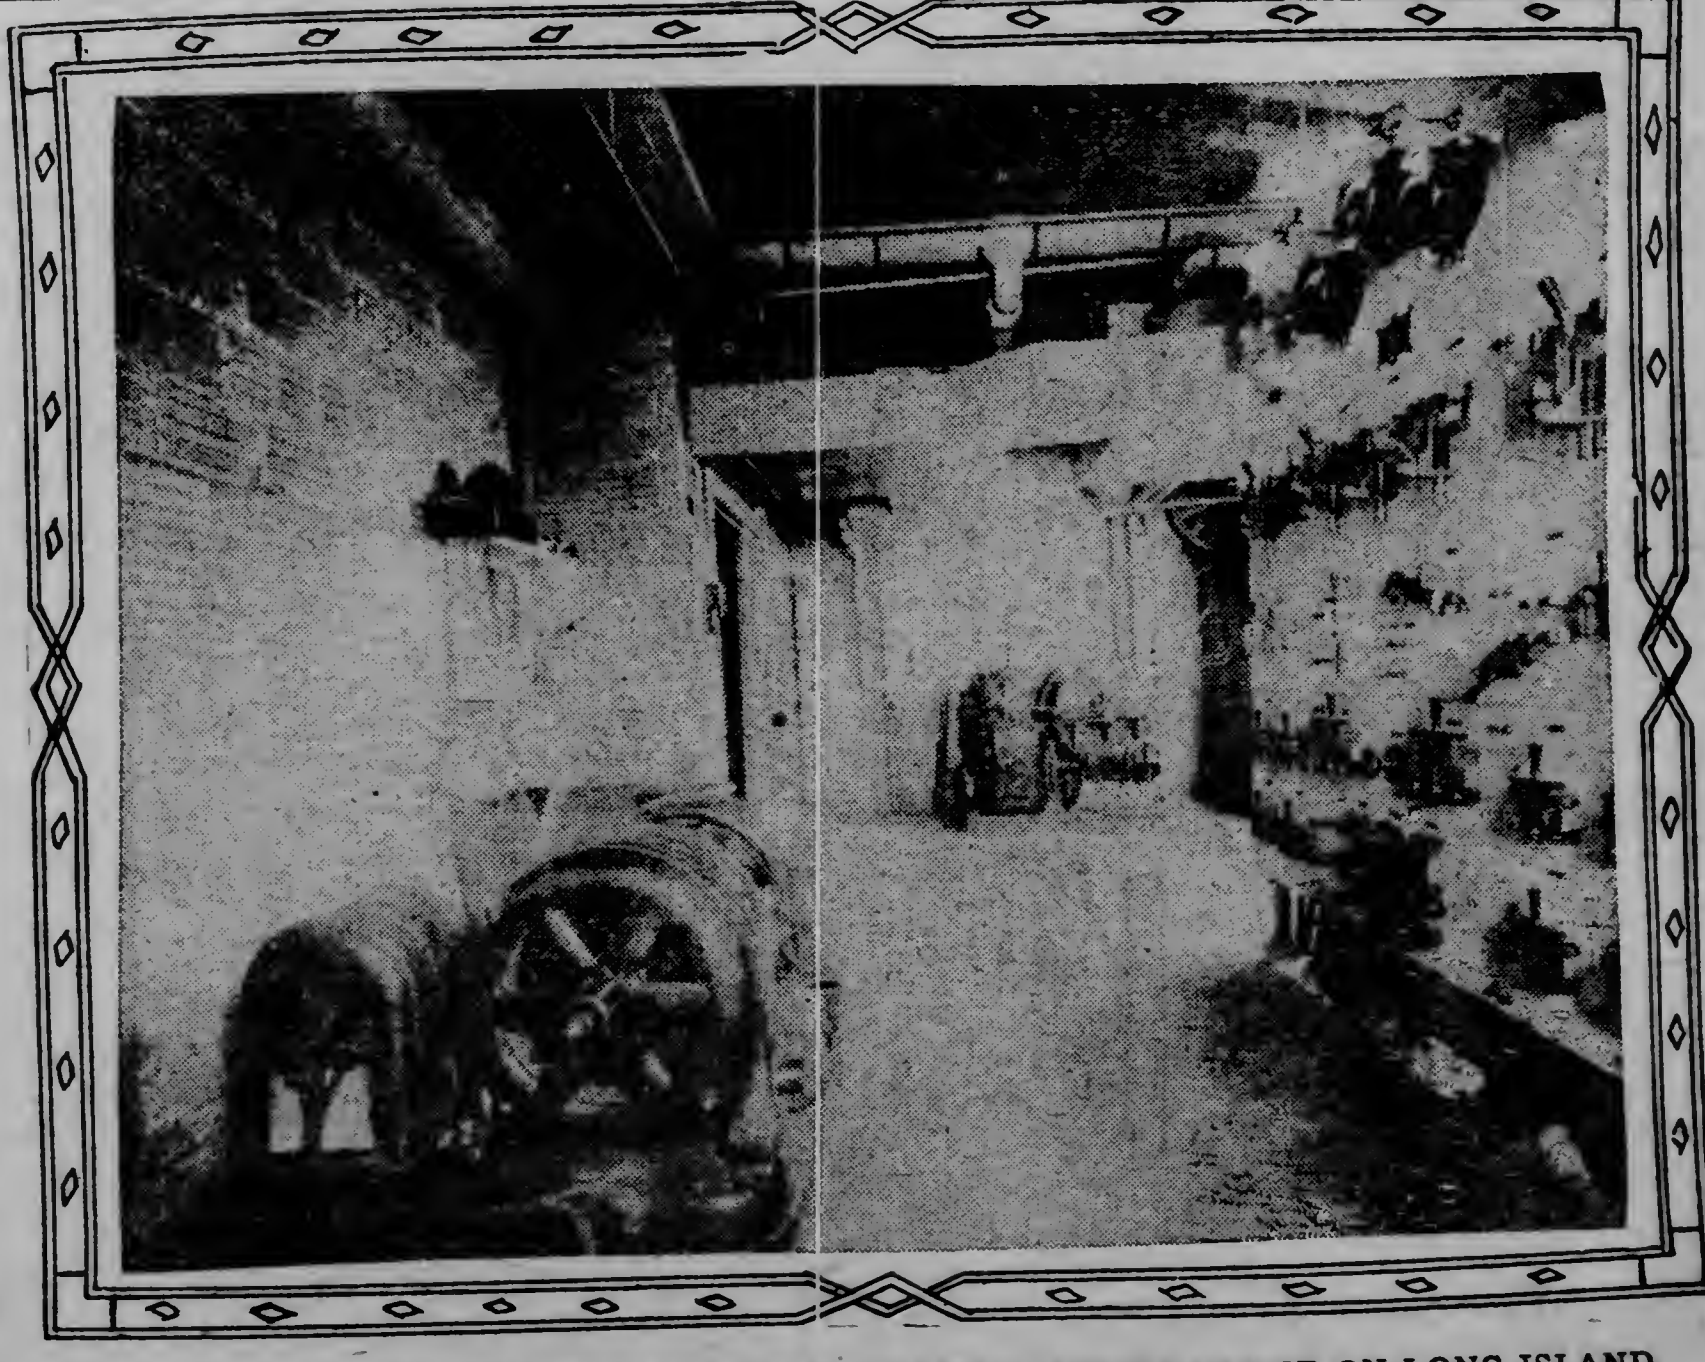

The pay of the butler now runs from \$50 to \$100 a month, the average being \$75, with tips, meals and sleeping room, if he is single. If he has a family of his own he has to rent his quarters when his employer's family is in town; when in the country, furnished quarters are generally provided free for himself and family. Thus, the butler's pay ranges from \$750 to \$1,200 a year "and found," with \$900 as the average; his tips

Michigan to the East.
The withdrawal of Michigan from the Western athletic field is to be sincerely regretted by all lovers of college sport. And Michigan must certainly withdraw and look to the East for further athletic honors, under the rulings of the conference of the "Big Nine" last Saturday. Already, there is talk of a disruption of the "Big Nine" through Michigan's action in deciding not to obey its rules, and the substitution for it of the "Big Three," Minnesota, Wisconsin and Chicago.

But the schedules of Minnesota, Wisconsin and Chicago, in football and baseball will look sorry without the Michigan team.

By some, hockey talk at this season of the year, may be regarded as inopportune, to say the least, but now is the time for Duluth to get busy. An old story of Duluth becoming a part of the International league, or of another league, formed from a portion of the International, came to the front again this week. Those things have been heard before. But they must be realized sometime and why not now? Within the town, they are talking of building a similar structure on another site nearer the center of the town. They believe that a team playing there will be supported and, no doubt, it will. The two Sox have only about 30,000 people between them and they support two teams. Duluth, with its 50,000 people, is a town of 80,000. It is a town of good sport of any kind, has been out in the cold all this time. It's time to get in.

By some, hockey talk at this season of the year, may be regarded as inopportune, to say the least, but now is the time for Duluth to get busy. An old story of Duluth becoming a part of the International league, or of another league, formed from a portion of the International, came to the front again this week. Those things have been heard before. But they must be realized sometime and why not now? Within the town, they are talking of building a similar structure on another site nearer the center of the town. They believe that a team playing there will be supported and, no doubt, it will. The two Sox have only about 30,000 people between them and they support two teams. Duluth, with its 50,000 people, is a town of 80,000. It is a town of good sport of any kind, has been out in the cold all this time. It's time to get in.

Michigan takes its little red wagon and goes home.
The withdrawal of Michigan from the Western athletic field is to be sincerely regretted by all lovers of college sport. And Michigan must certainly withdraw and look to the East for further athletic honors, under the rulings of the conference of the "Big Nine" last Saturday. Already, there is talk of a disruption of the "Big Nine" through Michigan's action in deciding not to obey its rules, and the substitution for it of the "Big Three," Minnesota, Wisconsin and Chicago.

But the schedules of Minnesota, Wisconsin and Chicago, in football and baseball will look sorry without the Michigan team.

Nevada and the Fight Game.
Jim Coffroth says the Nevada bubble has burst. There will be no more big purses offered. Be that as it may, Nevada is responsible for the boom which the fight game is enjoying now and which is putting money in the pockets of Coffroth and other fight promoters. After the East had shut down on boxing entirely and the governors of states in the Middle West had prohibited the bruising game, the scene of activity was transferred to San Francisco. Then came the earthquake and fire and with it, San Francisco turned its attention to other things. Tom McCarty was doing little with his Los Angeles club and there was a lull.

Nevada's opportunity had come. With a \$30,000 purse for the Gans-Nelson battle, Goldfield leaped into the limelight and Goldfield was flashed out for more money. In the spring of 1906, Goldfield was in the gathering of sportsmen in the United States. Those who had not prominence came through his mining. Gans-Nelson fight. The result of that fight was a battle and the subsequent discussion of the fight was a figure in boxing than anything in recent years. Mike Riley and his \$40,000 purse for the Gans-Herman fight, revived the interest and now the fight

There are some husky little fellows in this club.
This condition will be remedied this season, with undoubtedly beneficial results. The White Bear regatta of the Duluth Boat club will be rendered more interesting by the introduction of an event for lightweights. Members, who in former seasons, were out of the competition on account of their inability to displace heavy men, will now have a chance to show their stuff. There are some husky little fellows in the club, and the event in which they will participate will rival the regular Junior events in interest. Baseball is coming.

LINEUP OF THE GIANTS
Manager Taylor Has Signed Thirteen Men for Team.
Men Will Report at Oshkosh About First of May.

Houghton, Mich., April 20.—(Special to The Herald.)—The Houghton team of the Northern Copper Country league has at last been announced to the fans and the lineup comprises what looks like the strongest bunch in the league, to the Portage Lake fans at least. Manager Taylor has not engaged a big bunch of men to take on the spring practice trip with him, but has secured men whom he considers good, seasoned, and fast players. There will probably be a little exodus out. One name is yet to be announced. Taylor says he is a high priced and high class man, heavy stickler, fast on the base lines and a headstrong pitcher. The men signed by Taylor have played either with the Giants or the Giants last season and will be back this year to cover their ground. Ryan, a man who has played in probably faster company than any catcher now in the league, will "backstop" for the Giants. W. A. Kaiser, W. Newbauer, G. Newbauer, both of Chicago, and Christie Egan, also of the Windy City, will make up the pitching staff. It is likely that one of these men may be dropped and Roy Beecher of last year's Giants, but now with Minneapolis, will likely be back. The team will carry four twirlers. Egan is a southpaw.

Percy Solbraa, with Lake Linden last season, takes the first sack, Kil Taylor, second base, and Alex Hanson, second base, Alex Hanson, second base, John Olson, third base, Al Johnson, shortstop, Charlie Olson, left field, George LeGros, center field, Harry Murray, right field, John Graham.

Besides these teams, numerous other teams are expected to be organized to represent commercial establishments. Amateur ball promises to enjoy a decided boom in Duluth. The Kelley team has secured the privilege of using the league park when the White Sox are away. The team will play on a number of Saturdays and Sundays during the summer. The Kelley team will have good baseball at least during Saturday and Sunday during the season.

SOX LOSE TO FREEPORTERS
Krick Is Hit Hard and Misplays Are Numerous.
Freeport, Ill., April 20.—(Special to The Herald.)—"Smiley" Smith's Duluth White Sox proved themselves poor Equinoxes yesterday, and the Freeport Wisconsin State leaguers had little trouble defeating them. The score at the end of the nine innings was 3 to 2. The air was frigid and the players could do little fancy handling of the ball with almost frozen hands. Krick went into the box first for the Duluthians and he was hit hard, which, together with errors by the men behind him, gave Freeport the game. In the very first inning, Freeport took Krick's measure and sent two across the plate. In the second, they added three to the grand total. Duluth on the other hand, Krick to the bench with a suggestion, which sent three across. Krick's new man, then took the hill and Freeport couldn't manage for the remaining three innings. Score:
Duluth 0 0 1 0 0 0 1 0 0 0 2-4
Freeport 2 3 0 3 0 0 0 0 0 0 3-4
Batteries—Krick and McLaughlin; Weaver, Scott, Gaspar, Frazier and Ireland.

HAIR STRAIGHTENERS.
"A curl," said the collector. "A curl from Japan. A hair straightener."
"You mean a hair curler, perhaps?"
"No, I mean a hair straightener. For straight hair is de rigueur in Japan, and if a lady's hair is curly she attracts it. Every one knows that when she makes her toilet, and this is the instrument that performs the operation."
"All over our own land, as Easter approaches, the ladies are busy heating irons and curling their straight hair while on similar holidays in Japan, amid a smoking and sizzling of black locks, the irons are heated and the hair of the Japanese ladies is laboriously straightened."

Aquatic Sports.
Aquatic sports promise to receive more attention from Duluth people this year than ever before. The branching out of the Duluth Yacht club will result in a boom for some branches of the sport which have not been given attention heretofore. While the club members have given almost their entire time to yachting, the other branches have been neglected.

Bucking Ball Players.
This business of ball players holding out for more money in the spring doesn't seem to work out well. About the first of March, the unruly ones, who so thick they can't be counted. When the teams begin to leave on their training trips, the claimants for more salary begin to get into the fold and at the time the season opens, all of them are usually in the game, without their raise in salary.

WHITE SOX ARE WORKING HARD
"Smiley" Is Fast Getting the Men Into Shape.

Madison, Wis., April 20.—(Special to The Herald.)—The Duluth team is rounding into shape that is pleasing to Manager "Smiley" Smith, and to those who have watched the boys work out it looks as if the northern town would have an aggregation on the diamond this season that will crowd mighty hard for first place. The Duluth team will carry no "dead wood." Every man hired will have to deliver the goods or else give way to some one else. In keeping with this policy, three men were dropped yesterday, and the games with Freeport will decide the fate of others. Leighly will report here next Monday, and will probably be sent out to cover second.

"I am giving the men hard work these days, and intend to keep it up until they get into proper form," said the tired looking manager. "I propose to give Duluth a team that will be a credit to the town if I have to stay up nights to do it. Duluth does not propose to trail this season."

see the White Sox in victory or defeat.
The Sox will be home May 9, and from then until next fall the fan, in his many shapes and forms, will be in his glory. Then the cries of "Slide, you runny. Kill him! Lynch him! Send him back to the bushes! He's a lobster!" and kindred expressions will be heard from the bleachers. Then the annual crop of grandmothers will be laid away from the office, on account of business cares in the way of extra innings. It's all in the game and if "Smiley" Smith can gather together anything in the shape of a winning team, past seasons will be forgotten, and all will join in to make that of 1907 a banner year for Duluth baseball.

catcher of Murphy's champion Chicago Cubs.
Both held out until the very last minute, but when they saw the teams were ready to go ahead without their services, they came around and decided to play. He's a half loaf, etc., and in both cases the half being received looks pretty big to ordinary ball players. Then were scores of similar cases in the big leagues and in nearly every instance, the unruly player came to time.
